With the CONNECT Edition, you now have a personal portal to access learning, communities, and project information. You can also share personal files including i-models and PDFs directly from your desktop with other users, or stage them for easy access from a mobile app, such as Structural Navigator. With the new project portal, your project teams can review project details and status, and gain visibility into project performance. With the CONNECT Edition, your project team may also wish to take advantage of the new ProjectWise® Connection Services including Project Performance dashboards, Issues Resolution, and Scenario Services.

Develop Better Designs, Faster

Develop better realized designs with unlimited design freedom made possible by MicroStation's robust and extensive modelling capabilities, including the ability to:

Design in 2D

Develop precise drawings using a comprehensive set of drafting tools to efficiently create 2D geometry. Rapidly progress your designs from concept to completion using persistent constraints to maintain your design intent.

Design in 3D

Develop models with a wide range of 3D design tools. Build and edit curve, surface, mesh, feature, and solids models. Build functional and parametric components with predefined variations to simplify managing and finding many similar components.

Develop Hyper-models

Present documentation and related design information within the spatial context of the 3D model to significantly improve their clarity. Embed links to related Microsoft Office documents and websites. Easily navigate from content in one file or model to others.

Analyse and Visualize Models

Analyse and visualize models based on their geometry or attributes. Detect and resolve clashes; perform analysis of real-world solar exposure and shading. Apply real-time display styles to visualize models based on each object's height, slope, aspect angle, and other embedded properties.

Automate Common Tasks

Speed design tasks and related workflows with intelligent interactive snapping. Improve productivity with AccuDraw for dynamic data entry with heads-up display. Customize and group tools and tasks and reduce keystrokes with keyboard position mapping and the ability to quickly customize cursor menus.

Control and Protect Files

Ensure that only certain individuals can view and/or edit files within a pre-defined time limit. You can ensure the integrity of your documents using digital signatures and control the digital rights to view, edit, print, and copy file contents, including a pre-defined expiration date when the file can be accessed.

Better Informed Teams

Ensure that all your stakeholders are better informed with clearer communication of designs made possible through intelligent deliverables production capabilities and the power of CONNECT collaboration services, including the capability to:

Create Animations

Produce realistic movies and simulations from design, construction, and operational models with the built-in Luxology engine. Choose from keyframe and time-based animation. Get the results you want, faster, using live on-screen animation previews and distributed network processing.

Create Lifelike Renderings

Create lifelike visualizations using built-in Luxology rendering. Use online and delivered libraries of physically correct materials, lighting, and rich photorealistic content (RPC). Get results faster with distributed network rendering.

Generate Intelligent Documentation

Generate consistent, high-quality paper and digital deliverables such as paper plots, reports, 2D/3D PDFs, and 3D physical models. Automate and speed annotation, display styles, and reports by generating them directly from the embedded properties of objects. This automates and speeds annotation, display styles, and reports and gives you confidence that they will always remain in sync with the model during work in progress.

Publish i-models

Exchange project models and information using i-models. With i-models, you can implement unique and powerful workflows for information sharing, distribution, and design review. These workflows can be further enhanced using ProjectWise and other products and services that leverage the power of i-models.

Review Designs Collaboratively

Create and exchange digital mark-ups of designs with built-in tools. You can easily mark-up models and drawings with redlines and comments and manage them through a mark-up dashboard.

Maintain and Enforce Standards

Ensure the proper application of organizational and project-specific standards. Apply templates to control geometry and data standards such as styles for dimensions, text, lines, detail symbols, and more. Once designs are complete, use automated tools to check drawings for standards compliance.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

Includes price quotations, advertised competitive bids, limited bids and proposals.

Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
