kWh	Kilowatt-hour	MD	Maximum Demand				
kvarh	kilovar-hour	POS	Point of Supply				
SSEG	Small Scale Embedded Generation						
DEFINITIONS							
Maximum demand.	Highest average demand measured in kVA at the point of supply during a 30-minute integrating period in a billing month.						
MD (TOU)	For TOU tariffs this only applies during the Peak and Standard periods.						
NMD	Maximum demand notified by the customer and accepted by the municipality per point of supply applicable for all hours of the day. (KVA)						
Access Demand	Highest of the NMD, installed capacity or Highest Maximum demand during the previous 12 months.						
High voltage (HV)	Networks at a voltage greater than 22kV.						
Medium voltage (MV)	Networks above 1 kV up to 22 kV.						
Low voltage (LV)	Networks less than 1 kV (<1000 V). Single phase 230 V, 3 phase 400 V.						
Basic charge.	Monthly fixed charge payable per point of supply to recover customer services costs such as meter reading, billing and service connection and meter capital. (R/m)						
Capacity charge	Fixed network charge to recover network costs based on the installed / limited capacity. (R/Amp/m)						
Access charge	Fixed network charge to recover mainly dedicated network costs based on the Access Demand. (R/kVA/m)						
Demand charge	Variable network charge to recover the mainly shared network costs based on the chargeable demand.						
Energy charge.	Charge for each unit of active energy consumed during the billing month (R/kWh)						
Reactive energy charge.	Charge based on the reactive energy supplied in excess of 30% (0,96 power factor or less) of the kWh recorded during the peak and standard periods. The excess reactive energy is determined per 30-minute integrating period and accumulated for the month applicable during both seasons. (R/kvarh)						
Basic, Capacity and Access charges.	Fixed charges as prescribed, is levied in respect of every separate electricity connection or erf. If two or more buildings or structures on the same erf are supplied with electricity from only one meter connection, the registered owner of such property
