1. Legal compliance

The Minister, acting with the concurrence of the cabinet member responsible for local government, may prescribe a framework within which municipalities must conduct their cash management and investments, and invest money not immediately required.

A municipality must establish an appropriate and effective cash management and investment policy in accordance with any framework that may be prescribed.

The municipality shall at all times manage its banking arrangements and investments and conduct its cash management and investment policy in compliance with the provisions of and any further prescriptions made by the Minister of Finance in terms of the Municipal Finance Management Act No. 56 of 2003 and the Municipal Investment Regulations (MIR).

In this policy, unless the context indicated otherwise, a word or expression to which a meaning has been assigned in the MFMA, has the same meaning as in the Act.

2. Objective of the policy

The primary aim is to ensure the preservation and safety of investments. The need for investment diversification and the liquidity needs of the municipality.

The council of the municipality is the trustee of the public revenues, which it collects, and it therefore has an obligation to the community to ensure that the municipality's cash resources are managed effectively and efficiently. The council has a responsibility to invest these public revenues knowledgeably and judiciously, and must be able to account fully to the community in regard to such investments.

The cash management and investment policy of the municipality is therefore aimed at gaining the optimal return on investments, without incurring undue risks, during those periods when cash revenues are not needed for capital or operational purposes. The effectiveness of the cash management and investment policy is dependent on the accuracy of the municipality's cash management programme, which must identify the amounts surplus to the municipality's needs, as well as the time when and period for which such revenues are surplus and available to be invested.

3. Effective cash management

3.1 Cash Collection

All monies due to the municipality must be collected and paid into the municipality's primary bank account, as soon as possible, either on or before the due date or immediately after the due date. All cash receipts must be reconciled and banked on a daily basis. Receipts or allocations received via Electronic Funds Transfers must be investigated, reconciled and allocated timeously.

The accounting officer of a municipality must administer all the municipality's bank accounts, including a bank account referred to in section 12 or 48(2)(d) of the MFMA; is accountable to the municipal council for the municipality's bank accounts; and must enforce compliance with sections 7, 8 and 11 of the MFMA.

The accounting officer may delegate the duties referred to in subsection (1) (c) to the municipality's Chief financial officer only.

The unremitting support of and commitment to the municipality's credit control policy, both by the council and the municipality's officials, is an integral part of proper cash collections, and by approving the present policy the council pledges itself to such support and commitment.

The accounting officer of the municipality is responsible for the management of the revenue of the municipality.

The accounting officer, must, among other things, take all reasonable steps to ensure that all money received is promptly deposited in accordance with the requirements of the present Act into the municipality's primary and other bank accounts.

The accounting officer must also ensure that all revenue received by the municipality, including revenue received by any collecting agent on its behalf, is reconciled on at least a weekly basis.

The accounting officer must take all reasonable steps to ensure that any funds collected by the municipality on behalf of another organ of state are transferred to that organ of state at least on a weekly basis, and that such funds are not used for purposes of the municipality.

3.2 Payments to Creditors

The Chief Financial Officer shall ensure as per section 65(2)(e) of the MFMA, that all money owing by the municipality be paid within 30 days of receiving the relevant invoice or statement, unless prescribed otherwise for certain categories of expenditure. This rule shall be departed from only where there are financial incentives for the municipality to effect earlier payment, and any such departure shall be approved by the Chief Financial Officer before any payment is made.

In the case of small, micro and medium enterprises, where such a policy may cause financial hardship to the contractor, payment may be effected at the conclusion of the month during which the service is rendered or within fourteen days of the date of such service being rendered, whichever is the later. Any such early payment shall be approved by the Chief Financial Officer before any payment is made.

Notwithstanding the foregoing policy directives, the Chief Financial Officer shall make full use of any extended terms of payment offered by suppliers and not settle any accounts earlier than such extended due date, except if the Chief Financial Officer determines that there are financial incentives for the municipality to do so.

The accounting officer of the municipality is responsible for the management of the expenditure of the municipality.

The accounting officer must take all reasonable steps to ensure, among other things, that payments made by the municipality are made direct to the person to whom they are due, unless agreed otherwise for reasons as may be prescribed, and either electronically or by way of non-transferable cheques, provided that cash payments and payments by way of cash cheques may be made for exceptional reasons only, and only up to a prescribed limit.

The accounting officer must further ensure that the municipality's available working capital is managed effectively and economically in terms of the prescribed cash management and investment framework.

3.3 Cash Management Programme

The Chief Financial Officer shall prepare an annual estimate of the municipality's cash flows divided into calendar months, and shall update this estimate on a daily basis. The estimate shall indicate when and for what periods and amounts surplus revenues may be invested, when and for what amounts investments will have to be liquidated, and when, if applicable either long-term or short-term debt must be incurred. Executive Directors shall in this regard furnish the Chief Financial Officer with all such information as is required, timeously and in the format indicated.

The Chief Financial Officer shall report to the finance committee on a monthly basis and/or to a council meeting when required. Such a report shall indicate any movements in respect of the municipality's investments, together with appropriate details of the investments concerned.

4. Investment ethics

The Chief Financial Officer shall be responsible for investing the surplus revenues of the municipality, and shall manage such investments in consultation with the Accounting officer and in compliance with any policy directives formulated by the council and prescriptions made by the Minister of Finance.

Investments by the municipality:

- (a) Must be made with such judgment and care, under the prevailing circumstances, as a person of prudence, discretion and intelligence would exercise in the management of that person's own affairs
- (b) May not be made for speculation and exposing the municipality to undue risk but must be a genuine investment, and
- (c) Must in the first instance be made with primary regard being to the probable safety of the investment, in the second instance to the liquidity needs of the municipality and lastly to the probable income derived from the investment.

5. Investment principles

5.1 Portfolio diversification and limiting exposure

Where large sums of money are available for investment, the Chief Financial Officer shall ensure that the municipality takes all reasonable and prudent steps consistent with its cash management and investment policy and according to the standard of care prescribed in regulation 5 of the MIR to diversify its investment portfolio across institutions, types of investment and investment maturities in order to limit the risk exposure of the municipality. The municipality shall ensure that as far as practically possible that twenty five percent or more of its investments is not held by one financial institution, however this threshold excludes the current account of the municipality.

5.2 Credit requirements and risk and return

Although the objective of the Chief Financial Officer in making investments on behalf of the municipality shall always be to obtain the best interest rate on offer, this consideration must be tempered by the degree of risk involved in regard to both the financial institution and the investment instrument concerned. No investment shall be made with an institution where the degree of risk is perceived to be higher than the average risk associated with investment institutions.

The municipality must take all reasonable and prudent steps consistent with its cash management and investment policy and according to the standard of care set out in regulation 5 of the MIR, to ensure that it places its investments with credit-worthy institutions. Therefore, the municipality must regularly monitor its investment portfolio; and when appropriate liquidate an investment that no longer has the minimum acceptable credit rating as specified in its cash management and investment policy. Prescribe notice periods as per the investment schedule must be adhered to, to avoid the municipality incurring unnecessary fees/penalties that could have been avoided if reasonable care has been exercised.

5.3 Miscellaneous provisions

The responsibility and risk arising from any investment transaction vests in the municipality. All investments made by the municipality must be in the name of the municipality. The municipality may not borrow money for the purpose of investment.

6. Payment of Commission

No fee, commission or other reward may be paid to a councillor or official of a municipality or to a spouse or close family member of such councillor or official in respect of any investment made or referred by a municipality.

If an investee pays any fee, commission or other reward to an investment manager in respect of any investment made by a municipality, both the investee and the investment manager must declare such payment to the council of the municipality by way of a certificate disclosing full details of the payment

7. Reporting requirements

The accounting officer of a municipality or municipal entity must within 10 working days of the end of each month, as part of the section 71 report required by the Act, submit to the mayor of the municipality a report describing in accordance with generally recognised accounting practice the investment portfolio of the municipality as at the end of the month.
