BACKGROUND

Sol Plaatje Municipality is therefore seeking to appoint a service provider who is accredited as an EPC Inspection Body (IB) with the South African National Accreditation System (SANAS) for Energy Performance Certificates for Buildings. The appointed service provider will be required to complete energy performance certificate assessments(s) according to SANS 1544:2014 for all relevant buildings owned by Sol Plaatje Municipality to determine the building's rating. The service provider is expected to complete and submit the following reports to Sol Plaatje Municipality: together with an Inception Report, an Assessment Report that captures the methodology, assumptions, and calculations used for each EPC, and a Close Out report for the following Municipal-owned buildings.

Regulations for the Mandatory Display and Submission of Energy Performance Certificates for Buildings, gazetted on 8 December 2020, require that all relevant buildings have an Energy Performance Certificate displayed by 7 December 2025. An Energy Performance Certificate (EPC) is defined as a certificate issued by an accredited body in respect of a building in accordance with the South African National Standard SANS 1544: 2014 Energy Performance Certificates for buildings that indicates the energy performance of that building.

The issuing of the Energy Performance Certificates for buildings requires accurate and reliable building energy consumption and activity data that will also be included in the National Building Energy Performance Register (NBEPR) developed by the South African National Energy Development Institute (SANEDI). The energy performance of a building is measured in terms of kilowatt-hours per square meter, per annum (kWh/m² /pa) of net floor area in accordance with SANS 1544:2014 for energy performance of buildings.

The regulations apply to non-residential buildings with a net floor area of at least 1,000 m² for government-owned buildings, operated or occupied by an organ of the state, which have not been

subject to a major renovation within the past two years of operation. These buildings must have a dominant occupancy classification in terms of Regulation A20 of the National Building Regulations as A1, A2, A3, or G1.

The building energy performance is graded from A to F, with A being the most energy efficient and G the least efficient. Buildings are expected to achieve at least a D-rating to be compliant with the national building regulations and must clearly display their EPC at the building entrance of the facility.

The regulations require that the EPC and related data be submitted to SANEDI should be mainly from the four building classes indicated in the table below, and the SANAS-accredited Inspection Body must sign and issue the EPC on behalf of the building owner in line with the SANS 1544:2014.

Building Occupancy Class	Occupancy	Description
A1	Entertainment and public assembly	Occupancy where persons gather to eat, drink, dance or participate in other recreation.
A2	Theatrical and indoor sport	Occupancy where persons gather for the viewing of theatrical, operatic, orchestral, choral, cinematographic or sport performances.
A3	Places of instruction	Occupancy where school children, students or other persons assemble for the purpose of tuition or learning.
G1	Offices	Occupancy comprising offices, banks, consulting rooms and other similar usage.

Buildings are categorised into 5 main categories with varying available data, these categories are reflected and summarised below.

Category	Area data available (yes/no)	Energy data available (yes/no)
A	No schedules, plans only	No
B	No	No

Category A

This would typically be a building where **NO ENERGY DATA IS AVAILABLE, BUT SOME AREA DATA (PLANS ONLY) ARE AVAILABLE**. No previous EPC has been issued. All available data will be supplied to the service provider by the SPLM. The scope of works relating to category E buildings would typically include:

- Desktop verification of supplied data
- Install and uninstall temporary metering to obtain energy use data for the EPC.
 - Metering is first requested through the SPLM Resource Data Project before 3rd party meters are installed.

- Meter specifications will need to be equal to SPLM metering devices or other approved by SPLM metering team.
 - SANAS approved calibration certificates will need to be supplied with any temporary metering.
 - Supply the metered information to SPLM.
- Create an area schedule to meet area related requirements for EPC issuance only. (building plans are supplied).
- Area schedules need to be issued in Excel and PDF and need to clearly indicate the building name, each room name and the associated m².
- The total gross and net floor areas will need to be reflected.
- Area schedules will need to first be issued for comment before being finally submitted to the SPLM.
- The final digital files as well as the PDF need to be supplied to the SPLM in an agreed format.
- Conduct a site visit for each building to verify supplied energy data and do the necessary calculations for the EPC.
- Issue the draft EPC to the SPLM.
- Issue final EPC to the SPLM.

Category B

This would typically be a building where **NO ENERGY OR AREA DATA (NO PLANS OR AREA SCHEDULES) IS AVAILABLE OR SUPPLIED**. No previous EPC has been issued. All available data will be supplied to the service provider by the SPLM. The scope of works relating to category F buildings would typically include:

- Desktop verification of supplied data
- Create an area schedule to meet area-related requirements for EPC issuance only. (Note: no building plans are supplied).
- Area schedules need to be issued in Excel and PDF and need to clearly indicate the building name, each room name and the associated m².
- The total gross and net floor areas will need to be reflected.

- Area schedules will need to first be issued for comment before being finally submitted to the SPLM.
- The final digital files as well as the PDF need to be supplied to the SPLM in an agreed format

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

Includes price quotations, advertised competitive bids, limited bids and proposals.

Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

(Bid Ref Number and Description)

in response to the invitation for the bid made by:

(Name of Institution)

do hereby make the following statements that I certify to be true and complete in every respect:

5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:

 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
