SLA -Service Level Agreement
SMME - Small, Medium and Micro Enterprises
SPCA - Society For The Prevention Of Cruelty To Animals
SPLM - Sol Plaatje Local Municipality
VAT – Value Added Tax
YTD – Year to date
WRM - Water Resource Management
WRL - Water Research Levy
WSIG – Water Services Infrastructure Grant

PART 1: IN-YEAR REPORT

TO: THE EXECUTIVE MAYOR

DIRECTORATE: FINANCIAL SERVICES: BUDGET & TREASURY OFFICE: MUNICIPAL FINANCE MANAGEMENT ACT (MFMA): SECTION 71: IN-YEAR MONTHLY BUDGET STATEMENT FOR THE PERIOD ENDING 31 JANUARY 2022

1. Purpose

The purpose of this report is to comply with section 71 of the MFMA and the requirements as promulgated in the Government Gazette No 32141 of 17 April 2009 by the submission of a monthly budget statement to the Executive Mayor, National and Provincial Treasury containing prescribed financial performance particulars for that reporting month and for the financial year up to the end of that month, as legislated.

The Covid-19 pandemic did not bode well for the municipality's finances which was already under severe strain and further exposed the vulnerability of the municipality's cash position. The municipality would like to thank all our clients who still continued to settle their outstanding municipal accounts during this difficult period. The municipality realises once again, the critical importance of having a minimum 3 months cash coverage which is a sound directive and required norm from National Treasury. This has been the focus of the municipality for the past few months to ensure that Sol Plaatje Municipality recovers fully to ensure its sustainability and financial viability. The municipality's main goal is to remain positive and committed in stabilising the municipality, improving its cash position and improving on service delivery. The re-instatement of the Chief Financial Officer and the Municipal Manager, effective 23 August 2021 is proving to be contributing positively to the stabilization of the municipality and improved accountability.

In order for the municipality to thrive, overall performance must improve, the quality of services rendered must improve, accountability must be enforced which must be complimented by strict consequence management. Serious consideration should be given to the service delivery and financial implications of all decisions taken, ensure that acts, regulations and policies are adhered to diligently, enhance revenue collection and ensure that operational and capital funds are spent effectively with good value for money.

Improving on preventative maintenance and spending funds cost-effectively and efficiently to address service delivery challenges can no longer be delayed, we have noted an increase in emergency maintenance which seems excessive as no competitive bidding taking as a result of the impact of asset failure on service delivery. We are striving to ensure assets are maintained at desired levels and are being utilised optimally. The spending of funds will have to be prioritised, wastage be curbed and overall personnel performance and productivity be monitored and improved. Municipal officials should also take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure. Refrain from committing acts of financial misconduct and/or criminal offences as per Chapter 15 of the MFMA.

It is imperative that all municipal officials must have the inherent desire to do their job to the best of their ability, take pride and ownership in their work, take accountability for their job functions, doing the right thing consistently and work as a collective, cohesive team to achieve the municipality's strategic objectives. Foremost to all of these, have the community's best interest at heart.

2. Background

Section 71 of the MFMA and in terms of Government Notice 32141 dated 17 April 2009, regarding the “Local Government: Municipal Finance Management Act 2003 and the Municipal Budget and Reporting Regulations” necessitates that specific financial particulars be reported on and in the format prescribed, hence this report to meet legislative compliance.

“The monthly budget statement of a municipality must be in the format specified in Schedule C and include all the required Tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168(1) of the Act.”

Further, Section 71 of the MFMA requires that, “the accounting officer of a municipality must by no later than **10 working days** after the end of each month submit to the Mayor of the municipality, and the relevant national and provincial treasury, a statement in the prescribed format on the state of the municipality's budget reflecting certain particulars for that month and for the financial year up to the end of that month.” For the reporting period ending **31 January 2022**, the ten working day reporting limit expires on **14 February 2022**.

As per MFMA Budget Circular No. 94 “from 2019/20 onwards, municipalities will no longer be required to continue with the use of the Budget Reform Returns to upload budget and monthly expenditure to the National Treasury Local Government Database for publication purposes. The National Treasury will use only the *mSCOA* data strings required for submission as prescribed and all publications will use the data collected from the *mSCOA* data strings” which must be submitted before or on **14 February 2022**, (ten working day limit).

3. Executive summary

The Statement of Financial Performance shown in Annexure A, Table C4, is prepared on the prescribed monthly C-schedules, detailing Revenue by source and Expenditure by type. The consolidated summary of the financial performance is indicated in Table 1 and Table 2 below:

Summary Statement of Financial Performance: YTD Budget					
Description R thousand (R'000)	YTD Budget January 2022	YTD Actual January 2022	Variance Favourable (Unfavourable)	% YTD Actual vs YTD Budget	% Variance Favourable (Unfavourable)
Total Revenue (excluding capital transfers and contributions)	1,379,998	1,356,025	(23,974)	98.3%	-1.7%
Total Revenue (including capital transfers and contributions)	1,477,862	1,382,049	(95,813)	93.5%	-6.5%
Total Operational Expenditure	1,367,914	1,192,615	(175,299)	87.2%	-12.8%

Table 1: Consolidated summary: Statement of Financial Performance: YTD Budget

As indicated in Table 1 above, as at 31 January 2022, the billed revenue excluding capital grants amounted to R1,356,025 billion which resulted in a satisfactory variance of minus 1.7% when compared to the YTD Budget of R1,379,998 billion. The billed revenue including capital grants resulted in a satisfactory variance of minus 6.5% when compared to the YTD budget of R1,477,862 billion. Going forward, Capital grants will be recognised in the Statement of Financial Performance, on a monthly basis as soon as the conditions of the grant has been met. The Total Operational Expenditure resulted in a negative variance of minus 12.8%.

Summary Statement of Financial Performance: Original Budget					
Description R thousand	Original Budget	YTD Actual January 2022	Variance Favourable (Unfavourable)	% YTD Actual vs Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 58.33%
Total Revenue (excluding capital transfers and contributions)	2,365,711	1,356,025	1,158,882	57.3%	-1.01%
Total Revenue (including capital transfers and contributions)	2,533,477	1,382,049	1,170,926	54.6%	-3.78%
Total Operational Expenditure	2,344,991	1,192,615	997,199	50.9%	-7.48%

Table 2: Consolidated summary: Statement of Financial Performance: Original Budget

Indicated in Table 2 above is the YTD actual compared to the Original Budget. When calculating the ideal In-Year-Monitoring percentage of 58.33% [calculated as follow: (100/12 months x 7 months of the year)] as at the end of January 2022, the Total operational revenue excluding capital grants versus the Original Budget resulted in a satisfactory variance of minus 1.01%. The Total operational revenue including capital grants versus the Original Budget resulted in a satisfactory variance of minus 3.78%. The Total Operational Expenditure resulted in a satisfactory variance of minus 7.48%.

Please note that certain Revenue by source and Expenditure by type categories are showing excessive negative and/or positive variances. This is due to fact that the YTD budgets were all systematically determined on a straight-line basis by dividing the total budget per category per line item by 12. The capital projections were also done in the same fashion. Please note that variances within a 5% range, as prescribed by National Treasury are acceptable and need not necessarily be explained.

4.1 Operating Revenue by Source

Table C4 Monthly Budget Statement - Financial Performance (Revenue) - January 2022

Revenue by Source	Original Budget	Monthly actual	YearTD actual	YearTD budget	Achieved YTD Budget	YTD variance	YTD variance %	Achieved Original Budget	Original Budget Variance	Original Variance IYM % - 58.33%
	R'000	R'000	R'000	R'000	%	R'000	%	%	R'000	%
Property rates	603,707	45,377	395,406	352,162	112.3%	43,244	12.3%	65.5%	43,244	7.2%

Table 3: Table C4 Financial Performance (Revenue)

Comparison against the YTD Budget

- ❖ Property Rates is showing a positive YTD variance of 12.3%, as a result of the annual billing on Property rates.
- ❖ Service charges is performing satisfactorily for the month under review, however Electricity revenue is showing a slight under-recovery of minus 12.0%, attributable to the billing being lower than anticipated. Sanitation service charges is showing an over-recovery of 11.8%, as a result of the actuals billed being higher than the YTD budget. The comparison between the actuals versus the Original budget is performing satisfactorily.
- ❖ Interest earned – External investments shows a negative variance of minus 90.6%, as a result of accrued interest revenue that was recognised for the 2020/21 financial year. It should be noted that investments have been declining year-on-year but have remained relatively constant for the period under review. Due to financial constraints the municipality could not increase its investments which largely contributes to the lower interest earned. The reduced interest rate by the Reserve bank, prior to the latest interest rate hike, also had a negative impact on Interest earned. The bulk of the interest normally gets recognised at year-end.
- ❖ Interest earned on outstanding debtors is showing a negative variance of minus 23.3%. The Billing section will have to do a thorough investigation into the lower interest generated and ascertain that interest is being duly charged to all outstanding balances that should attract interest.
- ❖ Fines, penalties and forfeits is showing a negative variance of 84.4% as a result of the under-recovery of Law enforcements fines with a 4.96% achieved versus a target of R17,900 million. The unit is experiencing various challenges in terms of capacity and the process of the reconciliation of fines with the Department of Justice needs to improve. Added to this, Covid-19 has put a heavy strain on the collection of fines as physical contact is limited in the apprehension of offenders and execution of warrant of arrests. Penalties: Disconnection fees achieved an actual of 13.47% against an annual target of R16,500 million. The bulk blocking of prepaid meters, could not materialise as the municipality must remain cognisant of adhering to the Covid-19 regulations.
- ❖ Licences and permits is showing a positive variance of 57%, however there are possible outstanding payments due to the Department of Transport, Safety and Liaison. There is sometimes a delay in the timing of receipts and eventual transfer, especially towards month-end. The responsible employee for this function, retired and the unit is experiencing some change-over challenges in this regard. Hopefully this will improve going forward.
- ❖ Transfer recognised: Operational is showing a positive variance of 20.5% as a result of the receipt of the second tranche of the Equitable Share in December 2021.
- ❖ Capital grants is showing a negative variance of 73.4%, as a result of the lower than anticipated capital grant expenditure. Serious intervention will have to be taken by Management to improve on capital grant expenditure and capital expenditure overall.

Comparison against Original Budget

Based on the IYM percentage of 58.33%, the majority of revenue sources are performing satisfactorily.

- ❖ Property rates is showing an over-recovery, due to the annual billing on Property rates.
- ❖ Service charges is performing satisfactorily. The negative variance on Electricity sales is slightly higher than the acceptable variance of 5%. An investigation into the lower than expected billing should be conducted by the Billing Section.
- ❖ Interest from External Investments shows an unsatisfactory variance of minus 52.9%. Same factors are applicable as described in the paragraph above.
- ❖ Interest on outstanding debtors is showing a negative variance of 13.6%. Same factors are applicable as described in the paragraph above
- ❖ Fines, penalties and forfeits is showing a negative variance of 49.2%. Same factors are applicable as described in the paragraph above.

- ❖ Licences and permits is showing a positive variance of 33.2%. Same factors are applicable as described in the paragraph above.
- ❖ Transfers and subsidies – operational is showing a positive variance of 11.9%, due to the receipt of second tranche of the Equitable Share during December 2021.
- ❖ Other Revenue is lower than anticipated.
- ❖ Transfers – recognised capital is showing a negative variance of 42.8%, as a result of the lower grant spending.

Also indicated in Chart 1 below is the weighting of the YTD Actual on billed Revenue per Source as a percentage of total operational revenue as at 31 January 2022. The main contributors of the municipality's revenue are Service Charges (51.8%), Property Rates (29.2%) and Transfers and subsidies (12.0%). The weighting per Revenue source is slightly distorted due to the annual billing on Property rates and the receipt of second tranche of the Equitable Share.

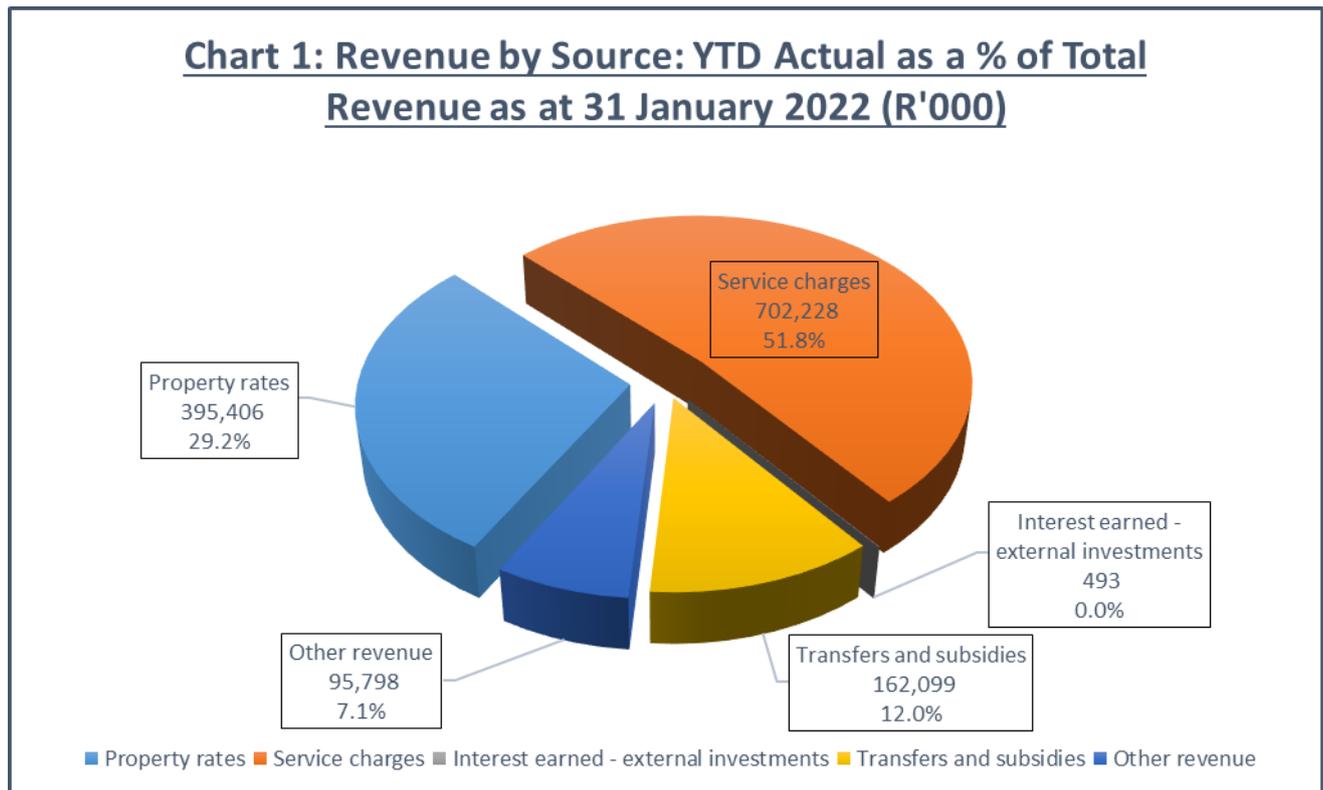

Chart 1: Revenue by Source: YTD Actual as a percentage of Total Revenue

4.2 Operating Expenditure by Type

Table C4 Monthly Budget Statement - Financial Performance (Expenditure) - January 2022											
Expenditure By Type	Original Budget	Monthly actual	YearTD actual	YearTD budget	% Achieved YTD Budget	YTD variance	YTD variance %	Achieved Original Budget	Original Budget Variance	Original Variance IYM % - 58.33%	
	R'000	R'000	R'000	R'000	%	R'000	%	%	R'000	%

Other expenditure	119,770	11,975	89,744	69,868	128.4%	19,875	28.4%	74.9%	19,878	16.6%	
Total Expenditure	2,344,984	123,406	1,192,615	1,367,914	87.2%	(175,299)	-12.8%	50.9%	(175,293)	-7.5%	

Table 4: Table C4 Financial Performance (Expenditure)

Comparison against YTD Budget

As indicated in the Table 4 above, as at 31 January 2022 current YTD expenditure shows an unsatisfactory variance of minus 12.8%. The YTD actual amounted to R1,192,615 billion against the YTD Budget of R1,367,914 billion.

- ❖ Employee related costs shows an unsatisfactory variance of minus 8.2%. Post-retirement benefit obligations are not factored in and will only be finalised as part of year-end procedures. There was also a soft lock on the filling of vacancies for the past few months. The majority of employees received their 13th cheques (bonus) at the end of December 2021.
- ❖ Remuneration of councillors is showing an under-expenditure of 15.7%, as a result of the gazette on the Determination of upper limits of salaries, allowances and benefits of different members of municipal councils for 2021/2022 financial year that has not been issued. The gazette is normally issued during December of each year.
- ❖ Depreciation was projected for on a straight-line basis but will only be provided for, as part of year-end procedures. Herewith the response from the Asset Management Unit, why Depreciation cannot be recognised at least quarterly “The Asset Management System currently do not interface with the Financial System and this make it difficult, to post the transactions for depreciation monthly or quarterly. We currently have to pass journals in the financial system to recognise depreciation in the general ledger. This is due to the fact that the systems do not interface. Once journals are passed for depreciation and changes needs to be done for depreciation due to asset processes like disposals or impairment recognition, we will have to pass new journals for the correction of depreciation. The Asset Management System can currently interface with the Financial System but requires authorization from the service provider of the Financial System. Asset Management is one of the core functions that will be dealt with by the re-established mSCOA Steering Committee.”
- ❖ Debt impairment is provided for quarterly. The journal for the second quarter was processed during December 2021. The journal for the third quarter will be processed before 31 March 2022.
- ❖ Expenditure on Contracted services is lower than anticipated, especially pertaining to Legal Cost Advice & Litigation which is 16.78% spent versus a budget of R7,065 million. Contr: Maintenance of Unspecified Assets is 1.25% spent versus a budget of R5,000 million. There are no specific maintenance contracts in place. This line item was previously budgeted for the security contract, which has since expired. Security personnel were appointed and funds from Contracted Services will transferred to Employee costs during the Adjustment Budget. Prepaid Electricity Vendors is 44.81% spent versus a budget of R25,500 million. The December 2021 account for Ontec (Prepaid Electricity Vendor) amounting to R2,541 million was due at the end of January 2022 but was only settled on 8 February 2022. The January 2022 account amounting to R2,524 million is due at end of February 2022.
- ❖ Bulk purchases – Electricity is satisfactory. Based on the accrual accounting principle the July to November 2021 ESKOM invoices were captured on the system, but remains unpaid due to cash flow constraints. The December 2021 invoice was not captured on the system. The full arrears will be included in the new debt agreement that the municipality envisages to conclude with ESKOM for the 2021/22 financial year.
- ❖ Bulk purchases Water is mapped to Inventory as per GRAP 12. The municipality was not billed for July and September 2021 and is awaiting the invoices from the Department. These invoices are therefore not captured on the system, resulting in the substantial understatement of this expenditure line item. The invoice for December 2021 was not captured on the system due to the incorrect volume billed. The Department reversed the erroneous billing and subsequently submitted the corrected invoice on 8 February 2022
- ❖ Transfers and subsidies show a negative variance of 29.5%. A transfer of R1,100 million was made to the SPCA. Due to cashflow constraints the municipality opted to settle the R2,200 million in tranches of R550 thousand as and when cash becomes available. Other grants also show minimal movement due to cash flow constraints.
- ❖ Finance charges is showing a negative variance of 11.2%. Finance charges are paid bi-annually and the first instalment was paid during December 2021. Interest on overdue accounts will be

addressed in the Adjustment budget. Corrections on the actuals pertaining to Interest paid on overdue accounts will be journalised on the system. All Interest paid on overdue accounts must be recognized as Fruitless and Wasteful expenditure in the Annual Financial Statements.

- ❖ The expenditure on Inventory consumed is showing an unsatisfactory variance of 24.3%. It has been reiterated monthly that expenditure on Inventory consumed needs to be monitored closely and remedial action be taken to ensure that funds are spent effectively with good value for money and also that funds will be fully spent at year-end.
- ❖ During the 2019/20 Mid-year Budget Assessment the following factors were identified by the municipality that negatively affects the expenditure on Inventory consumed:
The possible root causes can vary from poor preventative maintenance strategies, poor planning, vehicles being at the Workshop for longer periods which is hampered by the availability of suitable parts, procurement processes exacerbated by a lack of valid tenders being in place for which the user departments are responsible for, clamping down on deviations and major works still outstanding for which proper procurement processes need to be adhered to, and then prioritisation as a result of the cash flow constraints. It is advised that management finalise maintenance plans and implement these plans within the current financial constraints, ensure that remedial action be taken to improve on preventative maintenance and spend funds cost-effectively and efficiently to address service delivery issues and ensure assets are maintained at desired levels and are being utilised optimally. The spending of funds will have to be prioritised, wastage be curbed, overall personnel performance and productivity be monitored and improved.

Operating Expenditure by Type: Comparison against Original Budget

Indicated in Table 4 above, is the YTD actual compared to the Original Budget. The ideal In-Year-Monitoring percentage as at the end of January 2022 is 58.33%. The total operational expenditure against the Original Budget is 50.9% spent, resulting in a unsatisfactory variance of minus 7.5%.

- ❖ Employee costs and Councillors remuneration is showing a satisfactory variance of 4.8% and 9.2%, respectively. Same factors are applicable as explained above.
- ❖ Depreciation will be provided for at year-end. Same factors are applicable as explained above.
- ❖ Finance charges are paid bi-annually and show an unsatisfactory variance of 6.5%. Same factors are applicable as explained above.
- ❖ Debt impairment is provided for on a quarterly basis. The journal for the second quarter was processed during December 2021. The journal for the third quarter will be processed before 31 March 2022.
- ❖ Expenditure on Contracted services is lower than anticipated, same factors are applicable as explained above.
- ❖ Transfers and grants is unsatisfactory with a variance of minus 17.2%. The same factors are applicable as explained in the paragraph above.
- ❖ Bulk purchases Water under Inventory consumed, is understated as the municipality is awaiting the July and September 2021 invoices from the Department, therefore it has not been captured on the system.

Chart 2: Expenditure by Type : YTD Actual as a % of Total Expenditure as at 31 January 2022 (R'000)

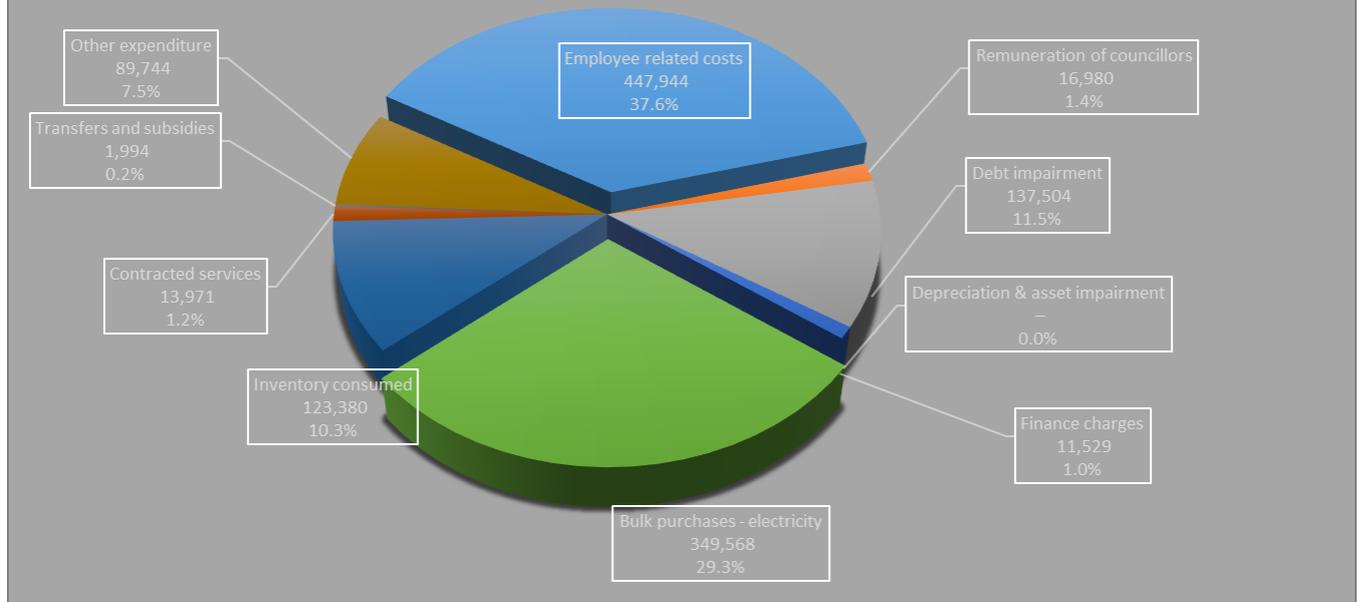

Chart 2: Expenditure by Type: YTD Actual as a percentage of Total Expenditure

Also indicated in Chart 2 above is the weighting of the YTD Actual on Expenditure by Type as a percentage of total operational expenditure as at 31 January 2022. The main cost drivers of the municipality are Employee Related Costs (37.6%), Debt Impairment (11.5%) and Bulk Purchases – Electricity (29.3%). It should be noted that these percentages are still slightly distorted as a result of the following:

- ❖ The Post-retirement benefit obligations under Employee related costs will be finalized as part of the year-end procedures. The soft lock on filling of vacancies also plays a role.
- ❖ Depreciation is not provided for and will only be finalized at year-end.
- ❖ Debt impairment is provided for quarterly. The journal for the second quarter was processed during January 2022. The journal for the third quarter will be processed before 31 March 2022.
- ❖ Finance charges is paid bi-annually.
- ❖ The municipality is still awaiting the July and September 2021 invoices from DWS and this has not been captured on the system. The invoice for December 2021 was not captured on the system due to the incorrect volume billed. The Department reversed the erroneous billing and subsequently submitted the corrected invoice on 8 February 2022. The January 2022 account is due at the end of February 2022.

Bulk Purchases: Electricity and Water

❖ Indicated in Table 5.1 below, is the YTD expenditure on Bulk Purchases: Electricity. When compared to the IYM percentage of 58.33% as at end of January 2022, Bulk Purchases Electricity is showing a satisfactory variance of minus 4.30%. However, it should be noted that the balance of R29,903 million on the June 2021 invoice was erroneously paid against the bulk expenditure vote number as it was raised as a sundry creditor in 2020/21 financial year. This will be reversed and journalised to the sundry creditor vote on the balance sheet. The December 2021 invoice was also not timeously captured on the system.

Description	Original Budget	Monthly Actual	YTD Actual	% Spent Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 58.33%
Bulk Purchases: Electricity	647,000,000	26,182,074	349,568,434	54.03%	-4.30%
Total	647,000,000	26,182,074	349,568,434	54.03%	-4.30%

Table 5.1: Summary of YTD Bulk Electricity expenditure

❖ Indicated in Table 5.2 below, is the Bulk purchases: Water which is showing a negative variance of minus 35.3% when compared to the ideal percentage of 58.33%. The municipality is awaiting the July and September 2021 bulk water invoice from DWS and it has therefore not been committed on the system. This matter was taken up with the Department numerous times and to date, has not been resolved. The erroneous December 2021 bill was reversed and a corrected invoice was issued and it will be captured during February 2022.

Description	Original Budget	Monthly Actual	YTD Actual	% Spent Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 58.33%
Bulk Purchases: Water	114,000,000	56,680	26,266,564	23.0%	-35.3%
Total	114,000,000	56,680	26,266,564	23.0%	-35.3%

Table 5.2: Summary of YTD Bulk Water expenditure

Organ of state	Principle debt	Monthly Instalment	Corrections on arrear debt	Total revised debt amount	Amount paid to date	% of debt settled	Balance on Payment arrangement	Balance of unpaid invoices	Current Account due (Jan 2022)	Total Outstanding Debt	YTD Interest charged 2021/22
ESKOM	112,040,715.83	12,448,968.43	-	112,040,715.83	112,040,715.83	100%	-	404,777,453.36	53,401,058.31	458,178,511.67	18,795,870.72

Grand Total	173,220,230.01	17,448,968.43	340,383.45	173,560,613.46	173,107,786.89	100%	452,826.57	506,169,131.16	72,752,013.75	579,373,971.48	21,240,817.35

Table 6: Summary of outstanding Bulk costs debt

Indicated in Table 6 above, is the total outstanding debt owed to ESKOM amounting to R458,179 million. The current account due to ESKOM is R53,401 million. The arrear debt of R404,777 million pertains to the unpaid accounts for July 2021 (R104,400m), August 2021 (R93,020m), September 2021 (R54,138m), October 2021 (R51,028m), November 2021 (R50,813m) and December 2021 (R51.379m). The municipality did not have sufficient cash to settle the outstanding accounts due to ESKOM. For the month of January 2022, the municipality settled the final balance of R29,903 million on the June 2021 invoice. The total year to date interest charged on overdue accounts due to ESKOM amounts to R18,796 million which must be disclosed as Fruitless and Wasteful Expenditure for the year under review. The debt for 2020/21 has been settled in full. The municipality envisages to enter into a new payment agreement with ESKOM for the current financial year.

Also, indicated in Table 6 above, is the total outstanding debt owed to DWS amounts to R121,195 million. The total current account due is R19,351 million. The municipality raised a dispute on the billed volume for January 2022 and disclosed is the corrected billed amount. This was taken up with the Department, awaiting feedback from them. The current account includes interest raised for August to December 2021. It should be noted that the total debt due to DWS needs to concurred with the Department. The debt owed to DWS is understated because the Department never billed the municipality for June 2021, relating to 2020/21 financial year and July and September 2021 for the current year. The mentioned invoices were therefore not received from the Department and is not loaded on the DWS Portal either.

The arrear debt of R101,392 million pertains to the outstanding accounts for January 2021 (R17,084m), February 2021 (R15,329m), March 2021 (R13,224m), August 2021 (R14,685m), October 2021 (R15,275m) and November (R14,523m) and December 2021 (R11,190m). Due to cash flow constraints, the municipality could not settle the outstanding invoices. For the month of January 2022, the municipality made no payment on the arrear debt owed to DWS. The total year to date interest charged on overdue accounts to DWS amounts to R2,445 million. No statement for interest charged for January 2022 was received. The debt agreement for 2020/21 has an outstanding balance of R453 thousand. The discrepancy will be taken up with the Department, due to the fact that it shows as resolved on their side whilst according to the municipality's records this was not paid. The municipality envisages to enter into a new payment agreement with DWS for the current financial year, inclusive of all debt.

4.3 Capital expenditure

NC091 Sol Plaatje - Table C5 Monthly Budget Statement - Capital Expenditure - January 2022										
Capital expenditure	Original Budget	Monthly actual	YearTD actual	YearTD budget	% Achieved YTD Budget	YTD variance	YTD variance %	Achieved Original Budget	Original Budget Variance	Original Variance IYM % - 58.33%
	R'000	R'000	R'000	R'000	%	R'000	%	%	R'000	%
Capital expenditure	179,266	883	27,980	104,572	26.8%	(76,591)	-73.2%	15.6%	(76,591)	-42.7%
Funded by

Weighting Internally generated funds	6%	52%	7%	6%						

Table 7: High level summary: Capital Expenditure

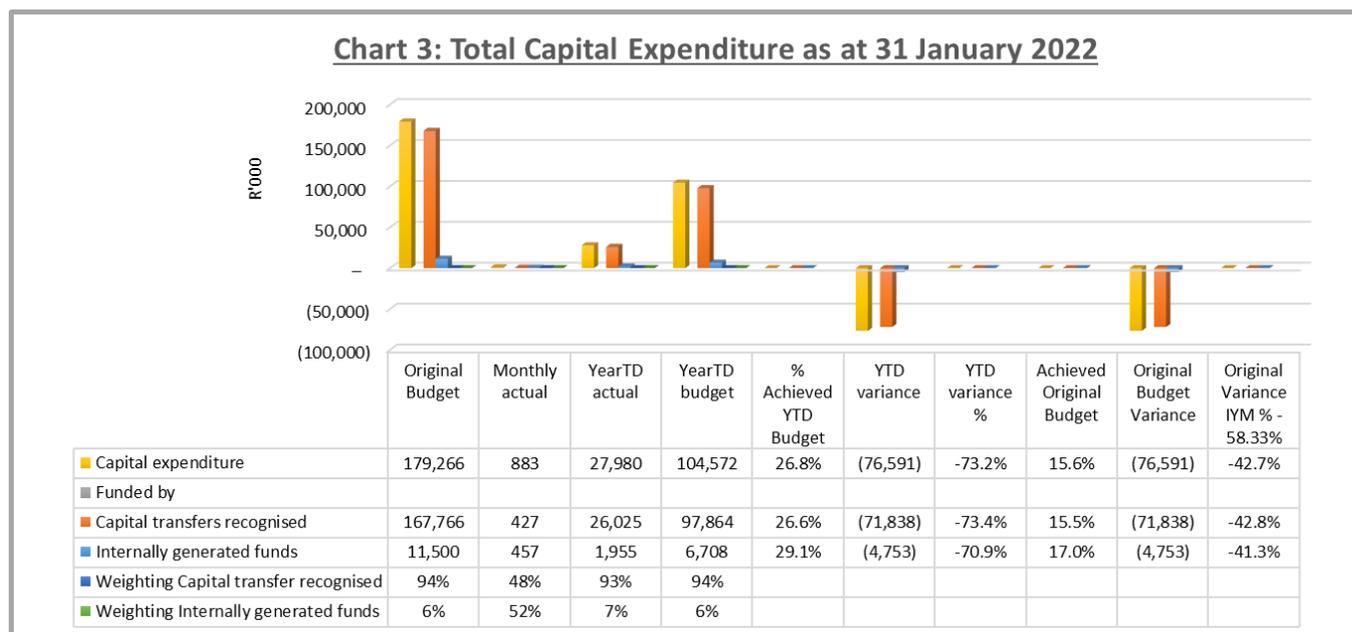

Chart 3: Total Capital expenditure

As indicated in the Table 7 and Chart 3 above, the YTD Actual on capital expenditure as at end of January 2022 amounted to R27,980 million and 26.8% spent when compared to the YTD budget of R104,572 million and 15.6% spent when compared to the Original Budget of R179,266 million. The total YTD capex is funded from Capital grants R26,025 million (93%) and Internally generated funds R1,955 million (7%). Capex is extremely low and this must improve going forward. Planning of project managers also needs to improve going forward. One of the major challenges that the municipality is experiencing is in respect of tendering processes.

The majority of capital projects are based on a functionality criteria. Bidders either do not meet the functionality criteria or submit incomplete tender documents resulting in bidders being non-responsive. And due to the non-responsiveness of bidders, these bids unfortunately have to be re-advertised. The municipality has been implementing more compulsory site meetings to sensitise service providers on the compliance issues pertaining to bid documents. Secondly, project managers need to realistically anticipate challenges and immediately address delays in order to ensure that projects are completed within the specified timeframe. Contract management also needs to be monitored more closely, placing emphasis on the performance of appointed service providers and addressing issues of non-performance immediately. The Project Management Unit (PMU) is not adequately staffed, resulting in a lack of qualified permanently appointed project managers. Lastly, it is advised that disputes, if any are addressed and resolved expeditiously. The capital expenditure is slow and overall capital expenditure remains a major concern. Remedial action will have to be taken going forward to ensure improvement on capex. It should be noted that capital expenditure excludes VAT and commitments. The capital expenditure report shown in Annexure A, Table C5 has been prepared on the prescribed monthly C-schedule, and is categorised by municipal vote and functional classification.

Sol Plaatje (NC091): Monthly Budget Statement: January 2022

4.4 Cash flows

Chart 4: Current investment deposits and Cash & cash equivalents at year-end

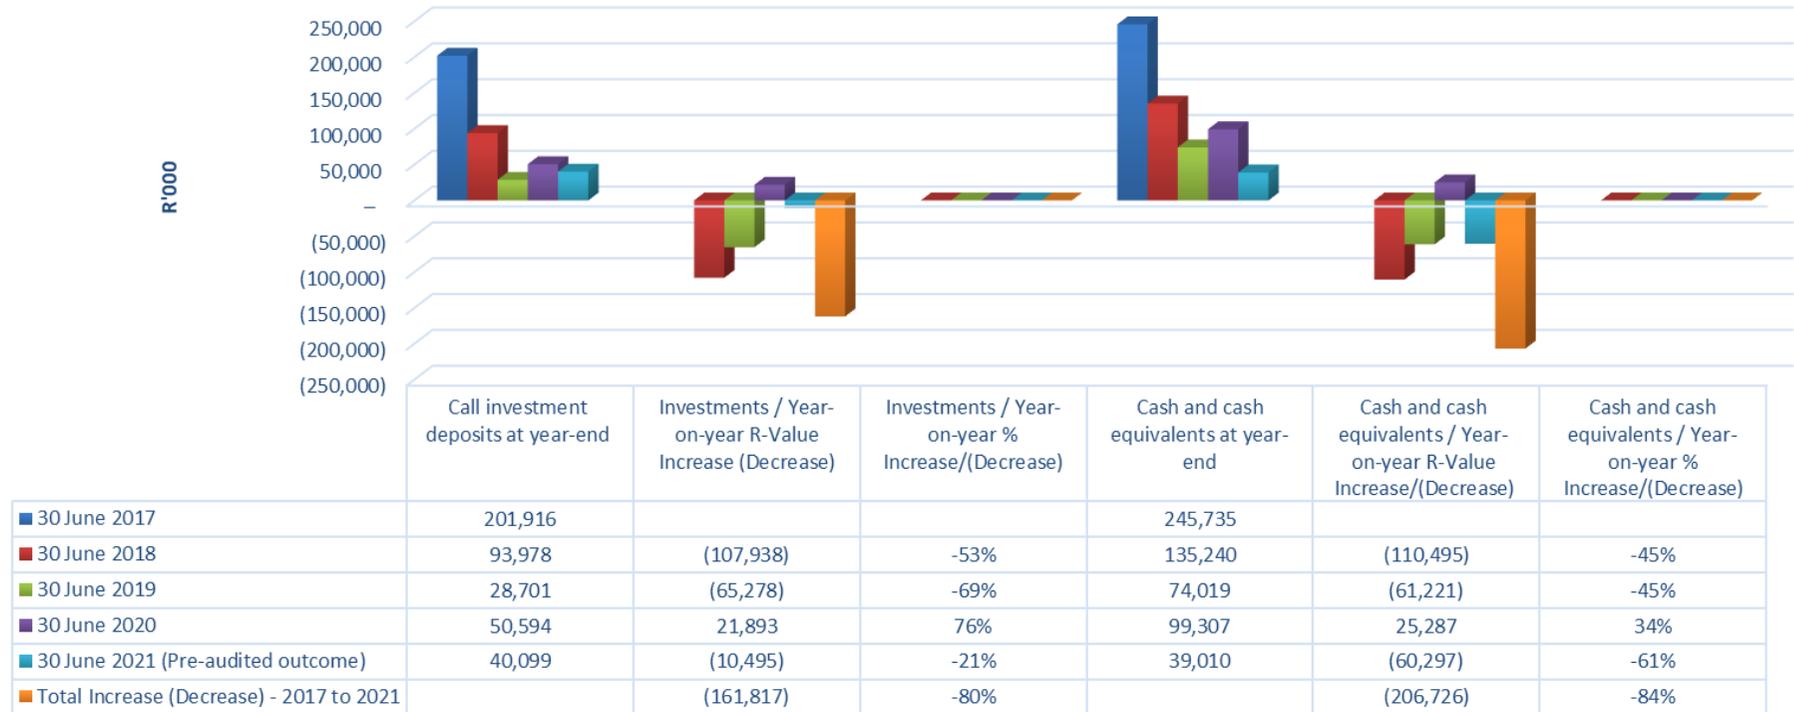

Chart 4: Call investment deposits and Cash & cash equivalents at year-end

Investments decreased by R107,938 million or 53% from 2017 to 2018. Investments decreased by R65,278 million or 69% from 2018 to 2019. Investments increased by R21,893 million or 76% from 2019 to 2020. Investments decreased by R10,495 million or 21% from 2020 to 2021. From 2017 to 2021, the total investments decreased by R161,817 million. The same trend can be seen year-on-year, as indicated in the chart above in respect of the Cash and cash equivalents. This is attributable to various factors inter alia, the lower collection rate, increased capital expenditure, especially increase on CRR funding year-on-year, the non-implementation of the basic charge for the 2018/19 financial year, increase in bulk purchases, operational expenditure, including excessive expenditure on Overtime and EPWP, variation orders on contracts, excessive water and electricity losses. And the servicing of the long-term loan. The decline in investments and Cash & cash equivalents is concerning and must be addressed by management.

Chart 5: Call investment deposits incl interest for the period ending 31 January 2022

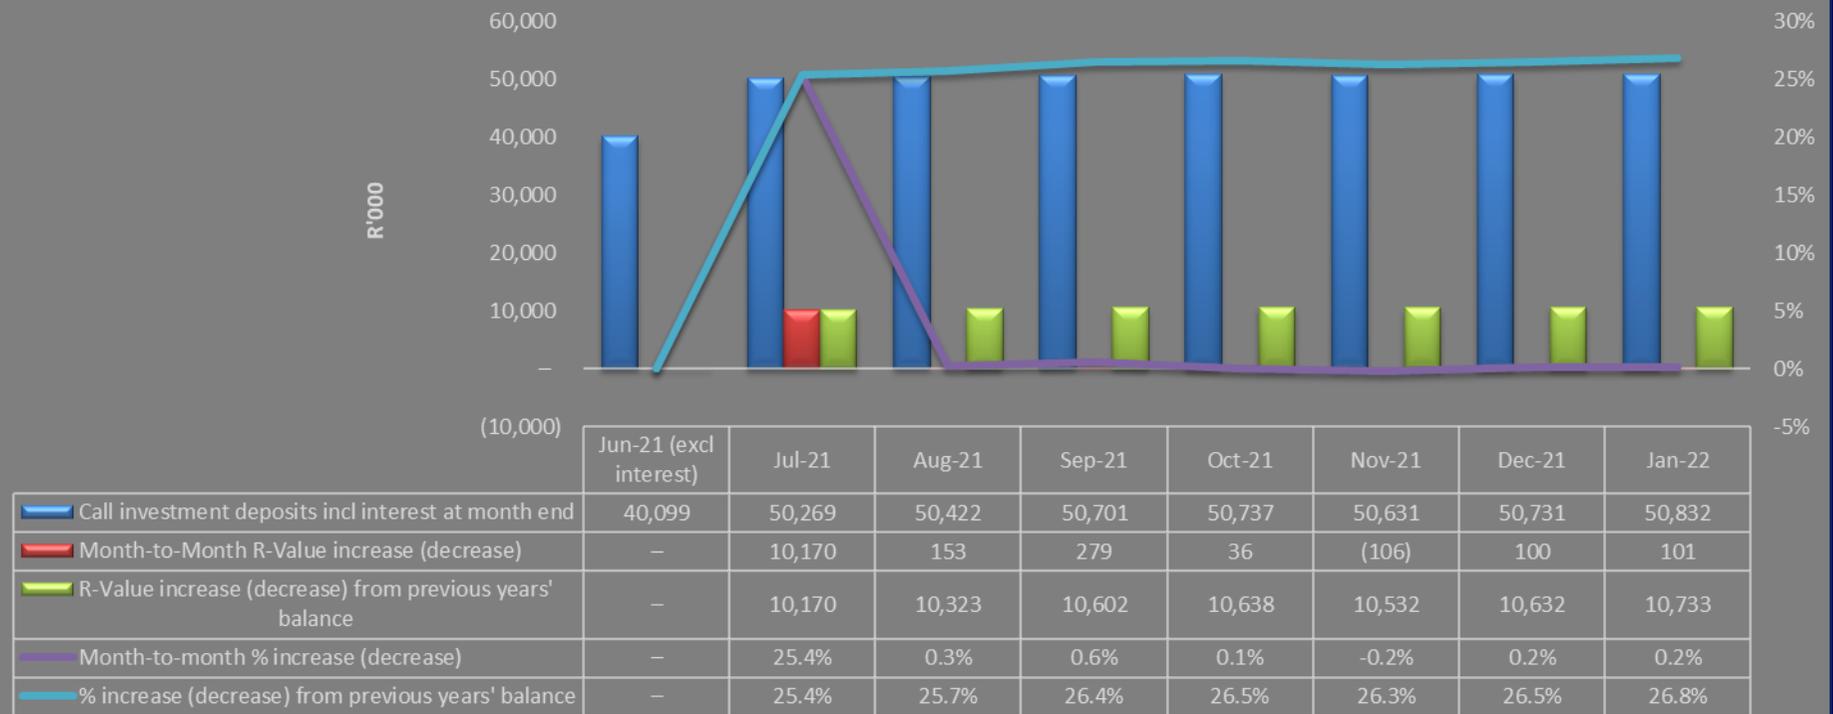

Chart 5: Call investment deposits at month-end

As indicated in the Chart 5 above from December 2021 to January 2022 investments incl interest increased by R101 thousand or 0.2%, in respect of the month-to-month comparison. Investments increased by R10,733 million or 26.8% when compared to the previous years' audited balance of R40,099 million. Various commitments must be met monthly including Salaries, Bulk Electricity, Bulk Water in the billing period and capital expenditure. The majority of staff receive their annual bonuses in December of each year. Bi-annual long-term loan repayments. The non-charging of the basic charge for the 2018/19 financial year for domestic consumers also had a negative impact on the income from Sale of Electricity and thus negatively affecting the municipality's cash flow. The movement on investments should be monitored going forward and a concerted effort should be done to collect current and long outstanding debt. Capital and Operational expenditure overall, also needs to be reviewed and prioritised.

This chart could not be populated due to errors on the system pertaining to C6 (Statement of Financial Position) and C7 (Cash flow) that could not be resolved timeously.

Chart 6.1: Cash & cash equivalents at month-end

This chart could not be populated due to errors on the system pertaining to C6 (Statement of Financial Position) and C7 (Cash flow) that could not be resolved timeously.

Chart 6.2: Cost coverage ratio

The estimated average Cost coverage ratio is currently less than one week. Cash at this stage is monitored on a daily basis. The Cost coverage ratio is a critical indicator that the municipality is in a severe cash flow crisis and not in the conducive position to settle short-term commitments. This is a critical threat to the municipality's ability to pay salaries, bulk accounts and day-to-day operations which can have a detrimental effect on service delivery and irrevocably damage the municipality's relationship with its service providers and further tarnishing the municipality's reputation. The only way to address these issues, is to work as a collective team, enforce accountability within all departments and to collect outstanding debt. Collect outstanding debt and improve the collection rate. The municipality also needs to spend funds effectively and efficiently with good value for money. Cost containment measures must be stringently applied.

4. In-year budget statement tables

The financial results for the period under review are attached consisting of the following Tables, in Annexure A

- (a) Table C1: Summary
- (b) Table C2: Financial Performance (Functional Classification)
- (c) Table C3: Financial Performance (Revenue and Expenditure by Municipal vote)
- (d) Table C4: Financial Performance (Revenue and Expenditure)
- (e) Table C5: Capital Expenditure by vote, functional classification and funding
- (f) Table C6: Statement of Financial Position
- (g) Table C7: Cash Flow

Table 8: Supporting Table SC3: Aged Debtors

Indicated in Table 8 above, is the total outstanding debt by Income Source and Customer Group, with the total O/S Debt amounting to R2,817,650 billion as at the end of January 2022. The Credit control office implemented the following contingencies. In the light of current cash flow and very low cashier collection at points, disconnection and blocking of institutions, businesses and Government Departments without valid arrangements or not in discussions with the municipality, will be done effective immediately. Bulk blocking of prepaid meters is hampered due to Covid-19 regulations. On a weekly basis, the municipality also focuses on the Top Ten accounts for all debtor groups. Water and lights (long outstanding queries and Interims), Rates (long outstanding Interims) are also dealt with. The Call Centre also do courtesy calls to the most paying customers, as a means to improve customer satisfaction.

Specific action – Covid-19

30% Discount for full settlement of arrear debt; 10% monthly early payment incentive (excluding Electricity sales); Radio interviews – customer education and awareness, invite indigent for registration; Blocking of non-residential dwellings: 30 % prepaid partial (non-indigent customers); 10 % prepaid partial (indigents customers) and 100% Commercial, Businesses, Gov, Staff, Cllrs, NGO, etc)

Sol Plaatje (NC091): Monthly Budget Statement: January 2022

Chart 7 below, depicts the month-on-month summary of Debt over 90 days as a percentage of total O/S Debt which remained constant at 88% for the period under review. Debt over 90 days increased by R37,088 million in respect of the month-to-month comparison. The month-to-month increase on Total debt amounted to R38,914 million. It is concerning that total debt over 90 days is hovering at an average of 85-86 percent. During the Adjustment Budget funding assessment for 2019/20, NT advised that the municipality should consider writing off debtors that we know we are not realistically going to collect. To this end, the amounts written off as uncollectable amounted to R403,262 million for the year ended 30 June 2020. For the year ended 30 June 2021, the amounts written off as uncollectable amounted to R330,209 million. The total amounts written off as uncollectable for the two financial years amounts to R733,470 million.

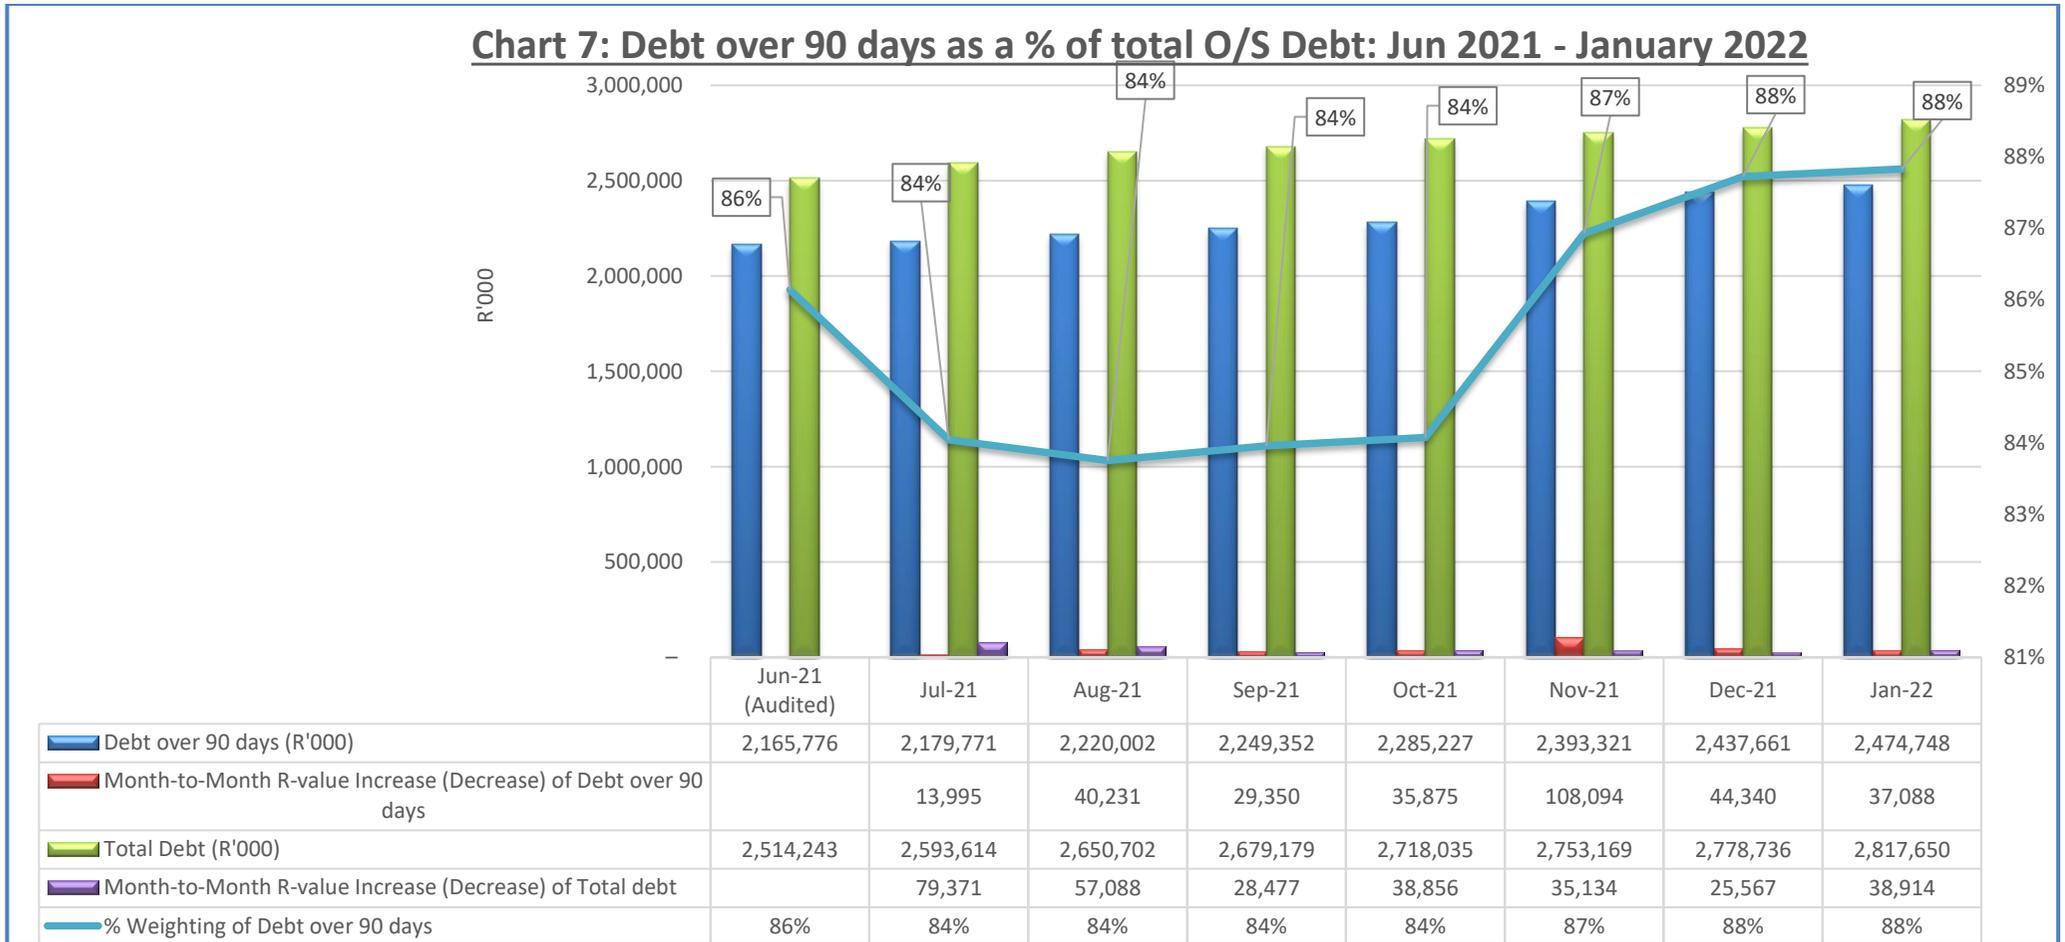

Chart 7: Debt over 90 days as a percentage of Total O/S Debt

Chart 8: Outstanding Debt by Income Source as at 31 January 2022

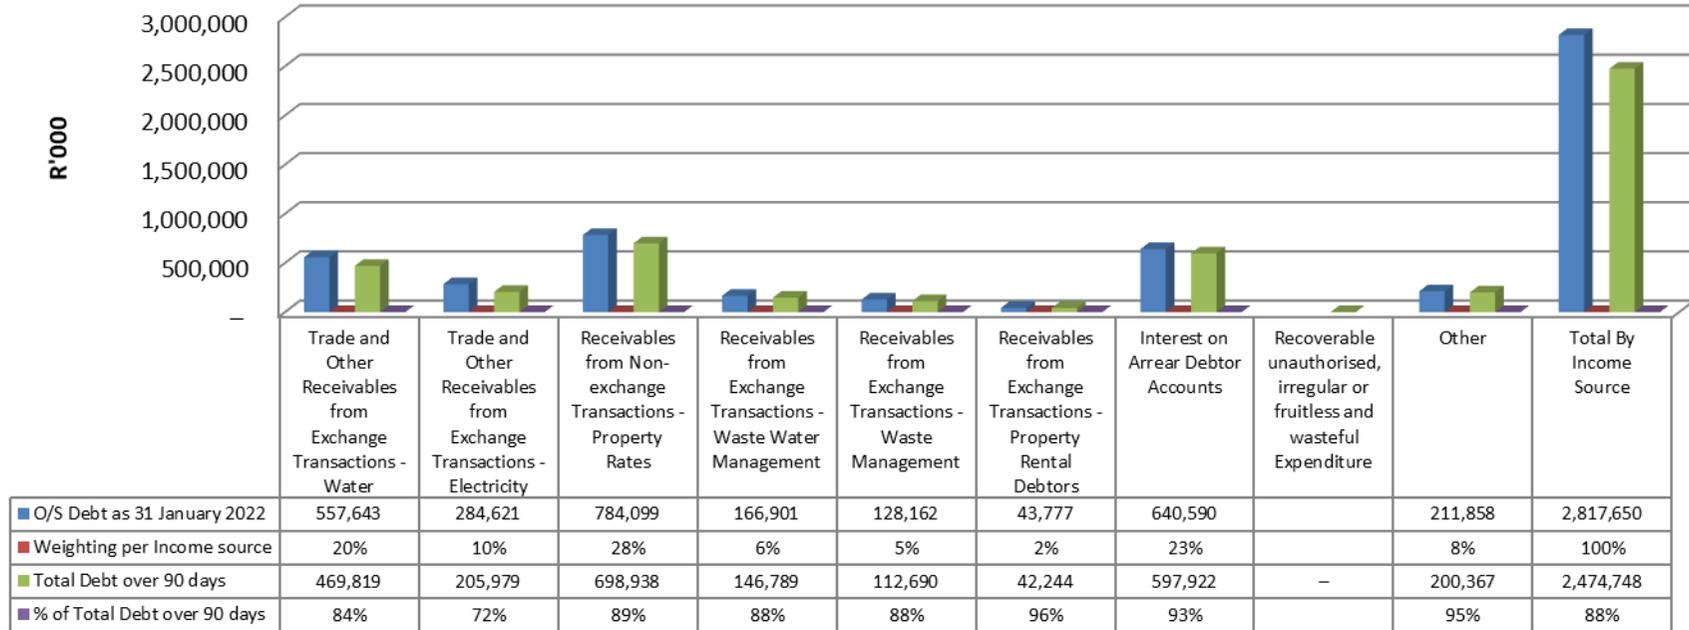

Chart 8: Outstanding Debt by Income Source

Indicated in Chart 8 above, is the total outstanding debt per Income Source, including the weighting and the percentage of Total Debt over 90 days as at the end of January 2022. The highest percentage weighting of debt owed is attributable to:

- ❖ Receivables from Non-exchange Transactions - Property Rates at 28%
- ❖ Interest on Arrear Debtor Accounts 23%, and
- ❖ Trade and Other Receivables from Exchange Transactions – Water at 20%

The highest percentage weighting of debt owed in excess of 90 days is attributable to:

- ❖ Receivables from Exchange Transactions - Property Rental Debtors at 96%
- ❖ Interest on Arrear Debtor Accounts at 93%;
- ❖ Other 95%

Debtors Age Analysis By Income Source	O/S Debt as 31 December 2021	O/S Debt as 31 January 2022	Percentage month-on-month Increase/ (Decrease) in Debtors	R-Value Increase/(Decrease)	Weighting of Debt per Category as a % of Total O/S

Table 9: Month-on-month growth in outstanding debtors

Indicated in Table 9 above is the month-on-month growth in outstanding debt, per Income Source and per Customer Group, from December 2021 to January 2022, the municipality's total O/S debt increased by 1.4% or R38,914 million.

O/S debt per Income Source

- ❖ Trade and Other Receivables from Exchange Transactions - Water increased by 2.2%.
- ❖ Trade and Other Receivables from Exchange Transactions - Electricity increased by 1.7%.
- ❖ Receivables from Non-exchange Transactions - Property Rates increased by 1.2%.
- ❖ Receivables from Exchange Transactions - Waste Water Management increased by 1.7%;
- ❖ Receivables from Exchange Transactions - Waste Management increased by 1.8%.
- ❖ Receivables from Exchange Transactions - Property Rental Debtors increased by 1.0%.
- ❖ Interest on Arrear Debtor Accounts increased by 0.8%.
- ❖ Other increased by 0.5%.

O/S debt per Customer Group

- ❖ Organs of State increased by 0.5%.
- ❖ Commercial debtors increased by 2.3%.
- ❖ Debt owed by Households increased by 1.6%.
- ❖ Other Debt increased by 0.4%.

Weighting per Customer Group

- ❖ Government debt constitutes 29%, Businesses 17%, Households 52% and Other 2% of the total outstanding debt.

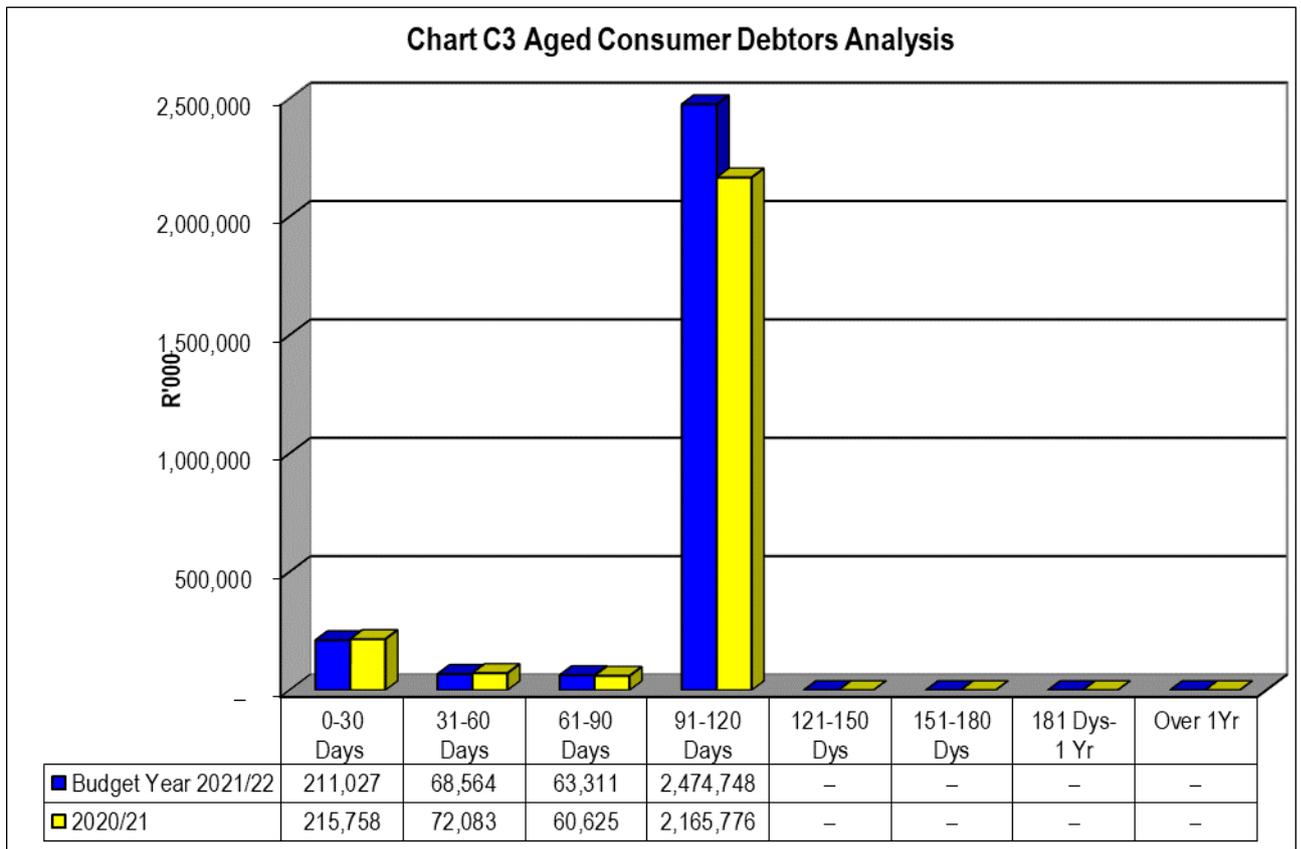

Chart 9: Aged Consumer Debtor Analysis

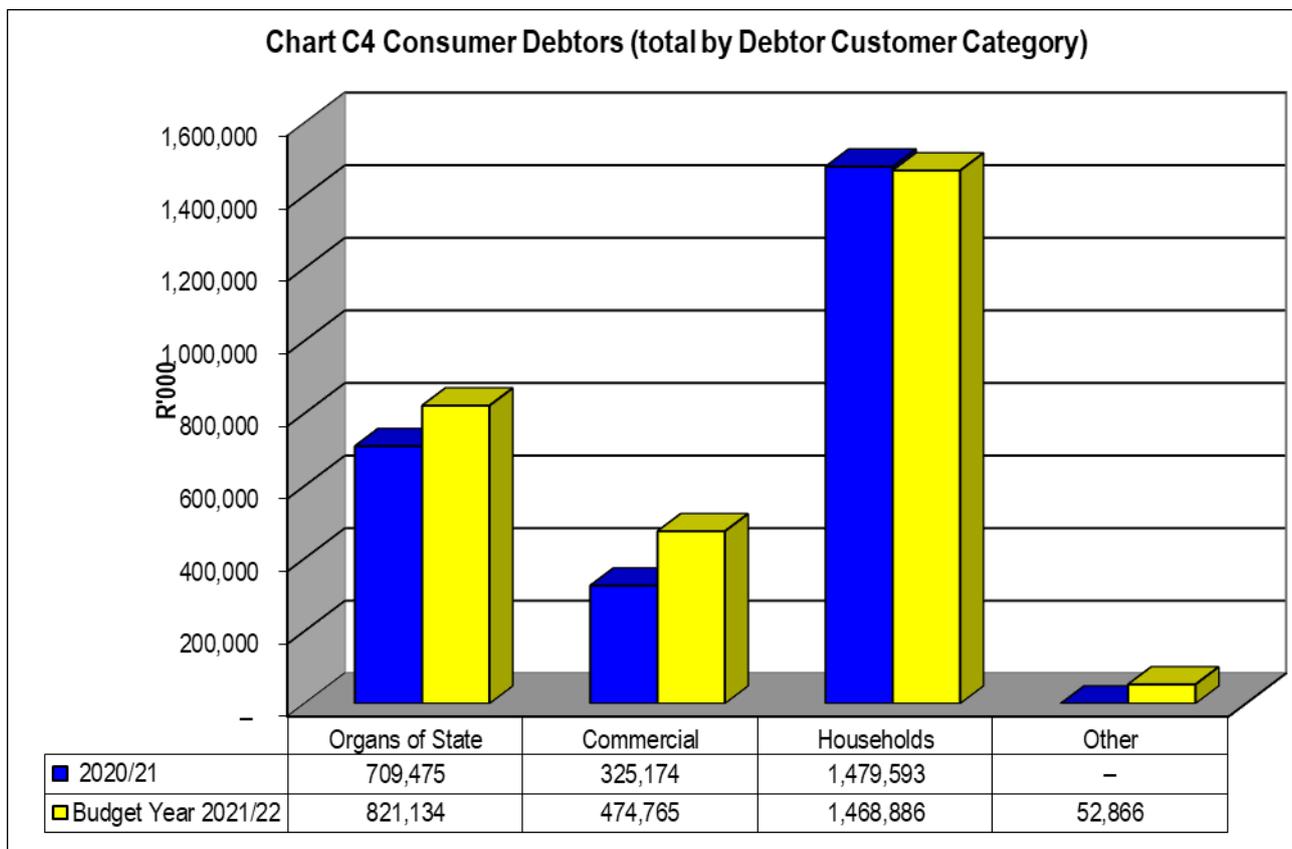

Chart 10: Consumer Debtors (total by Debtor Customer Category)

Chart 11: Debtor's Age Analysis per Customer Group as at 31 January 2022

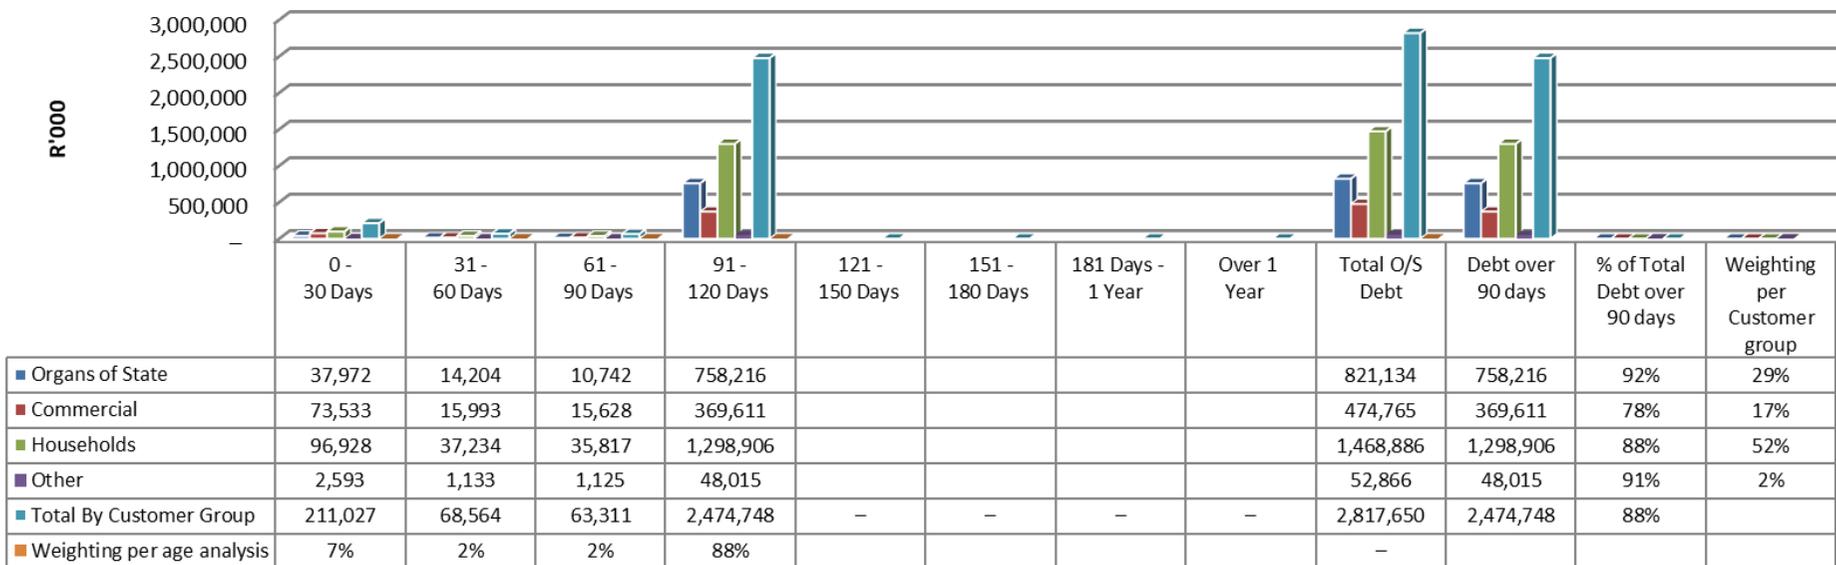

Chart 11: Debtor's Age Analysis per Customer Group

Chart 11 above, illustrates that the bulk of SPM debt is aged over 90 days with a total weighting of 88%. An analysis revealed that the catalysts for this condition are the sheer volume of accountholders in arrears, the poor economic circumstances of a large number of our accountholders, and the increasing cost of services beyond the Municipality's control. This is compounded by the large number of water leaks that go unreported which causes the accountholder's account to escalate beyond their means to pay. In addition to this, there is a substantial portion of irrecoverable, stagnant debt that attracts interest every month. We have a backlog of processing this debt and submitting this to Council for approval to write off.

We have revised our policies to make our processes more effective. This will allow us to focus on preventing debt from ageing where possible in tracing and updating our debtors' information and of course recovering outstanding amounts. We anticipate a marked turnaround of this trend and in conjunction with a concerted effort to retard the escalation of ageing debt, we are focusing on improving the accuracy and regularity of our billing as well as our communication with our accountholders. Indigent verification is a continuous process and we are encouraging accountholders whose households qualify, to approach the Municipality for an assessment and possible registration as an Indigent Household. The benefits of this are the provision of free basic services and assistance with arrear debt owed to the Municipality. The Covid-19 pandemic also adversely affected consumer's ability to pay, this is evident by the average monthly collection rate of 69%. The municipality has been providing additional incentives to assist consumers to settle their arrear accounts.

During the Mid-year Budget Assessment for 2021/22 and indicated below are the Revenue enhancement strategies that can be implemented to ensure the completeness of Revenue, improve the collection rate, enhance customer relations and reduce losses

- Disconnection of consumers to be applied consistently and fairly in line with the Credit Control Policy
- Engagements with provincial government to collect outstanding debt
- Data cleansing of the entire debtor's book
- Data cleansing to positively influence the reachability of consumers and assist tremendously in the electronic distribution of municipal accounts via short messaging services (sms) and e-mail
- Improve in the accuracy of monthly billing
- Ensure meters are read consistently and timeously
- Significantly reduce interim readings and ultimately eliminate interim readings
- Reduce material billing errors by thoroughly interrogating billing exception reports prior to final billing run
- Enhance customer relations and consumer satisfaction by improving on the turnaround time when dealing with billing queries
- Introduce electronic complaints management system/register for account queries
- Ensure faulty and bypassed electricity meters are replaced
- Ensure that stuck, leaking, faulty or damaged water meters are replaced
- Do regular follow-ups on meter replacements
- Accurately update the system with latest information
- Reduce the turnaround time for installation of replacement or new meters
- Ensure improved synergy and improved communication between internal department like Town Planning, Infrastructure, GIS and Billing
- Interrogate billing and prepaid electricity reports on a monthly basis and take immediate remedial action to address anomalies or discrepancies
- Ensure that all billable properties are billed for Property rates and services
- Ensure that customers are billed at the correct approved tariff by linking each customer to the correct tariff code loaded on the system
- Reduce Electricity and Water losses
- Finalise the Riverton reclamation dam to reduce water losses at the Plant by at least 8%
- Introduce automated metering for bulk consumers
- Finalise the Electricity Cost of Supply Study
- Ensure qualifying indigents are registered on the system, immediately upon verification
- Improve on indigent management in terms of consumption and ensure prepaid electricity meters are installed immediately for all approved indigents
- Improve on service delivery and personnel performance, to enhance customer's willingness to pay
- Reduce or curb unnecessary expenditure by diligently applying cost containment measures
- Prioritisation of spending
- Improve on routine maintenance on particularly revenue generating assets
- Spend funds effectively with good value for money

Revised collection rate

As per Table 10 below, when taking into consideration what was billed in December 2021 and received in January 2022, the monthly collection rate is 64%. Indicated in Table 11 below is the revised average collection of 70% for the period under review. The average collection is distorted due to the annual billing of Property rates. The average collection is distorted due to the annual billing of Property rates. The actual Rand-value billed for July 2021, is R78,562 million and the annual billing is effectively deducted from the YTD billing on Property rates, to portray a more realistic picture of the average collection rate which translates into an average collection rate of 74.4%. Based on actuals obtained from the system, only R6,820 million has been received for annually billed rates. This clearly demonstrates the low level of receipts from Property rates that is billed annually with a collection rate of 8.7%. When considering the average collection rate, various factors are taken into account, like the receipts on Prepaid Electricity, unallocated credits, etc. The YTD billing on Property Rates and Service Charges are obtained from the general ledger. Billing on Other is obtained from the BS902 report (Debits Raised Versus Payments). The BS566 report (Payments per Service per Day/Period) includes all monies received from 1 January to 31 January 2022. Unallocated credits are obtained from the cashbook. Government in particular and businesses/households that opt to get billed annually, have until the end of September/October 2021 to settle their outstanding accounts.

Table 13: BS566 report on receipts per debtor type

Chart 12.1: Month-to-month - Total Billing Receipts incl Prepaid Electricity from Jun 2021 to Jan 2022

Chart 12.1: Month-to-month - Total Billing Receipts incl Prepaid Electricity

As indicated in Chart 12.1 above, the Total Billing Receipts including Prepaid Electricity amounted to R109,670 million which resulted in a decrease of R4,681 million or 4% in respect of the month-to-month comparison. Unallocated billing receipts at month end amounted to R10,589 million. Unallocated receipts are not factored into the actual receipts as per the chart above.

Chart 12.2: Monthly billing receipts per revenue source from Jun - Jan 2022

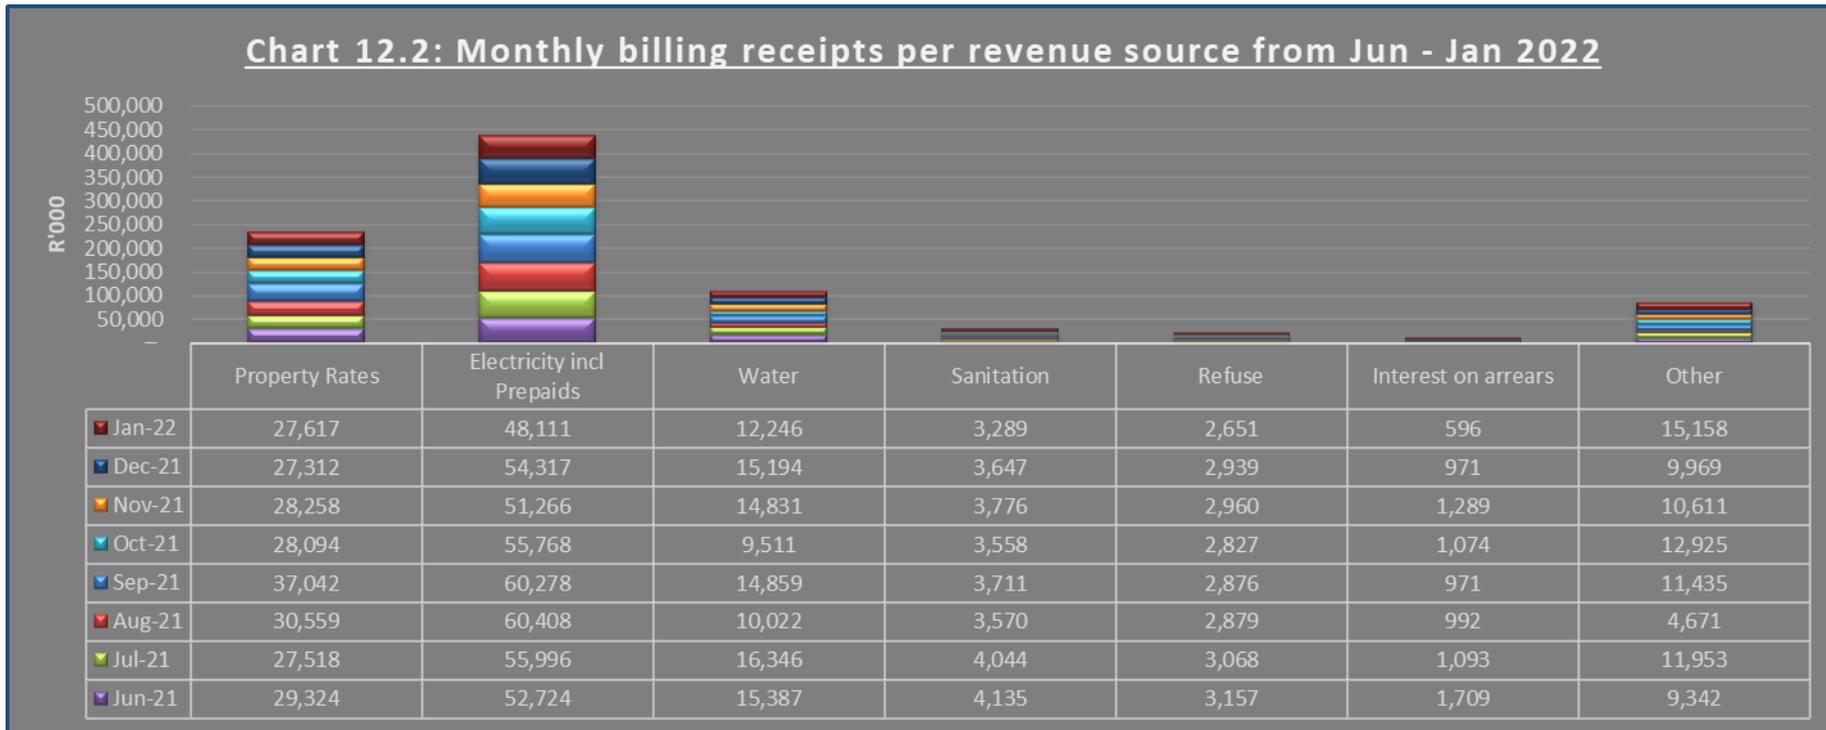

Chart 12.2: Monthly billing receipts per revenue source

Indicated in Chart 12.2 above, is the month-to-month receipts per Revenue source. Receipts are relatively constant based on the month-to-month comparison. The downward trend is concerning and indicative of the fact that the municipality is battling to collect its outstanding debt and more needs to be done to improve on its revenue collection. Receipts on all Service charges and Interest on arrears decreased when compared to the previous month. There is an increase on Property Rates and Other.

Chart 12.3: Ranking of billing receipts per revenue source from Jul to Jan 2022 (R'000)

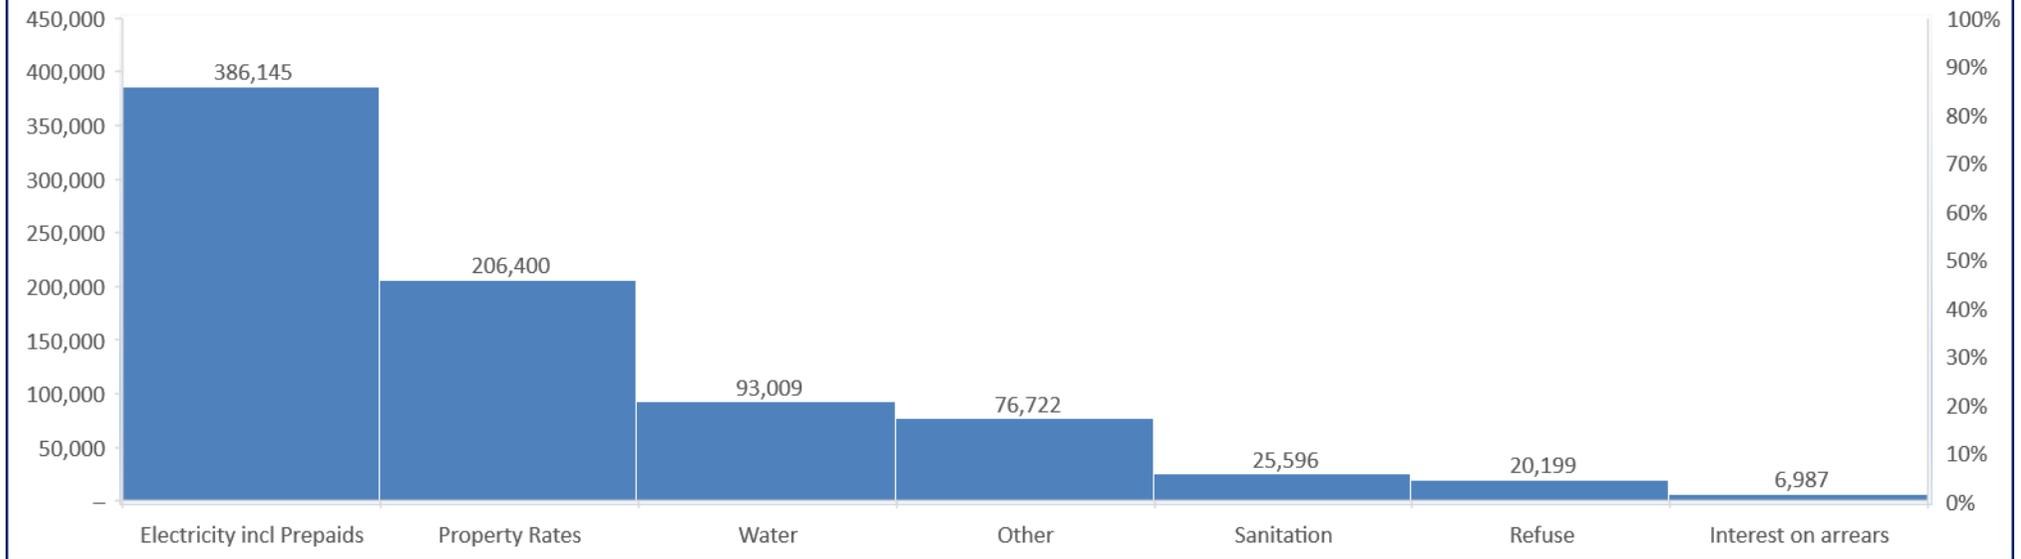

Chart 12.3: Ranking of billing receipts per revenue source

Percentage contribution per Revenue source from Jul 2021 to Jan 2022

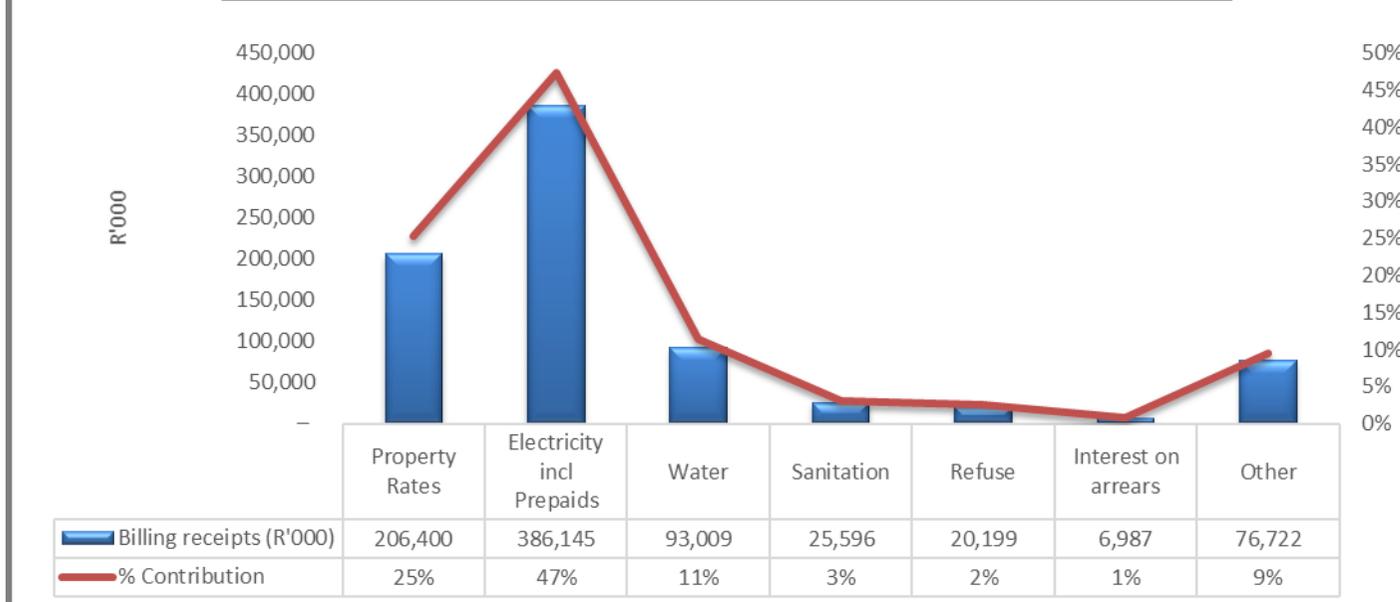

Chart 12.4: Percentage contribution of billing receipts per revenue source

Indicated in Chart 12.3 and 12.4 above, is the ranking and percentage contribution of receipts per revenue source from July 2021 to January 2022. Data from the above pareto chart, clearly indicates that Electricity incl Prepays is the highest contributor at R386,145 million (47%) being received. This illustrates the sensitivity and vulnerability in respect of Electricity sales that the municipality is facing. Any major reductions in this revenue source can severely affect the municipality's financial position and this was clearly demonstrated when the municipality had to abolish the implementation of the basic charge in 2018/19 financial year. The second highest contributor is Property Rates at R206,400 million (25%), however more measures should be implemented to ensure that receipts from annual billing materializes. Receipts from Water constitutes 11% and Other 9% overall.

Receipts from Sanitation and Refuse is extremely low and on average the municipality collects approximately 54% from these revenue sources. The lowest contributor in respect of actual receipts, is Interest on arrears at R6,390 million. This demonstrates the fact that the municipality is facing challenges in collecting long outstanding debt. It should be noted that in terms of the approved Customer Care, Credit Control and Debt Collection Policy, is outlines that "the municipality shall implement an incentive for settlement of arrears accounts as illustrated below:

- a) 100 % of all interest charges and penalties not yet paid and still reflecting on the consumer's most recent account may be written off if such account is settled in full prior to the next billing run of such account.
- b) 85 % of all interest charges and penalties not yet paid and still reflecting on the consumer's most recent account may be written off if such account is settled in full over a period of two consecutive months.
- c) 50 % of all interest charges and penalties not yet paid and still reflecting on the consumer's most recent account will be written off if such account is settled in full over a period of three consecutive months."

The above incentives then negatively influence the collectability of this revenue source, but positively influences the collection of other services.

6. Creditors' Analysis

Table 14: Supporting Table SC4: Aged Creditors

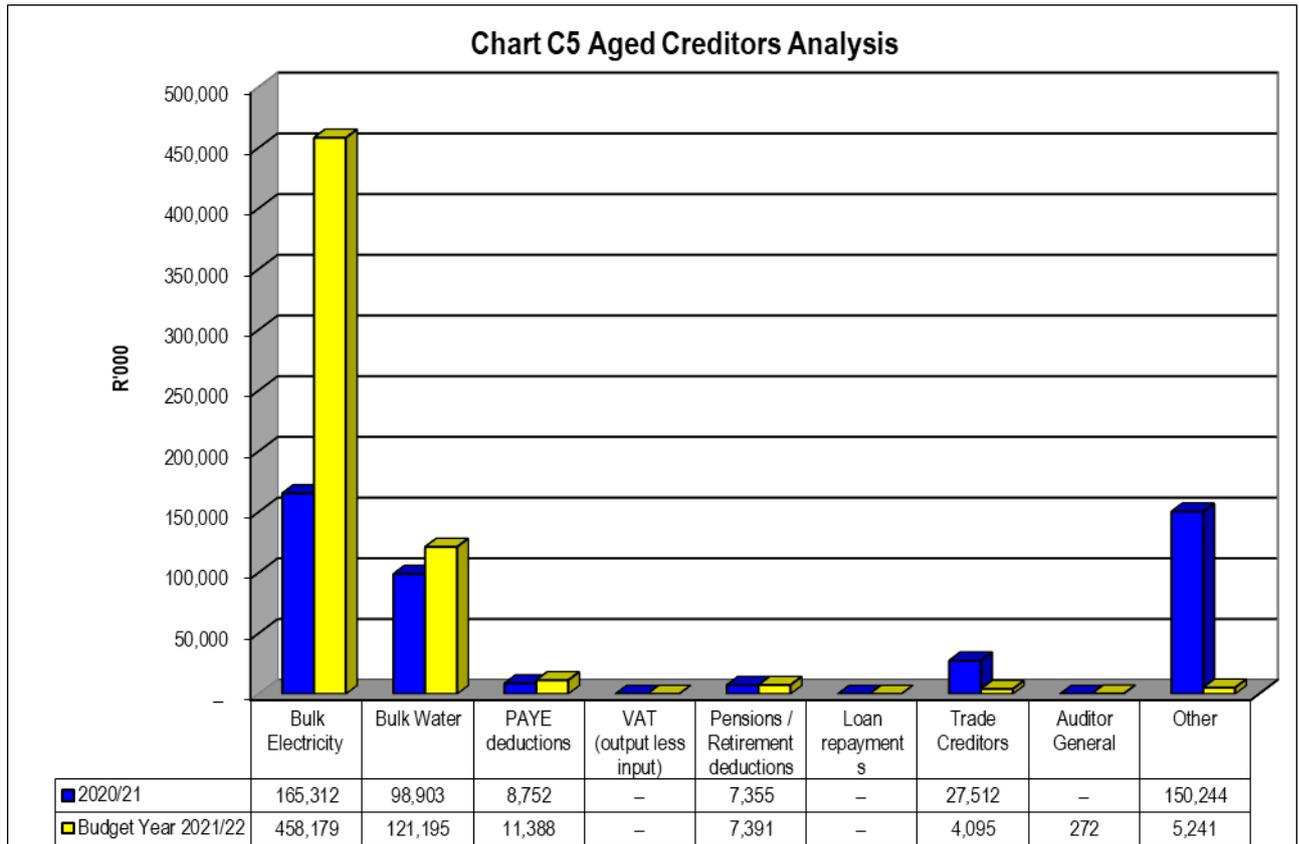

Chart 13: Aged Creditors Analysis

Bulk Electricity – As at the 31 January 2022, the outstanding debt owed to ESKOM amounted to R4458,179 million. The municipality will conclude a new payment agreement with ESKOM for the 2021/22 financial year.

Bulk Water – The outstanding debt owed to DWS is R121,195 million. The municipality is still awaiting the June 2021, July 2021 and September 2021 invoices from the Department. The municipality will conclude a new payment agreement with DWS for the 2021/22 financial year.

PAYE and Pension statutory deductions are paid over monthly to the relevant institutions.

VAT – after the monthly VAT reconciliation, an amount of R4,371 million was paid to SARS.

Trade creditors are all suppliers registered on the municipality's database and it is a prerequisite for these suppliers to be registered on the central supplier database (CSD). Outstanding payables pertain to all services rendered and goods received but not yet paid.

Auditor General – current due at the end of January 2022 is R272 thousand.

Other creditors – includes Sundry creditors which were unpaid as at the reporting date.

7. Investment portfolio analysis

The market value of the investment portfolio has been utilized and for the period ending 31 January 2022, the value of total investments made was R50,832 million including interest. Investments excluding interest amounted to R50,099 million. Part of investments made during the month where interest accrued which reflected an increase in investment and not as a result of increased revenue collection.

Capital grant monies received for the month under review.

European Union: R14,400 million

There are some mapping errors pertaining to operational and capital grants. This will be investigated by our financial system vendor, to find a solution. Capital grants specifically is allocated to the balance sheet as receipts and is not mapped to the C-schedule. This must also be discussed with our service provider.

Table 17: Supporting Table SC7(1): Transfers and grant expenditure

The municipality is experiencing huge challenges in respect of funding for the EPWP which is not sufficient and this is putting strain on the municipality's finances. The total YTD expenditure is standing at R12,119 million. For reporting purposes to NT and the Dept of Public Works, the municipality is only expected to report up until the allocation amount. The current years' gazetted allocation for the EPWP is R3,362 million. In addition to this, the municipality budgeted R6,000 million for this programme. Management has been in a process of reviewing this programme.

Description	Original Budget	Adjustment Budget	Monthly Actual	YTD Actual	% Spent Original	% Spent Adj Budget
INEP (INTEGRATED NATIONAL ELECTRIFICATION PROGRAMME GRANT)	66,500,000	66,500,000	245	2,294,322	3.5%	3.5%
IUDG (INTEGRATED URBAN DEVELOPMENT GRANT)	66,266,000	66,266,000	426,323	16,230,397	24.5%	24.5%

WSIG (WATER SERVICES INFRASTRUCTURE GRANT)	25,000,000	25,000,000	-	7,500,607	0.0%	30.0%
Grand Total	167,766,000	167,766,000	426,568	26,025,326	15.5%	15.5%

Table 18: Summary of expenditure per grant

As indicated in Table 18 above, the YTD expenditure amounts to R27,980 million or 15.5% spent against the Original capital grant allocation of R167,766 million. Capex is usually slow for the first quarter mainly as a result of finalization of procurement processes and/or work still in progress. The second quarter just ended and this is concerning that YTD expenditure is so low. It should be noted that grant expenditure excludes VAT which will be recognized at year-end in the Statement of Financial performance, when all conditions of the grant have been met. Please refer to Section 4.3 *Sol Plaatje (NC091): Monthly Budget Statement: January 2022*

in the Executive Summary which highlights some of the factors that negatively influences the delay in grant expenditure.

Rollover Grants: Expenditure

A rollover request was submitted to NT on 30 August 2021 as directed by NT. Final outcome was received on 20 December 2021 and the rollover was rejected. Indicated below is an extract from the approval letter received from NT.

“Your request to roll over the unspent amount of R5 million into the 2021/22 financial year by your municipality is not approved in terms of 22(2) of the 2020 Division of Revenue Second Amendment Act, (Act No. 20 of 2020) (DoRSAA). The rejection is with respect to the Neighbourhood Development Partnership Grant (NDPG).

The National Treasury in assessing your roll over request used the criteria set out in Circular No. 108 of the Municipal Finance Management Act, 2003 (Act No.56 of 2003) as a guide for the consideration of the roll over submission by your municipality.

The decision to reject your roll over request is based on the following reason:

The rollover request for NDPG is not recommended by the NDP Unit within the National Treasury. According to the Transferring Officer, the municipality has sufficient allocation in the 2021/22 financial year to continue with the project.”

The municipality lodged an objection to this outcome and it was disapproved.

[Table 19: Supporting Table SC7\(2\) - Expenditure against approved rollovers](#)

Table 19 is not required as the rollover request was not approved.

Table 20: Supporting Table SC8: Councillor and staff benefits

As depicted in Table 19 above, Employee related costs is underspent and showing a variance of minus 8%. This is attributable to Post-retirement benefit obligations that will be finalized as part of the year-end procedures and the soft lock on the filling of vacancies. It should be noted that the disclosure under Performance bonus, is the annual bonuses or 13th cheques that is budgeted for and paid out to employees. This is not subject to any performance appraisal.

Councillors Remuneration is slightly under-performing at 16%. This is attributable to the annual increase that has not been factored in, as the gazette on the Determination of Upper limits of salaries, allowances and benefits of different members of municipal councils is normally issued in December of each year. Management started to address the issues on Overtime which is higher than the ideal IYM percentage of 58.33%, at 84.8% spent. Backpay was paid to firemen at Emergency Services backdated from December 2019. The total amount paid out during the first quarter of the financial year was R1,923 million.

There is possibly a mapping error because as per SC(8) the budgeted Overtime is reflecting an amount of R4,146 million for Night-shift allowance and the two line-items (Overtime Structured and Non-structured) in the ledger amounts to R31,021 million. After a consultation with BCX, our financial system administrator, it was established that is how the mapping was done by NT. The matter was formally lodged with NT and the municipality is awaiting feedback from them in this regard.

There are early indicators that the Overtime controls is no longer as effective and the desired outcome to remain within budget, will not be achieved at year-end. The lack of capacity in certain departments, like Water services and the severe service delivery challenges is negatively impacting on the management of Overtime expenditure. Overtime hours are limited to 30 hours per month within most departments. The Overtime policy was developed and approved by Council.

And indicated in Table 21 below, is the YTD Overtime expenditure excluding Night-shift allowance per line item and also per Directorate as at end of January 2022.

Description per line item (Amount in Rand)	Sum of Original Budget	Sum of YTD Movement	% Spent Original Budget
MS: OVERTIME - NON STRUCTURED	18,783,000	19,763,722	105.2%
MS: OVERTIME - STRUCTURED	12,237,841	6,546,045	53.5%
Overtime as at 31 January 2022	31,020,841	26,309,767	84.8%
Directorate (Amount in Rand)	Sum of Original Budget	Sum of YTD Movement	% Spent Original Budget
20-EXECUTIVE AND COUNCIL	205,000	62,841	30.7%
21-MUNICIPAL AND GENERAL	-	-	
22-MUNICIPAL MANAGER	-	14,086	
23-CORPORATE SERVICES	1,760,000	923,617	52.5%
24-COMMUNITY SERVICES	11,741,441	12,980,026	110.5%
26-FINANCIAL SERVICES	453,000	773,206	170.7%
27-STRATEGY, ECONOMIC DEVELOPMENT & PLANNING	259,000	544,178	210.1%
28-INFRASTRUCTURE SERVICES	16,602,400	11,011,813	66.3%
Overtime as at 31 January 2022	31,020,841	26,309,767	84.8%

Table 21: Current YTD Overtime expenditure excl Night-shift allowance

Overtime has been capped at 30 hours across most units within the municipality. The YTD Overtime expenditure is R26,310 million and 84.8% spent, resulting in a negative variance of 26.5%, when compared to the ideal percentage of 58.33% for the period under review.

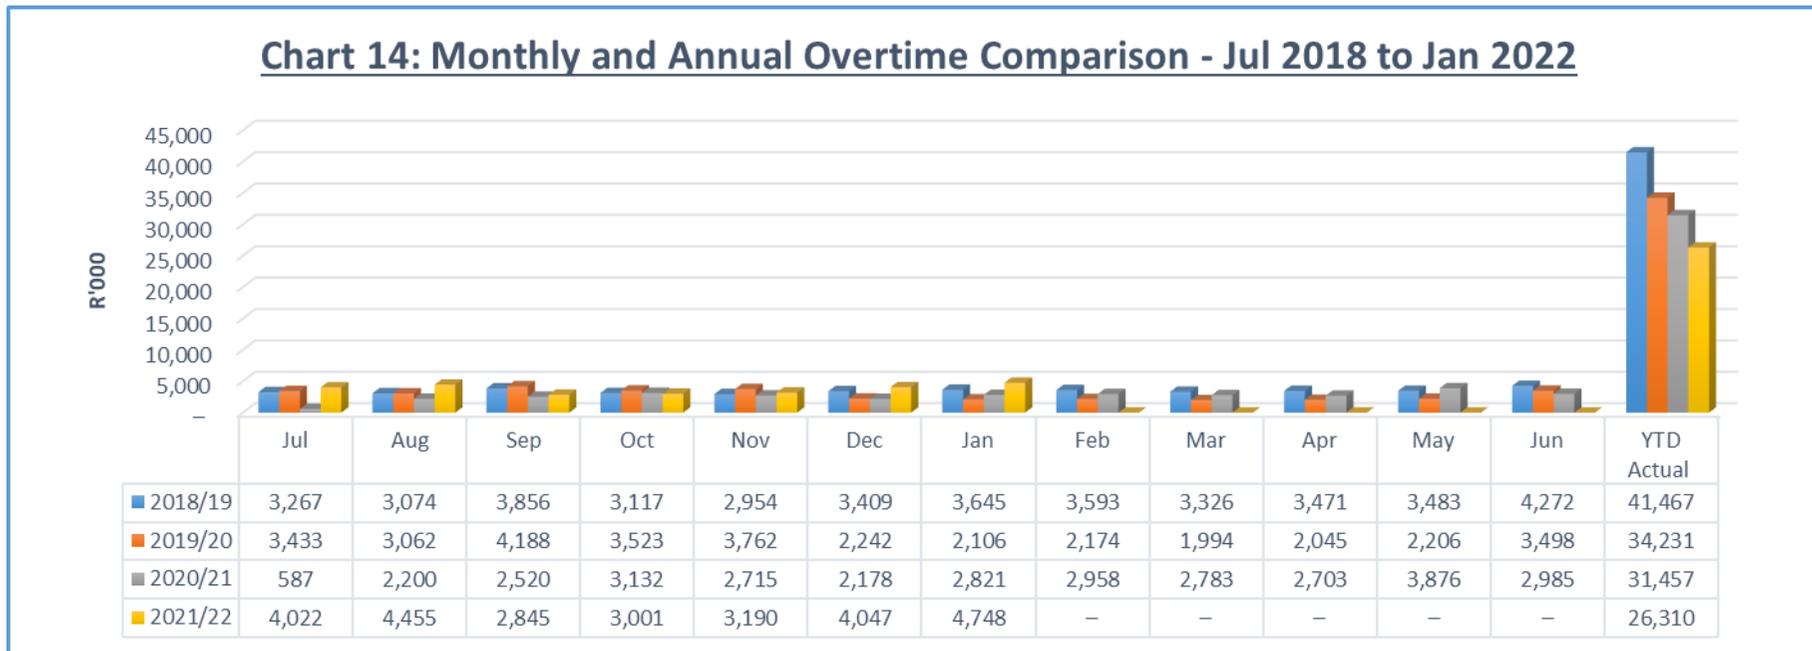

Chart 14: Monthly and Annual Overtime Comparison

Indicated in Chart 14 above, is the monthly and annual Overtime comparison from July 2018 to January 2022. There has been a substantial decrease in Overtime expenditure from 2018/19 to 2019/20. As reiterated, controls to curb Overtime is no longer as effective and the full-year forecast is estimated at R39 million, if serious remedial action is not implemented.

The BTO office recommended the following precautionary measures.

- The monitoring of daily tasks/assignments. This means that work that can be done during normal working hours should be monitored closely. Ideally, put emphasis on performance and especially the quality of work done.
- Finding means to actually verify work performed, even if this means that for the first few questionable overtime work that managers/supervisors actually go out to the site, if possible.
- Using the vehicle tracking reports to ascertain the timespan at a particular site.
- Making sure that the hours claimed are legitimate and is actually consistent and correlates to the normal estimated time to complete a job of a similar nature.
- Request a detailed description of the nature of work done and insist on the exact site where work was performed being specified.
- Ensure that managers remain vigilant and question hours claimed and not just sign Overtime forms. We believe that this will make workers more aware that they cannot just claim hours like they did in the past.
- Stopping planned Overtime, unless it is to avoid major shutdowns or service interruptions.
- The adherence to the Overtime Policy stipulations, is imperative in order to address the issues on overtime.

Listed below are the challenges with regard to Overtime which was identified during the 2012/13 MTREF

- Ensuring accountability across all directorates and ensuring that Executive directors, Line Managers and Supervisors take full responsibility
- Identify and investigate possible abuse and alleged fraudulent allegations and taking disciplinary action, where applicable
- Ensuring the compliance and adherence to applicable laws and regulations and internal policies
- Approval of Overtime prior to it being incurred
- Inability to manage overtime proactively
- To remain within the budgeted Overtime
- Curbing / Limiting / Curtailing expenditure on Overtime
- Monitoring expenditure on Overtime
- Utilizing the available workforce optimally
- Unduly compromising or hampering service delivery, which basically means that work that could have been done during normal hours is deliberately delayed so that work can be finalized after hours
- Implementing an alternative method of compensation
- Addressing the immediate infrastructure maintenance requirements, specifically addressing preventative maintenance
- Ensuring and enhancing the lifespan of Property, plant and equipment
- Improve both the personal productivity of individual employees and the overall productivity of departments and the entire municipal system
- Difficult to track departmental overtime on more than a monthly or even quarterly basis, by then it's too late to take meaningful action to minimize overtime costs

10. Material variances to the service delivery and budget implementation plan

Material variances are primarily addressed in the Executive summary under Sections 4.1 to 4.3 or emphasised elsewhere in this Monthly Budget Statement. Any other material variances to the SDBIP will be included in the quarterly Section 52 (d) report for the period ending 31 March 2022.

11. Capital programme performance

Please refer to notes on Capital Expenditure in the Executive Summary. Section 4.3.

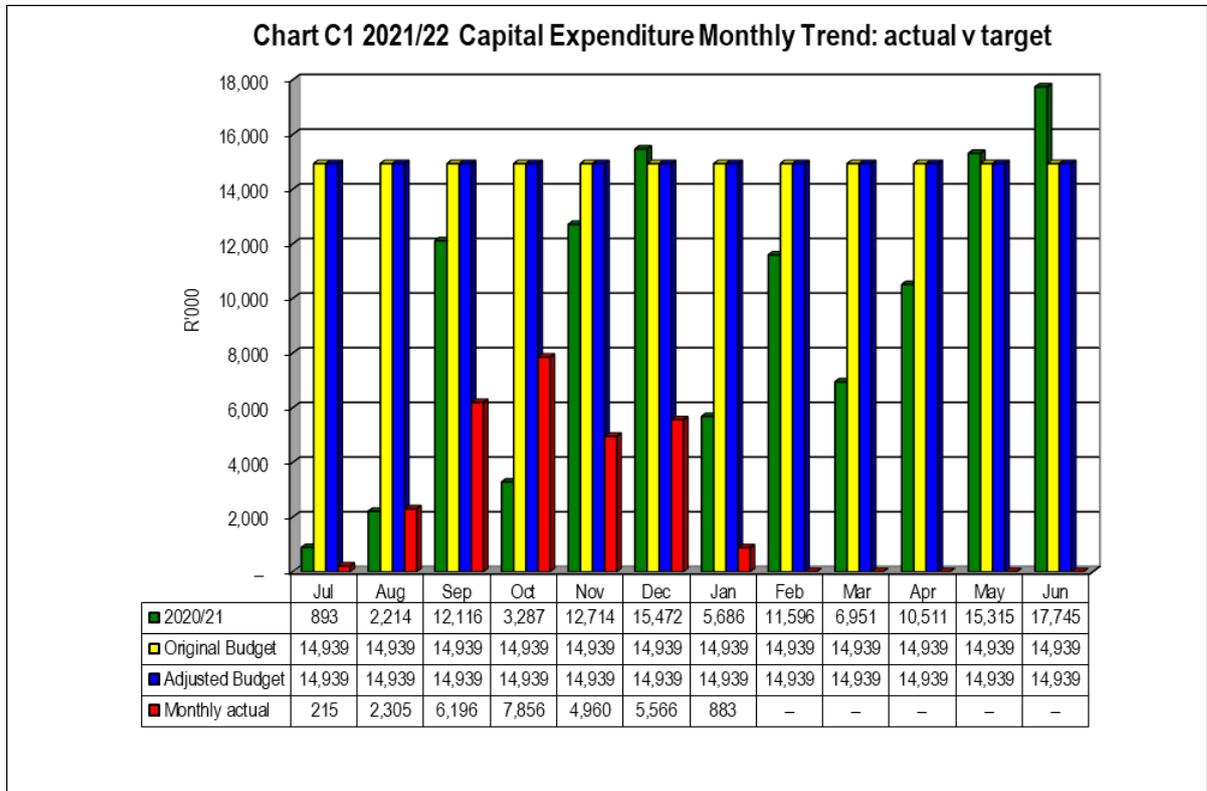

Chart 15: Capital Expenditure Monthly Trend: actual v target

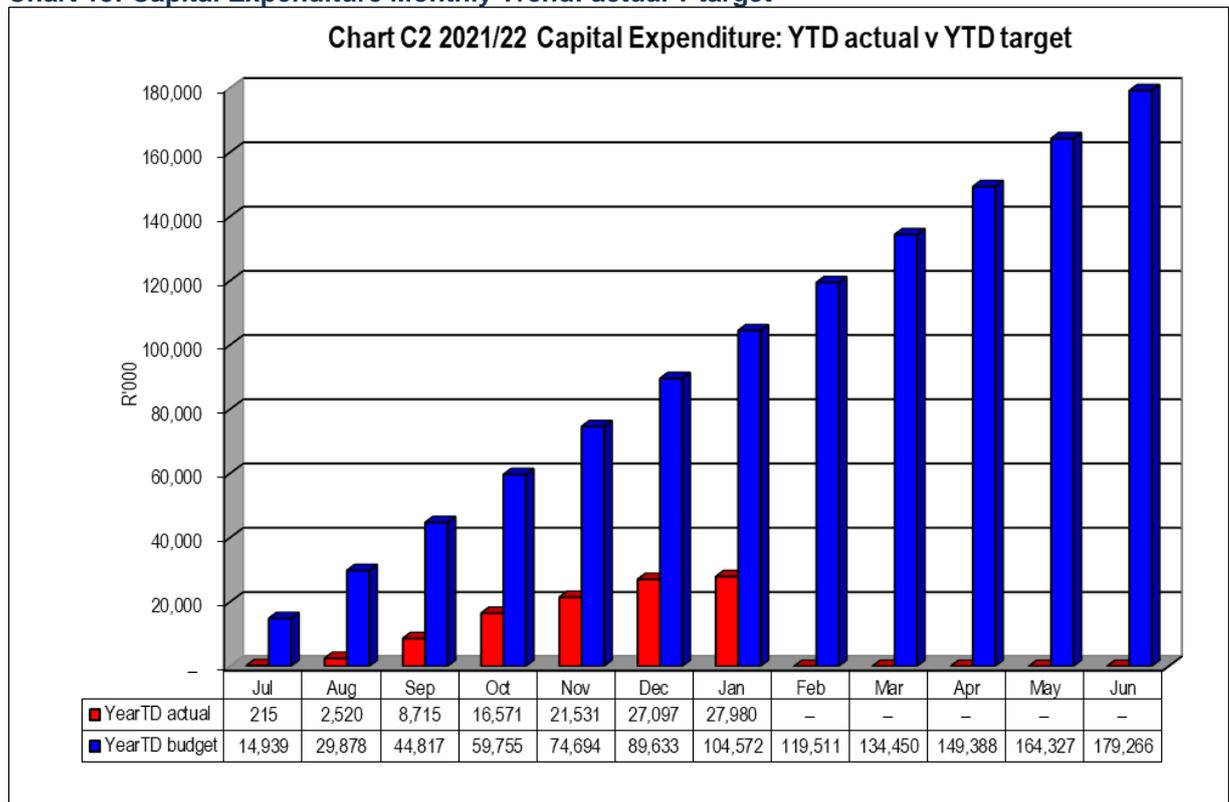

Chart 16: Capital Expenditure: YTD actual vs YTD target

Indicated in Table 22 below, is a list of projects with the applicable funding source. The total capex is normally slow during the start of the financial year. However, capital expenditure is extremely poor compared to prior years for the same period. Urgent intervention from management is required to remedy the situation. The actual monthly expenditure for January 2022 amounted to R883,255 thousand. The total YTD Capex amounts to R27,980 million. Total commitments amount to R2,371 million. Construction of the sink toilets is a rollover from internal funds and will be addressed during the Adjustment budget. Please note that commitments are excluded from the YTD movement. Capital expenditure is also exclusive of VAT.

Table 23: Summary of capital expenditure per funding source

Indicated in Table 23 above, is a summary of the capital expenditure per funding source compared to the Original and preliminary Adjustment budget. Overall spending on grants is extremely slow. The expenditure on IUDG (24.5%), NDPG (0%), INEP (3.5%) and WSIG (30%). Spending on Internally generated funds is 17% spent. Implementation of projects is possibly delayed by the finalization of procurement processes. Payment certificates are settled once work is completed. The total funding from NDPG amounting to R10 million has been withdrawn, whilst R30 million has been withdrawn from INEP. These downward adjustments will be addressed during the Adjustment budget for 2021/22 financial year.

12. Other supporting documents

There is no additional information or supporting documentation for January 2022.

13. Conclusion

This report meets the MFMA requirement for the Executive Mayor to receive the Section 71 'Monthly Budget Statement' within 10 working days after the end of the month.

Communication

In compliance to legislative requirements (Section 71 of the MFMA), this document is provided to all stakeholders by placing it on the Sol Plaatje municipal website: www.solplaatje.org.za or can be viewed or downloaded from the following link:
