SPLM - Sol Plaatje Local Municipality
VAT – Value Added Tax
YTD – Year to date
WRM - Water Resource Management
WRL - Water Research Levy
WSIG – Water Services Infrastructure Grant

PART 1: IN-YEAR REPORT

TO: THE EXECUTIVE MAYOR

DIRECTORATE: FINANCIAL SERVICES: BUDGET & TREASURY OFFICE: MUNICIPAL FINANCE MANAGEMENT ACT (MFMA): SECTION 71: IN-YEAR MONTHLY BUDGET STATEMENT: S71 MONTHLY REPORT FOR THE PERIOD ENDING 31 December 2023

1. Purpose

The purpose of this report is to comply with section 71 of the MFMA and the requirements as promulgated in the Government Gazette No 32141 of 17 April 2009 by the submission of a monthly budget statement to the Executive Mayor, National and Provincial Treasury containing prescribed financial performance particulars for that reporting month and for the financial year up to the end of that month, as legislated.

The municipality realises, the critical importance of having a minimum 3 month's cash coverage which is a sound directive and required norm from National Treasury. This has been the focus of the municipality for the past few months to ensure that Sol Plaatje Municipality recovers fully to ensure its sustainability and financial viability. Serious actions will have to be taken to realise this target and Council's buy-in be secured, to the turn the municipality around is critically important.

The municipality's main goal is to remain positive and committed in stabilising the municipality, improving its cash position and improving on quality service being rendered. The municipality is facing serious challenges pertaining to the debt owed to Eskom and the Department of Water and Sanitation. And as a show of good faith, the municipality has been paying what it can afford in terms of available cash, however both commitments are one of our top priorities. The municipality's main objective is to keep communication open and maintain an amicable working relationship with both institutions, as formal disputes and litigation can have serious repercussions for the municipality and the community at large. The escalation in debt owed to ESKOM and DWS is a major concern. The three high months billed for electricity is detrimental to the cash flow of the municipality and a mammoth task to settle in full, based on our current collection trend. The municipality settled the full current account excluding interest amounting to R62,348 million on 28 December 2023. The municipality also settled an amount of R2,262 million in relation to the proposed payment arrangement. Due to the debt agreement with DWS and the Incentive scheme initiated by the Department, the municipality has made significant strides in reducing the arrear debt owed to the Department and settled all invoices raised for the 2022/23 financial year in full. The municipality is working towards being up to date for the current year because the July and November 2023 invoices are unpaid. The municipality managed to settle the October 2023 account on 12 December 2023.

The municipality's Debt Relief application to National Treasury was approved on 30 October 2023. The municipality had an engagement with ESKOM on 29 November 2023, to settle the debt accrued after March 2023. A repayment proposal was submitted for approval. It is imperative that the municipality abides with the conditions as non-compliance may have serious repercussions for the municipality and its electricity business. As per MFMA Circular 124, Section 5, articulated below are the consequence for failure to comply with the conditions of the Municipal Debt Relief and related initiatives:

"Municipalities are urged to maintain their behavioral change post the support. If a municipality fails to perform during the duration of the Municipal Debt Relief:

- a. The benefits of the Relief to that municipality will immediately cease;
- b. This means that Eskom will be obliged to implement its credit control and debt management policy on the defaulting municipality and the municipality must immediately start repaying its Eskom arrears, interest and penalties;

- c. Eskom may resume any legal proceedings (relating to the municipality's arrear debt, interest and penalties as of 31 March 2023), including attaching the municipal bank account; and
- d. The normal penalties applicable to the wider local government will also apply.

It is important to note that the work to resolve non-payment by municipalities is progressive and that the National Treasury intends to enforce the existing penalties available in the legislative framework and add additional penalties, including exploring but not limited to –

- A take-over of a defaulting municipality's electricity business;
- NERSA strengthening of license conditions;
- A National Treasury dispute resolution process;
- Strengthening and adding consequences and related consequence management processes as part of the ongoing review of the MFMA, including to facilitate the upfront resolve of budget issues and to instil a payment culture; and
- A wider special mechanism/ ombud system to facilitate organs of state payment and related disputes, including instituting consequences for organs of state failure to pay; etc.

In terms of the National Treasury's local government revenue improvement programme, all municipalities that benefit from the Municipal Debt Relief will continue to receive support towards strengthening their revenue value chains.

Municipalities are cautioned that the National Treasury considers the conditions set out in paragraph 6.1 to 6.14 as critical financial management minimum best practice and confirms that if a municipality fails to meet any and/ or a combination of the conditions set out in this Municipal Debt Relief framework, it could (over-and-above the consequences set out in 5.1 above) constitute a serious breach of its financial management fiduciary responsibilities and may also constitute financial misconduct as envisaged in the MFMA and Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings, 2014. The National Treasury reserves the right to immediately invoke section 216 of the Constitution and/ or any other remedies available to government in terms of the prevailing legislative framework in such a situation (including instituting individual financial misconduct and/ or criminal proceedings).

Municipalities are reminded of MFMA s.173 to the effect that the accounting officer of a municipality is guilty of an offence if that accounting officer, deliberately or in a gross negligent way contravenes or fails to comply with MFMA s. 65(2)(f). Moreover, MFMA s.174 provides for penalties, to the extent where a person is liable on conviction of an offence in terms of section 173 to imprisonment for a period not exceeding five years or to an appropriate fine determined in terms of applicable legislation.

Currently, the total debtor's book is standing at R3,699,364 billion, of which 89% of the debt is owed in excess of 90 days. The municipality is urging government, businesses and households to meet their obligation to the municipality or make payment arrangements with the municipality. The cash collection is not at a desired level and this does not bode well for the municipality's financial position. *There needs to a major paradigm shift in the payment culture across all customer groups. This can only be achieved when the Credit Control and Debt Collection Policy is strictly, consistently and fairly applied to all customer groups.* Consumers that are not paying for services, must remember that no municipality will remain sustainable and functional if it expected to provide "services for free". And in the same breath, the municipality must employ all measures to ensure that customers receive quality and reliable services. The value of providing these services, should never be underestimated by the municipality as there is a direct correlation between providing quality services and consumers' willingness to pay.

Tough decisions have to be taken to have a meaningful impact and produce positive results. This action is long overdue, especially in light of the municipality's financial crisis and major threat to its ***Sol Plaatje (NC091): Monthly Budget Statement: S71 Monthly Report: December 2023***

financial viability and sustainability. The municipality also envisage with the implementation of our Revenue Collection Action Plan (“**RCA Plan**”) and the Back to Basics initiative, prioritizing the collection of overdue Municipal debt from all our Customer Groups that are in arrears and are able to pay their accounts, but are unwilling to make payment or make a payment arrangement. The Plan further provides for a Credit Control, Indigent Assistance Awareness and Account Payment Campaign. We believe that this campaign will be informative and create an awareness to customers as to the assistance provided by the Municipality in relation to the payment of accounts and the social package offered to indigents (including child headed households). The Municipality will offer its customers payment discounts for accounts settled before the due date and discount incentives to all customers that settle their outstanding accounts in full. The campaign will also educate consumers on the importance of the payment of accounts and the detrimental effect non-payment has on service delivery. The Revenue team also embarked on a Back-to-Basics approach across the full revenue cycle/chain in order to improve on billing, collections and customer care. The municipality also envisage to introduce a Special Debt Relief Programme, with special incentives for all customers who want to settle their debt.

In order for the municipality to thrive, overall performance must improve, the quality of services rendered must improve, accountability must be enforced which must be complimented by strict consequence management. Serious consideration should be given to the service delivery and financial implications of all decisions taken. Ensure that acts, regulations and policies are adhered to diligently, consistently and fairly. Enhance revenue collection and ensure that operational and capital funds are spent effectively with good value for money. Improving on preventative maintenance and spending funds cost-effectively and efficiently to address service delivery challenges can no longer be delayed, we have noted an increase in emergency maintenance which seems excessive as no competitive bidding is taking as a result of the impact of asset failure on service delivery. We are striving to ensure assets are maintained at desired levels and are being utilised optimally. The spending of funds will have to be prioritised, wastage be curbed, and overall personnel performance and productivity be monitored and improved. Municipal officials should also take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure. Refrain from committing acts of financial misconduct and/or criminal offences as per Chapter 15 of the MFMA.

It is imperative that all municipal officials must have the inherent desire to do their job to the best of their ability, take pride and ownership in their work, take accountability for their job functions, doing the right thing consistently and work as a collective, cohesive team to achieve the municipality’s strategic objectives. Foremost to all of these, have the community’s best interest at heart.

2. Background

Section 71 of the MFMA and in terms of Government Notice 32141 dated 17 April 2009, regarding the “Local Government: Municipal Finance Management Act 2003 and the Municipal Budget and Reporting Regulations” necessitates those specific financial particulars be reported on and in the format prescribed, hence this report to meet legislative compliance. “The monthly budget statement of a municipality must be in the format specified in Schedule C and include all the required Tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168(1) of the Act.” Further, Section 71 of the MFMA requires that, “the accounting officer of a municipality must by no later than **10 working days** after the end of each month submit to the Mayor of the municipality, and the relevant national and provincial treasury, a statement in the prescribed format on the state of the municipality’s budget reflecting certain particulars for that month and for the financial year up to the end of that month.” For the reporting period ending **31 December 2023**, the ten working day reporting limit expires on **15 January 2024**. The National Treasury will use only the *mSCOA* data strings required for submission as prescribed and all publications will use the data collected from the *mSCOA* data strings” which must be submitted before or on **15 January 2024**, (ten working day limit).

3. Executive summary

The Statement of Financial Performance shown in Annexure A, Table C4, is prepared on the prescribed monthly C-schedules, detailing Revenue by source and Expenditure by type. The consolidated summary of the financial performance is indicated in Table 1 and Table 2 below:

Summary Statement of Financial Performance: YTD Budget					
Description R thousand	YTD Budget December 2023	YTD Actual December 2023	Variance Favourable (Unfavourable)	% YTD Actual vs YTD Budget	% Variance Favourable (Unfavourable)
Total Revenue (excluding capital transfers and contributions)	1,359,802	1,494,153	134,351	109.9%	9.9%
Total Revenue (including capital transfers and contributions)	1,466,918	1,526,300	59,382	104.0%	4.0%
Total Operational Expenditure	1,345,631	1,330,169	(15,462)	98.9%	-1.1%

Table 1: Consolidated summary: Statement of Financial Performance: YTD Budget

As indicated in Table 1 above, as at 31 December 2023, the billed revenue excluding capital grants amounted to R1,494,153 billion which resulted in a satisfactory variance of 9.9% when compared to the YTD Budget of R1,359,802 billion. The billed revenue including capital grants amounted to R1,526,300 billion, resulting in a satisfactory variance of 4.0% when compared to the YTD budget of R1,466,918 billion. Capital grants are recognised in the Statement of Financial Performance, monthly as soon as the conditions of the grant have been met. Reasons for the variances are articulated in Section 4.1 below. The Total Operational Expenditure amounted to R1,330,169 billion versus the YTD Budget of R1,345,631 billion, resulting in a satisfactory variance of minus 1.1%. Reasons for the variance are articulated in Section 4.2 below.

Summary Statement of Financial Performance: Original Budget					
Description R thousand	Original Budget	YTD Actual December 2023	Variance Favourable (Unfavourable)	% YTD Actual vs Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 41.67%
Total Revenue (excluding capital transfers and contributions)	2,719,604	1,494,153	1,267,519	54.9%	4.9%
Total Revenue (including capital transfers and contributions)	2,933,837	1,526,300	1,281,814	52.0%	2.0%
Total Operational Expenditure	2,691,252	1,330,169	1,105,898	49.4%	-0.6%

Table 2: Consolidated summary: Statement of Financial Performance: Original Budget

Indicated in Table 2 above is the YTD actual compared to the Original Budget. When calculating the ideal In-Year-Monitoring percentage of 50% [calculated as follow: (100/12 months x 6 months of the year)] as at the end of December 2023, the Total operational revenue excluding capital grants versus the Original Budget resulted in a satisfactory variance of 4.9%. The Total operational revenue including capital grants versus the Original Budget resulted in a satisfactory variance of 2.0%. The Total Operational Expenditure resulted in a satisfactory variance of minus 0.6%.

Please note that certain Revenue by source and Expenditure by type categories are showing excessive negative and/or positive variances. This is due to fact that the YTD budgets were all systematically determined on a straight-line basis by dividing the total budget per category per line item by 12. The capital projections were also done in the same fashion. Please note that variances within a 5 to 10 percent range, as prescribed by National Treasury are acceptable and need not necessarily be explained.

4. Budget performance overview

4.1 Operating Revenue by Source

Table 3: Table C4 Financial Performance (Revenue)

Comparison against the YTD Budget

Exchange Revenue

- ❖ Service charges - Electricity is showing an unsatisfactory variance of minus 11.1%. Service charges Water is showing an under-recovery of minus 11.6%. It is imperative that the Billing section does a proper investigation to ensure that all properties have functional meters installed and are billed accurately. The same applies to all Service charges., Sanitation and Refuse are all showing an over-recovery when compared to the YTD budget.
- ❖ Sale of Goods and Rendering of Services is overstated by 14.2%, as a result of advance receipts on the approval of buildings plan to the tune of R2,833 million.
- ❖ Interest earned from Receivables is showing a positive variance of 48.3% due to the increase in specifically debt over 90 days and the consecutive interest rate hikes in the recent past.
- ❖ Interest from Current and Non-current Assets shows a positive variance of 35.1%. It should be noted that investments have remained relatively constant for the previous financial year. The municipality is improving on its cash and investment management and attempts to invest as much as possible of funds not immediately needed for operations. And the municipality is also investing capital grants

already received and withdraws funds when capital payments must be made. The bulk of the interest earned will be recognised as part of the year-end procedures.

- ❖ Licences and permits is showing a negative variance of 39.2%, as a result of the receipts on Road & Trsp: Operator & Pub Driv Permits being lower than anticipated.
- ❖ Operational Revenue is showing a positive variance of 48.1%, as a result of an over-recovery on Incidental Cash Surpluses and Commission: Transaction Handling Fees.

Non-Exchange Revenue

- ❖ Property Rates is showing a positive YTD variance of 24.3%, due to the annual billing on Property rates.
- ❖ Transfers and subsidies - Operational is showing a positive variance of 38.6% as a result the receipt of the second tranche of the Equitable Share.
- ❖ Operational Revenue is showing movement of R22,342 million against a zero budget. This revenue pertains to availability charges billed for services. The budget will be corrected during the Adjustment budget for the year under review.
- ❖ Gains on disposal of assets, predominantly pertains to the sale of land.
- ❖ Transfers and subsidies - Capital is showing a negative variance of minus 70% when compared to the YTD budget. Capital grants remains lower than anticipated due to poor capital grant expenditure. Serious intervention will have to be taken by Management to improve on monthly capital grant expenditure and capital expenditure overall. Capital grants are recognised in the Statement of Financial Performance, on a monthly basis as soon as the conditions of the grant have been met.

Comparison against Original Budget

Based on the IYM percentage of 50%, the majority of revenue sources are performing satisfactorily.

Exchange Revenue

- ❖ Service charges against the Original budget is generally showing satisfactory performance.
- ❖ Sale of Goods and Rendering of Services is showing a positive variance of 7.1.%. Same factors are applicable as described in the paragraph above.
- ❖ Interest earned from Receivables is showing a positive variance of 24.1%. Same factors are applicable as described in the paragraph above.
- ❖ Interest from Current and Non-current Assets shows a positive variance of 17.5%. Same factors are applicable as described in the paragraph above.
- ❖ Licences and permits is showing an unsatisfactory variance of minus 19.6%. Same factors are applicable as described in the paragraph above.
- ❖ Operational Revenue is showing a satisfactory variance of 24.1%. Same factors are applicable as described in the paragraph above.

Non-Exchange Revenue

- ❖ Property Rates is showing a positive variance of 12.1%, due to the annual billing on Property rates.
- ❖ Transfers and subsidies - Operational is showing a positive variance of 19.3% as a result the receipt of the second tranche of the Equitable Share.
- ❖ Operational Revenue is showing movement of R22,342 million against a zero budget. This revenue pertains to availability charges billed for services. The budget will be corrected during the Adjustment budget for the year under review.
- ❖ Gains on disposal of assets, predominantly pertains to the sale of land.
- ❖ Transfers and subsidies - Capital is showing a negative variance of minus 35%. Capital grants remains lower than anticipated due to poor capital grant expenditure. Serious intervention will have to be taken by Management to improve on monthly capital grant expenditure and capital expenditure overall. Capital grants are recognised in the Statement of Financial Performance, on a monthly basis as soon as the conditions of the grant have been met.

Indicated in Chart 1 below is the weighting of the YTD Actual on billed Revenue per Source as a percentage of total operational revenue as at 31 December 2023. The main contributors of the municipality’s revenue are Service Charges (46.2%), Property Rates (27.5%) and Transfers and subsidies (13.1%). The contribution per Revenue source is still slightly distorted, as a result of the annual billing of Property rates and the receipt of the second tranche of the Equitable Share.

Chart 1: Revenue by Source: YTD Actual as a percentage of Total Revenue

Table 4: Table C4 Financial Performance (Expenditure)

Comparison against YTD Budget

As indicated in the Table 4 above, as at 31 December 2023 current YTD expenditure shows a satisfactory variance of minus 1.1%. The YTD actual amounted to R1,330,169 billion against the YTD Budget of R1,345,631 billion.

- ❖ Employee related costs shows a satisfactory variance of minus 0.1%. Post-retirement benefit obligations are not factored in and will only be finalised as part of year-end procedures.
- ❖ Remuneration of councillors is showing a satisfactory variance of 1.9%.
- ❖ Bulk purchases – Electricity is showing a satisfactory variance of 7.1%. It should be noted that currently interest on overdue accounts is included in this line item, but it will be corrected during the Adjustments budget in February 2024.
- ❖ The expenditure on Inventory consumed is showing a satisfactory variance of minus 10.7%. Expenditure for the first month of the year is normally low, due later re-opening of the financial year after year-end closure. Various commitments are raised on the system, awaiting delivery of goods and services. It has been reiterated monthly that expenditure on Inventory consumed needs to be monitored closely and remedial action be taken to ensure that funds are spent effectively with good value for money and that funds will be fully spent at year-end. The major backlog and deterioration of infrastructure and high-level of crisis management is negatively influencing this expenditure line items and sound financial management of budgets is not adequately exercised. Deviations and re-directing of funds to manage crises is severely and rapidly depleting the R&M budget, impeding on the funds required for day-to-day maintenance. Lack of maintenance plans and planned maintenance is impeding on the municipality's ability to maintain assets optimally. There are limited resources available with severe budgetary constraints with the current cash flow position putting major strain on the municipality's finances to actually address service delivery challenges. The municipality is obligated to ensure that tariffs are cost-reflective whilst ensuring that tariff increases are inflationary related as prescribed by NT's annual MFMA Budget circulars. This is a major impediment for the municipality to increase the R&M budget to a desired level to actually address backlogs, whilst employee costs, provision for bad debts and other expenditure is putting further strain on the budgets each year.

Table 4.2 R&M Expenditure per Service per inventory type

- ❖ Debt impairment will be provided for on a quarterly basis and the journal for the second quarter was processed during December 2023.
- ❖ Depreciation was projected for on a straight-line basis but is only be provided for, as part of year-end procedures. The municipality is currently engaging our service provider to make use of the available Asset module on the financial system. A demonstration is being scheduled by our service provider.
- ❖ Interest is showing a satisfactory variance of 2.7%. Interest on External borrowing is paid bi-annually and the first instalment for the current financial year was paid during December 2023. The interest on overdue accounts for the ESKOM bulk account is being captured on the system under Bulk purchases electricity, as there is no provision for Interest on overdue accounts. This is attributable to the fact that the municipality could not factor this cost into the electricity tariffs and expect the community to fund this and secondly, the municipality intended to apply for the municipal debt relief. This shortfall will be addressed during the Adjustment budget and corrective journals will be processed. Minor interest charges on overdue accounts was handled through a budget virement on the system, until it can be corrected during the Adjustment budget. A formal communique must be distributed to warn users on the late submission of payments which is incurring unnecessary charges and which they may be held liable for in future. All Interest paid on overdue accounts must be recognized as Fruitless and Wasteful expenditure in the Annual Financial Statements.
- ❖ Expenditure on Contracted services is showing a satisfactory variance of 3.3%.
- ❖ Transfers and subsidies showing satisfactory variance of 6.2%, due to the once-off settlement of the grant due to the SPCA for the current year. Other grants show minimal movement due to cash flow constraints.
- ❖ Operational cost is showing an unsatisfactory variance of 25% as a result of the following line items under Operational Cost (OC)
 - The municipality is offering a 10% discount on the early settlement of a consumer's municipal bill. This discount is reflected as an expense under OC: Cash Discount of R20,191 million with a zero budget, but these costs will be transferred and debited against

Revenue at year-end because it is considered Revenue foregone. The prorata split is done manually between Property rates and service charges, excluding Electricity Revenue because the system cannot handle the automated split per Revenue source. This will be discussed again with our service provider.

- Cost incurred of R3,985 million on OC: Ext Com Serv Prov - S/Ware Licences, for predominantly annual software license fees.
 - Cost incurred of R9,468 million on OC: Professional Bodies M/Ship & Subs, for predominantly annual SALGA membership fees.
- ❖ Other Losses is showing a variance of minus 8.9%. Bulk purchases Water is treated in line with GRAP 12. The invoices are captured on the balance sheet under Water: Input Vol: Bulk Purchases and then journalized to the Income Statement and is simultaneously split between Water Inventory and Water losses. The corrective journal to recognise Water inventory and losses portion for the actuals of November 2023 and December 2023 must still be processed on the system.

Operating Expenditure by Type: Comparison against Original Budget

Indicated in Table 4 above, is the YTD actual compared to the Original Budget. The ideal In-Year-Monitoring percentage as at the end of December 2023 is 50%. The total operational expenditure against the Original budget is 49.4% spent, resulting in a satisfactory variance of minus 0.6%.

- ❖ Employee related costs shows a satisfactory variance of minus 0.1%. Same factors are applicable as explained above.
- ❖ Remuneration of councillors is showing a satisfactory variance of 1%. Same factors are applicable as explained above.
- ❖ Bulk purchases – Electricity is showing a satisfactory variance of 3.5%. Same factors are applicable as explained above.
- ❖ The expenditure on Inventory consumed is showing a satisfactory variance of minus 5.4%. Same factors are applicable as explained above.
- ❖ Debt impairment is showing a satisfactory variance of close to 0%. Debt impairment will be provided for on a quarterly basis and the journal for the second quarter was processed during December 2023.
- ❖ Depreciation was projected for on a straight-line basis but will only be provided for, as part of year-end procedures. Same factors are applicable as explained above.
- ❖ Interest is showing a satisfactory variance of 1.4%. Same factors are applicable as explained above.
- ❖ Expenditure on Contracted services is satisfactory at 1.6%, when compared to the Original budget.
- ❖ Transfers and subsidies show a satisfactory variance of 3.1%. Same factors are applicable as explained above.
- ❖ Operational cost is showing an unsatisfactory variance of 12.5%. Same factors are applicable as explained above.
- ❖ Other Losses is showing a satisfactory variance of minus 4.5%. Same factors are applicable as explained above.

Chart 2: Expenditure by Type : YTD Actual as a % of Total Expenditure as at 31 December 2023 (R'000)

Chart 2: Expenditure by Type: YTD Actual as a percentage of Total Expenditure

Also indicated in Chart 2 above is the weighting of the YTD Actual on Expenditure by Type as a percentage of total operational expenditure as at 31 December 2023. The main cost drivers of the municipality are Employee Related Costs (33.8), Bulk Purchases – Electricity (32.3%) and Debt Impairment (12.2%) and Inventory consumed (10.5%).

It should be noted that the weighting per Expenditure type is satisfactory. percentages are slightly distorted as a result of the following:

- ❖ Employee costs, the Post-retirement benefit obligations under Employee related costs will be finalized as part of the year-end procedures.
- ❖ Depreciation is not provided for and will only be finalized at year-end.

Bulk Purchases: Electricity, Water inventory and Water losses

❖ Indicated in Table 5.1 below, is the YTD expenditure on Bulk Purchases: Electricity. When compared to the IYM percentage of 50% as at end of December 2023, Bulk Purchases Electricity is showing a satisfactory variance of 3.53%. It should be noted that for the interim interest on overdue accounts is included under this line item, until it can be corrected during the Adjustment budget.

Description	Original Budget	Monthly Actual	YTD Actual	% Spent Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 50%
BULK PURCHASES: ELECTRICITY	785,000,000	64,526,555	420,230,361	53.53%	3.53%
Total	785,000,000	64,526,555	420,230,361	53.53%	3.53%

Table 5.1: Summary of YTD Bulk Electricity expenditure

- ❖ Indicated in Table 5.2 below, is the Water inventory and Water losses which is showing a satisfactory variance of 7.7%, when compared to the ideal percentage of 50%. During the Adjustment budget for 2021/22 and advised by NT, Bulk purchases Water was split between Inventory Water and Water losses in the Statement of Financial Performance aligned to GRAP 12. A corrective journal for the actuals pertaining to Water inventory and losses was processed on the system. The actuals are overstated as a result of the water consumption factored in automatically from the billing side. The actual split between water inventory and losses will have to be corrected accordingly, so that aligns to the actual bulk water purchased.

Description	Original Budget	Monthly Actual	YTD Actual	% Spent Original Budget	% Variance Favourable (Unfavourable) Ideal IYM % - 50%
INVENTORY - WATER	61,200,000	5,264,141	42,732,134	69.8%	19.8%
NON-REVENUE WATER LOSSES	61,200,000	-	27,873,202	45.5%	-4.5%
Total	122,400,000	5,264,141	70,605,335	57.7%	7.7%

Table 5.2: Summary of YTD Bulk Water expenditure

Table 6.1: Summary of outstanding ESKOM debt

Indicated in Table 6.1 above, is the total outstanding debt owed to ESKOM amounting to R977,899 million. It should be noted that R81,239 million interest charges were reversed, for interest charges from March 2023 to October 2023, as part of the debt relief programme. The current account amounts to R64,311 million. The total arrear debt amounts to R913,588 million summarized as follow 2021/22 (R523,811m), 2022/23 (R248,878m) and 2023/24 (R140,899m). The total interest

charged on overdue accounts from July to December 2023 amounts to R55,053 million which must be disclosed as Fruitless and Wasteful Expenditure for the year under review. The interest charges that were reversed for the 2023/24 financial year amounts to R43,756 million.

The total billed amount for the 2023/24 financial year amounts to R537,235 million. Total payments for the 2023/24 financial year amounts to R391,530 million of which R103,242 million relates to 2022/23 financial year and R288,288 million was paid for invoices for 2023/24 financial year. The current arrangement with Eskom is that the municipality must at least settle the monthly current account. There was no formal payment arrangement in place for 2022/23 financial year and the payment arrangement for the debt incurred after March 2023 must be concluded for 2023/24 financial year. The municipality is struggling to meet the monthly current account but pays what is available from a cash perspective and going forward will endeavour to pay over actual receipts from Electricity sales for the same period. The municipality especially struggles during the high months, when the Eskom bill is double that of the low months.

DWS - Outstanding debt (R'000)	Sum of Invoice amount	Sum of Payments (2023/24)	Sum of Outstanding Balance	Sum of Arrear Debt

Grand Total	222,020	105,028	116,993	103,660

Table 6.2: Summary of outstanding DWS debt

Indicated in Table 6.2 above, is the total outstanding debt owed to DWS which amounts to R116,993 million. The total current water account for December 2023 amounts to R13,333 million. The total arrear debt amounts to R103,660 million which pertains to outstanding invoices for 2021/22 financial year (R71,287m). All the invoices for the 2022/23 financial year, has been settled in full and for the 2023/24 financial an amount of R32,373m).

The municipality opted to partake in the Department's Debt Incentive Scheme which constitutes of the following conditions:

- Settling 10% of the arrear debt (municipality complied)
- Settling the current account each month (municipality complied since inception of Incentive scheme but has defaulted on some months. All invoices for 2022/23 financial year have been settled in full. The municipality defaulted for July, September, October and November 2023. The September and October 2023 invoices were settled, however the biggest concern for the municipality is to settle the outstanding invoices for July and November 2023 as a matter of urgency.
- Settling the monthly debt instalment (municipality complied, but defaulted for February and November 2023, but has since caught up).
- Repayment of debt over 12 months (municipality requested 24-month repayment period, which was approved by the Department)
- Also included in the Incentive scheme, is the writing-off of all accrued interest and suppression of interest going forward, hence no interest was charged for the prior and current financial year. The repayment proposal was approved by the Department.

Chart 2.1: Monthly payments: DWS & ESKOM: 2022/23 and 2023/24

Chart 2.1: Monthly payments to DWS & ESKOM

Indicated in Chart 2.1 above, are the monthly payments made to DWS and ESKOM for 2022/23 and 2023/24 financial year as at 31 December 2023.

The total amount paid to DWS for December 2023 amounted to R23,633 million which included the October 2023 account and debt repayment instalment. The municipality had insufficient cash available to settle the July and November 2023 accounts in full. Payments for 2022/23 amounts to R182,284 million and R105,028 million for 2023/24 financial year. The total payments amount to R287,312 million.

For the month of December 2023, the municipality settled R64,610 million on the November 2023 ESKOM account which included an amount of R2,262 million as part of the debt repayment. The total payments made for the 2022/23 financial year amounts to R607,483 million and for 2023/24 financial year the payments amount to R391,530 million, resulting in the total payments for both periods amounting to R999,013 million.

Table 6.3: Summary of payments per payment date

Indicated in table 6.3 above, are the payments to ESKOM and DWS per financial year and per payment date, which corresponds to Chart 2.1 above. Please refer to narratives under monthly payments made to DWS and ESKOM.

Chart 2.2: Monthly & YTD comparison of Bulk Electricity and Water debt - Jun 2023 to Dec 2023

Chart 2.2: Monthly & YTD comparison – Bulk Electricity & Water debt

Indicated in Chart 2.1 above, is the monthly and YTD comparison of Bulk electricity and Water debt.

ESKOM - From November to December 2023, debt owed to ESKOM decreased by R81,537 million or 7.7%, from R1,059,436 billion to R977,899 million. This is attributable to the interest reversal of R81,239 million. When comparing the total outstanding debt to June 2023, the outstanding debt increased by R64,486 million or 7.1%, from R913,412 million to R977,899 million.

DWS - From November to December 2023, debt owed to DWS decreased by R10,300 million or 8.1%, from R127,293 million to R116,993 million. When comparing the total outstanding debt to June 2023, the outstanding debt decreased by R9,521 million or 7.5% from R126,514 million to R116,993 million.

4.3 Capital expenditure

Table 7: High level summary: Capital Expenditure

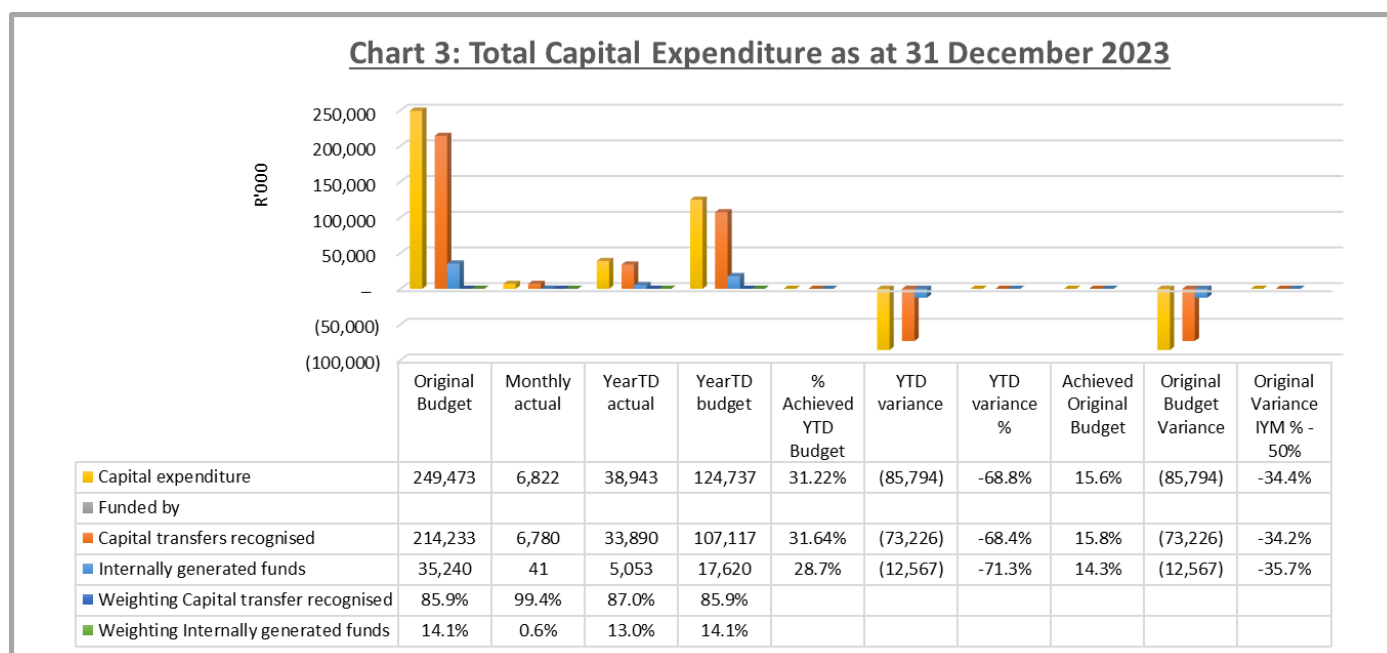

Chart 3: Total Capital expenditure

As indicated in the Table 7 and Chart 3 above, the YTD Actual on capital expenditure as at end of December 2023 amounted to R38,943 million and 31.2% spent when compared to the YTD budget of R124,737 million and 15.6% spent when compared to the Original Budget of R249,473 million. The total YTD capex is funded from Capital grants R33,890 million (87%) and Internally generated funds R5,053 million (13%). Capex is extremely low and major intervention is required for the financial year. Planning of project managers also needs to improve going forward. One of the major challenges that the municipality is experiencing is in respect of tendering processes.

The majority of capital projects are based on a functionality criteria. Bidders either do not meet the functionality criteria or submit incomplete tender documents resulting in bidders being non-responsive. And due to the non-responsiveness of bidders, these bids unfortunately have to be re-advertised. The municipality has been implementing more compulsory site meetings to sensitise service providers on the compliance issues pertaining to bid documents. Secondly, project managers need to realistically anticipate challenges and immediately address delays in order to ensure that projects are completed within the specified timeframe. Contract management also needs to be monitored more closely, placing emphasis on the performance of appointed service providers and addressing issues of non-performance immediately. The Project Management Unit (PMU) is not adequately staffed, resulting in a lack of qualified permanently appointed project managers. Lastly, it is advised that disputes, if any are addressed and resolved expeditiously. The capital expenditure is slow and overall capital expenditure remains a major concern. Remedial action will have to be taken going forward to ensure improvement on capex. It should be noted that capital expenditure excludes VAT and commitments. The capital expenditure report shown in Annexure A, Table C5 has been prepared on the prescribed monthly C-schedule, and is categorised by municipal vote and functional classification.

Sol Plaatje (NC091): Monthly Budget Statement: S71 Monthly Report: December 2023

4.4 Cash flows

Chart 4: Current investment deposits and Cash & cash equivalents at year-end

Chart 4: Call investment deposits and Cash & cash equivalents at year-end

Investments decreased by R65,278 million or 69% from 2018 to 2019. Investments increased by R21,893 million or 76% from 2019 to 2020. Investments decreased by R10,495 million or 21% from 2020 to 2021. Investments increased by R9,876 million or 25% from 2021 to 2022. The total investment remained the same from 2022 to 2023. From 2018 to 2023, the total investments decreased by R44,003 million or 47%. The same trend can be seen year-on-year, as indicated in the chart above in respect of the Cash and cash equivalents. There has been a substantial increase in the Cash and Cash equivalents for the year ended 30 June 2022, due to portion of the Equitable Share that was held as reserve, to avert a crisis situation, where the municipality cannot pay salaries. This is attributable to various factors inter alia, the lower collection rate, increased capital expenditure, especially increase on CRR funding year-on-year, the non-implementation of the basic charge for the 2018/19 financial year, increase in bulk purchases, operational expenditure, including excessive expenditure on Overtime and EPWP, variation orders on contracts, excessive water and electricity losses. And the servicing of the long-term loan. The decline in investments and Cash & cash equivalents is concerning and must be addressed by management.

Chart 5: Cash & cash equivalents and Cost coverage ratio

Indicated in Chart 5 above, is the Cost coverage ratio, number of days coverage and the Cash and cash equivalents for the year. The required NT norm is 3 months Cost coverage. The audited outcome for the year ended 30 June 2021 is (0.23; 7 days; R39,010m). There was a marginal improvement for the year ended 30 June 2022 (1.11; 34 days; R191,126m), but this was as a result of increased Cash and cash equivalents, which was predominantly Equitable share funds that the municipality was saving to build up some kind of reserve. The audited outcomes for the year ended 30 June 2023 is (0.56; 17 days; R106,413m). The Cost coverage ratio as at 31 December 2023 is calculated at (0.70; 21 days; R190,241m).

Cash at this stage is monitored on a daily basis. The Cost coverage ratio is a critical indicator that the municipality is in a severe cash flow crisis and not in the conducive position to settle short-term commitments. This is a critical threat to the municipality's ability to pay salaries, bulk accounts and day-to-day operations which can have a detrimental effect on service delivery and irrevocably damage the municipality's relationship with its service providers and further tarnishing the municipality's reputation. This is also evident by the escalation in debt owed to Eskom and DWS. However, as a result of the debt agreement with DWS and the Incentive initiated by the Department, the municipality has made significant strides in reducing the arrear debt and settling all invoices for the 2022/23 financial year in full.

The only way to address these issues, is to work as a collective team, enforce accountability within all departments and to collect outstanding debt and improve the collection rate. Therefore, the municipality must apply the Credit Control Policy diligently, consistently and fairly to ensure the credibility of the municipality. During the 2022/23 Mid-year engagement, National Treasury recommended that the Credit Control and Debt Collection Policy must be 100% applied. Generally, the payment culture of all consumers and stakeholders must improve. The municipality also needs to spend funds effectively and efficiently with good value for money. Cost containment measures must be stringently applied.

5. In-year budget statement tables

The financial results for the period under review is included in Annexure A, consisting of the following C-schedule tables.

- (a) Table C1: Summary
- (b) Table C2: Financial Performance (Functional Classification)
- (c) Table C3: Financial Performance (Revenue and Expenditure by Municipal vote)
- (d) Table C4: Financial Performance (Revenue and Expenditure)
- (e) Table C5: Capital Expenditure by vote, functional classification and funding
- (f) Table C6: Statement of Financial Position
- (g) Table C7: Cash Flow

6. Municipal Debt Relief Monitoring - MFMA Section 71 reporting

Indicated in the table below is the monthly progress in terms of the municipal debt relief monitoring.

MFMA Circular Reference and Focus Areas	Eskom Debt Relief Conditions	Reporting Frequency / Target Dates	Target / Portfolio of Evidence	Reporting period - December 2023 Comments
<p>6.3 Maintaining the Eskom and Water bulk current account – (current account for the purpose of this exercise means the account for a single month’s consumption)</p>	<p>6.3.1 The municipality must monthly pay and maintain its Eskom bulk current account and bulk water current account - Department of Water and Sanitation (DWS), within 30 days of receiving the relevant invoice</p>	<p>Monthly, within 30 days of receiving invoice on or before due date as per the monthly invoice</p>	<p>Proof of payment (which includes, remittance advice, invoice and extract of corresponding bank statement)</p>	<p>Compliant The municipality settled the current ESKOM account of R62,348m, excl interest on 28/12/2023. Non-compliant The municipality had insufficient cash and could not settle the current Water account amounting to R17,070m.</p>
	<p>6.3.1 (a) At a minimum, pay the monthly debt instalment on 5th of each month as per signed debt agreement with DWS</p>	<p>Monthly, 5th of each month</p>		<p>Compliant The municipality settled an amount of R5,523m on the debt repayment arrangement, on Friday, 05/01/2024.</p>
	<p>6.3.2 Submit the supporting evidence of the bulk Eskom current account payment to the National Treasury, Eskom and DWS, within 1 day of making any such payment</p>	<p>Within 1 day after making payment</p>	<p>Proof of payment and proof of email submission</p>	<p>Compliant Email was sent within one day of payment to ESKOM and DWS.</p>

Table 8: Supporting Table SC3: Aged Debtors

Chart 6: Debtor's Age Analysis by Income Source and Customer Group as at 31 December 2023

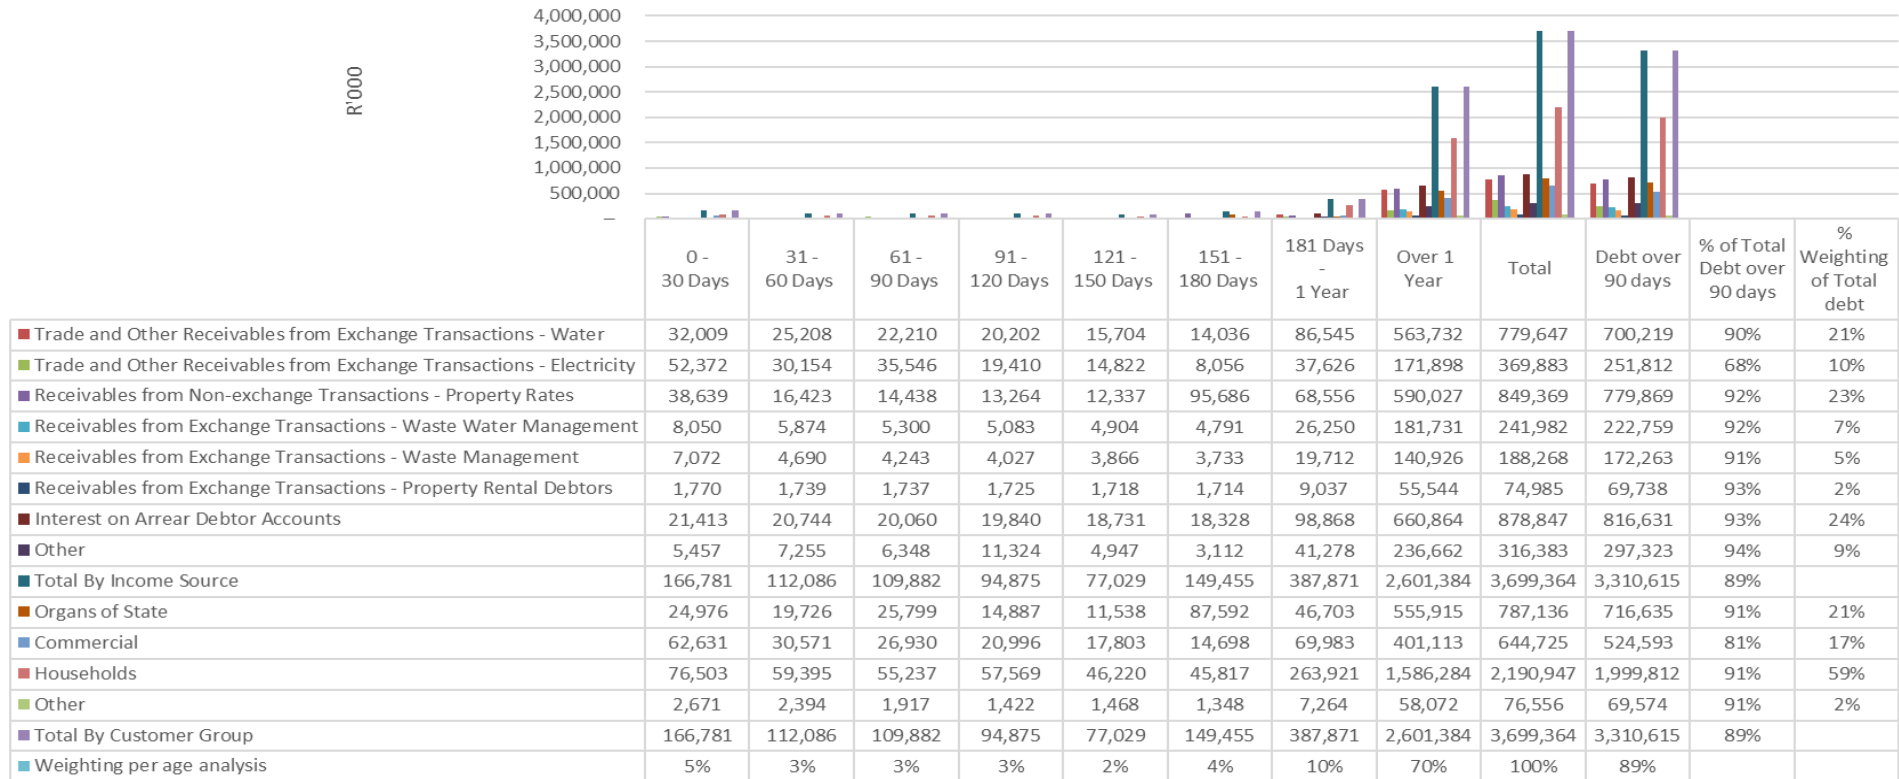

Chart 6: Debtor's age analysis by Income Source and Customer Group

Indicated in Table 8 and Chart 6 above is the total outstanding debt by Income Source and Customer Group including the debt over 90 days, the percentage of total Debt over 90 days and percentage weighting. The total O/S Debt amounts to R3,699,364 billion as at the end of December 2023 with the bulk of SPM debt is aged over 90 days with a total weighting of 89%.

The highest percentage weighting of debt owed by Income Source, in excess of 90 days is attributable to:

- ❖ Receivables from Non-Exchange Transactions – Property Rates at 92%
- ❖ Receivables from Exchange Transactions - Property Rental Debtors at 93%
- ❖ Interest on Arrear Debtor Accounts at 93% and Other 94%.

The highest percentage weighting of debt owed by Income Source is attributable to:

- ❖ Receivables from Non-exchange Transactions - Property Rates at 23%
- ❖ Interest on Arrear Debtor Accounts 24%, and
- ❖ Trade and Other Receivables from Exchange Transactions – Water at 21%

Weighting per Customer Group: Organs of state constitutes 21%, Businesses 17%, Households 59% and Other 2.0% of the total outstanding debt.

An analysis revealed that the catalysts for this condition are the sheer volume of accountholders in arrears, the poor economic circumstances of a large number of our accountholders, and the increasing cost of services beyond the Municipality's control. There is a substantial portion of irrecoverable, stagnant debt that attracts interest every month. We have a backlog of processing this debt and submitting this to Council for approval to write off. We have revised our policies to make our processes more effective. This will allow us to focus on preventing debt from ageing where possible in tracing and updating our debtors' information and of course recovering outstanding amounts.

We anticipate a marked turnaround of this trend and in conjunction with a concerted effort to retard the escalation of ageing debt, we are focusing on improving the accuracy and regularity of our billing as well as our communication with our accountholders. Indigent verification is a continuous process and we are encouraging accountholders whose households qualify, to approach the Municipality for an assessment and possible registration as an Indigent Household. The benefits of this are the provision of free basic services and assistance with arrear debt owed to the Municipality. The payment culture of consumers needs to improve across all areas. Articulated in the paragraph below under "Revenue Management" is a detailed plan with interventions and improvements.

Revenue Management: Activities for the month of November 2023

We have submitted an item to Council for the approval of a Special Municipal Debt Relief Programme. The programme background is based on the Municipality's Debtors book which is currently sitting at an estimated R 3 647 406 979,89 (R 3,647 billion) of which R3 254 390 456,26 (R3,254 billion) is debt that has aged for more than 90 days. The ageing of debt poses a risk of full recovery and the legitimacy of such debt due to the Prescription Act. The debt levels and current economic conditions indicate that debt write-off is inevitable.

The Municipality appreciates the financial constraints currently faced by its Customers, the current economic challenges they currently face make it difficult for them to meet their financial obligations to the Municipality. This has a negative impact on our collection rate and ultimately hinders the Municipality from achieving its objective when it comes to efficient and effective provision of services. Drastic measures are required to improve the dire financial state of the Municipality.

In response to this plight the Municipality, with the approval of Council, will be embarking on a debt rehabilitation initiative in the form of a Debt Relief Programme: effective from 05 December until 28 February 2023.

The intention of the Debt Relief Programme is aimed at encouraging the SPM Customers to pay for their municipal services and to foster a culture of payment amongst the SPM Customers.

The Debt Relief Programme consists of the following options:

1. FULL AND FINAL SETTLEMENT OF ACCOUNT - 50 % SETTLEMENT DISCOUNT (ON ALL MUNICIPAL SERVICES)
2. 3 YEAR PAYMENT PLAN - 30% UPFRONT PAYMENT REQUIRED

All Sol Plaatje Municipality Customers owing the Municipality for a period equal to or over 90 days shall in the first year of the arrangement be entitled to a 50% write-off on all interest charges and 25% on rates: if they make a once off 30% payment towards the settlement of their account as per the Debt Relief Programme.

In the second year of the arrangement the Customer shall be entitled to a 25% write-off on all interest charges and rates, if the Customer paid their account in full on a monthly basis for the whole of the second year.

In the third year of the arrangement the Customer shall be entitled to a further 25% write-off on all interest charges and rates, if the Customer paid their account in full on a monthly basis for the whole of the third year.

Conditions:

- Functional water meter (Municipality will prioritize repairs/replacements of meters per debt relief application)
- Installation of prepaid meter (if not already in place)
- Pay current account in full on a monthly basis during the agreement term
- A down payment of 30% (thirty percent) must be made on the day of application.
- An arrangement agreement must be signed between the Municipality and the Customer.

If tampering is committed at the respective address/erf number linked to the account having the arrangement, at any stage during the 3-year period of the Debt Relief Programme: The Customer shall be disqualified from receiving and further benefits in relation to the arrangement and such arrangement shall become null and void.

We had a workshop for all Councillors on Wednesday, 01 November 23, the following SPM sections presented: Customer Care/Water & Lights/Billing; Debt Collection; Indigent assistance and Rates. The Councillors were equipped with the necessary information in order to educate and empower our community members in order to bring synergy between SPM and the community it serves. Challenges were raised in relation to the dire financial constraints faced by members of the community, the Municipality committed to assist the less fortunate through the Indigent program and affording them payment arrangements. It was also agreed upon that Councillors will encourage Customers to make payments towards their accounts, instead of striking when the Municipality blocks/disconnects electricity due to non-payment.

There was a request for limited blocking/disconnecting of electricity services this past month due to the water crisis we are currently faced with as SPM. We believe that the Water and Sanitation Section is working very hard in order to resolve this issue, which will allow us to proceed smoothly with our collection initiatives.

We are receiving monthly payments from our Government Customers, which includes a R 40 million payment from the Provincial Department of Public Works. We continue to follow up on payment arrangements across our Customer Groups.

Chart 7 below, depicts the month-on-month summary of Debt over 90 days as a percentage of total O/S Debt which remained constant at 89% for the month under review. Debt over 90 days increased by R4,790 million in respect of the month-to-month comparison. The month-to-month decrease on Total debt amounted to R12,593 million. It is concerning that total debt over 90 days is hovering at an average of 87 percent. During the 2023/24 MTREF Budget Benchmark exercise NT also encouraged the municipality, to explore all avenues to recoup long outstanding debt, to improve on financial liquidity and to improve the collection rate to at least 89% to be realistically funded from a cash perspective.

Chart 7: Debt over 90 days as a percentage of Total O/S Debt

- There is an error on the C-schedules, supporting schedule SC3 – Aged Debtors for the audited outcome for 2022/23. This error affected Chart C3 Aged Consumer Debtors Analysis. The problem has been resolved by our financial system provider (BCX). However, the totals are for December 2022, this will have to be confirmed with NT, if it is for the same period of the prior year or the audited outcomes that are required. The error on Chart C4 Consumer Debtors (total by Debtor Customer Category) must be communicated to NT as the 2022/23 audited actuals is not aligned to the AFS and is based on an erroneous formula which the municipality is strictly prohibited from fixing manually. The C-schedule for this reason, is completely password protected. The corrected charts are indicated below.

Chart 8: Aged Consumer Debtor Analysis

Chart 9: Consumer Debtors (total by Debtor Customer Category)

During the Mid-year Budget Assessment for the 2021/22 financial year and indicated below are the Revenue enhancement strategies that can be implemented to ensure the completeness of Revenue, improve the collection rate, enhance customer relations and reduce losses

- Disconnection of consumers to be applied consistently and fairly in line with the Credit Control Policy
- Engagements with provincial government to collect outstanding debt.
- Data cleansing of the entire debtor's book
- Data cleansing to positively influence the reachability of consumers and assist tremendously in the electronic distribution of municipal accounts via short messaging services (sms) and e-mail.
- Improve in the accuracy of monthly billing.
- Ensure meters are read consistently and timeously.
- Significantly reduce interim readings and ultimately eliminate interim readings.
- Reduce material billing errors by thoroughly interrogating billing exception reports prior to final billing run.
- Enhance customer relations and consumer satisfaction by improving on the turnaround time when dealing with billing queries.
- Introduce electronic complaints management system/register for account queries.
- Ensure faulty and bypassed electricity meters are replaced.
- Ensure that stuck, leaking, faulty or damaged water meters are replaced.
- Do regular follow-ups on meter replacements.
- Accurately update the system with latest information
- Reduce the turnaround time for installation of replacement or new meters.
- Ensure improved synergy and improved communication between internal department like Town Planning, Infrastructure, GIS and Billing
- Interrogate billing and prepaid electricity reports on a monthly basis and take immediate remedial action to address anomalies or discrepancies.
- Ensure that all billable properties are billed for Property rates and services.
- Ensure that customers are billed at the correct approved tariff by linking each customer to the correct tariff code loaded on the system.
- Reduce Electricity and Water losses.
- Finalise the Riverton reclamation dam to reduce water losses at the Plant by at least 6%
- Introduce automated metering for bulk consumers.
- Electricity Cost of Supply Study was finalised
- Ensure qualifying indigents are registered on the system, immediately upon verification.
- Improve on indigent management in terms of consumption and ensure prepaid electricity meters are installed immediately for all approved indigents.
- Improve on service delivery and personnel performance, to enhance customer's willingness to pay.
- Reduce or curb unnecessary expenditure by diligently applying cost containment measures.
- Prioritisation of spending
- Improve on routine maintenance on particularly revenue generating assets.
- Spend funds effectively with good value for money.

Revised collection rate

As per Table 9 below, when taking into consideration what was billed in November 2023 and received in December 2023, the monthly collection rate is 95%. It should be noted that receipts are aligned to the billing cycle which is normally from the 26th of the prior month to the 25th of the current month. The monthly collection rate is satisfactory for the month under review. A payment of R39,990 million was received from Public Works on 30 November 2023 and was allocated during December 2023. The total amount of unallocated receipts from departments and Water and lights accounts of R46,649m remained unallocated at month-end or which was received after the billing run. These allocations will be resolved during January 2023. Indicated in Table 10 below is the revised average collection of 74.6% for the period under review. The average collection rate is distorted, due to the annual billing on Property rates. When taking the annual billing on Property rates into consideration, the average collection rate is 74.9%. The lower collection rate is not an ideal situation and is having a dire impact on the cash flow of the municipality. The current status quo cannot continue, and drastic action will have to be taken to address this critical issue.

When considering the average collection rate, various factors are taken into account, like the receipts on Prepaid Electricity, unallocated credits, etc. The YTD billing on Property Rates and Service Charges are obtained from the general ledger. Billing on Other is obtained from the BS902 report (Debits Raised Versus Payments). The BS566 report (Payments per Service per Day/Period) includes all monies received from 1 December to 31 December 2023. Unallocated credits are obtained from the cashbook. Government in particular and businesses/households that opt to get billed annually, had until the end of September 2023 to settle their outstanding accounts.

Monthly Collection Rate	Debits (Billed November 2023)	Credits (Received December 2023)	% Collected

Table 10: Revised Average collection rate

Chart 10: Comparative trend: Monthly and Revised average collection rate

Indicated in Chart 10 above, is the comparative trend between the monthly and average collection rate from June 2023 to December 2023. The monthly collection rate for August 2023 and the revised average collection for July 2023, is low due to the annual billing of Property rates. It should be noted that the monthly collection rate takes into account what was billed in the previous month and received in the current month. The receipts are also based on the billing cycle, which will normally be from 26th of the previous month to 25th of the current month. The monthly collection rate also excludes Prepaid electricity sales. The average collection rate, although distorted is not ideal because on a monthly basis, the municipality is not receiving enough cash to cover its commitments. For the municipal debt relief, the municipality is also expected to report the average collection rate per ward. The collection rate per ward improved to 102%. It should be noted that an amount of R46,649m was unallocated at month-end, which negatively influenced these collection rates.

During the 2023/24 MTREF Benchmark engagement, NT advised that the municipality, “must make an effort to collect long outstanding debtors and strive to push collection rate beyond 89% so that we are able to make a surplus on the cash flow which will enable the municipality to cover all the proposed expenditures including bulk purchases for Eskom and Water Board. As things stand, if you look at the cash flow, it shows that the municipality will collect less revenue than the proposed expenditure, however, the budget on A8 remains funded because of huge outstanding debtors that the municipality is still anticipating to collect, hence our plea for the municipality to collect those long outstanding debtors not written off.”

Chart 11.1: Month-to-month - Total Billing Receipts incl Prepaid Electricity from Jun 2023 to Dec 2023

Chart 11.1: Month-to-month - Total Billing Receipts incl Prepaid Electricity

As indicated in Chart 11.1 above, the Total Receipts amounted to R169,147 million which resulted in an increase of R41,273 million or 32% in respect of the month-to-month comparison. Billing receipts increased by R39,592 million, whilst Prepaid Electricity Sales increased by R1,681 million. The deteriorating situation for the past few months/years does not bode well for the municipality's cash flow because on a monthly basis the municipality does not collect sufficient cash to cover its monthly commitments. Unallocated billing receipts at month end amounted to R46,649 million. Unallocated receipts are not factored into the actual receipts as per the chart above. All unallocated receipts are investigated and assistance from the bank is also requested when the municipality is unable to trace receipts so that it can be allocated timeously and accurately.

Chart 11.2: Monthly billing receipts per revenue source & % contribution from Jul 2023 - Dec 2023

Chart 11.2: Monthly billing receipts per revenue source and % contribution

Indicated in Chart 11.2 above, is the month-to-month receipts per Revenue source and percentage contribution of receipts per revenue source as at 31 December 2023. Receipts are relatively constant based on the month-to-month comparison. The actual cash collected remains is a serious concern and positive results can be achieved, provided that the Credit Control and Debt Collection Policy is strictly, consistently, and fairly applied. Revenue streams that are showing improvement in relation to the monthly comparison, is Property Rates. Electricity and Other, all other revenue streams are showing a decline. Data from the above chart, indicates that Electricity incl Prepays at R412,286 million (46%) is the highest contributor, followed by Property rates at R299,337 million (33%) being received. This illustrates the sensitivity and vulnerability in respect of electricity sales that the municipality is facing. Any

major reductions in this revenue source can severely affect the municipality's financial position and this was clearly demonstrated when the municipality had to abolish the implementation of the basic charge in 2018/19 financial year. Measures should be implemented to ensure that receipts from annual Property rates billing materialises. Receipts from Water constitutes 9% and Other 7% overall.

Receipts from Sanitation and Refuse is extremely low and on average the municipality collects approximately 54% from these revenue sources. The lowest contributor in respect of actual receipts, has always been Interest on arrears. This demonstrates the fact that the municipality is facing challenges in collecting long outstanding debt. It should be noted that in terms of the approved Customer Care, Credit Control and Debt Collection Policy, it outlines that "the municipality shall implement an incentive for settlement of arrears accounts as illustrated below:

- a) 100 % of all interest charges and penalties not yet paid and still reflecting on the consumer's most recent account may be written off if such account is settled in full prior to the next billing run of such account.
- b) 85 % of all interest charges and penalties not yet paid and still reflecting on the consumer's most recent account may be written off if such account is settled in full over a period of two consecutive months.
- c) 50 % of all interest charges and penalties not yet paid and still reflecting on the consumer's most recent account will be written off if such account is settled in full over a period of three consecutive months."

The above incentives then negatively influence the collectability of this revenue source, but positively influences the collection of other services.

Chart 12: Billing receipts per Customer Group

Indicated in Chart 12 above, is the billing receipts and percentage contribution per major Customer group as at 31 December 2023. The municipality received R300,055 million (41%) from Businesses, Households R214,342 million (29%), Organs of State R216,937 million (29%) and Other R6,161 million (1%).

Table 11: Supporting Table SC4: Aged Creditors

Chart 13: Aged Creditors Analysis

It should be noted that comparative figure for 2022/23 is based on the outstanding creditors as at 31 December 2022 (prior year totals for the same period).

Bulk Electricity – As at the 31 December 2023, the outstanding debt owed to ESKOM amounted to R977,899 million. The current agreement with ESKOM is that the municipality must settle its monthly current account. No formal payment agreement with ESKOM was concluded for the 2022/23 financial year. The municipality initiated the process to conclude a debt agreement for 2023/24 financial year, for the debt that accumulated after March 2023 based on the debt relief approval. This proposal was submitted to ESKOM for approval.

Bulk Water – As at the 31 December 2023, the outstanding debt owed to DWS is R127,293 million. A payment agreement with DWS for the 2022/23 financial year has been concluded and the municipality is participating in the Incentive scheme that the Department is providing to municipalities. All invoices for 2022/23 financial year were settled in full.

PAYE and Pension statutory deductions are paid over monthly to the relevant institutions on or before seventh of the new month.

VAT – after the monthly VAT reconciliation, we claimed an amount of R14,085 million from SARS.

Trade creditors are all suppliers registered on the municipality's database and it is a prerequisite for these suppliers to be registered on the Central Supplier Database (CSD).

Auditor General – the current account due to the AGSA is R285 thousand.

Other creditors – includes Sundry creditors which were unpaid as at 31 December 2023 of which the biggest contributor is other third party salary payments amounting to R17,660 million which was paid by 7 December 2023.

9. Investment portfolio analysis

The market value of the investment portfolio has been utilized and for the period ending 31 December 2023, the value of total investments made was R164,855 million including interest. Investment top-ups for the month under review amounted to R48,850 million, while an amount of R15,879 was partially or prematurely withdrawn. The disclosure of interest has to be discussed with NT so that the municipality can align interest received to the data strings, whilst NT must provide guidance of the YTD accrued interest that are not yet reflected in the books. This exercise is normally performed during year-end procedures. Please note that the investments are committed and/or held for the following reasons:

Purpose	R'000
A fixed deposit that was invested and ceded to Development Bank of South Africa representing the equivalent of one instalment of the long-term loan.	21,269
A fixed deposit that was made as a security to the Self-Insurance Workman Compensation reserve as required by the Department of Labour - Compensation Commissioner.	7,787
Capital grant receipts that was invested for the current year.	95,950
The investment account set aside for ESKOM and DWS.	99
Own funds invested	39,750
Total	164,855

Table 12: Supporting Table SC5: Investment portfolio

Chart 14: Call investment deposits incl interest for the period ending 31 December 2023

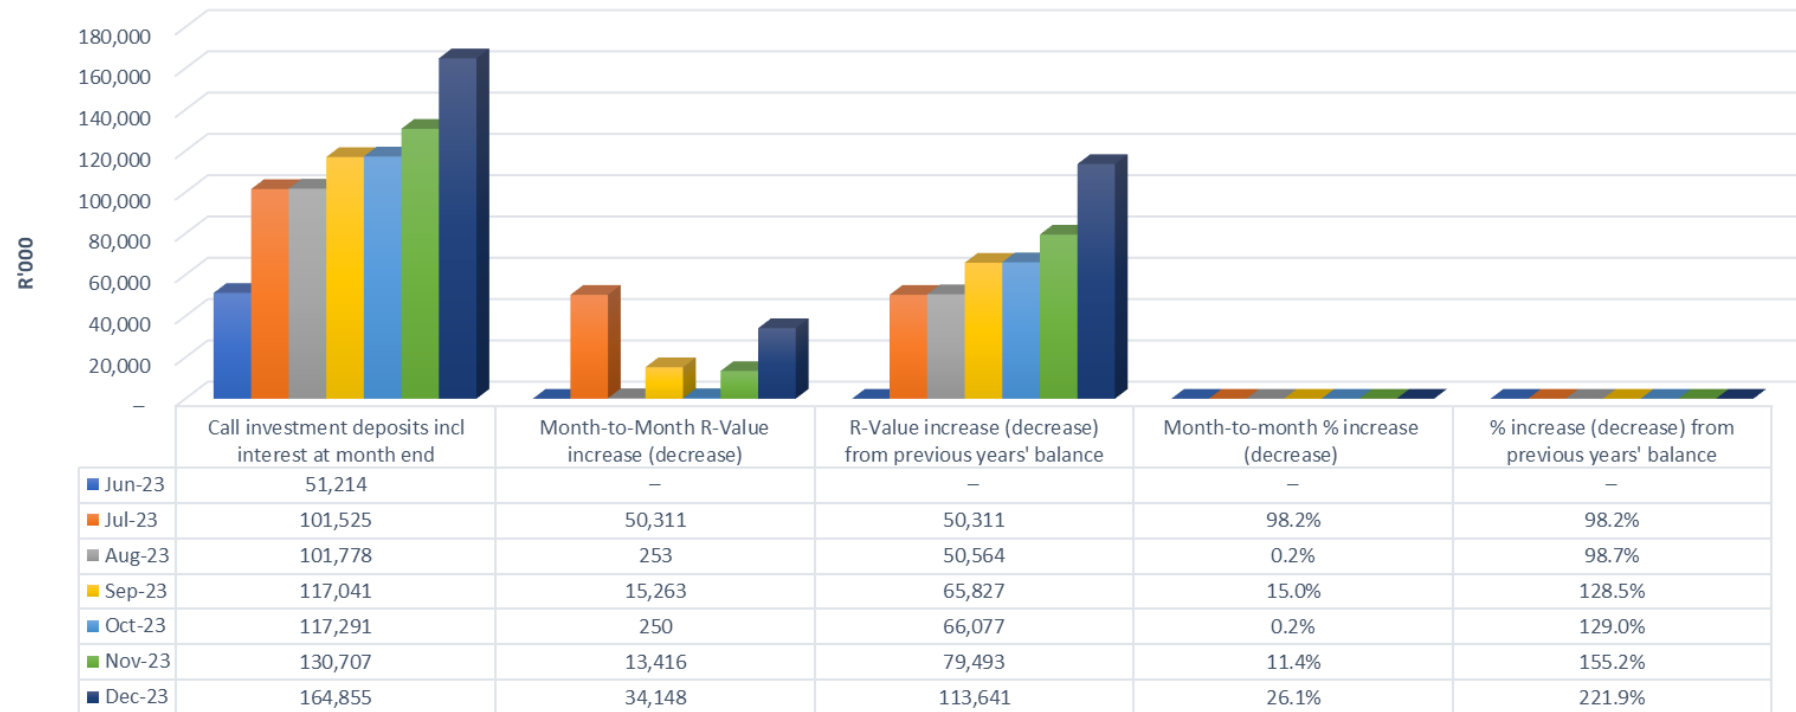

Chart 14: Call investment deposits at month-end

As indicated in the Chart 5 above from November to December 2023 investments incl interest increased by R34,148 or 26.1%, in respect of the month-to-month comparison. Investments increased by R113,641 million or 221.9% when compared to the previous years' balance of R51,214 million. Various commitments must be met monthly including Salaries, Bulk Electricity, Bulk Water in the billing period and capital expenditure. The majority of staff receive their annual bonuses in December of each year. Bi-annual long-term loan repayments, in December and June of each year. The non-charging of the basic charge for the 2018/19 financial year for domestic consumers also had a negative impact on the income from Sale of Electricity and thus negatively affecting the municipality's cash flow. The movement on investments should be monitored going forward and a concerted effort should be done to collect current and long outstanding debt. Capital and Operational expenditure overall, also needs to be reviewed and prioritised.

EEDSM – R2,000 million

European Union R18,850 million

There are some mapping errors pertaining to operational and capital grants. This was brought under attention of our financial system vendor and the matter is being investigated to find a solution. Capital grants specifically is allocated to the Statement of Financial Position as receipts and is not mapped to the C-schedule. However, on a monthly basis journals are processed to recognize capital grant receipts in the Statement of Financial Performance, once all conditions of the grant have been met.

Table 14: Supporting Table SC7(1): Transfers and grant expenditure

The municipality is experiencing huge challenges in respect of funding for the EPWP which is not sufficient and this is putting strain on the municipality's finances. The total YTD expenditure is R13,365 million. For reporting purposes to NT and the Dept of Public Works, the municipality is only expected to report up until the allocation amount. The current years' gazetted allocation for the EPWP is R3,286 million. In addition to this, the municipality budgeted R15,000 million for this programme.

Description (R'000)	Original Budget	Prelim Adjustment Budget	Monthly Actual	YTD Actual	Commitments	% Spent Original	% Spent Adj Budget
INEP (INTEGRATED NATIONAL ELECTRIFICATION PROGRAMME GRANT)	48,026	48,026	2,045	5,080	119	10.6%	10.6%
IUDG (INTEGRATED URBAN DEVELOPMENT GRANT)	74,207	74,207	2,443	16,983	9,989	22.9%	22.9%
EEDSM (ENERGY EFFICIENCY AND DEMAND SIDE MANAGEMENT GRANT)	4,000	4,000	-	3,943	-	98.6%	98.6%

RBIG (REGIONAL BULK INFRASTRUCTURE GRANT)	86,000	86,000	2,292	7,884	5,625	9.2%	9.2%
Grand Total	214,233	214,233	6,780	33,890	15,734	15.8%	15.8%

Table 15: Summary of expenditure per grant

As indicated in Table 15 above, the YTD grant expenditure amounts to R33,890 million or 15.8% spent against the Original capital grant allocation of R214,233 million. Capex is usually slow for the first quarter mainly as a result of finalization of procurement processes and/or work still in progress. It remains concerning that YTD capital expenditure is so low. It should be noted that grant expenditure excludes VAT which will be recognized at year-end in the Statement of Financial performance, when all conditions of the grant have been met. Capex also excludes Commitments. Please refer to Section 4.3 in the Executive Summary which highlights some of the factors that

negatively influences the delay in grant expenditure.

Rollover Grants: Expenditure

The rollover request for the 2022/23 financial year was declined as per the letter received from National Treasury. Below is an extract of the rollover letter.

“Your request to roll over the unspent amount of **R7.2 million** into the 2023/24 financial year by your municipality is not approved in terms of 21(2) of the 2022 Division of Revenue Amendment Act, (Act No. 15 of 2022) (DoRAA). The rejection is with respect to the Infrastructure Skills Development Grant (R1.6 million) (ISDG) and Water Services Infrastructure Grant (R5.6 million) (WSIG).

The National Treasury in assessing your roll over request used the criteria set out in Circular No. 123 of the Municipal Finance Management Act, 2003 (Act No.56 of 2003) as a guide for the consideration of the roll over submission by your municipality.

The decision to reject your roll over request is based on the following reasons:

- The municipality did not submit supporting documents for the ISDG as outlined in the circular, i.e., copies of appointment letters of contractors and tender documents; and
- With regards to WSIG, the contractor left site as per your letter.

Your municipality is reminded that the Municipal Council does not have the legal authority to decide on the use of Conditional Grant transfers from National Government outside of the legal framework set out in the annual Division of Revenue Act and its various gazettes.”

[Table 16: Supporting Table SC7\(2\) - Expenditure against approved rollovers](#)

Table 16 is not populated because the municipality’s rollover request was declined.

Table 17: Supporting Table SC8: Councillor and staff benefits

As depicted in Table 17 above, Employee related costs is satisfactory and showing a variance of close to 0%. Post-retirement benefit obligations will be finalized as part of year-end procedures. It should be noted that the disclosure under Performance bonus, is the annual bonuses or 13th cheques that is budgeted for and paid out to employees. This is not subject to any performance appraisal. Individuals do act on positions from time to time, but all such acting allowances forms part of basic salary line item. Councillors Remuneration is showing a satisfactory variance of 2% when compared to the YTD Budget. The gazette on the Determination of Upper limits of salaries, allowances and benefits of different members of municipal councils was issued and implemented accordingly.

Management needs to do more to address the issues on Overtime which is higher than the ideal IYM percentage. For reporting purposes on Overtime, the municipality is only concentrating on (Overtime Structured and Non-structured). However, as per NT mapping Night-shift allowance and Payments - Shift Add Remuneration is also mapped to Overtime.

The Overtime controls is no longer as effective and the desired outcome to remain within budget, was not achieved for 2022/23 financial year. The same trend is transpiring for the current year. Overtime can be monitored by implementing more stringent control measures. The municipality should also ensure that critical positions to compliment capacity on the ground is expedited and filled with qualified personnel. The lack of capacity in certain departments, like Water services and the severe service delivery challenges is negatively impacting on the management of Overtime expenditure. Overtime hours were limited to 30 hours per month within most departments, but this control has been abolished, negatively contributing to the overall Overtime expenditure. The Overtime policy was developed and approved by Council. There are some challenges with the implementation, especially pertaining to time-off in lieu of Overtime remuneration.

And indicated in Table 21 below, is the YTD Overtime expenditure per line item and also per Directorate as at end of December 2023.

Description per line item (Amount in Rand)	Sum of Original Budget	Sum of Monthly Actual	Sum of YTD Actual	% Spent Original Budget	Original Variance IYM % - 50%
MS: OVERTIME - NON STRUCTURED	28,662,000	6,794,090	33,928,934	118.4%	68.4%
MS: OVERTIME - STRUCTURED	8,504,033	110,352	1,156,250	13.6%	-36.4%
Overtime as at 31 December 2023	37,166,033	6,904,442	35,085,184	94.4%	44.4%
Directorate (Amount in Rand)	Sum of Original Budget	Sum of Monthly Actual	Sum of YTD Actual	% Spent Original Budget	Original Variance IYM % - 50%
20-EXECUTIVE AND COUNCIL	282,000	104,676	368,207	130.6%	80.6%
21-MUNICIPAL AND GENERAL	-	-	-	-	-50.0%
22-MUNICIPAL MANAGER	-	6,062	22,633

27-STRATEGY, ECONOMIC DEVELOPMENT & PLANNING	747,000	192,395	787,432	105.4%	55.4%
28-INFRASTRUCTURE SERVICES	19,006,000	4,358,738	21,092,413	111.0%	61.0%
Overtime as at 31 December 2023	37,166,033	6,904,442	35,085,184	94.4%	44.4%

Table 18: Current YTD Overtime expenditure excl Night-shift allowance

Overtime was capped at 30 hours across most units within the municipality, but this has since been abolished. The YTD Overtime expenditure is 94.4% spent versus the budget, resulting in a negative variance of 44.4% for the period under review, when compared to the ideal IYM percentage of 50.00%.

Chart 14.1: Overtime Actual vs Budget - 2017/18 to 2023/24

Indicated in Chart 14.1, is the actual Overtime versus Budget from 2017/18 to 2023/24 financial year, disclosing the percentage spent and the amount overspent/unspent per financial year. The chart also articulates the actual Overtime as a percentage of Total Employee costs for the same period.

Indicated in Chart 14.2 is the monthly and annual Overtime comparison from July 2018 to December 2023. There has been a substantial decrease in Overtime expenditure from 2018/19 to 2020/21. As reiterated, controls to curb Overtime is no longer as effective and the YTD actual for 2022/23 financial year was R56,711 million. Serious remedial action will have to be implemented to reduce Overtime expenditure.

Chart 14.1: Overtime Actual vs Budget

Chart 14.2: Monthly and Annual Overtime Comparison - Jul 2018 to Dec 2023

Chart 14.2: Monthly and Annual Overtime Comparison

The BTO office recommended the following precautionary measures.

- The monitoring of daily tasks/assignments. This means that work that can be done during normal working hours should be monitored closely. Ideally, put emphasis on performance and especially the quality of work done.
- Finding means to actually verify work performed, even if this means that for the first few questionable overtime work that managers/supervisors actually go out to the site, if possible.
- Using the vehicle tracking reports to ascertain the timespan at a particular site.
- Making sure that the hours claimed are legitimate and is actually consistent and correlates to the normal estimated time to complete a job of a similar nature.
- Request a detailed description of the nature of work done and insist on the exact site where work was performed being specified.
- Ensure that managers remain vigilant and question hours claimed and not just sign Overtime forms. We believe that this will make workers more aware that they cannot just claim hours like they did in the past.
- Stopping planned Overtime, unless it is to avoid major shutdowns or service interruptions.
- The adherence to the Overtime Policy stipulations, is imperative in order to address the issues on overtime.

Listed below are the challenges with regard to Overtime which was identified during the 2012/13 MTREF

- Ensuring accountability across all directorates and ensuring that Executive directors, Line Managers and Supervisors take full responsibility
- Identify and investigate possible abuse and alleged fraudulent allegations and taking disciplinary action, where applicable
- Ensuring the compliance and adherence to applicable laws and regulations and internal policies
- Approval of Overtime prior to it being incurred
- Inability to manage overtime proactively
- To remain within the budgeted Overtime
- Curbing / Limiting / Curtailing expenditure on Overtime
- Monitoring expenditure on Overtime
- Utilizing the available workforce optimally
- Unduly compromising or hampering service delivery, which basically means that work that could have been done during normal hours is deliberately delayed so that work can be finalized after hours
- Implementing an alternative method of compensation
- Addressing the immediate infrastructure maintenance requirements, specifically addressing preventative maintenance
- Ensuring and enhancing the lifespan of Property, plant and equipment
- Improve both the personal productivity of individual employees and the overall productivity of departments and the entire municipal system
- Difficult to track departmental overtime on more than a monthly or even quarterly basis, by then it's too late to take meaningful action to minimize overtime costs

12. Material variances to the service delivery and budget implementation plan

Material variances pertaining to financial performance are primarily addressed in the Executive summary under Sections 4.1 to 4.3 or emphasised elsewhere in this Monthly Budget Statement. Any other material variances to the SDBIP will be included in the quarterly Section 52 (d) report for the period ending 31 December 2023.

13. Capital programme performance

Please refer to notes on Capital Expenditure in the Executive Summary. Section 4.3.

Table 19: Detailed capital expenditure report

Indicated in Table 19 above, is a list of projects with the applicable funding source compared to the Original budget and preliminary adjustments budget. The total capex is normally slow during the start of the financial year. However, capital expenditure is extremely poor compared to prior years for the same period. Urgent intervention from management is required to remedy the situation. The actual monthly expenditure for December 2023 amounted to R6,822 million. The total YTD Capex amounts to R38,943 million. Please note that Commitments amounting to R24,938 million is excluded from the YTD movement. Capital expenditure is also exclusive of VAT. Overall spending on grants is extremely low. The percentage expenditure on IUDG (22.89%) and EEDSM is 98.58%, whilst INEP is 10.58% spent, RBIG 9.17% spend and NDPG is showing zero percent spent. Spending on Internally generated funds is also 14.34% spent. Implementation of projects normally delayed due to the finalization of procurement processes. Payment certificates are settled once work is completed. Capex for the first quarter is normally slow for this reason, in that commencement of procurement processes is not aligned to the budget approval and specifications are not done early so that it can be advertised timeously.

14. Other supporting documents

There is no additional information or supporting documentation for December 2023.

15. Conclusion

This report meets the MFMA requirement for the Executive Mayor to receive the Section 71 'Monthly Budget Statement' within 10 working days after the end of the month.

Communication

In compliance to legislative requirements (Section 71 of the MFMA), this document is provided to all stakeholders by placing it on the Sol Plaatje municipal website: www.solplaatje.org.za or can be viewed or downloaded from the following link:

Cash/cash equivalents at beginning:		197,591	198,307	198,307	102,358	109,536	198,307			109,536
Cash/cash equivalents at month/year end:		(869,139)	210,043	210,043		192,515	204,175			121,272

The BTO made a concerted effort to align the Cash and equivalents of A6 and A7 for the Original budget for 2023/24 financial year, by relooking at the mapping as advised by NT and BCX. However, there are some errors that must be resolved so that the monthly and YTD actuals populate correctly. The Cash and Cash equivalents is also slightly overstated.

As per C6, the Cash and cash equivalents is R190,241 million as per the Cash book balance.
