## **PART 1 - ADJUSTMENT BUDGET**

## 1. Executive Mayor's Report

Speech to be delivered at the tabling of the Adjustment Budget 2020/21.

## 2. <u>Resolutions</u>

## Approval of Adjustments Budget for the year ending 30 June 2020

(Ald. S.P. Mabilo)	13 February 2020
--------------------	------------------

## Purpose

The purpose of this report is to obtain approval of the additional adjustments to the approved 2020/21 Medium Term Revenue and Expenditure Framework (2020/21 MTREF) in terms of Section 28 of the Municipal Finance Management Act 56 of 2003 for the year ending 30 June 2021. To obtain approval for the adjusted SDBIP targets for 2020/21.

### For noting / for decision by

For decision by:

- Council (to approve)
- The item/report has NOT been considered by a portfolio committee.
- This item is for decision by Council.

## Background

The 2020/21 MTREF was approved by Council on the 30 of June 2020 in accordance with MFMA Section 24 (1). Section 28 of MFMA requires a municipality to revise an approved annual budget through an adjustment, and section 28 (4) requires that only the mayor may table an adjustment budget in the municipal council.

After careful consideration of the actual year to date performance and adjustments from grantors (National Treasury) of the approved original capital and operational budgets, it became necessary that the municipality's budgets be adjusted to reflect the actual performance as well as the projected performance for the rest of the financial year.

In terms of section 23 (1) of the Municipal Budget and Reporting Regulations Government Gazette No.32141 17 April 2009, the following is required; "*An adjustment budget may be tabled in council at any time after the mid-year budget and performance assessment has been tabled in council, but not later than 28 February of the current financial year*".

Annexures

Annexure A: Schedule B

Annexure B: Adjusted SDBIP targets 2020/21

**Motivation** 

None

## Personnel Implications

None

Financial Implications

There are no further financial implications other than as indicated in the annexure.

## Legal Authority and Implications

Section 28 of MFMA and Municipal Budget and Reporting Regulations 2009

## **Consultation**

The Municipal Manager, all Executive Directors and Senior Managers, and the Mayoral Committee.

### Contact Person

- Ald S.P. Mabilo Executive Mayor
- B. Dhluwayo Acting Municipal Manager
- K. Samolapo Acting Chief Financial Officer

## **RECOMMENDATION:**

- 1. That the operational and capital adjustment budget as tabled in Schedule B tables and charts be approved as listed below:
  - 1.1 Table B1 Adjustment Budget Summary
  - 1.2 Table B2 Adjustment Budget Financial Performance (functional classification)
  - 1.3 Table B3 Adjustment Budget Financial Performance (revenue and expenditure by municipal vote)
  - 1.4 Table B4 Adjustment Budget Financial Performance (revenue and expenditure)
  - 1.5 Table B5 Adjustment Capital Expenditure Budget by vote and funding
  - 1.6 Table B6 Adjustments Financial Position
  - 1.7 Table B7 Adjustment Budget Cash Flows
  - 1.8 Table B8 Cash back reserves and accumulated surplus reconciliation
  - 1.9 Table B9 Asset Management
  - 1.10 Table B10 Basic Service Delivery Measurement
  - 1.11 Table SB1 SB19 Supporting tables
- That due to mSCOA Reporting requirements, the schedules may change from what is presented here, with the totals remaining the same, that Council gives the Municipal Manager and the CFO permission to effect, all necessary corrections as a result of reporting requirements.
- 3. That the adjusted SDBIP targets be approved
- 4. That the adjusted budget be approved and submitted to the relevant stakeholders accordingly

## 3. Executive Summary

#### 3.1 Adjustment Budget Overview

For the 2019/20 financial year-end the municipality's closed with its cash position under severe strain with Cash & cash equivalents of R99,305 million which included Investments of R50,594 million. The Covid-19 pandemic did not bode well for the municipality's finances which is already under severe strain and further exposed the vulnerability of the municipality's cash position.

The payment of salaries and wages has also been under tremendous threat for the last few months. The Cost coverage ratio is less than two weeks versus a healthy position of three months, as recommended by NT. Cash is monitored on a daily basis and a concerted effort is done to recoup all outstanding debt. Total outstanding debt decreased by R171,305 million as a result of debt write-offs during January 2021. Government debt decreased by R222,416 million resulting in net debt outstanding of 719,790 million as at the end of January 2021. The municipality also provided a Covid-19 relieve strategy to recoup debt, especially considering that some household's finances are severely strained due to the Covid-19 pandemic. The municipality implemented cost containment measures to counter the shortfall in cash and the sourcing of quotations has been centralised to SCM. Expenditure on Overtime has been capped at 30 hours across most sections, whilst cost containment measures have implemented to curb expenditure.

At mid-year these were the following key results:

The municipality managed to achieve 50.5% of its total billable revenue, total operational expenditure was 42.3% spent, whilst the total capital budget was 28.1% spent. The average collection rate was 76%. The total outstanding debt amounted to R2,440,431 billion.as at the end of January 2021.

These circumstances necessitated the adjustment of both the operational revenue, operational and capital expenditure budgets.

The capital budget, where additional funding was received had to be taken into account as well as the outcomes of the rollover approved by National Treasury. The municipality also received a letter with the intention to withhold WSIG (R12.9m).

Drastic action is required to ensure the liquidity and sustainability of the municipality. This implies that the Debt Collection Policy has to be implemented diligently, fairly and timeously. The municipality has payment arrangements with both ESKOM and the Department of Water and Sanitation. As at the reporting date, the total debt due to ESKOM amounted to R139 million and the municipality owes DWS an amount of R72 million.

National Treasury reiterated that essentially the Municipal Budget Assessment and Benchmark Engagement recommendations for the 2020/21 MTREF should be considered during the compilation of the 2020/21 financial year Adjustments Budget and as part of the finalisation of the 2021/22 MTREF. The municipality will consider these recommendations for both the 2020/21 Adjustment Budget and 2021/22 MTREF, and will endeavour to implement any such recommendations where it is possible and practical to do so, especially from a financial perspective.

As per the Benchmark report: "Section 23 of the MFMA requires the municipal council to consider views of the National Treasury (NT), the relevant provincial treasury as well as the provincial and national organs of the state on the tabled budget. In order to give effect to the

National Treasury's legislated monitoring and oversight responsibilities, the municipal budget and benchmark engagement for Sol Plaatje municipality took place on 12 June 2020. The engagement provides a platform to discuss challenges and provision of guidance from various units within the NT."

The outcomes of the engagement are indicated below:

National Treasury highlighted that the key observations are summarised using the four pillars namely, the financial health, service delivery, institutional arrangements and governance.

## "Institutional arrangements

- The institutional arrangements are on a decline based on the following, the municipality had a seconded acting Municipal Manager (MM) from the Provincial Treasury whose contract was not renewed leaving the municipality exposed to further acting arrangements. This affects the municipality's stability and sustainability. The Chief Financial Officer (CFO) is also acting, a secondment from the Department of Sports. The integrated development plan's position has been long outstanding and this is affecting the municipality's ability to report correct on performance, as the municipality received a disclaimer audit opinion on performance reporting.
- The acting Municipal Manager (MM) (Director for Infrastructure) was not present on the day of the engagement. The acting MM for the day was the Director for Corporate Services which led the engagements with the acting Chief Financial Officer.
- The municipality's stability is challenged with critical acting positions, with the acting CFO (seconded from the Department of Sport, Arts, Culture & Recreational) since October 2019 and the acting MM since May 2020 (current acting MM being the Director of Infrastructure). When the municipality uses consultants, the transfer of skills is done.
- The municipality indicated that they do not have the approved growth development strategy due to financial constraints. This makes it difficult to understand the future plans for the municipality.
- Evidence from the supporting tables SA4, SA5 and SA6 is that the municipal operational and capital budget is aligned to the IDP Strategic Objectives.
- The municipality has a long-term financial strategy, however, there is no evidence that the municipality is making use of its long-term finance strategy in its plans.
- The municipality has made inroads in the implementation of the municipal standard chart of accounts (*m*SCOA). They must still map cash correctly in the budget and in-year data strings.

## Financial Governance

- There were times when the municipality could not hold Council Meetings, although the Municipality indicated that this is has since improved as they are now able to hold regular meetings with Council.
- Cutting of overtime to affordable levels remains a sensitive issue which often attracts riots by the employees of the municipality. However, an overtime policy has been approved which hopefully will bring stability to the municipality.
- The municipality indicated that ward committees are functional and are given necessary support.
- The municipality also indicated that they have an established Disciplinary Board, and a Consequence Management Policy. (There is a discrepancy in this statement, the Disciplinary Board has not yet been established and the Consequence Management Policy was in development but not yet approved, it was only approved during October 2020. The matter was raised with NT, however it should be noted that due to an oversight comments on the Draft report was not submitted timeously to NT.

## Financial health

- If a worst consumer collection rate of 75 per cent is realised, according to the National Treasury funding model, the municipality will not be able to meet its current obligations including the payment of bulk purchases to Eskom and the Water Boards. For the municipality to be able to meet its obligations they should not collect less than 82 per cent on consumer accounts.
- In 2020/21, the municipality's total operating revenue increases by 5.3 per cent, while the operating expenditure increases by 4.9 per cent.
- The municipality tabled a surplus budget of R19.5 million, which will go a long way in building the capital replacement reserve.
- The municipality budgeted R123.7 million for cash and cash equivalents at year end in 2020/21, which was revised to a negative cash flow of R243.7 million by National Treasury, at a conservative consumer collection rate of 75 per cent, which was derived based on the average historical performance for the past three audited years.
- The municipality's 2020/21 budget is funded and sustainable over the MTREF as a result of huge debtors compared to the creditors, therefore boosting the other working capital requirements of the municipality. The municipality is however cautioned that this funding position remain artificial unless the municipality is able to collect revenue from long outstanding debtors. Otherwise the municipality must consider writing off long outstanding debtors that it cannot collect.

• The municipality indicated that they had to keep the balance between affordability and the sustainability of the municipality, when determining the tariffs.

## Service delivery

- The municipality has high electricity losses at 18 per cent and is the highest among the secondary non-delegated municipalities.
- The municipality indicated that they used the capital expenditure framework (CEF) as a tool to prioritise infrastructure.
- The funding of capital budget from internal generated funds was reduced due to uncertainty of the economic climate.
- On a good note, the renewal and upgrading of existing assets as a percentage of total capital expenditure is at 63.1 per cent and above the National Treasury guide of 40 per cent.
- Another positive ratio for the municipality is that the Renewal/Upgrading of existing assets is 120.2 per cent of depreciation (compared to the norm of 100 per cent).
- Repairs and maintenance (R&M) as a percentage of Property, Plant and Equipment (PPE) is a good allocation of 14 per cent (NT's guideline is 8 per cent).
- Municipality indicated that its 2019/20 conditional grants will be underspend due to the impact of COVID-19 hard lockdown, and the underspending will be reprioritised to COVID-19 related expenditure.

## RECOMMENDATIONS

It is recommended that:

The municipality:

- Should fill the position of the IDP Manager in order to improve the performance reporting of the municipality.
- Should make use of the long-term financial plan in its effort to make the municipality finances sustainable.
- Should institutionalise the Capital Expenditure Framework in the budget process and planning.
- Should improve its consumer collection rate to a collection of not less than 82 per cent.
- Should reduce water and electricity losses.

- Should include the number of informal settlements households supported by the municipality in Table SA9.
- Should correct Table A7 (cash flow) in line with the cash flow guide provided by National Treasury.

## RESOLUTIONS

It was resolved at the engagement that:

National Treasury will:

- Share the budgeted budget tool that NT uses to analyse whether a budget is funded or not.
- Share the press release by the Presidency on the Eskom political task team.
- Share the City of Mbombela 2020/21 Benchmark Presentation for the municipality to benchmark itself on how other municipalities selling themselves.
- Organise a balance sheet budgeting training for the municipal staff.

## Concluding remarks by NT

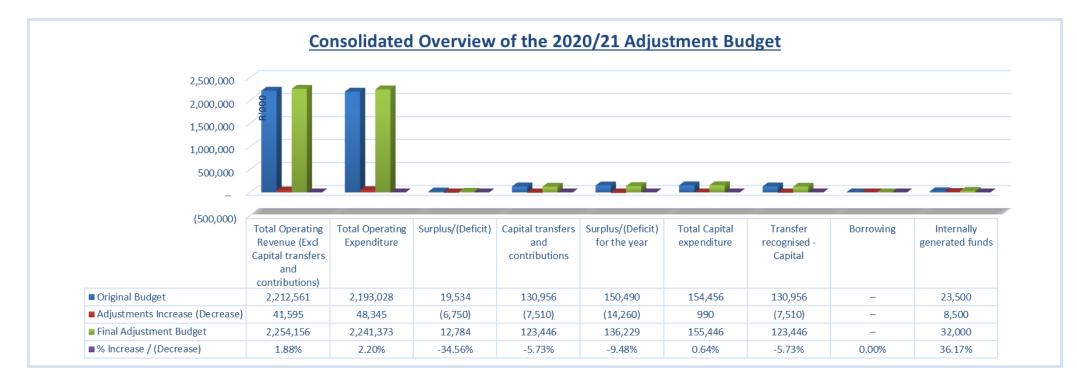

Sol Plaatje municipality financial affairs shows a sign of distress:

- Institutional arrangements in the municipality are declining due to unstable leadership.
- The municipality needs to look at its audit opinions and actually implement approved and realistic audit action plans because the financial governance of the municipality is fragile.
- Even though the 2020/21 municipal budget is funded over the MTREF the municipal financial health is declining due to inability of the municipality to meet its monthly obligations."

Due to various indicators as per the mid-term budget assessment results, it became clear that the approved operational and capital budget for the 2020/21 MTREF must be revised. Some of the material underlying reasons include the following;

- Lower than projected revenue from Interest on External investments and Outstanding debtors
- Increase on Gains on disposal of assets due to projected land sales
- Approved rollovers and grant funding being withheld
- New budget allocations that became known after the approval of the MTREF
- Adjustments on internally funded capital projects
- The treatment of Water inventory as a result of GRAP 12
- Various adjustments on Operational Expenditure

		Sep 2020 -			
		Covid-19	Feb 2020	Accumulative	Total Adjusted
Description	<b>Original Budget</b>	Adjustments	Adjustments	Net adjustments	Budget
Revenue By Source	R'000	R'000	R'000	R'000	R'000
Total Revenue (excluding capital					
transfers and contributions)	2,212,561	32,395	9,200	41,595	2,254,156
Expenditure By Type	-	-	-	-	-
Total Expenditure	2,193,028	(77,605)	125,950	48,345	2,241,373
Surplus/(Deficit)	19,534	110,000	(116,750)	(6,750)	12,784
Total capital transfers and contributions	130,956	(9,658)	2,148	(7,510)	123,446
Surplus/ (Deficit) for the year	150,490	100,342	(114,602)	(14,260)	136,229
Capital expenditure & funds sources					
Capital expenditure	154,456	4,342	(3,352)	990	155,446
Transfers recognised - capital	130,956	(9,658)	2,148	(7,510)	123,446
Public contributions & donations			-	-	-
Borrowing	_	-	_	-	-
Internally generated funds	23,500	14,000	(5,500)	8,500	32,000
Total sources of capital funds	154,456	4,342	(3,352)	990	155,446

The table and chart above articulate the 2020/21 Adjustment budget overview with an upward adjustment on total operational revenue of R41,595 million resulting in the final adjusted budget of R2,254,156 billion. The total operating expenditure moved upwards by R48,345 million resulting in the final adjusted budget of R2,241,343 billion. The surplus for the year is estimated at R136,229 million for the period, after taking into consideration the capital transfers and contributions of R123,446 million.

The capital expenditure budget increased by R990 thousand million as a result of a combination of upward and downward adjustments on capital grants and an upward adjustment of CRR funded projects. Rolled over funds have also been factored into the final capital budget. The final capital expenditure budget is R155,446 million for the 2020/21 MTREF of which 79% is funded from Transfers recognised – capital and 21% from Internally generated funds. National Treasury recommended that the municipality must improve the capital funding mix, however due to the current financial crisis this is not attainable for the foreseeable future and the municipality is still highly depended on capital grant funding to fund its capital budget as per s18 of the MFMA.

## 4. Adjustment budget tables and narratives

## 4.1 Adjustment Budget – Revenue Framework

The municipality relies heavily on successful collection of billed revenue to finance its operations. It very important that monthly cash expenditure is measured against monthly billed revenue and collected revenue at the same time. The collection rate is one of the critical key performance indicators that are reported on, on a monthly basis.

It is becoming more and more challenging to collect revenue and recover debt as a result of economic conditions that are not favourable for both businesses and residential customers. The indigent register is growing, and the situation is exacerbated by demand for land for informal settlement purposes which put more pressure on demand for services with no new income being realised from these developments. The municipality is pursuing to expedite the sale of land for possible revenue generation enhancements. Electricity remains the main revenue source for the municipality and more stringent revenue protection measures must be implemented to minimise non-revenue customers, theft, illegal connections and bypassed meters. Indicated in the table below is the adjustments per Revenue by Source that were effected for the Covid-19 Adjustment budget during September 2020 and the adjustments for February 2021 after the Mid-year budget assessment.

		Sep 2020 -		Accumulative	
	Original	Covid-19	Feb 2021	Net	Total Adjusted
Description	Budget	Adjustments	Adjustments	adjustments	Budget

Fines, penalties and forfeits	33,345	-	-	-	33,345
Licences and permits	6,100	-	-	-	6,100
Agency services	_	-	-	-	-
Transfers and subsidies	224,542	32,395	3,200	35,595	260,137
Other revenue	18,008	-	-	-	18,008
Gains	_	-	22,000	22,000	22,000
Total Revenue (excluding capital					
transfers and contributions)	2,212,561	32,395	9,200	41,595	2,254,156
Total capital transfers and contributions	130,956	(9,658)	2,148	(7,510)	123,446
Total Revenue	2,343,517	22,737	11,348	34,085	2,377,602

- Interest on External Investments A downward adjustment of R6,000 million in Interest on External Investments as a result of declining Investments. The downward adjustment is also influenced by the interest rate reduction by the Reserve Bank.
- Interest on Outstanding debtors A downward adjustment of R10,000 million in Interest on Outstanding debtors as a result of decline in debtors in terms write-offs for the year. The downward adjustment is also influenced by the interest rate reduction by the Reserve Bank.
- **Transfers and subsidies** For February 2021, a net upward adjustment of R3,200 million as a result of the following:

An upward adjustment of R4,000 million on Transfers and subsidies for funds received from FBDM for Environmental health services (R2,000 million) and Roads maintenance (R2,000 million). Downward adjustment of R200 thousand as a result of a reduction in Library grant. Downward adjustment of R600 thousand on MSIG which is transferred to COGTA. The municipality erroneously factored this into the original budget.

- The net downward adjustment on Capital Grants of R7,501 million, due to the rollover approval of R15.1 million and the withholding of the WSIG of R12.9 million. INEP was also adjusted downwards by R9.6 million during the Covid-19 Adjustments as per the amended DORA 2020/21.
- Upward adjustment of R22m on Sale of land, large attributable to the sale of land to Sol Plaatje University (R16,5m estimate).

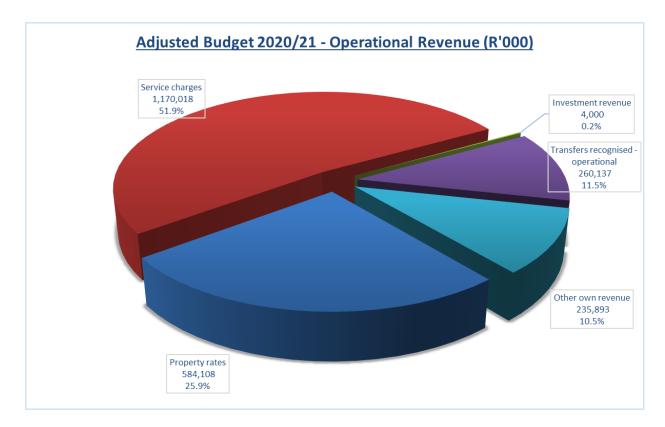

## September 2020 – Covid-19 Adjustment budget

As per the amended DORA, an additional R29,570 million was allocated towards Equitable Share, specifically for Covid-19 related expenditure.

The municipality also received additional funding amounting to R2,200 million from Frances Baard District Municipality for Operations and Maintenance pertaining to Roads and Sewer maintenance.

The LED unit also received additional funding of R625 thousand in relation to an EPWP project funded by the Dept of Economic Development & Tourism.

As per the amended DORA, the funding for the Integrated National Electrification Programme (INEP) was reduced by R9,658 million, resulting in a total adjusted allocation of R10,000 million for the 2020/21 financial year as at 30 September 2020.

Overall Service charges contribute 51.9% of total revenue of the municipality, whilst Property rates and taxes contribute 25.9%, Other own revenue sources make up 10.5%, Investment revenue 0.2% and Transfers recognised – operational 11.5%.

Senior Managers are charged with the responsibilities of sound financial management and as such, the assets and resources assigned to the votes generates revenue for the municipality. Financial services vote has the full responsibility of billing and collecting on all services rendered by the municipality. The Municipal and General vote deals with council wide revenue generation including the conditional and unconditional grants, interest received from investments etc. it is for this reason that revenue has been increased by R34,885 million to a final budget of R454,836 million.

Executive and Council vote and the Municipal Manager's vote generates R0 revenue and their final budget remained unadjusted.

Community Services has been adjusted downwards by R200 thousand as a result of the decrease of R200 thousand of the Library grant.

Financial Services net downward adjustment of R600 thousand due to MSIG that is transferred to COGTA.

Strategy, Economic Development and Planning and Infrastructure and Services remain unadjusted.

The table below presents revenue adjustment by functional classification, and the movements are indicated in the column Total Adjustments.

As reiterated above net adjustment amounts to R34,085 million upward adjustment resulting in total operational revenue of R2,377,602 billion.

## 4.2 Adjustment Budget – Expenditure Framework

The precarious financial situation that the municipality is facing, necessitated that there be adjustments made in the operational expenditure budget. It is imperative that councillors, management and employees seriously take heed of the dire financial constraints and change their mindsets in how they perceive spending and more critically, the prioritisation of that spending. It is also of the utmost importance that relevant stakeholders seriously consider the financial impact of their decisions. In such difficult financial circumstances, it is essential that decision makers are pro-active and employ all positive mitigations to circumvent the situation to have a positive end-result which is stabilising Sol Plaatje's cash flow position. And to remember, above all else that the municipality is constitutionally obligated to render reliable services at the highest quality.

Total Expenditure	2,193,028	(77,605)	125,950	48,345	2,241,373	

Indicated in the table above is the adjustments to Expenditure by Type that were effected for the Covid-19 Adjustment budget during September 2020 and the adjustments for February 2021 after the Mid-year budget assessment. The net upward adjustment amounts to R48,345 million, increasing the total expenditure to R2,241,373 billion.

Considering the municipality's dire cash flow position, it is imperative that the operational expenditure be adjusted, to ensure that the municipality is sustainable whilst at same time making sure that critical service delivery issues are adequately addressed and funded. The areas of adjustments that will be proposed are as follow:

**Employee related costs** as part of the cost containment measures that were implemented the municipality envisage to realise a saving on the filling of vacancies to the amount of R8,000 million. Also, that the budget for Sale of leave be reduced by R6,000 million, due to cash flow constraints. A further adjustment of R200 thousand for the downward adjustment of the Library grant.

**Debt impairment** be adjusted upwards with a net adjustment of R3,000 million as a result of the increase on provision for bad debts for Sanitation services (R8,000 million) and a decrease of R5,000 million for the Provision for bad debts for Electricity services. The provision for bad debts for Sanitation, emanated from the Mid-year budget assessment for 2020/21, as advised by NT.

**Bulk purchases** - Bulk purchases electricity was adjusted downwards by R8m based on the full year forecast and partially due to the reduction of the Notified Maximum Demand (NMD). A reduction of R110 million on Bulk purchases water was transferred to Water inventory under Inventory and supplies.

**Contracted services** - Commission on Prepaid electricity vendor was adjusted upwards by R1,500 million based on the average commission paid thus far. Sales also increase during May and June and provision was made for this as well.

**Grants and subsidies paid -** It is proposed that other Grants and subsidies paid be adjusted downwards by R1,780 million. (R1,500m for other grants and R280 thousand virement to equipment for the procurement of a large multi-functional printer for the Mayor's office.

**Finance charges** is adjusted upwards by R12,000 million, due to additional interest incurred on overdue accounts as a result of defaulting on the ESKOM and Water account.

**Other materials (Repairs and maintenance)** – Indicated in the table below are the adjustments to Other materials. An upward adjustment of R2,00 million for funds received from FBDM for Environmental health services. Additional funding of R2,000 million received from FBDM for Roads maintenance. And minor adjustments under Community services. Transfer of bulk purchases water back into the Income statement under Inventory and materials as per GRAP 12 and guidelines from NT. A further adjustment of R5,000 million was factored in on Bulk purchases water based on average consumption volumes and the high demand for water. There are delays in the completion of the reclamation dam which is negatively influencing extraction volumes. Downward adjustment of R600 thousand as a result of MSIG funds not being transferred to the municipality.

Total			118,417,500		

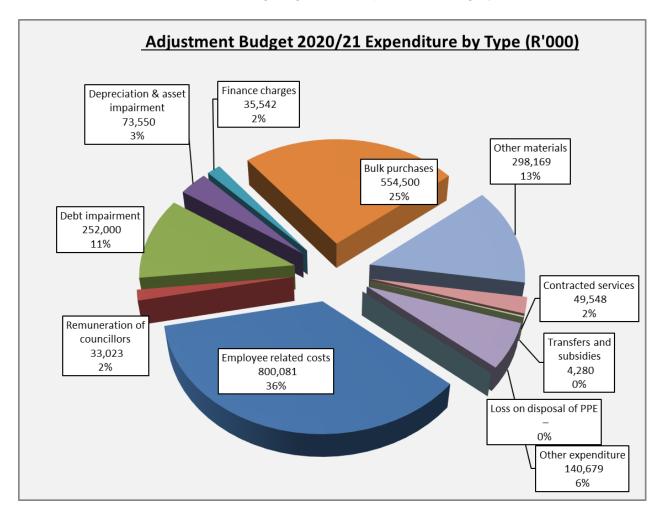

**Other Expenditure** – Indicated in the table below is the adjustments on Other expenditure. The other cost containment measures implemented pertains to expenditure on catering, furniture and equipment, subsistence and travelling, sport, telephones etc. It should be noted that not all these line items were necessarily reduced but spending is curbed in this regard.

Covid-19 funds of R1,500 million was also transferred from Uniform and protective clothing to the Hire of water tankers as a result of the Department of Water Sanitation withdrawing temporarily from the provision of water due to budgetary constraints on their side. An amount of R280 thousand was transferred from Grants paid to Equipment for the procurement of a large, multi-functional office printer. Sport was adjusted downwards by R1,000 million. Travel & subsistence was adjusted downwards by R1,500 million. Due to an increase on electricity consumption at Riverton this line item was increased by R17,000 million. Electricity is directly sourced from ESKOM, the municipality was obligated to make provision for this expenditure to ensure un-interrupted electricity supply to Riverton for the provision of water. Vehicle tracking was adjusted upwards by R150 thousand due to an increase in the price per vehicle under the new tender that is to be awarded

Total Operational Expenditure			2,193,028	(77,605)	2,115,423

The table below indicates adjustment budget of operational expenditure by functional classification for the 2020/21 MTREF. The adjustment budget assumptions had been limited to the current MTREF as the municipality is currently busy with 2021/22 MTREF which will be tabled to Council in March 2021 as per the IDP and Budget Process Plan.

To ensure an easy understanding of the movements, amounts in brackets indicate a reduction in original budget allocated, thus the final budget is expected to be lower with the amount. Budget reductions or increases are informed by year to date expenditure, the previous years' actuals, the progress made to date in executing programmes as planned for the year, changes in GRAP standards and the current cash flow situation.

NC091 Sol Plaatje - Table B6 Adjustments Budget Financial Position - 18/02/2021

It is anticipated that the net community wealth will increase to R3,148,767 billion. Cash and cash equivalents are budgeted at R122,492 million. Budgeted Trade and other payables at R356,338 million is high which is exacerbated by the municipality's current cash flow issues. It is envisaged that Non-current assets will increase by R990 thousand, Accumulated surplus will decrease by R14,260 million and Reserve for capital replacement be increase by R14,000 million.

The are some challenges that needs to be resolved with the B7- Cash flow. BTO in conjunction with BCX is busy working to have these discrepancies resolved. Cash receipts from Property rates, service charges and Other revenue are overstated, whilst both Capital and Operational grants are understated. Operational expenditure and Finance charges are also understated. The Cash and cash equivalents at year end is also overstated and must be aligned to the Cash as indicated on B6- Statement of Financial Position of R122,492 million. Please refer to the table and comments below.

Indicated in the table below is the proposed amendments that must be effected on the system and the corrections that needs to be done, so that the data strings are aligned to proposed Adjustment budget.

1. Local/District municipalities to include transfers from/to District/Local Municipalities 2. Cash equivalents includes investments with maturities of 3 months or less

122,492 B6 - Cash & cash equivalents

Based on the table above, an average collection rate of 76% is assumed. Actual expenditure of 90% is assumed, with the exception of Bulk purchases which is fully provided for. It is also assumed that all Operational and Capital will be received in full. Capex will be incurred in full. That the budgeted Cash and cash equivalents is realistic based on the prior year actuals achieved and taking into consideration the current cash flow position. The ideal Cash & cash equivalents should at a minimum, be approximately R500 million to comply to the NT norm of minimum 3 months Cost coverage. From this perspective it is evident that it is a mammoth task that the municipality will have to achieve to be fully viable and sustainable in the long run.

# PART 2 - SUPPORITNG DOCUMENTATION

## 5. Adjustment budget assumptions

The adjustment budget assumptions are based on the original assumptions made during the preparation of the 2020/21 MTREF with adjustments based on the mid-year results. The following are the key assumptions made in adjusting the revenue framework;

- 1. The application of GRAP 12 standards
- 2. Withholding of conditional grants due to poor performance
- 3. Rollover approvals
- 4. The current critical financial position
- Additional Equitable Share gazetted for Covid-19 as per the amended DORA during September 2020

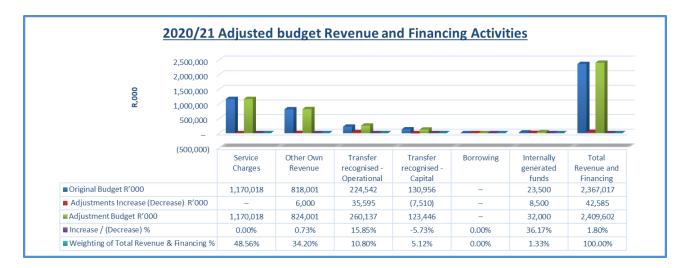

With regards to the expenditure framework, adjustments were made to Employee related costs, Bulk purchases, Other materials, Contracted services, Grants and subsidies paid as well as Other expenditure. The major costs drivers at vote and trading service level had been reviewed, and major changes were identified that informed the adjustment budget.

## 6. Adjustments to budget funding

Operational expenditure is mainly funded from service charges as well as other revenue sources. Unconditional grants contribute 10.8% to the operating revenue of the municipality. Unconditional grants are allocated to fund social package granted to indigent households, and no changes had been proposed in the quantum of free basic services provided.

Internally generated funds are based on actual cash and cash equivalents from prior years with rolled over funds still available, and these are used to fund the capital expenditure budget. Only conditional grants gazetted by the province or national are considered in the adjustment budget. Unspent conditional grants at year end are applied to be rolled-over into the new financial year. Once the approval is obtained, such grants form part of funding available for capital expenditure budget.

Indicated in the bar chart below is the summary of the revenue and financing activities of the municipality for operational and capital expenditure.

The Adjustment is primarily funded by Service charges at 48.56%. No adjustments on Service charges were deemed necessary based on mid-year results. Other own revenue constitutes 34.20% of the funding mix and was adjusted upwards with a net movement of R6,000 million. The net increase of R35,595 million on Transfer recognised – Operational was predominantly influenced by the additional funding availed by NT for Covid-19 and funds received from FBDM to the amount of R6,200 million combined. Transfer recognised – Capital resulted in a net downward adjustment of R7,501 million as a result of the approved rollover and funds being withheld (WSIG) and the reduction of INEP as per the amended DORA. Combined Operational and Capital grants constitutes approximately 16% of the total funding mix. Internally generated funds were adjusted upwards by R8,500 million due to service delivery challenges that must be addressed by the municipality. This is not an ideal situation as the municipality is seriously struggling financially, but is hopeful that the credit control measures implemented and engagements with departments and the Premier will yield positive results in recouping a greater portion of outstanding debt.

#### 7. Adjustments to expenditure allocations and grant programme

Operational grants increased by R35,595 million. An amount of R4,200 million was allocated from Frances Baard District Municipality for maintenance. Sewerage received R1,100 million and Roads was allocated R3,100 million. Additional funds were received from the FBDM amounting to R2,000 million for Environmental health services. The MSIG was also reduced by R600 thousand, because it is not transferred to the municipality but to COGTA. Equitable Share was adjusted upwards by R29,570 million as part of the Covid-19 funding that was gazetted by NT during September 2020. The LED unit also received additional funding of R625 thousand in relation to an EPWP project funded by the Dept of Economic Development & Tourism.

As indicated in the table above, the adjustment of capital expenditure budget focused on critical service delivery projects, especially projects that commenced already during the previous year and had been rolled over into the new financial year.

Project status reports were also considered to estimate the cost of work that can be completed during the remaining months of the financial year, after taking into account any procurement processes that needed to be followed.

The approved rollover approval of R7,200 for 2019/20 financial year for INEP was added to the project for the Electrification of Lerato park. Other projects also had to be cancelled as a result of the downward adjustment of R9,658 million during the Covid-19 budget adjustments as per the amended DORA.

Description	Original Budget	Increase (Decrease)	Adjustment Budget
UPGRADE HADISON PARK 66/11 KV			
SUBSTATION	1,500	(1,500)	0
NETWORKS ACQ - ELECTRIFICATION	12,150	(12,150)	0
ELECTRIFICATION LERATO PARK	-	17,206	17,206
ELECTRIFIC LERATO PARK LINK SERV NETWORK	6,008	(6,008)	0
Total	19,658	(2,452)	17,206

The Storm water project was adjusted upwards by R7,900 million as per the rollover approval for 2019/20 financial year for NDPG.

WSIG was reduced by R12,971 million, due to poor performance and the following 2 projects were affected:

Description (R'000)	Original Budget	Increase (Decrease)	Adjustment Budget
ACQ - CARTERS GLEN SEWER PUMP STATION	20,000	(7,028)	12,972
RECONSTRUCTR OF ZINC TOILETS WARD17	5,943	(5,943)	-
Total	25,943	(12,971)	12,972

The construction of zinc toilets is an on-going project and is funded from internally generated funds.

NC091 Sol Plaatje - Supporting Table SB10 Adjustments Budget - transfers and grants made by the municipality - 23/02/2021

Indicated in the table above is the adjustment to grants paid by the municipality. The adjustment amounts to R1,780 million with the full year allocation of R6,060 million will total to R4,280 million. Please be advised that the B-schedules – supporting table SB10 does not make provision for Cash transfers to individual households and was therefore manually inserted to reflect on this table.

Secondly, Other grants has been adjusted downwards by R1,500 million due to cash flow constraints. Other grants and subsidies refer to various adhoc grants paid through the financial year as and when proposals are received by the LED Committee and considered to be mutually beneficial. Savings under Transfer to households has been adjusted downwards by R280 thousand to make provision for the procurement of a large, multi-functional communal printer for official use in the Mayor's office.

### 9. Adjustments to Councillor allowances and Employee benefits

## 9.1 Adjustments to Councillor Benefits and Employee benefits

Councillor's Remuneration was not adjusted for the period under review. However, allocation errors per line item will be corrected via virements done on the system. Employee related costs have been adjusted downwards by R14,200 million. This is attributable to the net decrease in mainly Basic salary of R8,000 million, due to a soft-lock placed on the filling of vacancies as a result of financial constraints. A decrease of R6,000 million on the Sale of leave as part of cost containment measures implemented. A decrease of R200 thousand on Library's salary due to the reduction of the grant. Transfer are made from Basic salaries during the year to Other allowances for predominantly bursary refunds to employees.

Sol Plaatje Local Municipality – Adjustment Budget 2020/21

## 10. Adjustments to Service Delivery and Budget Implementation

The audit of reporting on predetermined objectives takes place on an annual basis as part of the regulatory audit process. The criteria against which the reporting is measured are as follows:

- Usefulness of information
- Reliability of information

In addition to the above criteria, the compliance with relevant laws and regulations pertaining to the reporting on predetermined objectives is also audited and reported on in the final management report issued by the Office of the Auditor General.

The municipality must make every effort to ensure that the submitted Annual Performance Report contains information that is accurate and complete, and that requires no audit-related changes.

The alignment between the capital budget of the municipality and the service delivery and budget implementation reporting is of the utmost importance.

The SDBIP is also directly affected by the adjustments made in the budget, in as far as outputs and outcomes are concerned. It is for this reason that the Adjusted SDBIP is submitted. A detailed SDBIP is included in Annexure B – Adjusted SDBIP targets

## 10.1 ADJUSTMENT OF PRE-DETERMINED OBJECTIVES

The Top-Layer SDBIP has been reviewed to ensure that the pre-determined objectives indicated as key performance indicators are specific, measurable, achievable, realistic and time-bound. Efforts have also been made to define the KPI itself to avoid ambiguities during the assessment period, the unit of measurement as well as the frequency of measurement.

Indicated in Annexure B is the Adjusted 2020/21 top layer SDBIP service delivery quarterly targets per key performance area

## **11. Adjustments to Capital expenditure**

The capital budget of the municipality comprises of various projects that are aimed at refurbishing and upgrading the existing service delivery infrastructure as well as creation of new infrastructure to meet current and future demand.

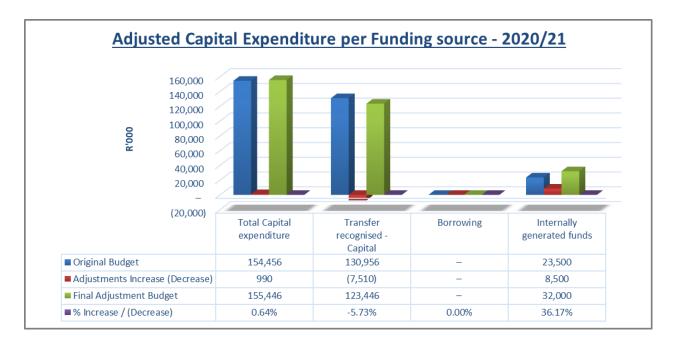

On an annual basis, the IDP of the municipality is reviewed with an intent to agree on programmes and projects identified for implementation during a three-year period as per the Budget Reporting Regulations requirements.

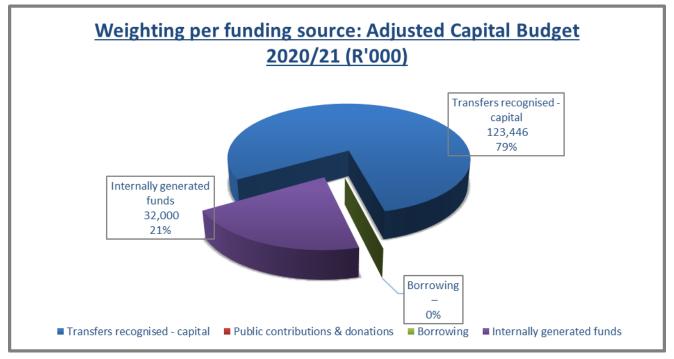

At the project planning stage, it may be anticipated that the project will be implemented over a single or multi-year with projected start and completion date. It also happens that during the implementation of the project, unforeseen and other contingencies lead to project delays or change of scope, thus resulting in project plan being amended to accommodate all the above circumstances.

New funds also become available during the course of the financial year, after the approval of the MTREF, and for these to be incorporated into the capital budget of the municipality, and adjustment of capital expenditure budget becomes necessary. For this Adjustment budget WSIG is being withheld due to poor performance.

It is for these and other reasons as will be elaborated on that the capital expenditure budget is adjusted.

The table and charts above, provides a summary of the capital expenditure budget and the sources of funds. The approved capital budget for the 2020/21 MTREF is R154,456 million. This budget is adjusted upwards by R990 thousand funded from Capital Grants and Subsidies recognised of R123,446 million and internally generated funds to the amount of R32,000 million. Transfers recognised – capital decreased by R7,501 million which constitutes a decrease 5.73%. Internally generated funds increased by R8,500 million to R32,000 million which constitutes an increase of 36,17%. The final capital expenditure budget amounts to R155,446 million.

Total Capital Expenditure - Vote	154,456	154,456	990	990	155,446	155,489	169,458	

The budget is committed to a list of identified projects as per supporting table SB19 as per Annexure A. Multi-year projects have been adjusted upwards by R6,140 million whilst single year projects have been adjusted downwards by R5,150 million. The majority of funds are for the implementation of multi-year expenditure with a total of value of R120,946 million

Indicated in the chart below is the adjustment to capex per Municipal Vote.

The municipal fiscal planning centres around allocation of budget per vote, and these are linked to SDF, the IUDF, the Key Performance Areas and the Municipal Strategic Objectives as contained in the IDP. The Senior Managers are responsible for timely and cost-effective delivery projects within the approved budgets and/or amounts awarded at as per the supply chain processes of acquisition and contracts management.

Adjustments were done under Vote 2 – Municipal and general with a net upward adjustment of R38,651 million. Vote 8 – Infrastructure services was adjusted downwards by R33,300 million and it constitutes 36% of the total adjusted capital budget. It should be noted that all other budgets for other directorates including Roads resorts under Vote 2 – Municipal & general. The municipality is aware of the functional classification errors and this will hopefully be corrected in the preparation of the 2021/22 MTREF. The table below represent capital expenditure budget by functional classification.

# Adjustment Budget Estimate Proposal – Capital expenditure

- As a result of Adjustments made to the budgets of the Capital projects and the reduction of some Dora grant funding for WSIG and INEP, the following projects are affected. Budget reduced from R 158 798 000 to R155 445 797 as a result of the following changes/adjustments made.
- The Galeshewe Stormwater Project were allocated R7 912 397 more as a result of the rollover from the 2019/20 being approved. The budget grows now from R20 000 000 to R27 912 397.
- The Lerato Park Electricity project was allocated R10 000 000 and as a result of an approved rollover, grows by an additional R7 206 400 to R17 206 440. Approved rollover amount is R7 206 400.
- Funding for the Carters Pump station was reduced from an initial budget of R25 943 000 to R12 972 000.00 as a result of funding being withdrawn because of performance issues.
- The upgrade of gravel roads/ paving receiving an additional R6 000 000 as a result of funding redirected from the IUDG (R2 000 000 from Homevale Fire station and R2 000 000 from Water pipe Replacement program) and R2 000 000 CRR funding. Budget adjusted from R8 000 000 to R14 000 000.
- The resealing of roads receives an additional R2 000 000. Funding will be provided from internal sources. Budget grows from R5 000 000 to R7 000 000
- Budget for replacement of old zinc toilets of R5 943 000 and now become zero as a result of WSIG withdrawing further funding.
- Homevale Fire station budget was adjusted downwards R8 400 000 to R6 400 000.
   R2 000 000 was redirected from IUDG funding to the upgrade of gravel roads/ paving.
- An additional R2 500 000 was allocated to the budget of Computer Replacement Program. Budget grows from R2 000 000 to R 4 500 000 as a result of this. Funding is provided internal sources.
- The Elevated Water Tanks project Covid 19 project was awarded an additional R1 500 000 from the IUDG redirected grant.
- The Herlear 11kv switchgear project was reduced from R3 000 000 to R500 000 with funding provided from internal sources reflecting a downward adjustment of R2 500 000.

- The replacement of prepaid budget of R3 000 000.00 was adjusted downwards by R2 000 000 to R1 000 000. Funding is provided from CRR.
- The Impact of these Changes are the Following:
- CRR funding is reduced by R5 500 000 from R37 500 000 to R32 000 000
- NDPG funding increases from R20 000 000 to R27 912 397 as a result of the approved rollover of R7 912 397
- The WSIG is being reduced by R12 971 000 from R25 943 000 to R12 972 000, due funds being withheld from DWS.
- INEP funding is increased from R10 000 000 to R17 206 400 as a result of an approved rollover of R7 206 400
- Township establishment an additional R3 000 000 (R1 000 000 from internal funding and R2 000 000 redirected from IUDG)

# September 2020 – Covid-19 Adjustment budget

Indicated in table below is a high-level summary of the Total Capital expenditure budget.

The total Capex budget is adjusted upwards by R4,342 million form R154,456 to R158,798 million. The reduction of Transfer recognised – capital of R9,658 million is a result of the downward Covid-19 adjustment on the Integrated National Electrification Programme (INEP) as per the amended DORA. Additional funding for the completion of two internally funded projects to the amount of R14,000 million

Funding source	Original Budget	Increase (Decrease)	Adjusted Budget
EUROPEAN UNION (EU)	14,400,000	-	14,400,000
INTEGRATED NATIONAL ELECTRIFICATION PROGRAMME (INEP)	19,658,000	(9,658,000)	10,000,000
INTEGRATED URBAN DEVELOPMENT GRANT (IUDG)	50,955,000	-	50,955,000
INTERNALLY GENERATED FUNDS	23,500,000	14,000,000	37,500,000
NEIGHBOURHOOD DEVELOPMENT PARTNERSHIP GRANT (NDPG)	20,000,000	-	20,000,000
WATER SERVICES INFRASTRUCTURE GRANT (WSIG)	25,943,000	-	25,943,000
Grand Total	154,456,000	4,342,000	158,798,000

# 11.Conclusion

The municipality successfully completed the Budget verification process for the 2020/21 MTREF. Some minor misalignment issues were identified with mSCOA and data strings, specifically pertaining to Cash flow which the municipality is trying to resolve. The municipality continues on the right path in the implementation of mSCOA. The municipality's is experiencing some serious difficulties in respect of financial viability. This can only be countered through a collective effort of revising expenditure patterns by being prudent and conservative and truly consider the prioritisation of key objectives. Employing various means to collect outstanding debt and improving the collection rate. And ultimately creating a culture of payment, which starts with the municipality. In order for the municipality to thrive, overall performance must improve, the quality of services rendered must improve, accountability must be enforced, ensure that acts, regulations and policies are adhered to, enhance revenue collection and operational and capital funds are spent effectively with good value for money.

The onus is on the Executive Mayor and the Municipal Manager to ensure that this budget is implemented and delivers the expected outcomes as per the adjusted SDBIP which is included in Annexure B.

# **12. Other Supporting Documentation**

None

# 13. Municipal Manager's Quality Certification

**B** Dhluwayo, acting municipal manager of Sol Plaatje Local Municipality (NC091), hereby certify that the adjustment budget and supporting documentation have been prepared in accordance with the Municipal Finance Management Act and the regulations made under that Act, and that the adjustment budget and supporting documents are consistent with the Integrated Development Plan of the municipality.

1. Government Finance Statistics Functions and Sub-functions are standardised to assist the compilation of national and international accounts for comparison purposes

2. Total Revenue by standard classification must reconcile to Total Operating Revenue shown in the Adjustments Budget Financial Performance (revenue and expenditure)

3. Total Operating Expenditure by standard classification must reconcile to Total Operating Expenditure shown in the Adjustments Budget Financial Performance (revenue and expenditure)

4. All amounts must be classified under a standard classification (modified GFS). The GFS function 'Other' is only for Abbatoirs, Air Transport, Markets and Tourism - and if used must be supported by footnotes.

Nothing else may be placed under 'Other'. Assign associate share to relevant classification

5. Only complete if a previous adjusted budget has been approved in the same financial year. Reflect most recent adjusted budget.

6. Additional cash-backed accumulated funds/unspent funds (MFMA section 18(1)(b) and section 28(2)(e)) identified after the Original Budget approved and after annual financial statements audited (note: only where underspending could not reasonably have been foreseen)

7. Increases of funds approved under MFMA section 31

8. Adjustments approved in accordance with MFMA section 29

9. Adjustments to transfers from National or Provincial Government

10. Adjusts. = 'Other' Adjustments proposed to be approved; including revenue under-collection (MFMA section 28(2)(a)); additional revenue appropriation on existing programmes (section 28(2))(b); projected savings (section 28(2)(d)); error correction (section 28(2)(f))

References

1. Positive cash balances indicative of minimum compliance - subject to 2

2. Deduct applications (defined) from cash balances

3. Indicative of sufficient liquidity to meet average monthly operating payments

4. Indicative of funded operational requirements

5. Indicative of adherence to macro-economic targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)

6. Realistic average cash collection forecasts as % of annual billed revenue

7. Realistic average increase in doubtful debt provision

8. Indicative of planned capital expenditure level & cash payment timing

9. Indicative of compliance with borrowing 'only' for the capital budget - should not exceed 100% unless refinancing

10. Substantiation of National/Province allocations included in budget

11. Indicative of realistic current arrear debtor collection targets (prior to 2003/04 revenue not available for high cap municipalities and later for other capacity classifications)

12. Indicative of realistic long term arrear debtor collection targets (prior to 2003/04 revenue not available for high cap municipalities and later for other capacity classifications)

13. Indicative of a credible allowance for repairs & maintenance of assets

14. Indicative of a credible allowance for asset renewal (requires analysis of asset renewal projects as % of total capital projects - detailed capital plan)

References

1. Each grant is listed by name as gazetted together with the name of the transferring department or municipality, donor or other organisation

2. Amounts actually **RECEIVED**; not revenue earned (the objective is to confirm grants allocated)

3. Replacement of RSC levies

4. Housing subsidies for housing where ownership transferred to organisations or persons outside the control of the municipality

5. Motor vehicle licensing refunds to be included under 'agency' services (Not shown here as Receipts)

6. Total Grant Receipts original budget must reconcile to budget supporting table A18

7. Only complete if a previous adjusted budget has been approved in the same financial year. Reflect most recent adjusted budget.

8. Increases of funds approved under section 31 MFMA

9. Adjustments to funding allocations from National or Provincial Government

10. Adjusts. = 'Other' Adjustments proposed to be approved; including revenue under-collection (MFMA section 28(2)(a)); error correction (section 28(2)(f)); functional shifts and any adjustments made under delegation by the AO since the budget was approve

11. E = B + C + D

12. Adjusted Budget F = (A or A1/2 etc) + E
