## PART 1 – IN-YEAR REPORT

TO: THE EXECUTIVE MAYOR

**DIRECTORATE: FINANCIAL SERVICES: BUDGET & TREASURY OFFICE: MUNICIPAL FINANCE MANAGEMENT ACT (MFMA): SECTION 71: IN-YEAR MONTHLY BUDGET STATEMENT FOR THE PERIOD ENDING 31 AUGUST 2021**

### 1. Purpose

The purpose of this report is to comply with section 71 of the MFMA and the requirements as promulgated in the Government Gazette No 32141 of 17 April 2009 by the submission of a monthly budget statement to the Executive Mayor, National and Provincial Treasury containing prescribed financial performance particulars for that reporting month and for the financial year up to the end of that month, as legislated.

The Covid-19 pandemic did not bode well for the municipality's finances which was already under severe strain and further exposed the vulnerability of the municipality's cash position. The municipality would like to thank all our clients who still continued to settle their outstanding municipal accounts during this difficult period. The municipality realises once again, the critical importance of having a minimum 3 months cash coverage which is a sound directive and required norm from National Treasury. This has been the focus of the municipality for the past few months to ensure that Sol Plaatje Municipality recovers fully to ensure its sustainability and financial viability. The municipality's main goal is to remain positive and committed in stabilising the municipality, improving its cash position and improving on service delivery. The re-instatement of the Chief Financial Officer and the Municipal Manager, effective 23 August 2021 will positively contribute to the stabilization of the municipality and improved accountability.

In order for the municipality to thrive, overall performance must improve, the quality of services rendered must improve, accountability must be enforced, serious consideration should be given to the service delivery and financial implications of all decisions taken, ensure that acts, regulations and policies are adhered to diligently, enhance revenue collection and ensure that operational and capital funds are spent effectively with good value for money.

Improving on preventative maintenance and spending funds cost-effectively and efficiently to address service delivery challenges. Ensure assets are maintained at desired levels and are being utilised optimally. The spending of funds will have to be prioritised, wastage be curbed and overall personnel performance and productivity be monitored and improved. Municipal officials should also take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure. Refrain from committing acts of financial misconduct and/or criminal offences as per Chapter 15 of the MFMA.

It is imperative that all municipal officials must have the inherent desire to do their job to the best of their ability, take pride and ownership in their work, take accountability for their job functions, doing the right thing consistently and work as a collective, cohesive team to achieve the municipality's strategic objectives. Foremost to all of these, have the community's best interest at heart.

### 2. Vision of Sol Plaatje Local Municipality

*“Sol Plaatje Local Municipality, **“Moving towards a leading and a modern city”**”*

### 3. Background

Section 71 of the MFMA and in terms of Government Notice 32141 dated 17 April 2009, regarding the “Local Government: Municipal Finance Management Act 2003 and the Municipal Budget and Reporting Regulations” necessitates that specific financial particulars be reported on and in the format prescribed, hence this report to meet legislative compliance.

“The monthly budget statement of a municipality must be in the format specified in Schedule C and include all the required Tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168(1) of the Act.”

Further, Section 71 of the MFMA requires that, “the accounting officer of a municipality must by no later than **10 working days** after the end of each month submit to the Mayor of the municipality, and the relevant national and provincial treasury, a statement in the prescribed format on the state of the municipality's budget reflecting certain particulars for that month and for the financial year up to the end of that month.” For the reporting period ending **31 August 2021**, the ten working day reporting limit expires on **14 September 2021**.

Retirement of the Budget reform returns. As per MFMA Budget Circular No. 94 “from 2019/20 onwards, municipalities will no longer be required to continue with the use of the Budget Reform Returns to upload budget and monthly expenditure to the National Treasury Local Government Database for publication purposes. The National Treasury will use only the *m*SCOA data strings required for submission as prescribed and all publications will use the data collected from the *m*SCOA data strings” which must be submitted before or on **14 September 2021**, (ten working day limit).

### 4. Executive summary

The Statement of Financial Performance shown in Annexure A, Table C4, is prepared on the prescribed monthly C-schedules, detailing Revenue by source and Expenditure by type. The consolidated summary of the financial performance is indicated in Table 1 and Table 2 below:

Summary Statement of Financial Performance: YTD Budget					
Description R thousand (R'000)	YTD Budget August 2021	YTD Actual August 2021	Variance Favourable (Unfavourable)	% YTD Actual vs YTD Budget	% Variance Favourable (Unfavourable)
Total Revenue (excluding capital transfers and contributions)	394,285	505,024	110,738	128.1%	28.1%
Total Revenue (including capital transfers and contributions)	422,246	505,024	82,777	119.6%	19.6%
Total Operational Expenditure	390,832	179,881	(210,951)	46.0%	-54.0%

Table 1: Consolidated summary: Statement of Financial Performance: YTD Budget

As indicated in Table 1 above, as at 31 August 2021, the billed revenue excluding capital grants amounted to R505,024 million which resulted in a positive variance of 28.1% when compared to the YTD budget of R394,285 million. The billed revenue including capital grants resulted in a positive variance of 19.6% when compared to the YTD budget of R422,246 million. Capital grants will be recognised in the Statement of Financial Performance, once all conditions of the grant has been met and this will be finalised as part of year-end procedures. The Total Operational Expenditure resulted in a negative variance of minus 54.0%.

Summary Statement of Financial Performance: Original Budget					
Description R thousand	Original Budget	YTD Actual August 2021	Variance Favourable (Unfavourable)	% YTD Actual vs Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 16.67%
Total Revenue (excluding capital transfers and contributions)	2,365,711	505,024	307,881	21.3%	4.7%
Total Revenue (including capital transfers and contributions)	2,533,477	505,024	293,901	19.9%	3.3%
Total Operational Expenditure	2,344,984	179,881	(15,534)	7.7%	-9.0%

Table 2: Consolidated summary: Statement of Financial Performance: Original Budget

Indicated in Table 2 above is the YTD actual compared to the Original Budget. When calculating the ideal In-Year-Monitoring percentage of 16.67% [calculated as follow: (100/12 months x 2 months of the year)] as at the end of August 2021, the Total operational revenue excluding capital grants versus the Original Budget resulted in a satisfactory variance of 4.7%. The Total operational revenue including capital grants versus the Original Budget resulted in a satisfactory variance of 3.3%. Capital grants must still be recognised in the Statement of Financial Performance, once all conditions of the grant has been met and this will be finalised as part of year-end procedures. The Total Operational Expenditure resulted in a negative variance of minus 9.0%.

**Please note that certain Revenue by source and Expenditure by type categories are showing excessive negative and/or positive variances. This is due to fact that the YTD budgets were all systematically determined on a straight-line basis by dividing the total budget per category per line item by 12. The capital projections were also done in the same fashion. Please note that variances within a 5% range are acceptable and need not necessarily be explained.**

Table 3: Table C4 Financial Performance (Revenue)

## **Comparison against the YTD Budget**

- ❖ Property Rates is showing a positive YTD variance of 67.9%, as a result of the annual billing on Property rates.
- ❖ Service charges is performing satisfactorily for the month under review, however Refuse removal and Sanitation charges is showing an over-recovery, possibly as result of increased billing. The direct contributing factors to this, should also be analysed by the Billing section.
- ❖ Interest earned – External investments shows a negative variance of minus 130.5%, as a result of accrued interest revenue that was recognised in the 2020/21 financial year. It should be noted that investments have been declining year-on-year. Due to financial constraints the municipality could not increase its investments which largely contributes to the lower interest earned. The reduced interest rate by the Reserve bank, also has a negative impact on Interest earned. The bulk of the interest normally gets recognised at year-end.
- ❖ Interest earned on outstanding debtors is showing a negative variance of minus 27.7%. The Billing section will have to do a thorough investigation into the lower interest generated and ascertain that interest is being duly charged to all outstanding balances that should attract interest.
- ❖ Fines, penalties and forfeits is showing a negative variance of 79% as a result of the under-recovery of Law enforcements fines with a 1.23% achieved versus a target of R17,900 million. The unit is experiencing various challenges in terms of capacity and the process of the reconciliation of fines with the Department of Justice needs to improve. The Traffic department did not respond to the query raised in this regard. Penalties: Disconnection fees achieved an actual of 5.97% against an annual target of R16,000 million. The bulk blocking of prepaid meters, could not materialise as the municipality must remain cognisant of adhering to the Covid-19 regulations.
- ❖ Licences and permits is showing a positive variance of 56.3%, however there are possible outstanding payments due to the Department of Transport, Safety and Liaison. There is sometimes a delay in the timing of receipts and eventual transfer, especially towards month-end. The responsible employee for this function, retired recently and the unit is experiencing some change-over challenges in this regard. Hopefully this will improve going forward.
- ❖ The first tranche of the Equitable Share was received during July 2021, hence the over-recovery on Transfer and subsidies – operational.
- ❖ Capital grants are recognised in the Statement of Financial Performance at year-end, once all conditions of the grant have been met.

## **Comparison against Original Budget**

Based on the IYM percentage of 16.67%, the majority of revenue sources are performing satisfactorily.

- ❖ Property rates is showing an over-recovery, due to annual billing on Property rates.
- ❖ Service charges is performing satisfactorily.
- ❖ Interest from External Investments shows an unsatisfactory variance of minus 21.8%. Same factors are applicable as described in the paragraph above.
- ❖ Interest on outstanding debtors is showing a satisfactory variance of 4.6%. Same factors are applicable as described in the paragraph above
- ❖ Fines, penalties and forfeits is showing a negative variance of 13.2%. Same factors are applicable as described in the paragraph above.
- ❖ Licences and permits is showing a positive variance of 9.4%. Same factors are applicable as described in the paragraph above.
- ❖ The first tranche of the Equitable Share was received during July 2021, hence the over-recovery on Transfer and subsidies – operational.
- ❖ Transfers – recognised capital will be recognised in the Statement of Financial Performance at year-end, once all conditions of the grant have been met.

Also indicated in Chart 1 below is the weighting of the YTD Actual on billed Revenue per Source as a percentage of total operational revenue as at 31 August 2021. The main contributors of the municipality's revenue are Service Charges (43.9%), Property Rates (33.4%) and Transfers and subsidies (17.5%). The weighting per Revenue source is distorted due to the annual billing on Property rates and the receipt of the first tranche of the Equitable Share.

Table 4: Table C4 Financial Performance (Expenditure)

## **Comparison against YTD Budget**

As indicated in the Table 4 above, as at 31 August 2021 current expenditure shows an unsatisfactory variance of minus 54.0%, the YTD actual which amounted to R179,881 million against the YTD budgeted SDBIP target of R390,382 million.

- ❖ Employee related costs shows an unsatisfactory variance of minus 15%. Post-retirement benefit obligations are not factored in and will only be finalised as part of year-end procedures. There is also a soft lock on the filling of vacancies for the past few months. The majority of employees receive their 13<sup>th</sup> cheques (bonus) at the end of December.
- ❖ Remuneration of councillors is showing an under-expenditure of 12.9%. It should be noted that the gazette on the Determination of upper limits of salaries, allowances and benefits of different members of municipal councils for 2021/2022 financial year has not been issued. The gazette is normally issued during December of each year.
- ❖ Depreciation was projected for on a straight-line basis but will only be provided for, as part of year-end procedures.
- ❖ Debt impairment is provided for quarterly. The journal for the first quarter will be processed during September 2021.
- ❖ Expenditure on Contracted services is lower than anticipated, especially pertaining to Legal Cost Advice & Litigation which is 6.89% spent versus a budget of R7,065 million. Contr: Maintenance of Unspecified Assets is zero percent spent vs a budget of R5,000 million. There are no specific maintenance contracts in place. This line item was previously budgeted for the security contract, which has since expired. Prepaid Electricity Vendors is zero percent spent versus a budget of R25,500 million. It should be noted that the July 2021 invoice for Ontec (prepaid electricity vendor) was settled during September 2021. The August 2021 invoice is due on 30 September 2021 amounting to R2,746 million, being due to Ontec.
- ❖ Bulk purchases is showing unsatisfactory variance of minus 88.5%. The July 2021 account amounting to R104 million was due on 31 August 2021 and has not been captured on the system. The municipality had insufficient cash available to settle the account in full and it will be included in the new debt agreement that the municipality envisages to conclude with ESKOM for the 2021/22 financial year. The same scenario applies to the August 2021 account, amounting to R93 million. It should be noted that the budgeted amount for Bulk purchases: Electricity is R647 million. It should be noted that Bulk water with a budgeted amount of R114 million is erroneously included under Bulk Purchases Electricity. The municipality received communication from NT in respect of the treatment of Bulk water purchases and it will be corrected accordingly during the Adjustment budget. Bulk water is also understated because the municipality is still awaiting the July and August 2021 invoices from DWS. And have therefore, not been captured on the system.
- ❖ Transfers and subsidies shows a negative variance of 28.1%. A transfer of R550 thousand was made to the SPCA. Due to cashflow constraints the municipality opted to settle the R2,200 million in tranches as and when cash becomes available. Other grants also shows minimal movement due to cash flow constraints.
- ❖ Finance charges is showing a negative variance of 100%. It should be noted that finance charges are paid bi-annually and the first instalment is due on or before 31 December 2021. Interest on overdue accounts will be addressed in the Adjustment budget. Corrections on the actuals pertaining to Interest paid on overdue accounts will be journalised on the system. All Interest paid on overdue accounts must be recognized as Fruitless and Wasteful expenditure in the Annual Financial Statements.
- ❖ The expenditure on Other Materials is showing an unsatisfactory variance of 24.7%. It has been reiterated monthly that expenditure on Other materials needs to be monitored closely and remedial action be taken to ensure that funds are spent effectively and also that funds will be fully spent at year-end.
- ❖ During the 2019/20 Mid-year Budget Assessment the following factors were identified by the municipality that negatively affects the expenditure on Other materials

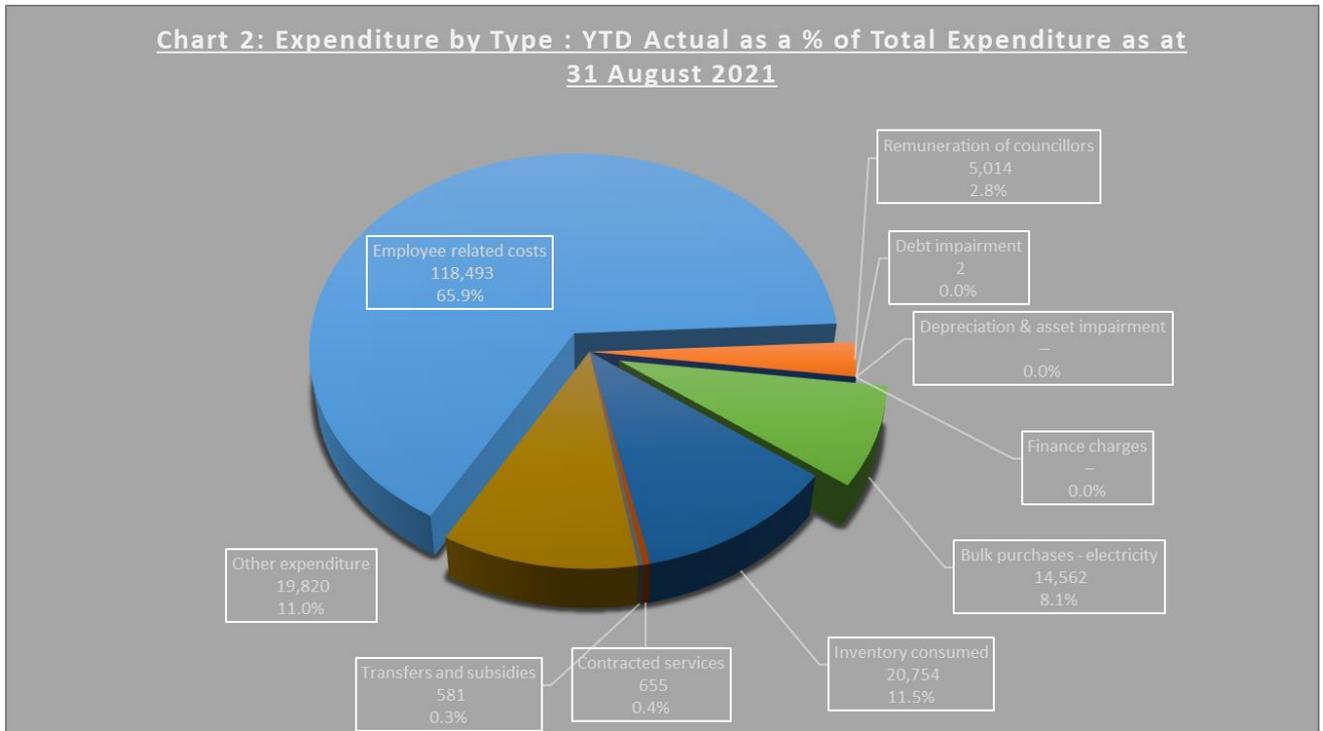

The possible root causes can vary from poor preventative maintenance strategies, poor planning, vehicles being at the Workshop for longer periods which is hampered by the availability of suitable parts, procurement processes exacerbated by a lack of valid tenders being in place for which the user departments are responsible for, clamping down on deviations and major works still outstanding for which proper procurement processes needs to be adhered to, and then prioritisation as a result of the cash flow constraints. It is advised that management finalise maintenance plans and implement these plans within the current financial constraints, ensure that remedial action be taken to improve on preventative maintenance and spend funds cost-effectively and efficiently to address service delivery issues and ensure assets are maintained at desired levels and are being utilised optimally. The spending of funds will have to be prioritised, wastage be curbed, overall personnel performance and productivity be monitored and improved.

### **Operating Expenditure by Type: Comparison against Original Budget**

Indicated in Table 4 above, is the YTD actual compared to the Original Budget. The ideal In-Year-Monitoring percentage as at the end of August 2021 is 16.67%. The total operational expenditure against the Original Budget is 7.7% spent, resulting in a variance of minus 9.0%.

- ❖ Employee costs and Councillors remuneration is showing a satisfactory variances of 2.5% and 2.2%, respectively. Same factors are applicable as explained above.
- ❖ Depreciation will be provided for at year-end.
- ❖ Finance charges are paid bi-annually and show an unsatisfactory variance of minus 16.67%, same factors are applicable as explained above.
- ❖ Debt impairment is provided for on a quarterly basis. The first quarter journal will be processed during September 2021.
- ❖ Expenditure on Contracted services is lower than anticipated, same factors are applicable as explained above.
- ❖ Transfers and grants is unsatisfactory with a variance of minus 4.7%. The same factors are applicable as explained in the paragraph above.

**Chart 2: Expenditure by Type : YTD Actual as a % of Total Expenditure as at 31 August 2021**

**Chart 2: Expenditure by Type: YTD Actual as a percentage of Total Expenditure**

Also indicated in Chart 2 above is the weighting of the YTD Actual on Expenditure by Type as a percentage of total operational expenditure as at 31 August 2021. The main cost drivers of the municipality are Employee Related Costs, Debt Impairment and Bulk Purchases. It should be noted that these percentages are distorted as a result of the following:

- ❖ The Post-retirement benefit obligations under Employee related costs will be finalized as part of the year-end procedures. The softlock on filling of vacancies also plays a role.
- ❖ Depreciation is not provided for and will only be finalized at year-end.
- ❖ Debt impairment is provided for quarterly. The first quarter journal will be processed during September 2021.
- ❖ Interest on external borrowing is paid bi-annually.
- ❖ Non-capturing of Electricity bulk purchases invoice for July 2021. The municipality is still awaiting the July and August 2021 accounts from DWS.

## **Bulk Purchases and Inventory - Water**

- ❖ Indicated in Table 5 below, is the YTD expenditure on Bulk Purchases Electricity and Water. When compared to the IYM percentage of 16.67% as at end of August 2021, Bulk Purchases Electricity is showing a negative variance of 14.5% as a result of the July 2021 bulk electricity accounts not being captured on the system. The municipality does not have sufficient cash reserves to settle this invoice in full.
- ❖ Bulk purchases – Water is showing a negative variance of 16.2% when compared to the ideal percentage of 16.67%. The municipality is awaiting the July and August 2021 bulk water invoice from DWS. The municipality does not have sufficient cash reserves to settle these invoices in full. The YTD movement of R507 thousand relates to Interest on overdue account for July 2021. This will be journalised to the correct line item. The budget will be corrected during the Adjustment budget.

Table 6: Summary of outstanding Bulk costs debt

Indicated in Table 6 above, is the total outstanding debt owed to ESKOM amounting to R323,277 million and DWS amounting to R79,176 million. It should be noted that the total debt due to DWS needs to be concurred with the department. The current account due to ESKOM is R93 million. The arrear debt of R230,257 million pertains to the unpaid account of May 2021 (R45m), June 2021 (R79m) and July 2021 (R104m). The municipality did not have sufficient cash to settle the outstanding accounts due to ESKOM. For the month of August 2021, the municipality settled an amount of R18,165 million on the arrear debt owed to ESKOM. The municipality is awaiting the invoice from the DWS for July and August 2021. Challenges pertaining to the debt owed to DWS. Firstly, due to cash flow constraints, the municipality could not settle the December 2020 to March 2021 invoices. Secondly, the municipality also defaulted on the payment arrangement, due to insufficient cash available and the debt due to ESKOM took preference as a result of the intention of ESKOM to suspend electricity supply to the municipality. For the month of August 2021, the municipality settled an amount of R9,795 million on the arrear debt owed to DWS. For the 2021/22 financial year, the total year to date interest charged on overdue accounts amounts to R3,225 million for ESKOM. Interest for DWS amounted to R507 thousand for July 2021. The municipality envisages to enter into a new debt agreement with ESKOM, once the billing for August 2021 has been finalized. The debt agreement for 2020/21 has been settled in full. The municipality also envisage to enter into a new debt agreement with DWS for the current financial year.

Table 7: High level summary: Capital Expenditure

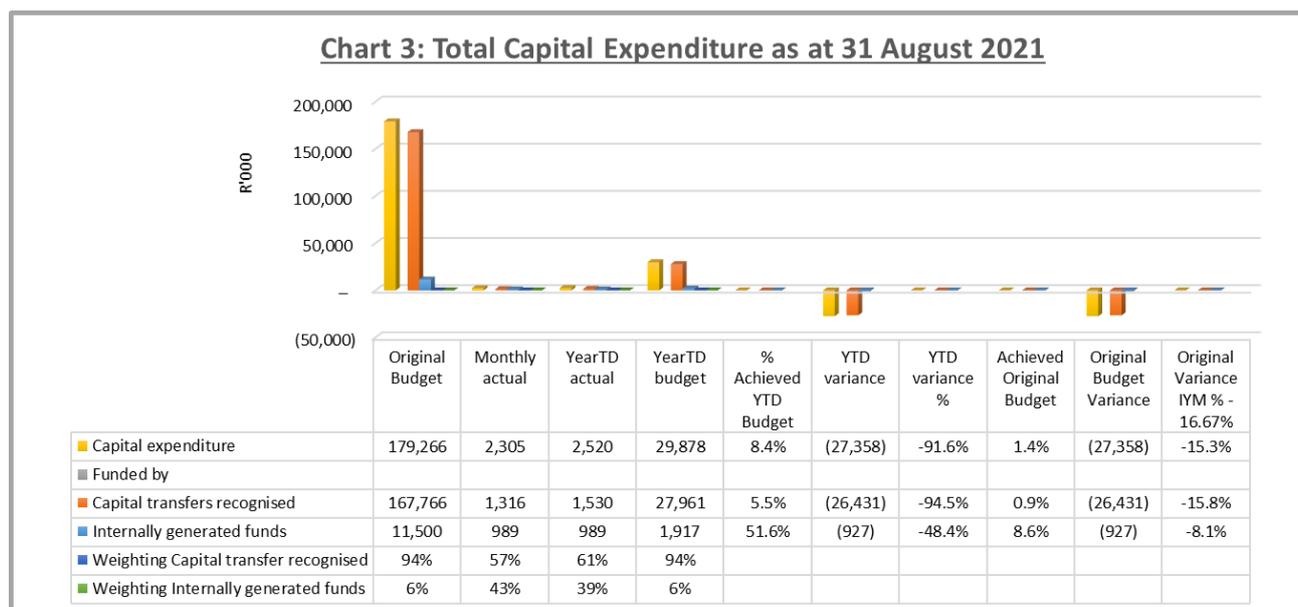

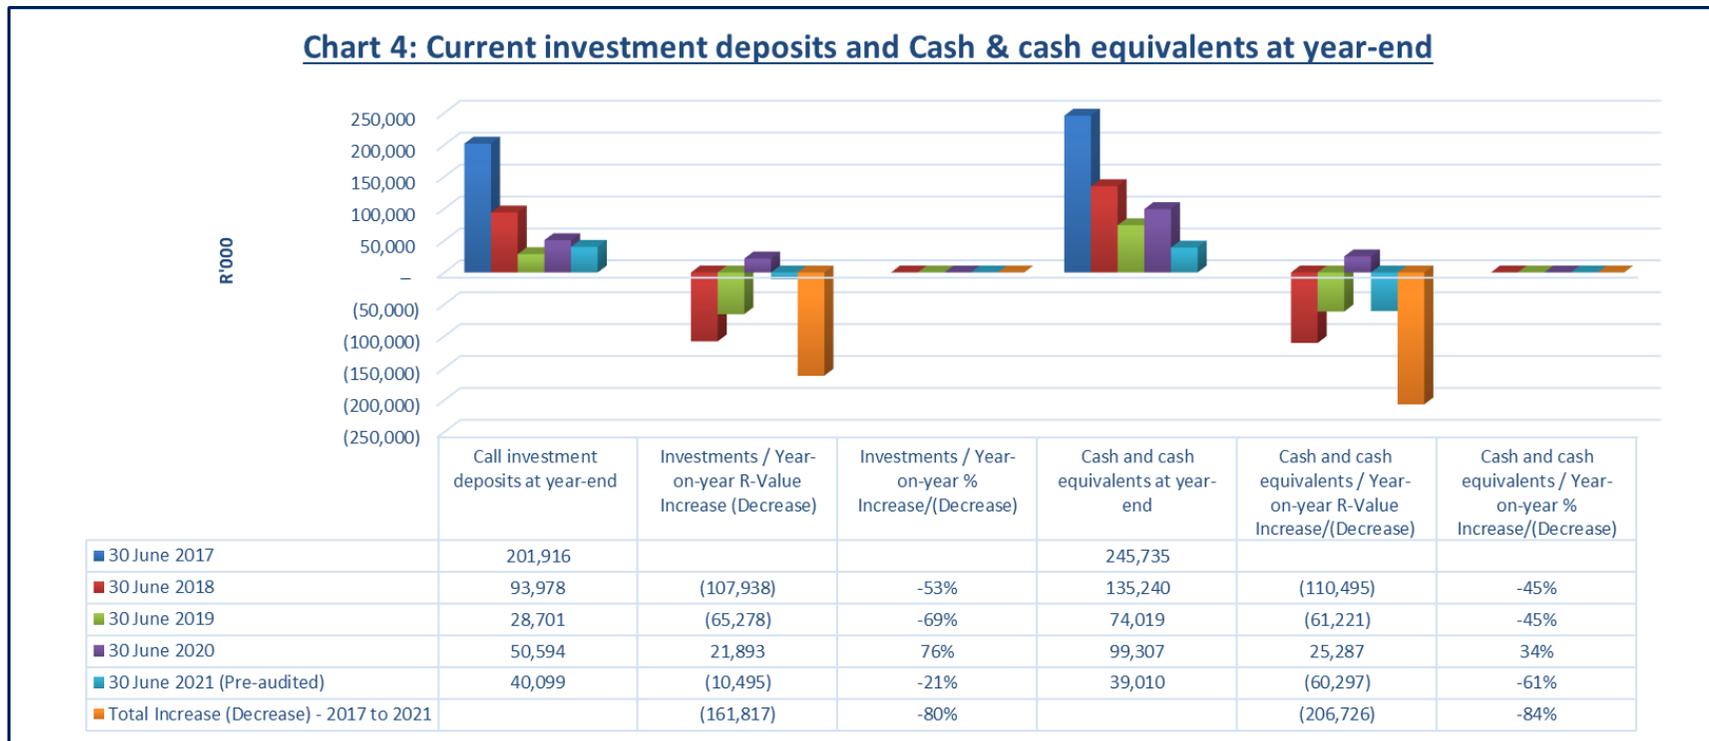

Chart 3: Total Capital expenditure

As indicated in the Table 7 and Chart 3 above, the YTD Actual on capital expenditure as at end of August 2021 amounted to R2,520 million and 4.4% spent when compared to the YTD budget of R29,878 million and 1.4% spent when compared to the Original Budget of R179,266 million. The total YTD capex is funded from Capital transfers R1,530 million (61%) and Internally generated funds R989 thousand (39%). Capex is extremely low and this should improve going forward. Planning of project managers also needs to improve going forward. One of the major challenges that the municipality is experiencing is in respect of tendering processes. The majority of capital projects are based on a functionality criteria. Bidders either do not meet the functionality criteria or submit incomplete tender documents resulting in bidders being non-responsive. And due to the non-responsiveness of bidders, these bids unfortunately have to be re-advertised. The municipality has been implementing more compulsory site meetings to sensitise service providers on the compliance issues pertaining to bid documents. Secondly, project managers need to realistically anticipate challenges and immediately address delays in order to ensure that projects are completed within the specified timeframe. Contract management also needs to be monitored more closely, placing emphasis on the performance of appointed service providers and addressing issues of non-performance immediately. The Project Management Unit (PMU) is not adequately staffed, resulting in a lack of qualified permanently appointed project managers. Lastly, it is advised that disputes, if any are addressed and resolved expeditiously. The capital expenditure is slow and overall capital expenditure remains a major concern. Remedial action will have to be taken going forward to ensure improvement on capex. It should be noted that capital expenditure excludes VAT and commitments. The capital expenditure report shown in Annexure A, Table C5 has been prepared on the prescribed monthly C-schedule, and is categorised by municipal vote and functional classification.

#### 4.4 Cash flows

**Chart 4: Call investment deposits and Cash & cash equivalents at year-end**

Investments decreased by R107,938 million or 53% from 2017 to 2018. Investments decreased by R65,278 million or 69% from 2018 to 2019. Investments increased by R21,893 million or 76% from 2019 to 2020. Investments decreased by R10,495 million or 21% from 2020 to 2021. From 2017 to 2021, the total investments decreased by R161,817 million. The same trend can be seen year-on-year, as indicated in the chart above in respect of the Cash and cash equivalents. This is attributable to various factors inter alia, the lower collection rate, increased capital expenditure, especially increase on CRR funding year-on-year, the non-implementation of the basic charge for the 2018/19 financial year, increase in bulk purchases, operational expenditure, including excessive expenditure on Overtime and EPWP, variation orders on contracts, excessive water and electricity losses. And the servicing of the long-term loan. The decline in investments and Cash & cash equivalents is concerning and must be addressed by management.

**Chart 5: Call Investment Deposits incl Interest for the period ending 31 August 2021**

**Chart 5: Call investment deposits at month-end**

As indicated in the Chart 5 above from July 2021 to August 2021 investments incl interest increased by R153 thousand or 0.3%, in respect of the month-to-month comparison. Investments increased by R10,323 million or 25.7% when compared to the previous years' pre-audited balance of R40,099 million. Various commitments must be met monthly including Salaries, Bulk Electricity, Bulk Water in the billing period and capital expenditure. The majority of staff receive their annual bonuses in December of each year. Bi-annual long-term loan repayments. The non-charging of the basic charge for the 2018/19 financial year for domestic consumers also had a negative impact on the income from Sale of Electricity and thus negatively affecting the municipality's cash flow. The movement on investments should be monitored going forward and a concerted effort should be done to collect current and long outstanding debt. Capital and Operational expenditure overall, also needs to be reviewed and prioritised.

This chart could not be populated due to errors on the system pertaining to C6 (Statement of Financial Position) and C7 (Cash flow) that could not be resolved timeously.

**Chart 6.1: Cash & cash equivalents at month-end**

This chart could not be populated due to errors on the system pertaining to C6 (Statement of Financial Position) and C7 (Cash flow) that could not be resolved timeously.

**Chart 6.2: Cost coverage ratio**

The estimated average Cost coverage ratio is currently less than one week. Cash at this stage is monitored on a daily basis. The Cost coverage ratio is a serious key indicator that the municipality is in a severe cash flow crisis and not in the conducive position to settle short-term commitments. This is a critical threat to the municipality's ability to pay salaries, bulk accounts and day-to-day operations which can have a detrimental effect on service delivery and irrevocably damage the municipality's relationship with its service providers and further tarnishing the municipality's reputation. The only way to address these issues, is to work as a collective, enforce accountability within all departments and to collect outstanding debt. Collect outstanding debt and improve the collection rate. The municipality also needs to spend funds effectively and efficiently with good value for money. Cost containment measures must be stringently applied.

Indicated in Table 8 above, is the total outstanding debt by Income Source and Customer Group, with the total O/S Debt amounting to R2,650,702 billion as at the end of August 2021. The Credit control office implemented the following contingencies. In the light of current cash flow and very low cashier collection at points, we resumed disconnection and blocking of institutions, businesses and Government Departments without valid arrangements or not in discussions with, effective immediately. Bulk blocking of prepaid meters is hampered due to Covid-19 regulations. On a weekly basis, the municipality also focuses on the Top Ten accounts for all debtor groups. Water and lights (long outstanding queries and Interims), Rates (long outstanding Interims) are also dealt with. The Call Centre also do courtesy calls to the most paying customers, as a means to improve customer satisfaction.

#### Specific action – Covid-19

**Sol Plaatje (NC091): Monthly Budget Statement: August 2021**

Chart 7 below, depicts the month-on-month summary of Debt over 90 days as a percentage of total O/S Debt from July to August 2021 decreased from 86% to 84% for the period under review. Debt over 90 days increased by R40,231 million in respect of the month-to-month comparison. The month-on-month increase on Total O/S debtors amounted to R57,088 million. It is concerning that total debt over 90 days is hovering at an average of 85%. During the Original Budget funding assessment for 2019/20, NT advised that the municipality should consider writing off debtors that we know we are not realistically going to collect. To this end, the amounts written off as uncollectable amounted to R403,262 million for the year ended 30 June 2020. For the year ended 30 June 2021, the amounts written off as uncollectable amounted to R330,209 million. The total amounts written off as uncollectable for the two financial years amounts to R733,470 million.

Indicated in Chart 8 above, is the total outstanding debt per Income Source, including the weighting and the percentage of Total Debt over 90 days as at the end of August 2021. The highest percentage weighting of debt owed is attributable to:

- ❖ Receivables from Non-exchange Transactions - Property Rates at 28%
- ❖ Interest on Arrear Debtor Accounts 23%, and
- ❖ Trade and Other Receivables from Exchange Transactions – Water at 19%

The highest percentage weighting of debt owed in excess of 90 days is attributable to:

- ❖ Receivables from Exchange Transactions - Property Rental Debtors at 96%
- ❖ Interest on Arrear Debtor Accounts at 94%;
- ❖ Other 92%

Table 9: Month-on-month growth in outstanding debtors

Indicated in Table 9 above is the month-on-month growth in outstanding debt, per Income Source and per Customer Group from July to August 2021, the municipality's total O/S debt increased by 2.2% or R57,088 million.

#### O/S debt per Income Source

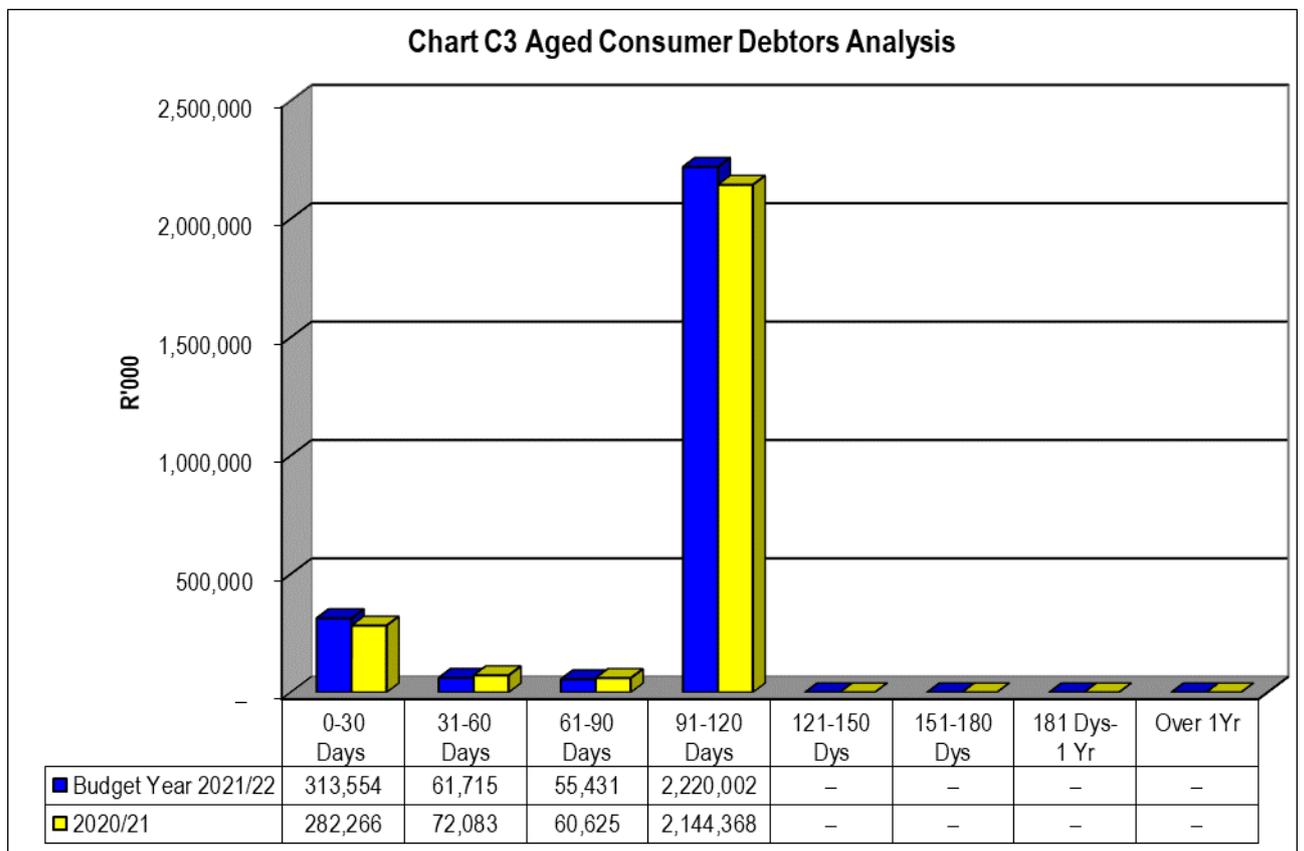

- ❖ Trade and Other Receivables from Exchange Transactions - Water increased by 3.4%.
- ❖ Trade and Other Receivables from Exchange Transactions - Electricity increased by 6.0%.
- ❖ Receivables from Non-exchange Transactions - Property Rates increased by 1.2%.
- ❖ Receivables from Exchange Transactions - Waste Water Management increased by 1.9%;

**Chart 11: Debtor's Age Analysis per Customer Group as at 31 August 2021**

**Chart 11: Debtor's Age Analysis per Customer Group**

Chart 11 above, illustrates that the bulk of SPM debt is aged over 90 days with a total weighting of 84%. An analysis revealed that the catalysts for this condition are the sheer volume of accountholders in arrears, the poor economic circumstances of a large number of our accountholders, and the increasing cost of services beyond the Municipality's control. This is compounded by the large number of water leaks that go unreported which causes the accountholder's account to escalate beyond their means to pay. In addition to this, there is a substantial portion of irrecoverable, stagnant debt that attracts interest every month. We have a backlog of processing this debt and submitting this to Council for approval to write off. We have revised our policies to make our processes more effective. This will allow us to focus on preventing debt from ageing where possible in tracing and updating our debtors' information and of course recovering outstanding amounts. We anticipate a marked turnaround of this trend and in conjunction with a concerted effort to retard the escalation of ageing debt, we are focusing on improving the accuracy and regularity of our billing as well as our communication with our accountholders. Indigent verification is a continuous process and we are encouraging accountholders whose households qualify, to approach the Municipality for an assessment and possible registration as an Indigent Household. The benefits of this are the provision of free basic services and assistance with arrear debt owed to the Municipality. The Covid-19 pandemic also adversely affected consumer's ability to pay, this is evident by the average monthly collection rate of 69%. The municipality has been providing additional incentives to assist consumers to settle their arrear accounts.

## Revised collection rate

As per Table 10 below, when taking into consideration what was billed in July 2021 and received in August 2021, the monthly collection rate is 41%. This is attributable to the annual billing on Property rates. Indicated in Table 11 below is the revised average collection of 72.4% for the period under review. The average collection is distorted due to the annual billing of Property rates. The actual Rand-value billed for July 2021, is R78m and was subsequently deducted from the YTD Actual on Property rates. The annual billing is effectively deducted from the YTD billing on Property rates, to portray a more realistic picture of the average collection rate. When considering the average collection rate, various factors are taken into account, like the receipts on Prepaid Electricity, unallocated credits, etc. The YTD billing on Property Rates and Service Charges are obtained from the general ledger. Billing on Other is obtained from the BS902 report (Debits Raised Versus Payments). The BS566 report (Payments per Service per Day/Period) includes all monies received from 1 August to 31 August 2021. Unallocated credits are obtained from the cashbook. Government in particular and businesses/households that opt to get billed annually, have until the end of September/October 2021 to settle their outstanding accounts.

Table 16: Supporting Table SC6: Transfers and grant receipts

The following Operational grant monies were received for the month under review.

FMG – R1,650 million

FBDM – R3,000 million for Environmental Health services. The budget will be corrected during the 2021/22 Adjustment budget.

EPWP – R969 thousand

No Capital grant monies were received for the month under review. However, for WSIG an amount of R6,180 million was recognized for expenditure that was incurred in 2020/21 financial year. Funding for 2020/21 was reduced and depleted close to year-end and work has been performed by the service provider and the municipality was obligated to settle these certificates. Progress on the project could not be halted, due to the critical work and service delivery impact and to avoid incurring

costs for down time. DWS granted permission to use a portion of the WSIG funding for 2021/22 for this purpose.

Table 17: Supporting Table SC7(1): Transfers and grant expenditure

The municipality is experiencing huge challenges in respect of funding for the EPWP which is not sufficient and this is putting strain on the municipality's finances. The total YTD expenditure is standing at R2,796 million. For reporting purposes to NT and the Dept of Public Works, the municipality is only expected to report up until the allocation amount. The current years' gazetted allocation for the EPWP is R3,362 million. In addition to this, the municipality budgeted R6,000 million for this programme. Management has been in a process of reviewing this programme. The YTD expenditure on operational grants is satisfactory. .

Table 18: Summary of expenditure per grant

As indicated in Table 18 above, the YTD expenditure amounts to R1,530 million or 0.9% spent against the Original capital grant allocation of R167,766 million. Capex is usually slow for the first quarter mainly as a result of finalization of procurement processes. It should be noted that grant expenditure excludes VAT which will be recognized at year-end in the Statement of Financial performance, when all conditions of the grant have been met. Please refer to Section 4.3 in the Executive Summary which highlight some of the factors that negatively influences the delay in grant expenditure.

### **Rollover Grants: Expenditure**

A rollover request was submitted to NT on 31 August 2021 as directed by NT.

[Table 19: Supporting Table SC7\(2\) - Expenditure against approved rollovers](#)

Table 19 is excluded due to the awaited outcome from NT pertaining to the rollover request.

Table 20: Supporting Table SC8: Councillor and staff benefits

As depicted in Table 19 above, Employee related costs is performing unsatisfactory with a variance of minus 15%. Post-retirement benefit obligations will be finalized as part of the year-end procedures. The variance is also attributable to the softlock on the filling of vacancies. It should be noted that the disclosure under Performance bonus, is the annual bonuses or 13<sup>th</sup> cheques that is budgeted for and paid out to employees. This is not subject to any performance appraisal. Councillors Remuneration is slightly under-performing at minus 13%. The annual increase has not been factored in, as the gazette on the Determination of Upper limits of salaries, allowances and benefits of different members of municipal councils is normally issued in December of each year. Management started to address the issues on Overtime which is higher than the ideal IYM percentage of 16.67%, at 27.33% spent. Backpay was paid to firemen at Emergency Services backdated from December 2019. The total amount paid out during July and August 2021 was R1,923 million. There is possibly a mapping error because as per SC(8) the budgeted Overtime is reflecting an amount of R4,146 million for Night-shift allowance and the two line items (Overtime Structured and Non-structured) in the ledger amounts to R31,021 million. This will be clarified with

BCX, our financial system administrator and NT, if needed. There are early indicators that the Overtime controls is no longer as effective and the desired outcome to remain within budget, will not be achieved at year-end. The lack of capacity in certain departments, like Water services and the severe service delivery challenges is negatively impacting on the management of Overtime expenditure. Overtime hours are limited to 30 hours per month within most departments. The Overtime policy was developed and approved by Council.

And indated in Table 21 below, is the YTD Overtime expenditure excluding Night-shift allowance per line item and also per Directorate as at end of August 2021.

Table 21: Current YTD Overtime expenditure excl Night-shift allowance

Overtime has been capped at 30 hours across most units within the municipality. The YTD Overtime expenditure is R8,478 million and 27.33% spent, resulting in a negative variance of 10.66%.

The BTO office recommended the following precautionary measures.

- The monitoring of daily tasks/assignments. This means that work that can be done during normal working hours should be monitored closely. Ideally, put emphasis on performance and especially the quality of work done.
- Finding means to actually verify work performed, even if this means that for the first few questionable overtime work that managers/supervisors actually go out to the site, if possible.
- Using the vehicle tracking reports to ascertain the timespan at a particular site.
- Making sure that the hours claimed are legitimate and is actually consistent and correlates to the normal estimated time to complete a job of a similar nature.
- Request a detailed description of the nature of work done and insist on the exact site where work was performed being specified.
- Ensure that managers remain vigilant and question hours claimed and not just sign Overtime forms. We believe that this will make workers more aware that they cannot just claim hours like they did in the past.
- Stopping planned Overtime, unless it is to avoid major shutdowns or service interruptions.
- The adherence to the Overtime Policy stipulations, is imperative in order to address the issues on overtime.

Listed below are the challenges with regard to Overtime which was identified during the 2012/13 MTREF

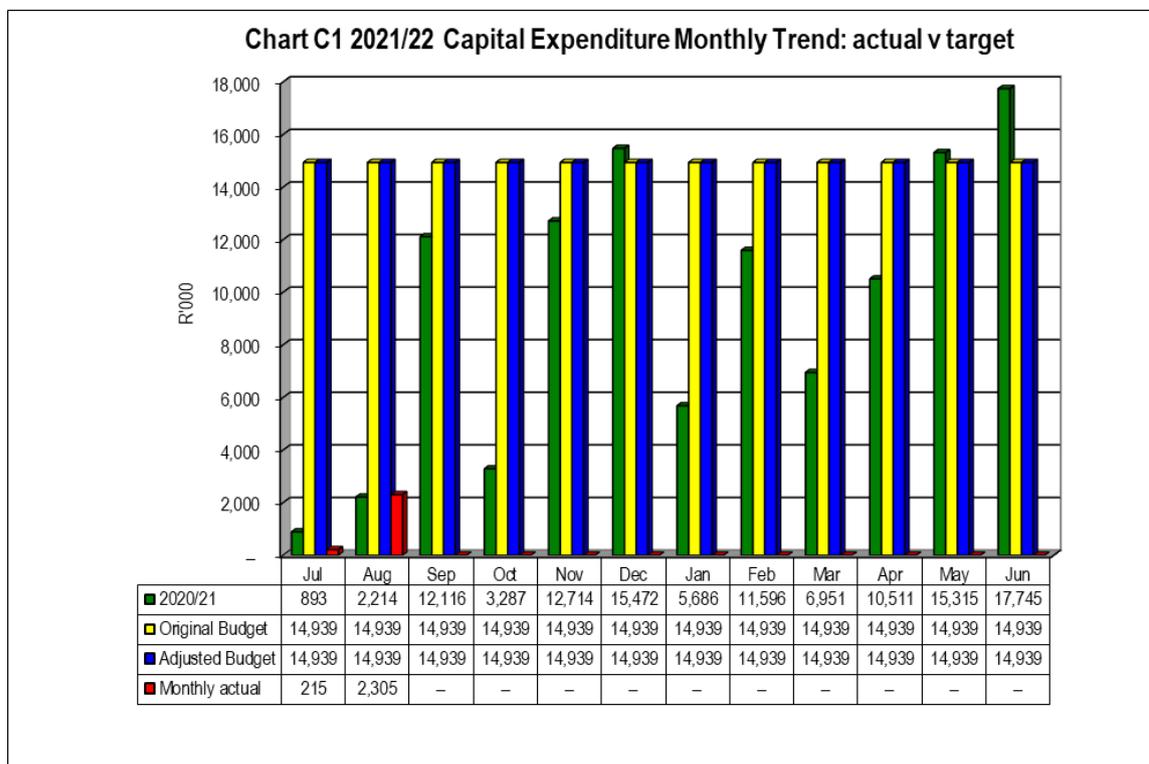

- Ensuring accountability across all directorates and ensuring that Executive directors, Line Managers and Supervisors take full responsibility
- Identify and investigate possible abuse and alleged fraudulent allegations and taking disciplinary action, where applicable
- Ensuring the compliance and adherence to applicable laws and regulations and internal policies
- Approval of Overtime prior to it being incurred
- Inability to manage overtime proactively
- To remain within the budgeted Overtime
- Curbing / Limiting / Curtailing expenditure on Overtime
- Monitoring expenditure on Overtime
- Utilizing the available workforce optimally
- Unduly compromising or hampering service delivery, which basically means that work that could have been done during normal hours is deliberately delayed so that work can be finalized after hours
- Implementing an alternative method of compensation
- Addressing the immediate infrastructure maintenance requirements, specifically addressing preventative maintenance
- Ensuring and enhancing the lifespan of Property, plant and equipment
- Improve both the personal productivity of individual employees and the overall productivity of departments and the entire municipal system
- Difficult to track departmental overtime on more than a monthly or even quarterly basis, by then it's too late to take meaningful action to minimize overtime costs

## 11. Material variances to the service delivery and budget implementation plan

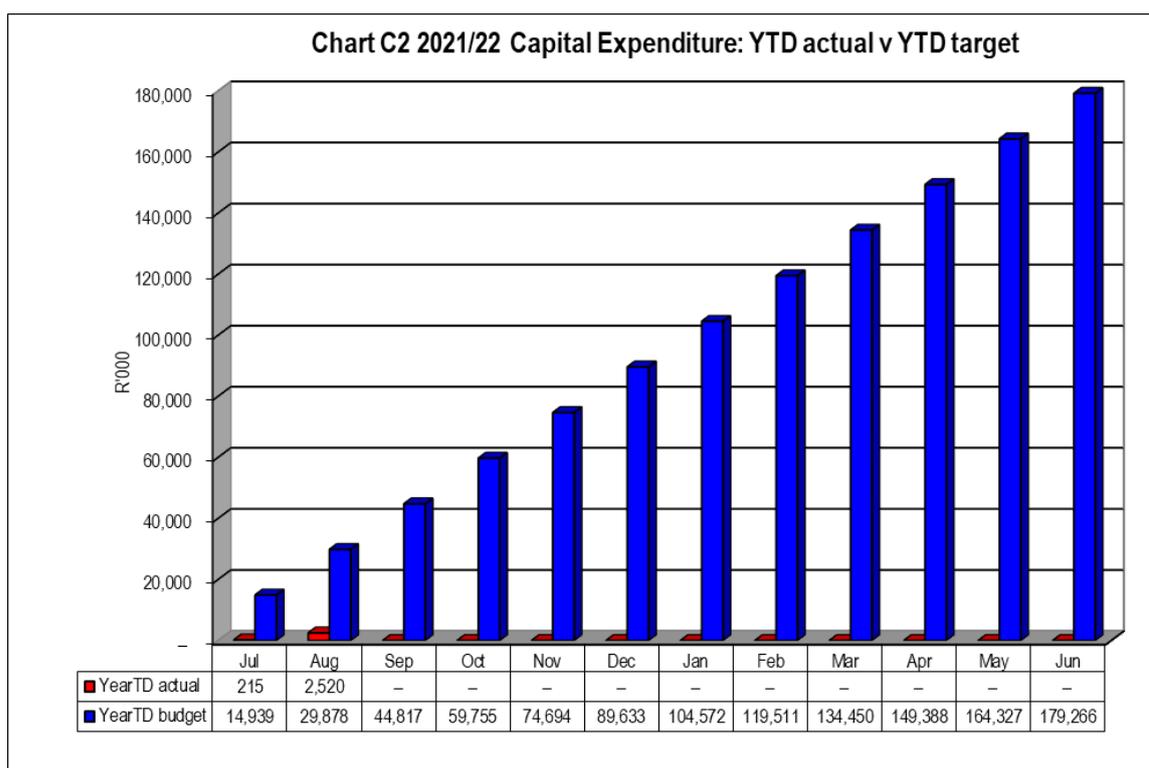

Material variances are primarily addressed in the Executive summary under Sections 4.1 to 4.3 or emphasised elsewhere in this Monthly Budget Statement. Any other material variances to the SDBIP will be included in the quarterly Section 52 (d) report for the period ending 30 September 2021.

## 12. Capital programme performance

Please refer to notes on Capital Expenditure in the Executive Summary. Section 4.3.

The actual monthly expenditure for August 2021 amounted to R2,304 million. The total YTD Capex amounted to R2,520 million. Total commitments amounts to R5,945 million. Table 23: Summary of capital expenditure per funding source

Indicated in Table 23 above, is a summary of the capital expenditure per funding source compared to the Original budget. Overall spending on grants is extremely slow. The expenditure on IUDG (0.6%), NDPG (0%), INEP (0.4%) and WSIG (3.5%). Spending on Internally generated funds is close to 8.6% spent. Implementation of projects is possibly delayed by the finalization of procurement processes. Payment certificates are settled once work is completed.
