## PART 1: IN-YEAR REPORT

TO: THE EXECUTIVE MAYOR

**DIRECTORATE: FINANCIAL SERVICES: BUDGET & TREASURY OFFICE: MUNICIPAL FINANCE MANAGEMENT ACT (MFMA): SECTION 71: IN-YEAR MONTHLY BUDGET STATEMENT FOR THE PERIOD ENDING 31 OCTOBER 2022**

### 1. Purpose

The purpose of this report is to comply with section 71 of the MFMA and the requirements as promulgated in the Government Gazette No 32141 of 17 April 2009 by the submission of a monthly budget statement to the Executive Mayor, National and Provincial Treasury containing prescribed financial performance particulars for that reporting month and for the financial year up to the end of that month, as legislated.

The Covid-19 pandemic did not bode well for the municipality's finances which was already under severe strain and further exposed the vulnerability of the municipality's cash position. The municipality would like to thank all our clients who still continued to settle their outstanding municipal accounts during this difficult period. The municipality realises once again, the critical importance of having a minimum 3 months cash coverage which is a sound directive and required norm from National Treasury. This has been the focus of the municipality for the past few months to ensure that Sol Plaatje Municipality recovers fully to ensure its sustainability and financial viability.

The municipality's main goal is to remain positive and committed in stabilising the municipality, improving its cash position and improving on service delivery. The municipality is facing serious challenges pertaining to the debt owed to Eskom and the Department of Water and Sanitation. The municipality is in the process to finalise debt agreements with both institutions. The municipality managed to settle the current accounts of both institutions and is committed to maintaining an amicable relationship with these critical creditors.

Currently the total debtors book is standing at R3,125,099 billion and the municipality is urging government, businesses and households to meet their obligation to the municipality or make payment arrangements with the municipality. In light of this, the municipality has been disconnecting non-paying customers commencing from 8 August 2022 which included government and then moving onto businesses and households. The municipality managed to collect R178,873 million for August 2022 since the inception of the collection drive, however the cash collection have been declining from September 2022 and this is not good news for the municipality. Tough decisions have to be taken to have a meaningful impact and produce positive results. This action is long overdue, especially in light of the municipality's financial crisis and major threat to its financial viability and sustainability. The municipality also envisage to implement our Revenue Collection Action Plan ("**RCA Plan**"), prioritizing the collection of overdue Municipal debt from all our Customer Groups that are in arrears and *are able* to pay their accounts, but are unwilling to make payment or make a payment arrangement.

The Plan further provides for a Credit Control, Indigent Assistance Awareness and Account Payment Campaign. We believe that this campaign will be informative and create an awareness to Customers as to the assistance provided by the Municipality in relation to the payment of accounts and the social package offered to indigents (including child headed households). The Municipality will offer its Customers payment discounts for accounts settled before the due date and discount incentives to all Customers that settle their outstanding accounts in full. The campaign will also educate Consumers on the importance of the payment of accounts and the detrimental effect non-payment has on service delivery

In order for the municipality to thrive, overall performance must improve, the quality of services rendered must improve, accountability must be enforced which must be complimented by strict consequence management. Serious consideration should be given to the service delivery and financial implications of all decisions taken. Ensure that acts, regulations and policies are adhered to diligently, consistently and fairly. Enhance revenue collection and ensure that operational and capital funds are spent effectively with good value for money.

Improving on preventative maintenance and spending funds cost-effectively and efficiently to address service delivery challenges can no longer be delayed, we have noted an increase in emergency maintenance which seems excessive as no competitive bidding is taking as a result of the impact of asset failure on service delivery. We are striving to ensure assets are maintained at desired levels and are being utilised optimally. The spending of funds will have to be prioritised, wastage be curbed and overall personnel performance and productivity be monitored and improved. Municipal officials should also take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure. Refrain from committing acts of financial misconduct and/or criminal offences as per Chapter 15 of the MFMA.

***It is imperative that all municipal officials must have the inherent desire to do their job to the best of their ability, take pride and ownership in their work, take accountability for their job functions, doing the right thing consistently and work as a collective, cohesive team to achieve the municipality's strategic objectives. Foremost to all of these, have the community's best interest at heart.***

## **2. Background**

Section 71 of the MFMA and in terms of Government Notice 32141 dated 17 April 2009, regarding the "Local Government: Municipal Finance Management Act 2003 and the Municipal Budget and Reporting Regulations" necessitates that specific financial particulars be reported on and in the format prescribed, hence this report to meet legislative compliance. "The monthly budget statement of a municipality must be in the format specified in Schedule C and include all the required Tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168(1) of the Act."

Further, Section 71 of the MFMA requires that, "the accounting officer of a municipality must by no later than **10 working days** after the end of each month submit to the Mayor of the municipality, and the relevant national and provincial treasury, a statement in the prescribed format on the state of the municipality's budget reflecting certain particulars for that month and for the financial year up to the end of that month." For the reporting period ending **31 October 2022**, the ten working day reporting limit expires on **14 November 2022**. As per MFMA Budget Circular No. 94 "from 2019/20 onwards, municipalities will no longer be required to continue with the use of the Budget Reform Returns to upload budget and monthly expenditure to the National Treasury Local Government Database for publication purposes. The National Treasury will use only the *m*SCOA data strings required for submission as prescribed and all publications will use the data collected from the *m*SCOA data strings" which must be submitted before or on **14 November 2022**, (ten working day limit).

### 3. Executive summary

The Statement of Financial Performance shown in Annexure A, Table C4, is prepared on the prescribed monthly C-schedules, detailing Revenue by source and Expenditure by type. The consolidated summary of the financial performance is indicated in Table 1 and Table 2 below:

Summary Statement of Financial Performance: YTD Budget					
Description R thousand (R'000)	YTD Budget October 2022	YTD Actual October 2022	Variance Favourable (Unfavourable)	% YTD Actual vs YTD Budget	% Variance Favourable (Unfavourable)
Total Revenue (excluding capital transfers and contributions)	829,070	1,042,358	213,289	125.7%	25.7%
Total Revenue (including capital transfers and contributions)	873,849	1,063,530	189,681	121.7%	21.7%
Total Operational Expenditure	821,712	686,228	(135,484)	83.5%	-16.5%

Table 1: Consolidated summary: Statement of Financial Performance: YTD Budget

As indicated in Table 1 above, as at 31 October 2022, the billed revenue excluding capital grants amounted to R1,042,358 billion which resulted in a favourable variance of 25.7% when compared to the YTD Budget of R829,070 million. The over-recovery is as a result of error on the allocation of Prepaid Electricity Sales amounting to R181 million. The billed revenue including capital grants resulted in a satisfactory variance of 21.7% when compared to the YTD budget of R873,849 million. Going forward, Capital grants will be recognised in the Statement of Financial Performance, on a monthly basis as soon as the conditions of the grant has been met. The Total Operational Expenditure resulted in a negative variance of minus 16.5%.

Summary Statement of Financial Performance: Original Budget					
Description R thousand	Original Budget	YTD Actual October 2022	Variance Favourable (Unfavourable)	% YTD Actual vs Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 16.67%
Total Revenue (excluding capital transfers and contributions)	2,487,209	1,042,358	835,091	41.9%	8.58%
Total Revenue (including capital transfers and contributions)	2,621,547	1,063,530	845,067	40.6%	7.24%
Total Operational Expenditure	2,465,128	686,228	480,801	27.8%	-5.50%

Table 2: Consolidated summary: Statement of Financial Performance: Original Budget

Indicated in Table 2 above is the YTD actual compared to the Original Budget. When calculating the ideal In-Year-Monitoring percentage of 33.33% [calculated as follow: (100/12 months x 4 months of the year)] as at the end of October 2022, the Total operational revenue excluding capital grants versus the Original Budget resulted in a positive variance of 8.58%. The Total operational revenue including capital grants versus the Original Budget resulted in a satisfactory variance of 7.24%. The Total Operational Expenditure resulted in a negative satisfactory variance of minus 5.5%.

**Please note that certain Revenue by source and Expenditure by type categories are showing excessive negative and/or positive variances. This is due to fact that the YTD budgets were all systematically determined on a straight-line basis by dividing the total budget per category per line item by 12. The capital projections were also done in the same fashion. Please note that variances within a 5% range, as prescribed by National Treasury are acceptable and need not necessarily be explained.**

## 4.1 Operating Revenue by Source

Revenue by Source	Original Budget	Monthly actual	YearTD actual	YearTD budget	Achieved YTD Budget	YTD variance	YTD variance	Achieved Original Budget	Original Budget Variance	Original Variance IYM % - 33.33%
	R'000	R'000	R'000	R'000	%	R'000	%	%	R'000	%
Property rates	627,646	46,128	265,770	209,215	127.0%	56,555	27.0%	42.3%	56,555	9.0%
Service charges - electricity revenue	919,854	263,257	443,445	306,618	144.6%	136,827	44.6%	48.2%	136,827	14.9%

Table 3: Table C4 Financial Performance (Revenue)

### Comparison against the YTD Budget

- ❖ Property Rates is showing a positive YTD variance of 27%, due to the annual billing on Property Rates for predominantly Organs of State and businesses.
- ❖ Service charges - Electricity revenue is showing an over-recovery of 44%. This is attributable to a system error on the allocation Prepaid sales amounting to R181 million. For this reason there is unallocated prepaid sales of R21 million for October 2022 that could not be allocated timeously. It is of utmost importance that the Billing section does a proper investigation to ensure that all properties are billed accurately. The same applies to all other Service charges where the Original budget comparison is not satisfactory.
- ❖ Rental of facilities and equipment is showing a positive variance of 97.2% as a result of the rental of the Lerato Park flats which was not budgeted for, as the municipality was busy with the finalisation of the asset transfer from CoHGSTA. This will be corrected during the Adjustment Budget.
- ❖ Interest earned – External investments shows a negative variance of minus 86.2%, as a result of accrued interest revenue that was recognised for the 2021/22 financial year. It should be noted that investments have been declining year-on-year but have remained relatively constant for the period under review. This however, also served as a major impediment that is preventing the municipality from actually earning more interest. Due to financial constraints the municipality could not increase its investments which largely contributes to the lower interest earned. The reduced interest rate by the Reserve bank, prior to the latest interest rate hikes, also had a negative impact on Interest earned. The bulk of the interest earned normally gets recognised at year-end.
- ❖ Fines, penalties and forfeits is showing a negative variance of 22% as a result of the under-recovery of Law enforcements fines with a 10.52% achieved versus a target of R10,000 million. The unit is experiencing various challenges in terms of capacity and the process of the reconciliation of fines with the Department of Justice needs to improve.  
The actuals achieved on Penalties: Disconnection fees is satisfactory at 34.92% against an annual target of R17,500 million. The municipality also implemented disconnection and blocking of prepaid customers, commencing from 8 August 2022.

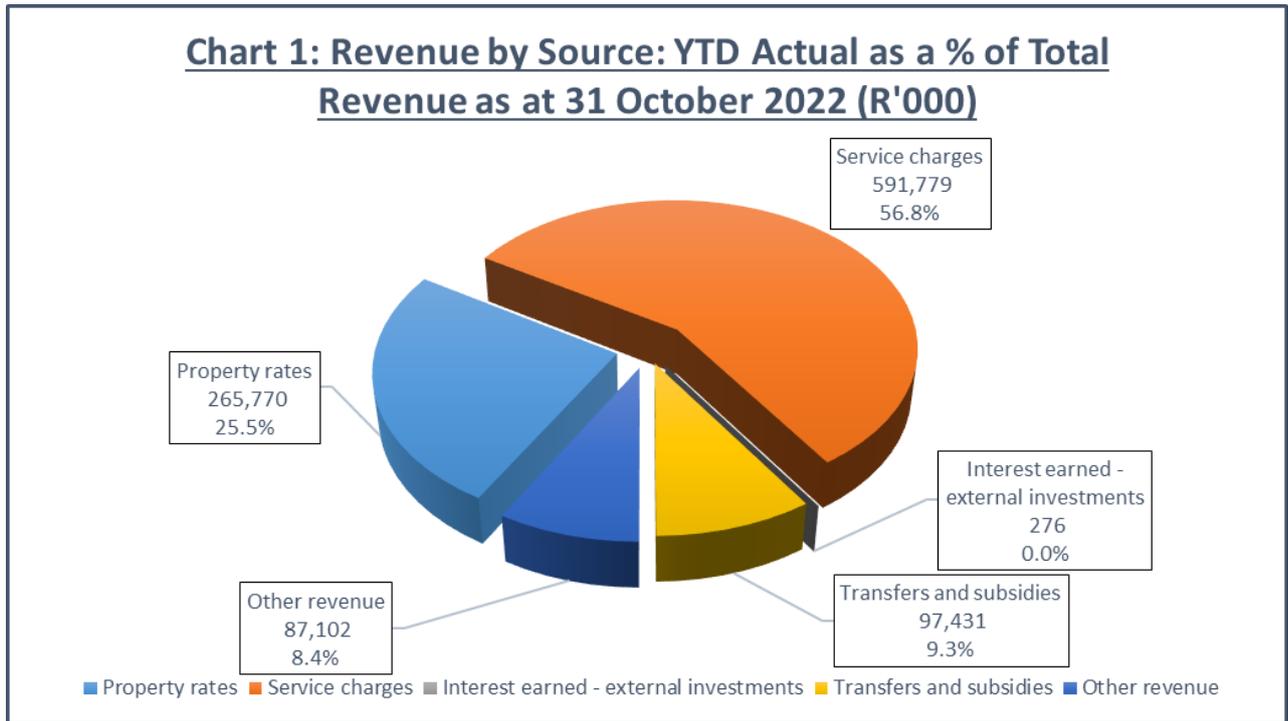

- ❖ Licences and permits is showing a positive variance of 71.6%, however there are possible outstanding payments due to the Department of Transport, Safety and Liaison. This is possibly attributable to an over-recovery on Road & Trsp: Motor Vehicle Licenses, showing an actual achieved of 74.66%.
- ❖ Transfers and subsidies is showing a positive variance of 13.2% due to the recognition of the first tranche of the Equitable Share that was received in July 2022.
- ❖ Other Revenue is higher than anticipated as a result of improved receipts on Building plan approvals with an 83.98% achievement versus a target of R4,700 million.
- ❖ Capital grants is showing a negative variance of 52.7%, as a result of the lower than anticipated capital grant expenditure. Serious intervention will have to be taken by Management to improve on monthly capital grant expenditure and capital expenditure overall.

### **Comparison against Original Budget**

Based on the IYM percentage of 33.33%, the majority of revenue sources are performing satisfactorily.

- ❖ Property rates is performing satisfactorily and showing a positive variance of 9%, due to the annual billing of Property Rates.
- ❖ Service charges is performing satisfactorily when compared to the Original budget. The error on Prepaid sales is explained above.
- ❖ Rental of facilities and equipment is showing a positive variance of 32.4%. Same factors are applicable as described in the paragraph above.
- ❖ Interest from External Investments is showing an unsatisfactory variance of minus 28.7%. Same factors are applicable as described in the paragraph above.
- ❖ Fines, penalties and forfeits is showing a negative variance of minus 7.3%. Same factors are applicable as described in the paragraph above.
- ❖ Licences and permits is showing a positive variance of 23.9%. Same factors are applicable as described in the paragraph above.
- ❖ Transfers and subsidies is satisfactory with a variance of 4.4%.
- ❖ Other Revenue is showing a positive variance of 10.3%. Same factors are applicable as described in the paragraph above.
- ❖ Transfers – recognised capital is showing a negative variance of minus 17.6%. Same factors are applicable as described in the paragraph above.

Indicated in Chart 1 below is the weighting of the YTD Actual on billed Revenue per Source as a percentage of total operational revenue as at 31 October 2022. The main contributors of the municipality's revenue are Service Charges (56.8%), Property Rates (25.5%) and Transfers and subsidies (9.3%). The weighting is distorted due to the annual billing on Property Rates and the allocation error on Prepaid sales.

**Chart 1: Revenue by Source: YTD Actual as a percentage of Total Revenue**

## 4.2 Operating Expenditure by Type

Table C4 Monthly Budget Statement - Financial Performance (Expenditure) - October 2022

Expenditure By Type	Original Budget	Monthly actual	YearTD actual	YearTD budget	% Achieved YTD Budget	YTD variance	YTD variance	Achieved Original Budget	Original Budget Variance	Original Variance IYM
	R'000	R'000	R'000	R'000	%	R'000	%	%	R'000	%
Employee related costs	849,403	64,022	250,162	283,136	88.4%	(32,973)	-11.6%	29.5%	(32,972)	-3.9%

<b>Total Expenditure</b>	<b>2,465,128</b>	<b>171,200</b>	<b>686,228</b>	<b>821,712</b>	<b>83.5%</b>	<b>(135,484)</b>	<b>-16.5%</b>	<b>27.8%</b>	<b>(135,481)</b>	<b>-5.5%</b>

Table 4: Table C4 Financial Performance (Expenditure)

### Comparison against YTD Budget

As indicated in the Table 4 above, as at 31 October 2022 current YTD expenditure shows an unsatisfactory variance of minus 16.5%. The YTD actual amounted to R686,228 million against the YTD Budget of R821,712 million.

- ❖ Employee related costs shows an unsatisfactory variance of minus 11.6%. Post-retirement benefit obligations are not factored in and will only be finalised as part of year-end procedures.
  - ❖ Remuneration of councillors is showing a negative variance of 9%. The gazette on the Determination of Upper limits of salaries, allowances and benefits of different members of municipal councils will be issued later in the current financial year.
  - ❖ Debt impairment will be provided for on a quarterly basis. However the journal for the first and second quarter was not processed timeously and will be resolved during November 2022.
  - ❖ Depreciation was projected for on a straight-line basis but will only be provided for, as part of year-end procedures. Herewith the response from the Asset Management Unit, why Depreciation cannot be recognised at least quarterly “The Asset Management System currently do not interface with the Financial System and this make it difficult, to post the transactions for depreciation monthly or quarterly. We currently have to pass journals in the financial system to recognise depreciation in the general ledger. This is due to the fact that the systems do not interface. Once journals are passed for depreciation and changes needs to be done for depreciation due to asset processes like disposals or impairment recognition, we will have to pass new journals for the correction of depreciation. The Asset Management System can currently interface with the Financial System but requires authorization from the service provider of the Financial System. Asset Management is one of the core functions that will be dealt with by the re-established mSCOA Steering Committee.”
  - ❖ Finance charges is satisfactory. Interest on External borrowing is paid bi-annually and the first instalment for the current financial year is due at the end of December 2022. Interest on overdue accounts will be adjusted upwards during the Adjustment budget. Corrections on the actuals pertaining to Interest paid on overdue accounts will be journalised on the system. All Interest paid on overdue accounts must be recognized as Fruitless and Wasteful expenditure in the Annual Financial Statements.
  - ❖ Bulk purchases – Electricity is showing a satisfactory variance of 0.4%.
  - ❖ Expenditure on Contracted services is lower than anticipated, pertaining to Prepaid Electricity Vendors which is 16.42% spent versus a budget of R29,500 million. The September 2022 invoice is unpaid. There is also zero expenditure on line item Contr: Maintenance Of Unspecified Assets thus far.
  - ❖ Bulk purchases Water is treated in line with GRAP 12. The invoices are captured on the balance sheet under Water:Input Vol: Bulk Purchases and then journalized to the Income Statement and is
- Sol Plaatje (NC091): Monthly Budget Statement: October 2022**

simultaneously split between Water Inventory and Water losses. This journal for July to September 2022 was processed timeously, whilst October 2022 will be done during November 2022. The municipality will endeavour to recognise this on a monthly basis going forward.

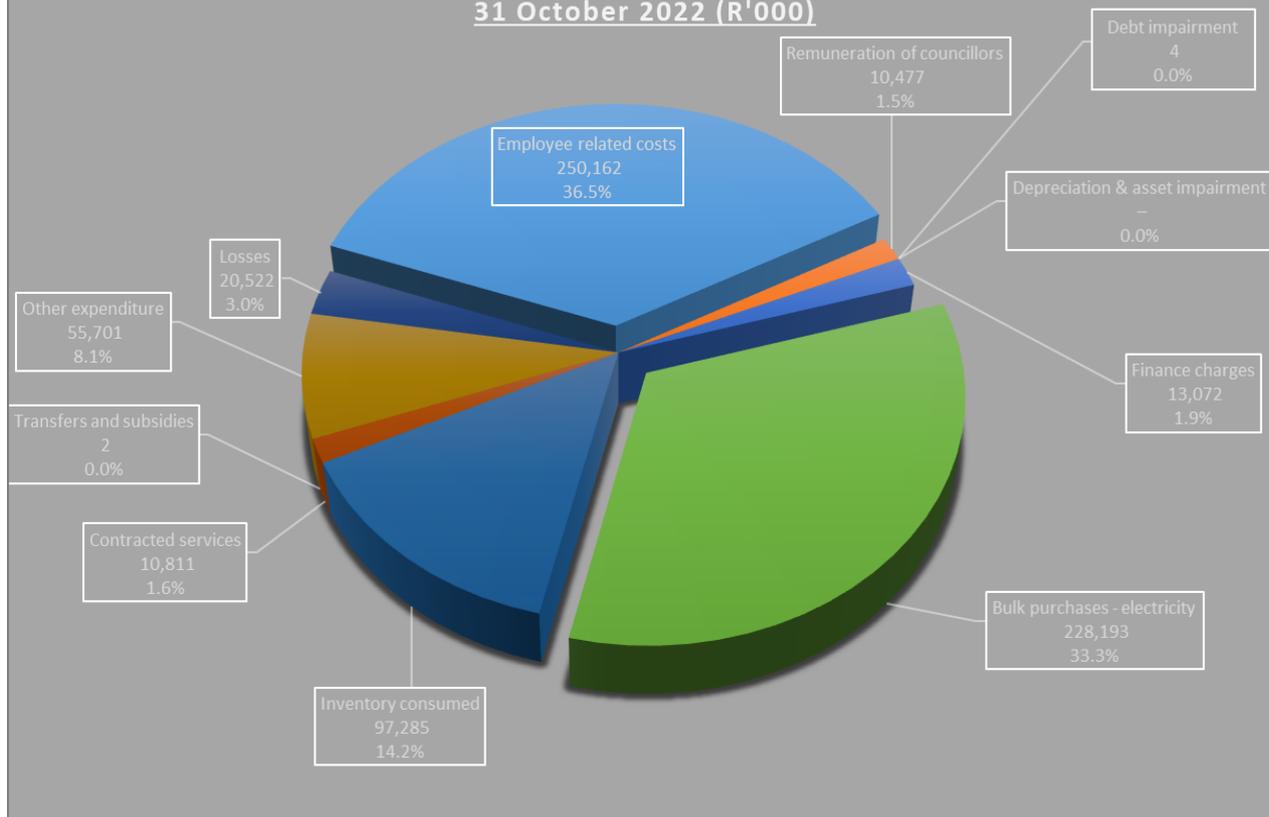

- ❖ Transfers and subsidies show a negative variance of 99.9%. The grant funding of R2,300 is still due to the SPCA. Other grants also show minimal movement due to cash flow constraints.
- ❖ The expenditure on Inventory consumed is showing a negative variance of 23.3%. Water maintenance and Road maintenance budget is under severe strain. It has been reiterated monthly that expenditure on Inventory consumed needs to be monitored closely and remedial action be taken to ensure that funds are spent effectively with good value for money and also that funds will be fully spent at year-end.

### **Operating Expenditure by Type: Comparison against Original Budget**

Indicated in Table 4 above, is the YTD actual compared to the Original Budget. The ideal In-Year-Monitoring percentage as at the end of October 2022 is 33.33%. The total operational expenditure against the Original Budget is 27.8% spent, resulting in a satisfactory variance of minus 5.5%.

- ❖ Employee costs and Councillors remuneration is satisfactory.
- ❖ Debt impairment will be provided for on a quarterly basis but the journal for the first and second quarter was not processed timeously. This will be finalised during November 2022. The municipality has been treating debt write-offs erroneously and all write-offs must be done directly against the expenditure vote and not against the Statement of Financial Position. This should be corrected during the financial year as and when write-offs are done.
- ❖ Depreciation will be provided for at year-end. Same factors are applicable as explained above.
- ❖ The variance on Finance charges is satisfactory.
- ❖ Expenditure on Contracted services is lower than anticipated, same factors are applicable as explained above.
- ❖ Transfers and grants is unsatisfactory with a variance of minus 3.3%. The same factors are applicable as explained in the paragraph above.
- ❖ Water inventory under Inventory consumed and Loss on disposal of PPE (Water losses), a corrective journal was passed.

**Chart 2: Expenditure by Type : YTD Actual as a % of Total Expenditure as at 31 October 2022 (R'000)**

**Chart 2: Expenditure by Type: YTD Actual as a percentage of Total Expenditure**

Also indicated in Chart 2 above is the weighting of the YTD Actual on Expenditure by Type as a percentage of total operational expenditure as at 31 October 2022. The main cost drivers of the municipality are Employee Related Costs, Debt Impairment and Bulk Purchases – Electricity. It should be noted that these percentages are distorted as a result of the following:

- ❖ The Post-retirement benefit obligations under Employee related costs will be finalized as part of the year-end procedures.
- ❖ Depreciation is not provided for and will only be finalized at year-end.
- ❖ Debt impairment is not provided for, and should be recognised quarterly for actual debt write-offs.
- ❖ Finance charges is paid bi-annually. Interest on overdue account needs to be corrected.

**Bulk Purchases: Electricity, Water inventory and Water losses**

❖ Indicated in Table 5.1 below, is the YTD expenditure on Bulk Purchases: Electricity. When compared to the IYM percentage of 33.33% as at end of October 2022, Bulk Purchases Electricity is showing a satisfactory variance of 0.13%. The July 2022 invoice is captured on the system, whilst the August and September 2022 invoices were settled in full. The current account for October 2022 will be settled on or before the 30 November 2022.

Description	Original Budget	Monthly Actual	YTD Actual	% Spent Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 33.33%
BULK PURCHASES: ELECTRICITY	682,000,000	51,622,386	228,193,209	33.46%	0.13%
<b>Total</b>	<b>682,000,000</b>	<b>51,622,386</b>	<b>228,193,209</b>	<b>33.46%</b>	<b>0.13%</b>

Table 5.1: Summary of YTD Bulk Electricity expenditure

❖ Indicated in Table 5.2 below, is the Water inventory and Water losses which is showing a satisfactory variance of 0.9% when compared to the ideal percentage of 33.33%. During the Adjustment budget for 2021/22 and advised by NT, Bulk purchases Water was split between Inventory Water and Water losses in the Statement of Financial Performance aligned to GRAP 12. A corrective journal was done for July to September 2022. The current account for October 2022 will be settled on or before 30 November 2022 and a corrective journal will be passed during November 2022.

Description	Original Budget	Monthly Actual	YTD Actual	% Spent Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 33.33%
INVENTORY - WATER	60,000,000	7,025,635	20,521,539	34.2%	0.9%
NON-REVENUE WATER LOSSES	60,000,000	7,025,635	20,521,539	34.2%	0.9%
<b>Total</b>	<b>120,000,000</b>	<b>14,051,270</b>	<b>41,043,078</b>	<b>34.2%</b>	<b>0.9%</b>

Table 5.2: Summary of YTD Bulk Water expenditure

Organ of state	Arrear debt of unpaid invoices	Current Account due (Oct 2022)	Total Outstanding Debt	YTD Interest charged 2022/23
ESKOM	629,163,319.85	59,750,383.02	688,913,702.87	24,488,335.73
DWS (Water boards)	140,224,436.01	14,984,383.98	155,208,819.99	-

Table 6.1: Summary of outstanding Bulk costs debt

Indicated in Table 6.1 above, is the total outstanding debt owed to ESKOM amounting to R688,914 million. The debt for 2021/22 has not been settled in full. Due to the severe financial constraints the municipality could not enter into a payment agreement with ESKOM for 2021/22 financial year. However, the municipality is in the process of concluding a payment arrangement for 2022/23 financial year. The agreement with ESKOM is that the municipality will at least settle the current account on a monthly basis and the repayment proposal must still be approved by ESKOM. The total year to date interest charged on overdue accounts due to ESKOM amounts to R24,488 million which must be disclosed as Fruitless and Wasteful Expenditure for the year under review.

Also, indicated in Table 6.1 above, is the total outstanding debt owed to DWS which amounts to R155,209 million. No interest charged on overdue accounts was charged by DWS. The debt for 2020/21 has been settled in full, whilst there are still outstanding invoices for 2021/22 financial year. To date, the municipality could not enter into a payment agreement with DWS due to severe financial constraints. However, the municipality is in negotiations with the Department to conclude a new payment arrangement for 2022/23 financial year. This repayment proposal was submitted to the Department for approval. The municipality is still awaiting feedback in this regard.

Table 6.5: Summary of DWS payments

Indicated in Table 6.5 above, is the total amount paid to DWS per financial period and per payment date for the 2021/22 and 2022/23 financial year. For the month of October 2022, the municipality settled an amount of R33,769 million on outstanding invoices.

The Head Office team of DWS has introduced an Incentive scheme for customers, that should a customer be on the scheme the interest will be written off meaning the customer will only be liable to pay the capital amount within a duration of 12 months and on that note the interest will also be suppressed within that period. This incentive scheme drive is only available for a duration of 6 months. Another prerequisite is that the current account must be settled in full each month. The municipality submitted the proposed debt agreement to the Department for approval and have a requested for a longer repayment period of 24 months. The incentive scheme also stipulate that the municipality must settle 10% of the arrear debt. The municipality settled this during October 2022 as part of the amount that was paid for the month under review.

## Monthly and YTD comparison of debt owed to Eskom and DWS

**Chart 2.1: Monthly & YTD comparison - Bulk electricity & Water debt**

Indicated in Chart 2.1, is the monthly and YTD comparison of Bulk electricity and Water debt. From September to October 2022, debt owed to ESKOM increased by R1,393 million or 0.2%, from R687,520 million to R688,914 million. When comparing the total outstanding debt to June 2022, the outstanding debt increased by R32,545 million or 5% from R656,368 million to R688,914 million. The total YTD billing from June to October 2022, amounts to R433,956 million, whilst the municipality settled an amount of R299,979 million for the same period.

Debt owed to DWS decreased by R18,868 million or 11%, from R174,076 million to R155,209 million. When comparing the total outstanding debt to June 2022, the outstanding debt decreased by R11,594 million or 7% from R166,803 million to R155,209 million. The total YTD billing from June to October 2022, amounts to R62,050 million, whilst the municipality settled an amount of R76,177 million for the same period.

Table 7: High level summary: Capital Expenditure

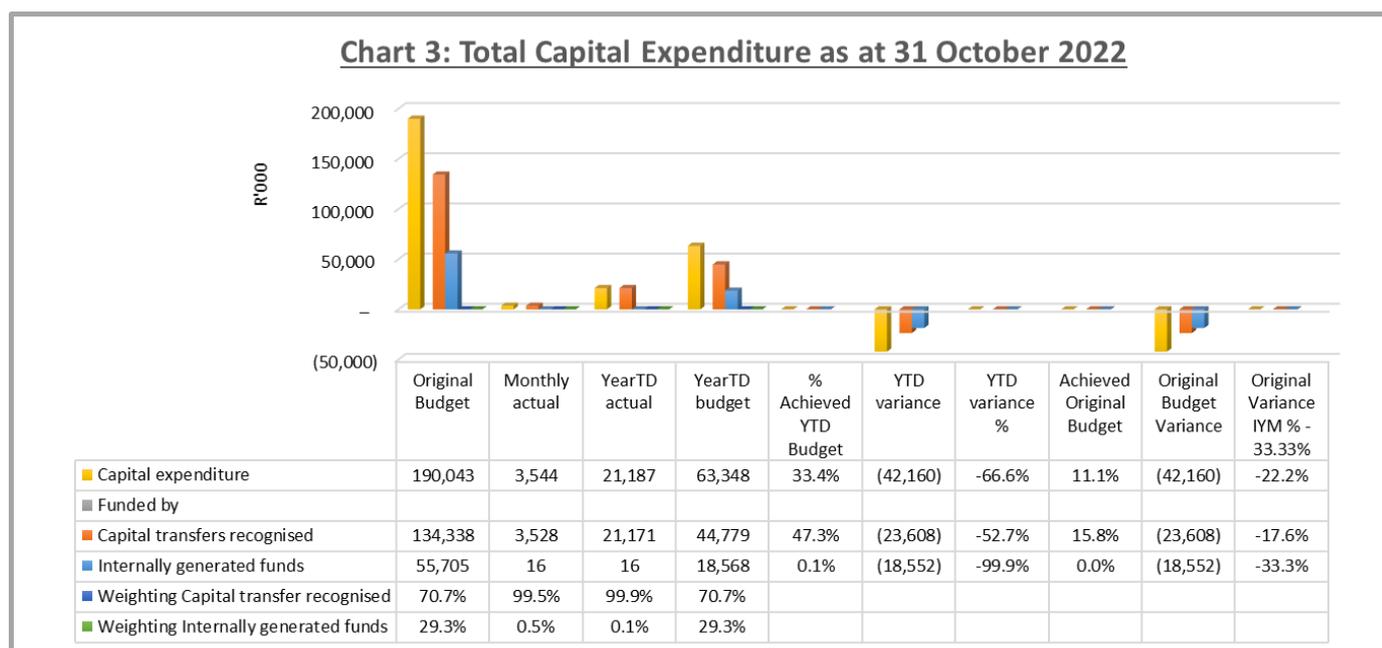

Chart 3: Total Capital expenditure

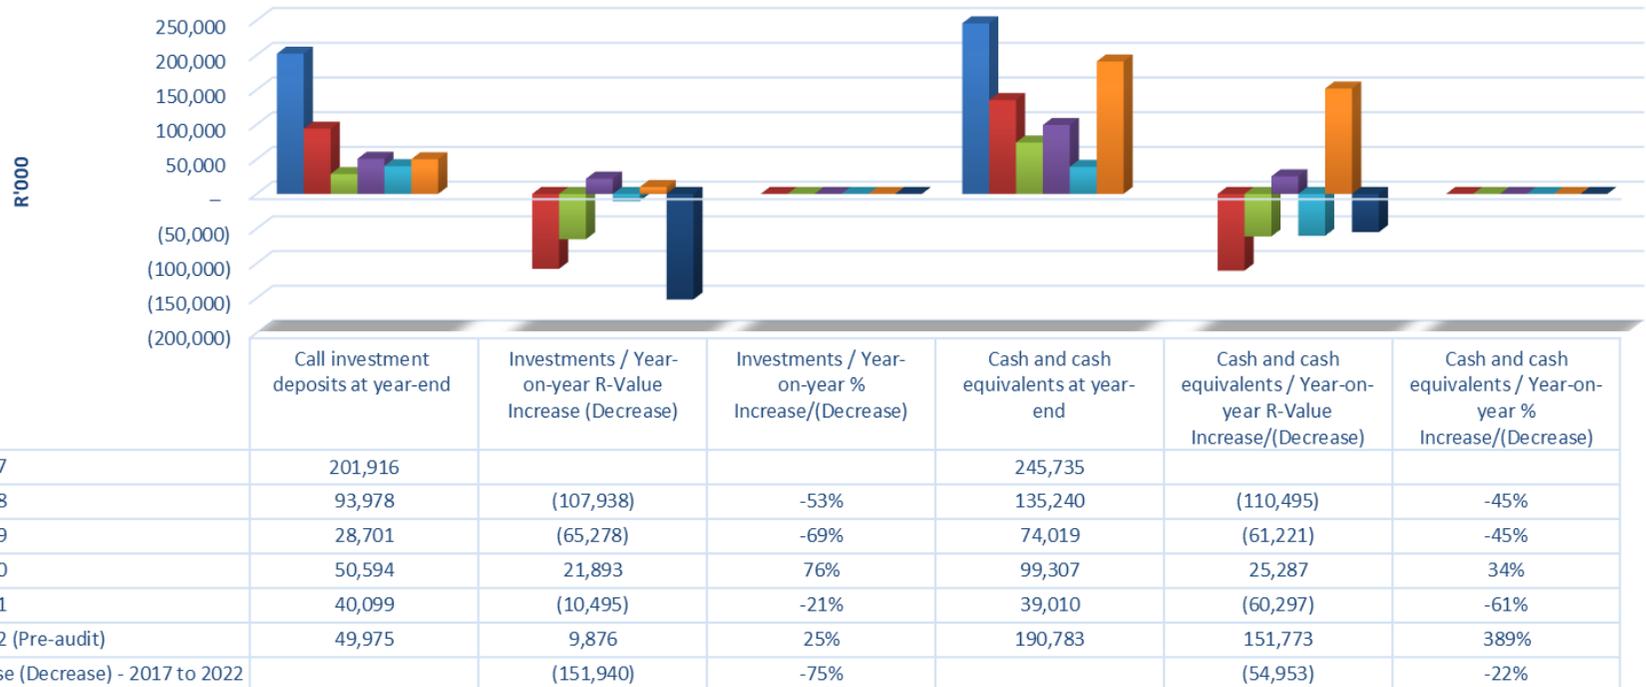

As indicated in the Table 7 and Chart 3 above, the YTD Actual on capital expenditure as at end of October 2022 amounted to R21,187 million and 33.4% spent when compared to the YTD budget of R63,348 million and 11.1% spent when compared to the Original Budget of R190,043 million. The total YTD capex is funded from Capital grants R21,171 million (99.9%) and Internally generated funds R16 thousand zero rand (0.1%). Capex is extremely low and major intervention is required for the financial year. Planning of project managers also needs to improve going forward. One of the major challenges that the municipality is experiencing is in respect of tendering processes.

The majority of capital projects are based on a functionality criteria. Bidders either do not meet the functionality criteria or submit incomplete tender documents resulting in bidders being non-responsive. And due to the non-responsiveness of bidders, these bids unfortunately have to be re-advertised. The municipality has been implementing more compulsory site meetings to sensitise service providers on the compliance issues pertaining to bid documents. Secondly, project managers need to realistically anticipate challenges and immediately address delays in order to ensure that projects are completed within the specified timeframe. Contract management also needs to be monitored more closely, placing emphasis on the performance of appointed service providers and addressing issues of non-performance immediately. The Project Management Unit (PMU) is not adequately staffed, resulting in a lack of qualified permanently appointed project managers. Lastly, it is advised that disputes, if any are addressed and resolved expeditiously. The capital expenditure is slow and overall capital expenditure remains a major concern. Remedial action will have to be taken going forward to ensure improvement on capex. It should be noted that capital expenditure excludes VAT and commitments. The capital expenditure report shown in Annexure A, Table C5 has been prepared on the prescribed monthly C-schedule, and is categorised by municipal vote and functional classification.

**Sol Plaatje (NC091): Monthly Budget Statement: October 2022**

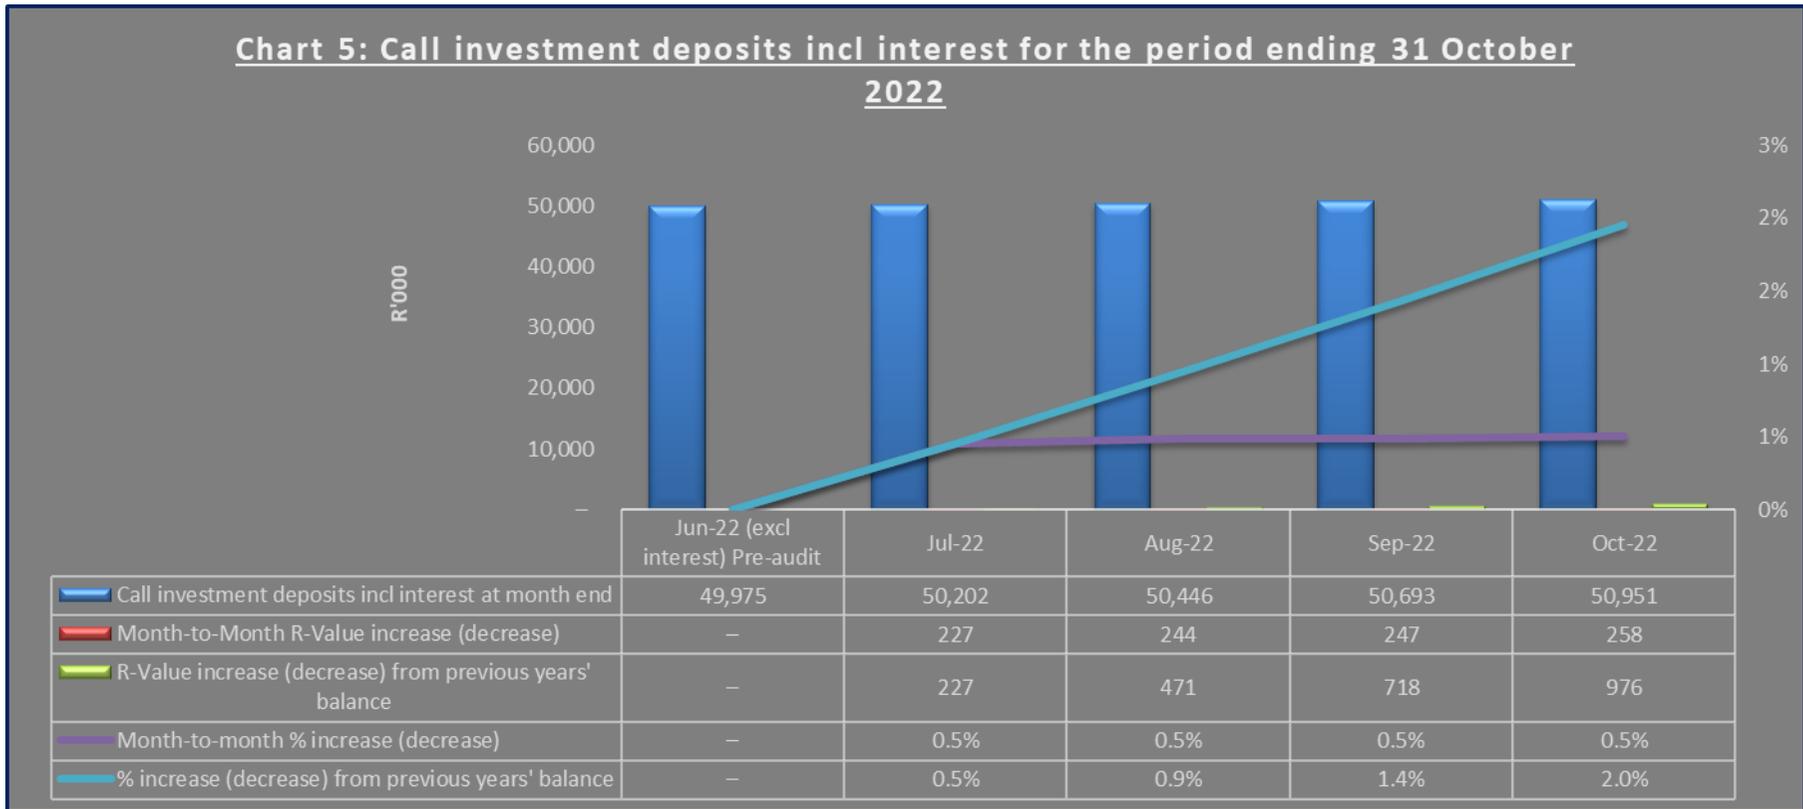

#### 4.4 Cash flows

**Chart 4: Current investment deposits and Cash & cash equivalents at year-end**

**Chart 4: Call investment deposits and Cash & cash equivalents at year-end**

Investments decreased by R107,938 million or 53% from 2017 to 2018. Investments decreased by R65,278 million or 69% from 2018 to 2019. Investments increased by R21,893 million or 76% from 2019 to 2020. Investments decreased by R10,495 million or 21% from 2020 to 2021. Investments increased by R9,876 million or 25% from 2021 to 2022. From 2017 to 2022, the total investments decreased by R151,940 million. The same trend can be seen year-on-year, as indicated in the chart above in respect of the Cash and cash equivalents. There has been a substantial increase in the Cash and Cash equivalents for the year ended 30 July 2022, due to portion of the Equitable Share that was saved to avert a crisis situation, where the municipality cannot pay salaries. This is attributable to various factors inter alia, the lower collection rate, increased capital expenditure, especially increase on CRR funding year-on-year, the non-implementation of the basic charge for the 2018/19 financial year, increase in bulk purchases, operational expenditure, including excessive expenditure on Overtime and EPWP, variation orders on contracts, excessive water and electricity losses. And the servicing of the long-term loan. The decline in investments and Cash & cash equivalents is concerning and must be addressed by management.

**Chart 5: Call investment deposits at month-end**

As indicated in the Chart 5 above from September to October 2022 investments incl interest increased by R258 thousand or 0.5%, in respect of the month-to-month comparison. Investments increased by R976 thousand or 2.0% when compared to the previous years' pre-audited figure of R49,975 million. Various commitments must be met monthly including Salaries, Bulk Electricity, Bulk Water in the billing period and capital expenditure. The majority of staff receive their annual bonuses in December of each year. Bi-annual long-term loan repayments. The non-charging of the basic charge for the 2018/19 financial year for domestic consumers also had a negative impact on the income from Sale of Electricity and thus negatively affecting the municipality's cash flow. The movement on investments should be monitored going forward and a concerted effort should be done to collect current and long outstanding debt. Capital and Operational expenditure overall, also needs to be reviewed and prioritised.

This chart could not be populated due to errors on the system pertaining to C6 (Statement of Financial Position) and C7 (Cash flow) that could not be resolved timeously.

**Chart 6.1: Cash & cash equivalents at month-end**

This chart could not be populated due to errors on the system pertaining to C6 (Statement of Financial Position) and C7 (Cash flow) that could not be resolved timeously.

**Chart 6.2: Cost coverage ratio**

The estimated average Cost coverage ratio is currently less than one week. Cash at this stage is monitored on a daily basis. The Cost coverage ratio is a critical indicator that the municipality is in a severe cash flow crisis and not in the conducive position to settle short-term commitments. This is a critical threat to the municipality's ability to pay salaries, bulk accounts and day-to-day operations which can have a detrimental effect on service delivery and irrevocably damage the municipality's relationship with its service providers and further tarnishing the municipality's reputation. This is also evident by the debt owed to ESKOM and DWS skyrocketing. The only way to address these issues, is to work as a collective team, enforce accountability within all departments and to collect outstanding debt and improve the collection rate. Therefore, the municipality must apply the Credit Control Policy consistently and fairly to ensure the credibility of the municipality. Generally the payment culture of all consumers and stakeholders must improve. The municipality also needs to spend funds effectively and efficiently with good value for money. Cost containment measures must be stringently applied.

#### **4. In-year budget statement tables**

The financial results for the period under review are attached consisting of the following Tables, in Annexure A

- (a) Table C1: Summary
- (b) Table C2: Financial Performance (Functional Classification)
- (c) Table C3: Financial Performance (Revenue and Expenditure by Municipal vote)
- (d) Table C4: Financial Performance (Revenue and Expenditure)
- (e) Table C5: Capital Expenditure by vote, functional classification and funding
- (f) Table C6: Statement of Financial Position
- (g) Table C7: Cash Flow

Table 8: Supporting Table SC3: Aged Debtors

Indicated in Table 8 above, is the total outstanding debt by Income Source and Customer Group, with the total O/S Debt amounting to R3,125,099 billion as at the end of October 2022. The Credit control office implemented the following contingencies. In the light of current cash flow and very low cashier collection at points, disconnection and blocking of institutions, businesses and Government Departments without valid arrangements or not in discussions with the municipality, should be done with immediate effect. On 8 August 2022 and going forward defaulting debtors were disconnected, starting with government and businesses and then moving onto households.

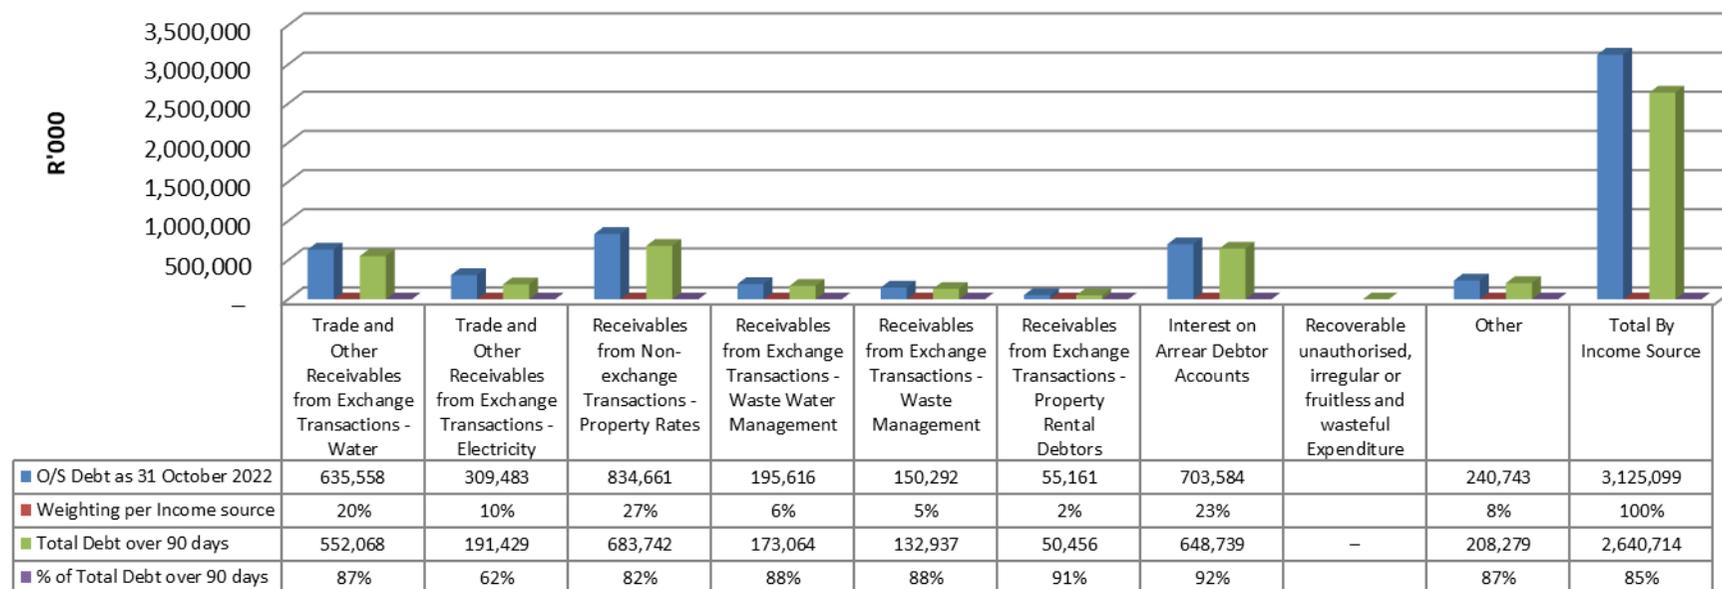

The municipality will be embarking on Credit Control And Indigent Assistance Awareness Campaign. Through this campaign we seek to educate Consumers on the importance of the payment of accounts and the detrimental effect non-payment has on service delivery. We aim to have our Customers (from all our Customer Groups) that are in arrears and are able to pay their accounts, to make payment or make a payment arrangement on their account. The campaign will also inform and create an awareness to Customers as to the assistance provided by the Municipality in relation to the payment of accounts (our social package, discounts and incentives).

Chart 7 below, depicts the month-on-month summary of Debt over 90 days as a percentage of total O/S Debt which remained the same at 85% for the month under review. Debt over 90 days increased by R33,030 million in respect of the month-to-month comparison. The month-to-month increase on Total debt amounted to R50,342 million. It is concerning that total debt over 90 days is hovering at an average of 85 percent. During the Adjustment Budget funding assessment for 2019/20, NT advised that the municipality should consider writing off debtors that we know we are not realistically going to collect. To this end, the amounts written off as uncollectable amounted to R403,262 million for the year ended 30 June 2020. For the year ended 30 June 2021, the amounts written off as uncollectable amounted to R330,209 million. For the year ended 30 June 2022, the amounts written off as uncollectable amounted to R35,270 million. The total amounts written off as uncollectable for the past three financial years amounts to R768,740 million.

**Chart 7: Debt over 90 days as a percentage of Total O/S Debt**

**Chart 8: Outstanding Debt by Income Source as at 31 October 2022**

**Chart 8: Outstanding Debt by Income Source**

Indicated in Chart 8 above, is the total outstanding debt per Income Source, including the weighting and the percentage of Total Debt over 90 days as at the end of October 2022. The highest percentage weighting of debt owed is attributable to:

- ❖ Receivables from Non-exchange Transactions - Property Rates at 27%
- ❖ Interest on Arrear Debtor Accounts 23%, and
- ❖ Trade and Other Receivables from Exchange Transactions – Water at 20%

The highest percentage weighting of debt owed in excess of 90 days is attributable to:

- ❖ Interest on Arrear Debtor Accounts and Other at 92%, respectively;
- ❖ Receivables from Exchange Transactions - Property Rental Debtors at 91%
- ❖ Trade and Other Receivables from Exchange Transactions – Waste Water and Waste Management at 88%, respectively

Table 9: Month-on-month growth in outstanding debtors

Indicated in Table 9 above is the month-on-month growth in outstanding debt, per Income Source and per Customer Group, from September 2022 to October 2022, the municipality's total O/S debt increased by 1.6% or R50,342 million.

#### O/S debt per Income Source

- ❖ Trade and Other Receivables from Exchange Transactions - Water increased by 2.3%.
- ❖ Trade and Other Receivables from Exchange Transactions - Electricity decreased by 2.8%.
- ❖ Receivables from Non-exchange Transactions - Property Rates increased by 0.3%.
- ❖ Receivables from Exchange Transactions - Waste Water Management increased by 1.4%;
- ❖ Receivables from Exchange Transactions - Waste Management increased by 1.5%.
- ❖ Receivables from Exchange Transactions - Property Rental Debtors increased by 2.5%.
- ❖ Interest on Arrear Debtor Accounts increased by 1.8%.
- ❖ Other increased by 2.6%.

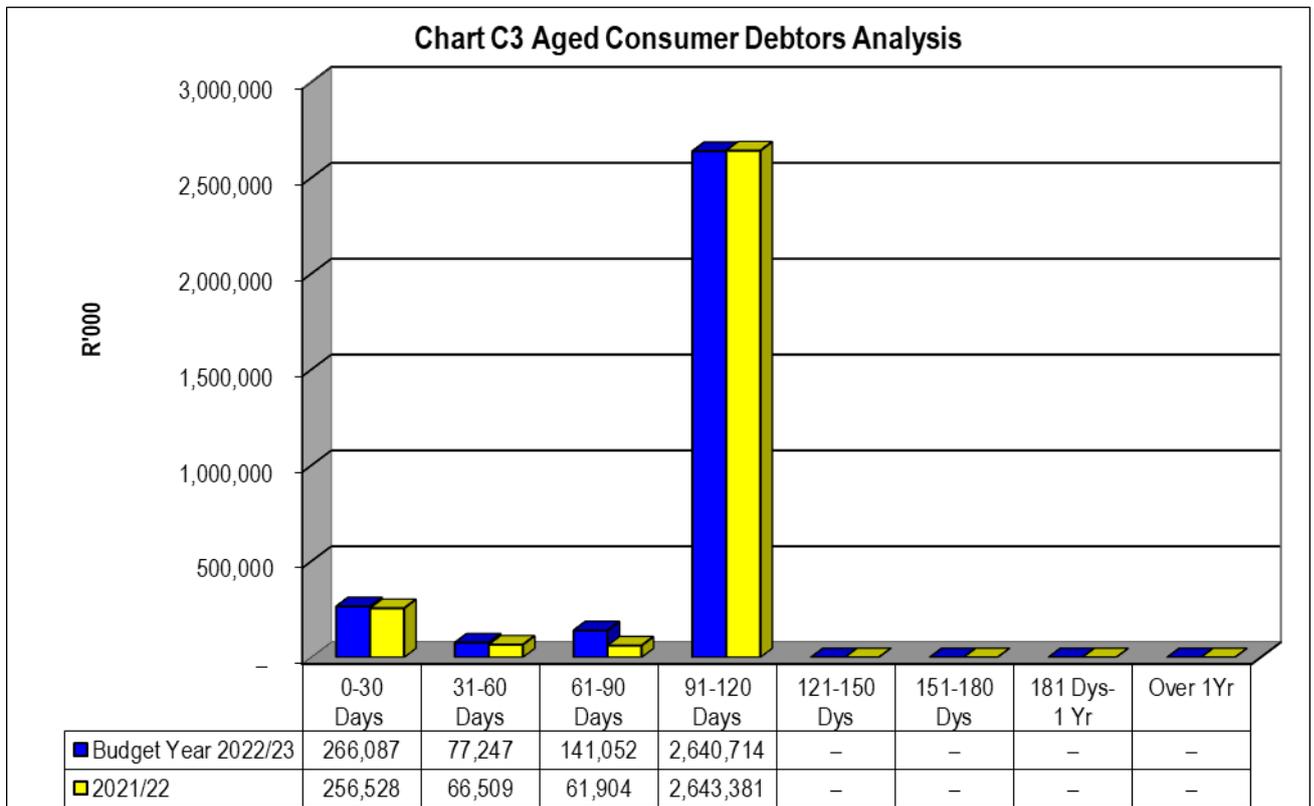

#### O/S debt per Customer Group

- ❖ Organs of State increased by 2.8%.
- ❖ Commercial debtors decreased by 0.6%.
- ❖ Debt owed by Households increased by 1.7%.
- ❖ Other Debt increased by 1.0%.

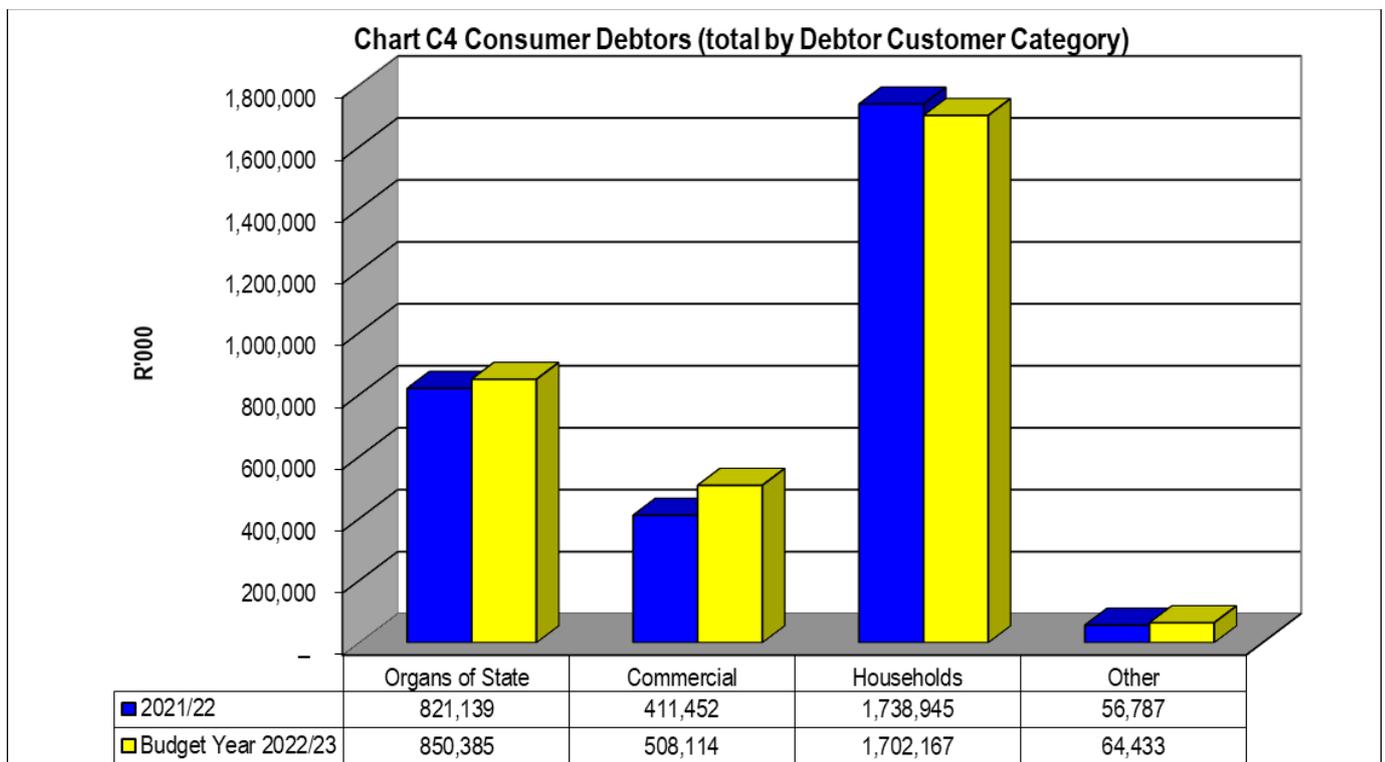

#### Weighting per Customer Group

- ❖ Government debt constitutes 27%, Businesses 16%, Households 54% and Other 2% of the total outstanding debt.

There is an error on the C-schedules, supporting schedule SC3 – Aged Debtors for the audited outcome for 2021/22, the corrected charts are indicated below, the problem was communicated to the financial system provider (BCX). Awaiting feedback in this regard.

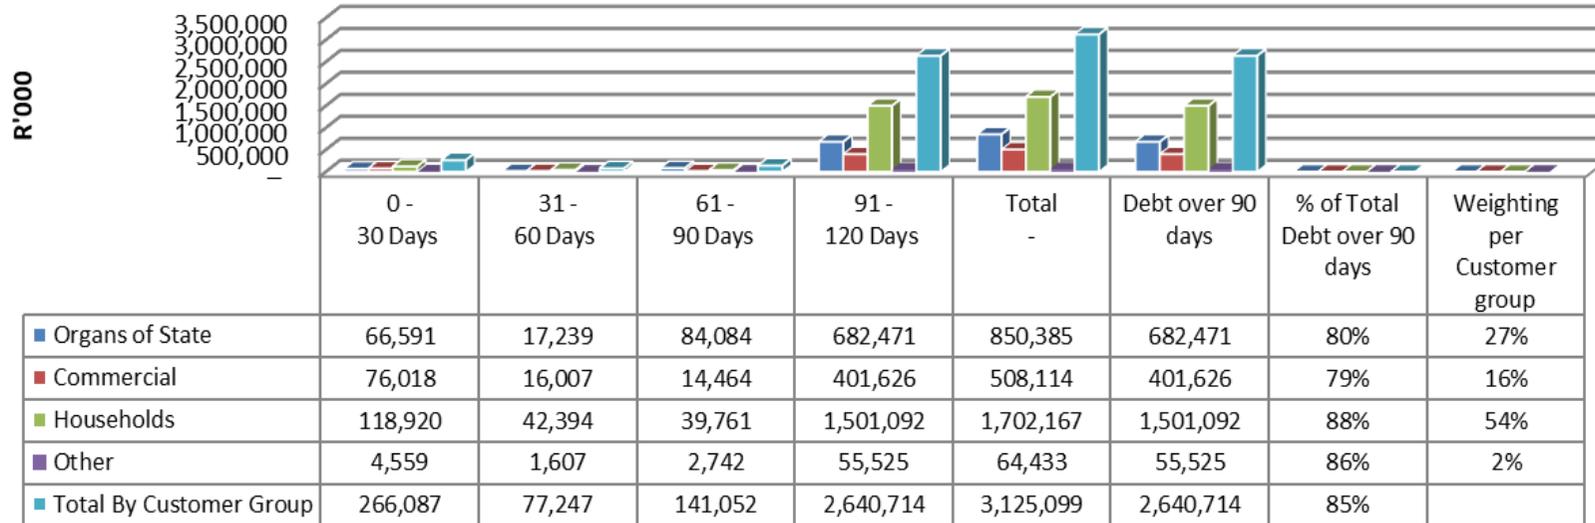

**Chart 9: Aged Consumer Debtor Analysis**

**Chart 10: Consumer Debtors (total by Debtor Customer Category)**

**Chart 11: Debtor's Age Analysis per Customer Group as at 31 October 2022**

**Chart 11: Debtor's Age Analysis per Customer Group**

Chart 11 above, illustrates that the bulk of SPM debt is aged over 90 days with a total weighting of 85%. An analysis revealed that the catalysts for this condition are the sheer volume of accountholders in arrears, the poor economic circumstances of a large number of our accountholders, and the increasing cost of services beyond the Municipality's control. This is compounded by the large number of water leaks that go unreported which causes the accountholder's account to escalate beyond their means to pay. In addition to this, there is a substantial portion of irrecoverable, stagnant debt that attracts interest every month. We have a backlog of processing this debt and submitting this to Council for approval to write off.

We have revised our policies to make our processes more effective. This will allow us to focus on preventing debt from ageing where possible in tracing and updating our debtors' information and of course recovering outstanding amounts. We anticipate a marked turnaround of this trend and in conjunction with a concerted effort to retard the escalation of ageing debt, we are focusing on improving the accuracy and regularity of our billing as well as our communication with our accountholders. Indigent verification is a continuous process and we are encouraging accountholders whose households qualify, to approach the Municipality for an assessment and possible registration as an Indigent Household. The benefits of this are the provision of free basic services and assistance with arrear debt owed to the Municipality. The Covid-19 pandemic also adversely affected consumer's ability to pay, this is evident by the average monthly collection rate of 76%. The municipality has been providing additional incentives to assist consumers to settle their arrear accounts. The payment culture of consumers needs to improve across all areas.

**During the Mid-year Budget Assessment for the 2021/22 financial year and indicated below are the Revenue enhancement strategies that can be implemented to ensure the completeness of Revenue, improve the collection rate, enhance customer relations and reduce losses**

- Disconnection of consumers to be applied consistently and fairly in line with the Credit Control Policy
- Engagements with provincial government to collect outstanding debt
- Data cleansing of the entire debtor's book
- Data cleansing to positively influence the reachability of consumers and assist tremendously in the electronic distribution of municipal accounts via short messaging services (sms) and e-mail
- Improve in the accuracy of monthly billing
- Ensure meters are read consistently and timeously
- Significantly reduce interim readings and ultimately eliminate interim readings
- Reduce material billing errors by thoroughly interrogating billing exception reports prior to final billing run
- Enhance customer relations and consumer satisfaction by improving on the turnaround time when dealing with billing queries
- Introduce electronic complaints management system/register for account queries
- Ensure faulty and bypassed electricity meters are replaced
- Ensure that stuck, leaking, faulty or damaged water meters are replaced
- Do regular follow-ups on meter replacements
- Accurately update the system with latest information
- Reduce the turnaround time for installation of replacement or new meters
- Ensure improved synergy and improved communication between internal department like Town Planning, Infrastructure, GIS and Billing
- Interrogate billing and prepaid electricity reports on a monthly basis and take immediate remedial action to address anomalies or discrepancies
- Ensure that all billable properties are billed for Property rates and services
- Ensure that customers are billed at the correct approved tariff by linking each customer to the correct tariff code loaded on the system
- Reduce Electricity and Water losses
- Finalise the Riverton reclamation dam to reduce water losses at the Plant by at least 6%
- Introduce automated metering for bulk consumers
- Electricity Cost of Supply Study was finalised
- Ensure qualifying indigents are registered on the system, immediately upon verification
- Improve on indigent management in terms of consumption and ensure prepaid electricity meters are installed immediately for all approved indigents
- Improve on service delivery and personnel performance, to enhance customer's willingness to pay
- Reduce or curb unnecessary expenditure by diligently applying cost containment measures
- Prioritisation of spending
- Improve on routine maintenance on particularly revenue generating assets
- Spend funds effectively with good value for money

## Revised collection rate

As per Table 10 below, when taking into consideration what was billed in September 2022 and received in October 2022, the monthly collection rate is 66%. The low collection rate is not an ideal situation and is having a dire impact on the cash flow of the municipality. The current status quo cannot continue and drastic action will have to be taken to address this critical issue, hence the disconnection drive implemented by the Executive Mayor and the Municipal Manager during August 2022.

Indicated in Table 11 below is the revised average collection of 75.7% for the period under review. The average collection rate is distorted due to the annual billing on Property Rates. A manual correction of the Sale of Electricity was made pertaining to the allocation error of R181 million that was corrected in November 2022 as well as the October 2022 Prepaid sales not being allocated timeously.

When considering the average collection rate, various factors are taken into account, like the receipts on Prepaid Electricity, unallocated credits, etc. The YTD billing on Property Rates and Service Charges are obtained from the general ledger. Billing on Other is obtained from the BS902 report (Debits Raised Versus Payments). The BS566 report (Payments per Service per Day/Period) includes all monies received from 1 October to 31 October 2022. Unallocated credits are obtained from the cashbook. Government in particular and businesses/households that opt to get billed annually, have until the end of September/October 2022 to settle their outstanding accounts. However, this is not materializing for the current financial year.

Table 13: BS566 report on receipts per debtor type

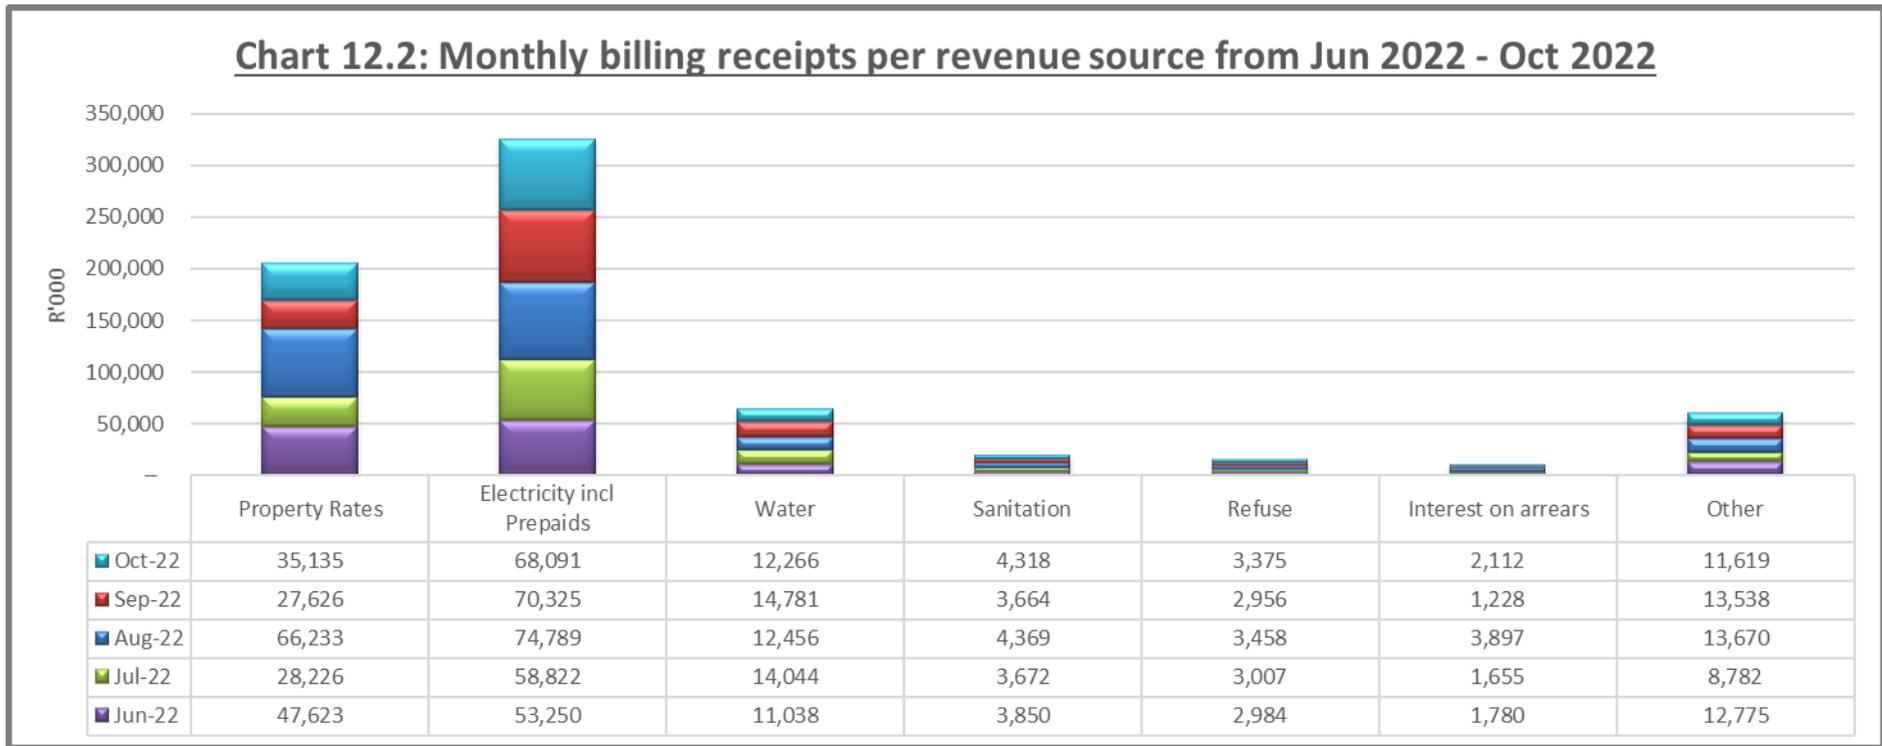

**Chart 12.1: Month-to-month - Total Billing Receipts incl Prepaid Electricity from Jun 2022 to Oct 2022**

**Chart 12.1: Month-to-month - Total Billing Receipts incl Prepaid Electricity**

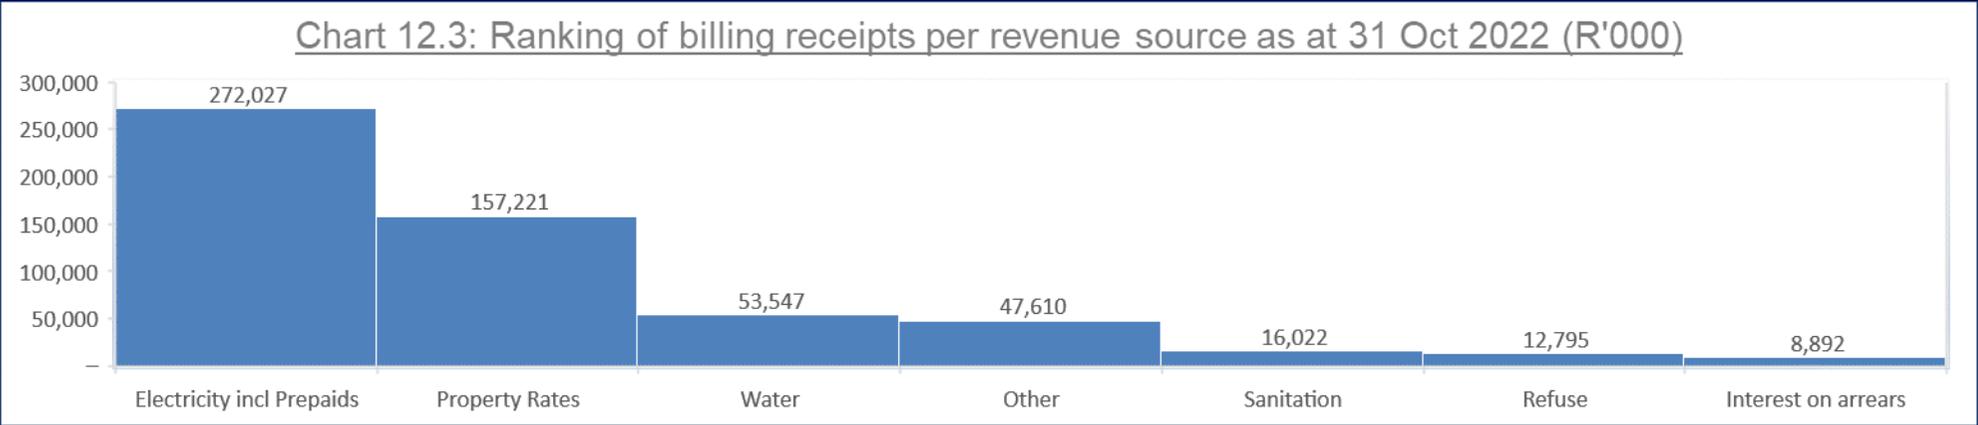

As indicated in Chart 12.1 above, the Total Billing Receipts including Prepaid Electricity amounted to R136,916 million which resulted in an increase of R2,797 million or 2% in respect of the month-to-month comparison. Unallocated billing receipts at month end amounted to R10,188 million. Unallocated receipts are not factored into the actual receipts as per the chart above.

**Chart 12.2: Monthly billing receipts per revenue source from Jun 2022 - Oct 2022**

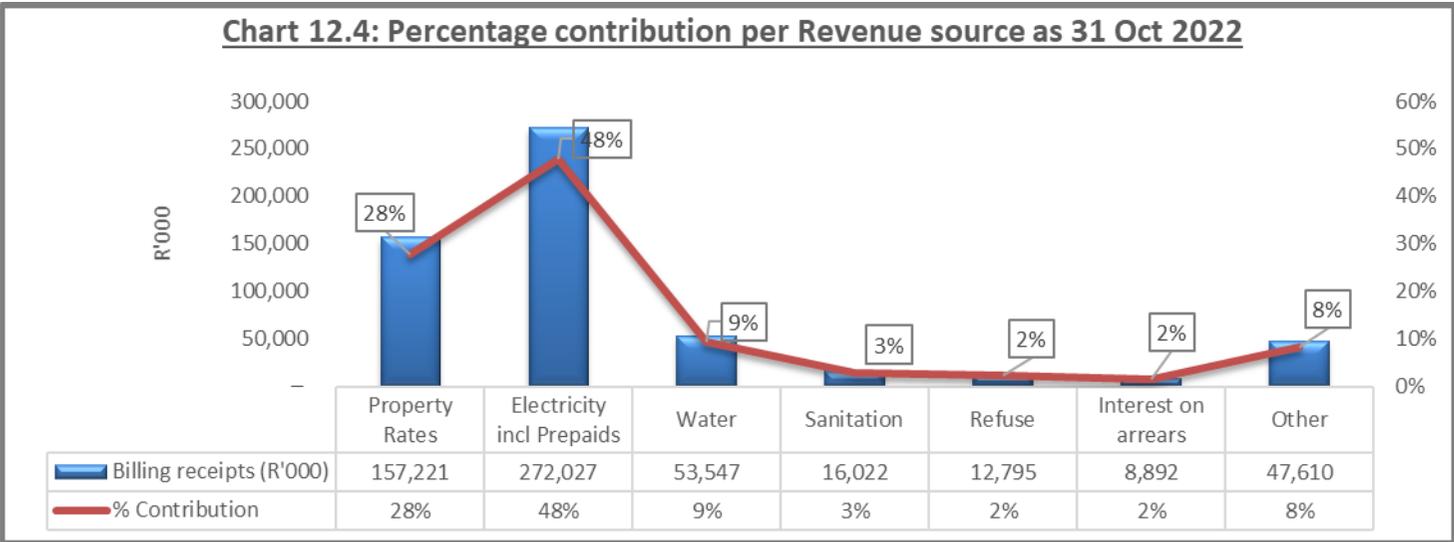

**Chart 12.2: Monthly billing receipts per revenue source**

Indicated in Chart 12.2 above, is the month-to-month receipts per Revenue source. Receipts are relatively constant based on the month-to-month comparison. The upward trend for August 2022 was significant and indicative of the fact that the municipality can collect its outstanding debt, provided that the Credit Control Policy is strictly, consistently and fairly applied. Unfortunately, there has been a sharp decline in cash collected compared to August 2022 with the biggest impact being the collection on Property rates. The Revenue streams that is showing improvement in relation to the monthly comparison is Property Rates, Sanitation, Refuse and Interest on arrears.

**Chart 12.3: Ranking of billing receipts per revenue source**

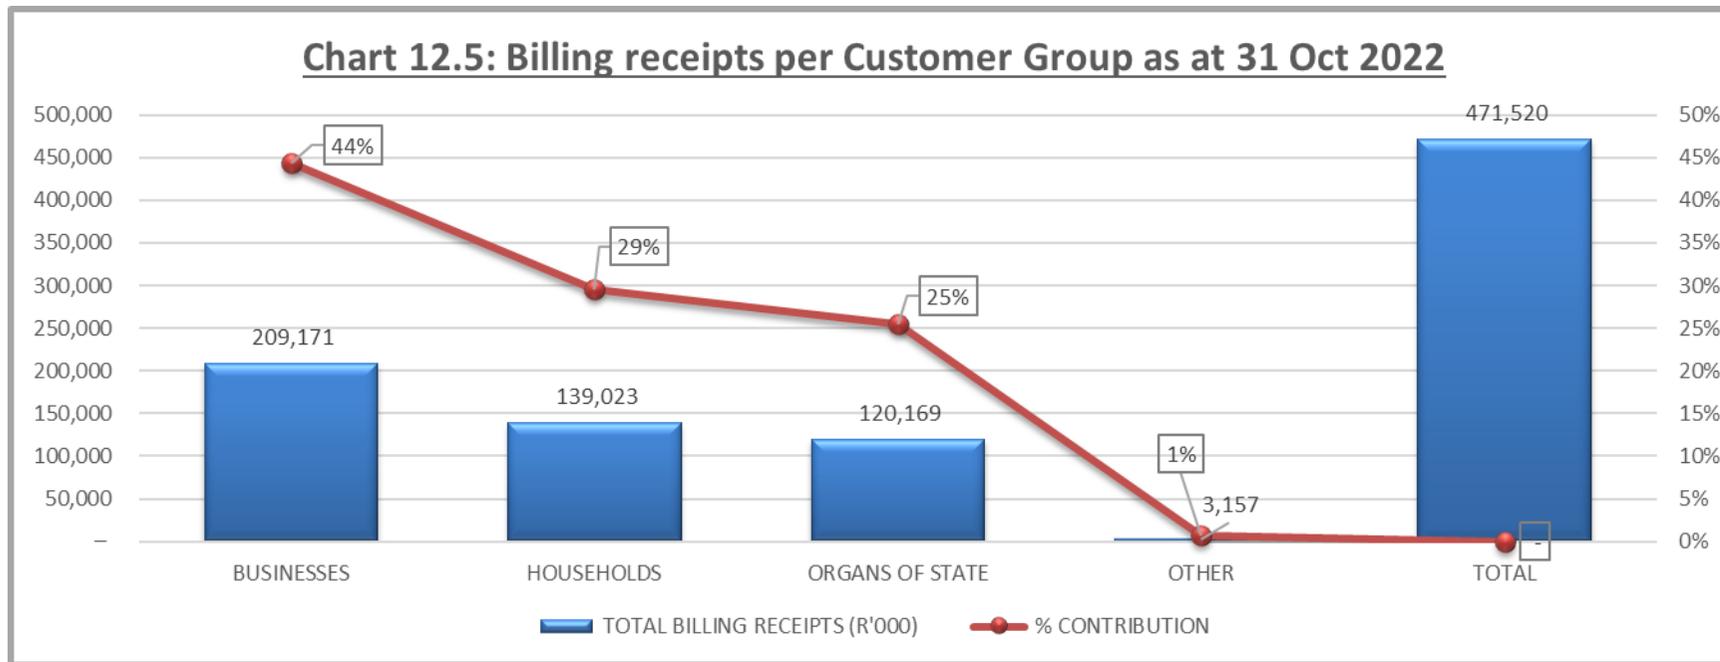

**Chart 12.4: Percentage contribution of billing receipts per revenue source**

Indicated in Chart 12.3 and 12.4 above, is the ranking and percentage contribution of receipts per revenue source as 31 October 2022. Data from the above pareto chart, clearly indicates that Electricity incl Prepays is the highest contributor at R2272,027 million (48%) being received. This illustrates the sensitivity and vulnerability in respect of Electricity sales that the municipality is facing. Any major reductions in this revenue source can severely affect the municipality’s financial position and this was clearly demonstrated when the municipality had to abolish the implementation of the basic charge in 2018/19 financial year. The second highest contributor is Property Rates at R157,221 million (28%), however more measures should be implemented to ensure that receipts from annual Property rates billing materialises. Receipts from Water constitutes 9% and Other 8% overall.

Receipts from Sanitation and Refuse is extremely low and on average the municipality collects approximately 54% from these revenue sources. The lowest contributor in respect of actual receipts, is Interest on arrears at R8,892 million. This demonstrates the fact that the municipality is facing challenges in collecting long outstanding debt. It should be noted that in terms of the approved Customer Care, Credit Control and Debt Collection Policy, it outlines that “the municipality shall implement an incentive for settlement of arrears accounts as illustrated below:

- a) 100 % of all interest charges and penalties not yet paid and still reflecting on the consumer’s most recent account may be written off if such account is settled in full prior to the next billing run of such account.
- b) 85 % of all interest charges and penalties not yet paid and still reflecting on the consumer’s most recent account may be written off if such account is settled in full over a period of two consecutive months.
- c) 50 % of all interest charges and penalties not yet paid and still reflecting on the consumer’s most recent account will be written off if such account is settled in full over a period of three consecutive months.”

The above incentives then negatively influence the collectability of this revenue source, but positively influences the collection of other services.

**Chart 12.5: Billing receipts per Customer Group**

Indicated in Chart 12.5 above, is the billing receipts and percentage contribution per major Customer group as at 31 October 2022. The municipality received R209,171 million (44%) from Businesses, Households R139,023 million (29%), Organs of State R120,169 million (25%) and Other R3,157 million (1%).

Table 14: Supporting Table SC4: Aged Creditors

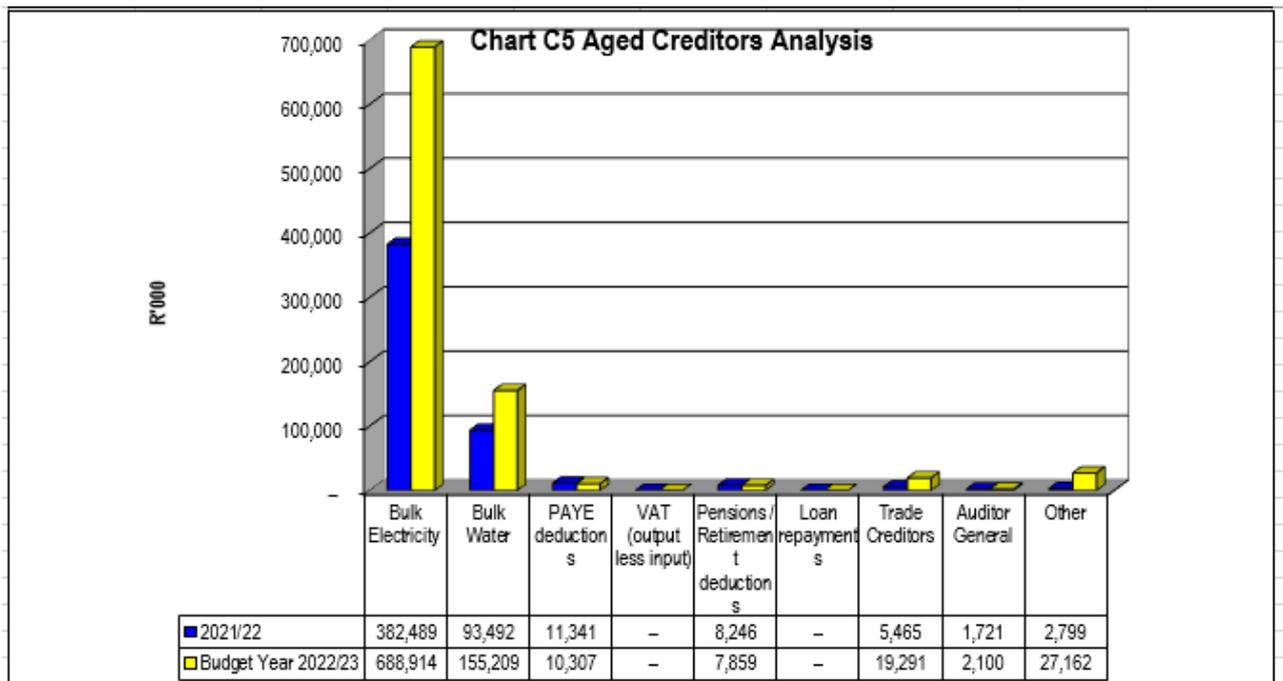

Chart 13: Aged Creditors Analysis

It should be noted that comparative figure for 2021/22 is based on the outstanding creditors as at 31 October 2021 (prior year totals for the same period).

**Bulk Electricity** – As at the 31 October 2022, the outstanding debt owed to ESKOM amounted to R688,914 million. The municipality is in the process to conclude a payment agreement with ESKOM for the 2022/23 financial year.

**Bulk Water** – As at the 31 October 2022, the outstanding debt owed to DWS is R155,209 million. The municipality is in the process to conclude a payment agreement with DWS for the 2022/23 financial year and partake in the Incentive scheme that the Department is providing to municipalities.

**PAYE and Pension** statutory deductions are paid over monthly to the relevant institutions on or before seventh of the new month.

**VAT** – after the monthly VAT reconciliation, we claimed an amount of R8,256 million from SARS.

**Trade creditors** are all suppliers registered on the municipality's database and it is a prerequisite for these suppliers to be registered on the Central Supplier Database (CSD).

**Auditor General** – the current account due to the AGSA is R2,100 million.

**Other creditors** – includes Sundry creditors which were unpaid as at 31 October 2022 of which the biggest contributor is third party salary payments amounting to R15,831 million which was paid by 7 November 2022.

## 7. Investment portfolio analysis

The market value of the investment portfolio has been utilized and for the period ending 31 October 2022, the value of total investments made was R50,951 million including interest. Investments excluding interest amounted to R49,975 million. Part of investments made during the month where interest accrued which reflected an increase in investment and not as a result of increased revenue collection.

Table 16: Supporting Table SC6: Transfers and grant receipts

No Operational grant monies were received for the month under review.

Capital grant monies received for the month under review.

WSIG – R9,974 million

There are some mapping errors pertaining to operational and capital grants. This must be discussed and investigated by our financial system vendor, to find a solution. Capital grants specifically is allocated to the Statement of Financial Position as receipts and is not mapped to the C-schedule. However on a monthly basis journals are processed to recognize capital grant receipts once conditions have been met.

Table 17: Supporting Table SC7(1): Transfers and grant expenditure

The municipality is experiencing huge challenges in respect of funding for the EPWP which is not sufficient and this is putting strain on the municipality's finances. The total YTD expenditure is standing at R7,319 million. For reporting purposes to NT and the Dept of Public Works, the municipality is only expected to report up until the allocation amount. The current years' gazetted allocation for the EPWP is R3,959 million. In addition to this, the municipality budgeted R10,000 million for this programme. Management has been in a process of reviewing this programme.

Description	Original Budget	Monthly Actual	YTD Actual	Commitments	% Spent Original
INEP (INTEGRATED NATIONAL ELECTRIFICATION PROGRAMME GRANT)	40,000,000	-	2,715,883	29,841,370	6.8%
IUDG (INTEGRATED URBAN DEVELOPMENT GRANT)	70,390,000	1,623,188	16,312,863	23,734,146	23.2%
WSIG (WATER SERVICES INFRASTRUCTURE GRANT)	19,948,000	-	-	538,915	0.0%
EEDSM (ENERGY EFFICIENCY AND DEMAND SIDE MANAGEMENT GRANT)	4,000,000	1,904,942	2,142,655	-	53.6%
<b>Grand Total</b>	<b>134,338,000</b>	<b>3,528,130</b>	<b>21,171,400</b>	<b>54,114,431</b>	<b>15.8%</b>

Table 18: Summary of expenditure per grant

As indicated in Table 18 above, the YTD grant expenditure amounts to R21,171 million or 15.8% spent against the Original capital grant allocation of R134,338 million. Capex is usually slow for the first quarter mainly as a result of finalization of procurement processes and/or work still in progress. It remains concerning that YTD expenditure is so low. It should be noted that grant expenditure excludes VAT which will be recognized at year-end in the Statement of Financial performance, when

all conditions of the grant have been met. Capex also excluded Commitments. Please refer to Section 4.3 in the Executive Summary which highlights some of the factors that negatively influences the delay in grant expenditure.

### **Rollover Grants: Expenditure**

The municipality submitted the rollover request on 31 August 2022. Indicated below is an extract of the feedback received from NT.

“Your request to roll over the unspent amount of R1.6 million into the 2022/23 financial year by your municipality is not approved in terms of 21(2) of the 2021 Division of Revenue Amendment Act, (Act No. 17 of 2021) (DoRAA). The rejection is with respect to the Infrastructure Skills Development Grant (R599 thousand) (ISDG) and the Integrated National Electrification Programme (R1 million) (INEP).

The National Treasury in assessing your roll over request used the criteria set out in Circular No. 115 of the Municipal Finance Management Act, 2003 (Act No.56 of 2003) as a guide for the consideration of the roll over submission by your municipality.

The decision to reject your roll over request is based on the following reasons:

- In terms of the ISDG, no supporting documents submitted, i.e., a list of graduates benefiting from the program;
- The Department of Mineral Resources and Energy is not in support of the INEP rollover request because, the municipality advances INEP funds without obtaining prior approval from the department; and
- No reasons were provided as to why INEP was not fully spent during the year of original allocation.

Your municipality is reminded that the Municipal Council does not have the legal authority to decide on the use of Conditional Grant transfers from National Government outside of the legal framework set out in the annual Division of Revenue Act and its various gazettes. This process only covers the 2021 DoRA allocated amounts.”

#### [Table 19: Supporting Table SC7\(2\) - Expenditure against approved rollovers](#)

Table 19 is not populated due to the fact that the rollover was declined.

Table 20: Supporting Table SC8: Councillor and staff benefits

As depicted in Table 20 above, Employee related costs is underspent and showing a variance of minus 12%. This is attributable to Post-retirement benefit obligations that will be finalized as part of the year-end procedures. It should be noted that the disclosure under Performance bonus, is the annual bonuses or 13<sup>th</sup> cheques that is budgeted for and paid out to employees. This is not subject to any performance appraisal.

Councillors Remuneration is showing a negative variance of minus 9% when compared to the YTD Budget. The gazette on the Determination of Upper limits of salaries, allowances and benefits of different members of municipal councils will be issued later in the current financial year.

Management started to address the issues on Overtime which is higher than the ideal IYM percentage of 33.33%, at 49.3% spent. For reporting purposes on Overtime, the municipality is only concentrating on (Overtime Structured and Non-structured). However, as per NT mapping Night-shift allowance and Payments - Shift Add Remuneration is also mapped to Overtime.

The Overtime controls is no longer as effective and the desired outcome to remain within budget, was not achieved for 2021/22 financial year. The same trend will probably transpire for the current year, unless more stringent control measures are put in place. The municipality should also ensure that critical positions to compliment capacity on the ground is expedited and filled with qualified personnel. The lack of capacity in certain departments, like Water services and the severe service delivery challenges is negatively impacting on the management of Overtime expenditure. Overtime hours are limited to 30 hours per month within most departments. The Overtime policy was developed and approved by Council. There are some challenges with the implementation, especially pertaining to time-off in lieu of Overtime remuneration.

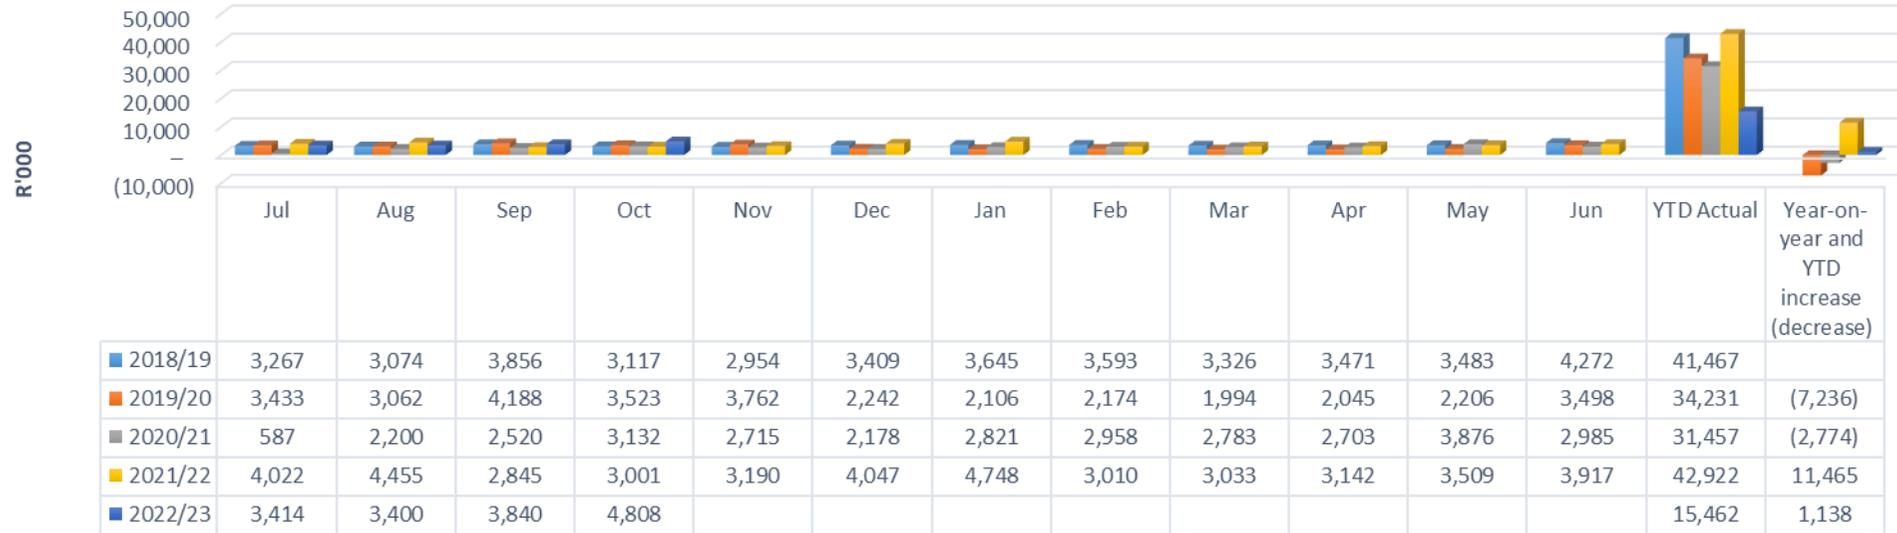

And indicated in Table 21 below, is the YTD Overtime expenditure excluding Night-shift allowance per line item and also per Directorate as at end of October 2022.

Description per line item (Amount in Rand)	Sum of Original Budget	Sum of Monthly Actual	Sum of YTD Actual	% Spent Original Budget	% Variance vs ideal of 25.00%

Table 21: Current YTD Overtime expenditure excl Night-shift allowance

Overtime has been capped at 30 hours across most units within the municipality. The YTD Overtime expenditure is R15,462 million and 49.3% spent, resulting in a negative variance of 16%, when compared to the ideal percentage of 33.33% for the period under review.

**Chart 14: Monthly and Annual Overtime Comparison - Jul 2018 to Oct 2022**

**Chart 14: Monthly and Annual Overtime Comparison**

Indicated in Chart 14 above, is the monthly and annual Overtime comparison from July 2018 to October 2022. There has been a substantial decrease in Overtime expenditure from 2018/19 to 2020/21. As reiterated, controls to curb Overtime is no longer as effective and the YTD actual for 2021/22 financial year amounted to R42,922 million. Serious remedial action will have to be implemented to reduce Overtime expenditure.

The BTO office recommended the following precautionary measures.

- The monitoring of daily tasks/assignments. This means that work that can be done during normal working hours should be monitored closely. Ideally, put emphasis on performance and especially the quality of work done.
- Finding means to actually verify work performed, even if this means that for the first few questionable overtime work that managers/supervisors actually go out to the site, if possible.
- Using the vehicle tracking reports to ascertain the timespan at a particular site.
- Making sure that the hours claimed are legitimate and is actually consistent and correlates to the normal estimated time to complete a job of a similar nature.
- Request a detailed description of the nature of work done and insist on the exact site where work was performed being specified.
- Ensure that managers remain vigilant and question hours claimed and not just sign Overtime forms. We believe that this will make workers more aware that they cannot just claim hours like they did in the past.
- Stopping planned Overtime, unless it is to avoid major shutdowns or service interruptions.
- The adherence to the Overtime Policy stipulations, is imperative in order to address the issues on overtime.

Listed below are the challenges with regard to Overtime which was identified during the 2012/13 MTREF

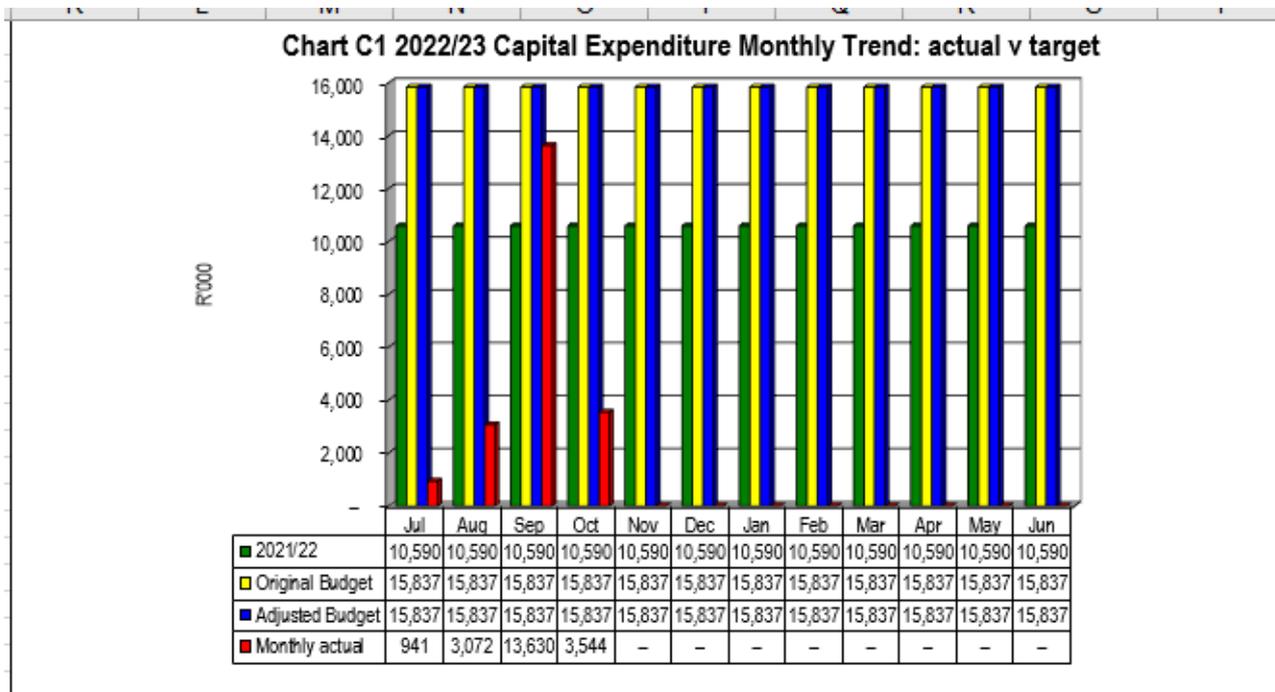

- Ensuring accountability across all directorates and ensuring that Executive directors, Line Managers and Supervisors take full responsibility
- Identify and investigate possible abuse and alleged fraudulent allegations and taking disciplinary action, where applicable
- Ensuring the compliance and adherence to applicable laws and regulations and internal policies
- Approval of Overtime prior to it being incurred
- Inability to manage overtime proactively
- To remain within the budgeted Overtime
- Curbing / Limiting / Curtailing expenditure on Overtime
- Monitoring expenditure on Overtime
- Utilizing the available workforce optimally
- Unduly compromising or hampering service delivery, which basically means that work that could have been done during normal hours is deliberately delayed so that work can be finalized after hours
- Implementing an alternative method of compensation
- Addressing the immediate infrastructure maintenance requirements, specifically addressing preventative maintenance
- Ensuring and enhancing the lifespan of Property, plant and equipment
- Improve both the personal productivity of individual employees and the overall productivity of departments and the entire municipal system
- Difficult to track departmental overtime on more than a monthly or even quarterly basis, by then it's too late to take meaningful action to minimize overtime costs

## 10. Material variances to the service delivery and budget implementation plan

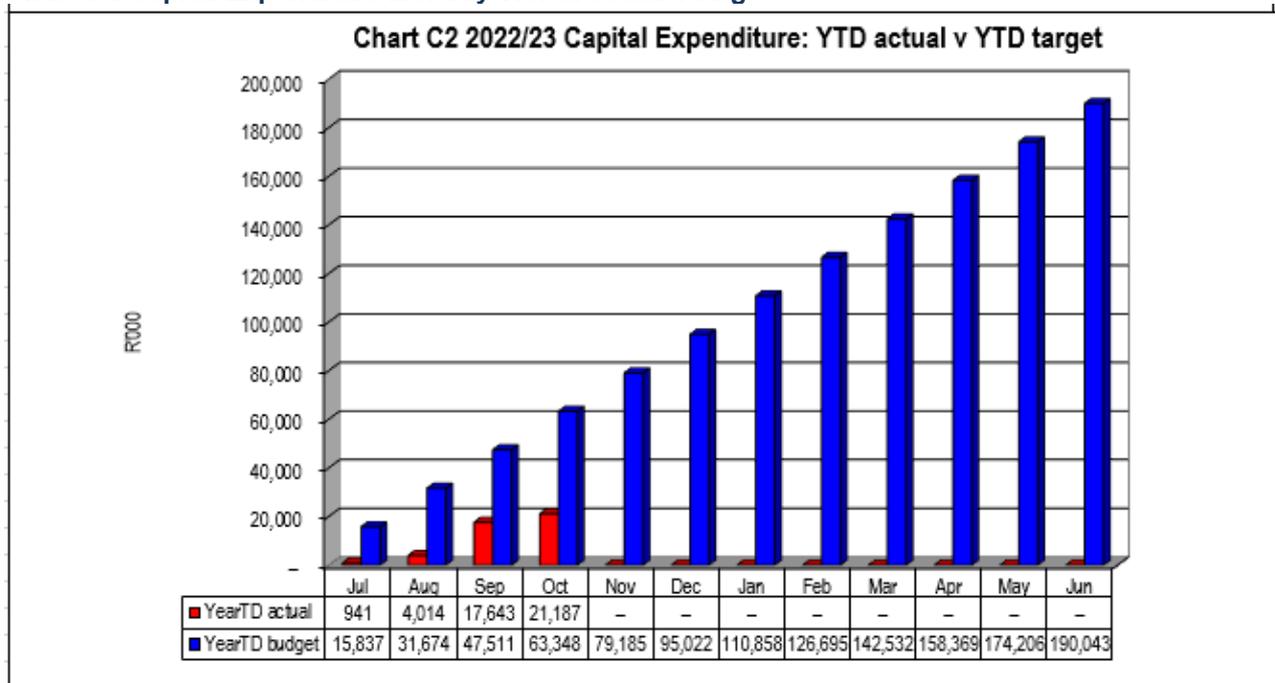

Material variances pertaining to financial performance are primarily addressed in the Executive summary under Sections 4.1 to 4.3 or emphasised elsewhere in this Monthly Budget Statement. Any other material variances to the SDBIP will be included in the quarterly Section 52 (d) report for the period ending 31 December 2022.

## 11. Capital programme performance

Please refer to notes on Capital Expenditure in the Executive Summary. Section 4.3.

**Chart 15: Capital Expenditure Monthly Trend: actual v target**

**Chart 16: Capital Expenditure: YTD actual vs YTD target**

Indicated in Table 22 below, is a list of projects with the applicable funding source. The total capex is normally slow during the start of the financial year. However, capital expenditure is extremely poor compared to prior years for the same period. Urgent intervention from management is required to remedy the situation. The actual monthly expenditure for October 2022 amounted to R3,544 million. The total YTD Capex amounts to R21,187 million. Please note that Commitments amounting to R66,551 million is excluded from the YTD movement. Capital expenditure is also exclusive of VAT.

<b>Grand Total</b>	<b>190,043,000</b>	<b>3,544,217</b>	<b>21,187,487</b>	<b>65,551,437</b>	<b>11.1%</b>

Table 23: Summary of capital expenditure per funding source

Indicated in Table 23 above, is a summary of the capital expenditure per funding source compared to the Original budget. Overall spending on grants is extremely slow. The expenditure on IUDG (23.2%), INEP (6.8%), WSIG (0%) and EEDSM (53.6%). Spending on Internally generated funds is also 0% spent. Implementation of projects normally delayed due to the finalization of procurement processes. Payment certificates are settled once work is completed. Capex for the first quarter is normally slow for this reason, in that commencement procurement processes is not aligned to the budget approval and not advertised timeously.

## 12. Other supporting documents

There is no additional information or supporting documentation for October 2022. All Audited outcomes are based on pre-audited figures for the year ended 30 June 2022

## 13. Conclusion

This report meets the MFMA requirement for the Executive Mayor to receive the Section 71 'Monthly Budget Statement' within 10 working days after the end of the month.

### Communication

In compliance to legislative requirements (Section 71 of the MFMA), this document is provided to all stakeholders by placing it on the Sol Plaatje municipal website: [www.solplaatje.org.za](http://www.solplaatje.org.za) or can be viewed or downloaded from the following link: <http://www.solplaatje.org.za/Aboutus/Pages/Documents.aspx>

Cash/cash equivalents at beginning:		43,007	172,922	172,922	177,142	109,965	172,922			109,965
Cash/cash equivalents at month/year end:		(668,018)	116,006	80,289		880,554	153,950			53,049

System error to be resolved so that Original budget, monthly and YTD actuals populate correctly. The Cash and Cash equivalents is also severely overstated. Serious intervention is required to correct these discrepancies and to this end training was provided by NT to provide guidance on how to disclose the cash flow actuals. The BTO will endeavor to address all issues raised by NT in terms of the correct mapping of the cash flow.

## 15. Municipal Manager's quality certification

### Quality Certificate

I, BS Matlala, the Municipal Manager of Sol Plaatje Local Municipality, hereby certify that

(mark as appropriate)

the Monthly Budget Statement

Quarterly Report on the implementation of the budget and financial state affairs of the municipality

Mid-year Budget and Performance Assessment

For the month of **October 2022** has been prepared in accordance with the Municipal Finance Management Act and regulations made under that Act.

Print name: **Mr. BS Matlala**

Municipal Manager of Sol Plaatje Local Municipality (NC091)

Signature: 

Date: 11 /11/2022
