26 June 2024

MUNICIPAL MANAGER

## APPROVAL OF THE 2024/25 SDBIP

I, KJB Sonyoni, Executive Mayor of the Sol Plaatje Municipality hereby approve the Sol Plaatje's 2024/25 Service Delivery and Budget Implementation Plan in accordance with section 53 (1)(c) (ii) of the Municipal Finance Management Act, (Act 56 of 2003).

Please ensure that all the necessary processes and procedures according to the relevant legislation are adhered to for the implementation of this plan.

A handwritten signature in black ink, appearing to be 'KJB Sonyoni', is written over a horizontal line.

**KJB SONYONI**  
**EXECUTIVE MAYOR**

# Sol Plaatje Local Municipality: Service Delivery and Budget Implementation Plan (2024/25)

## 1. INTRODUCTION

### 1.1 *Legislative Framework*

The Municipal Finance Management Act (MFMA) No. 56 of 2003 requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as an implementation and management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their Integrated Development Plan.

Section 1 of the Municipal Finance Management Act (MFMA) No. 56 of 2003 defines the “service delivery and budget implementation plan” as the detailed plan approved by the mayor of the municipality in terms of Section 53 (1) (c) (ii) for implementing the municipality’s delivery of municipal services and its annual budget and which must include the following:-

- a) Projections of each month of-
  - (i) revenue to be collected, by source; and
  - (ii) operational and capital expenditure, by vote;
- b) Service delivery targets and performance indicators for each quarter; and
- c) Any other matters that may be prescribed, and includes any revisions of such plan by the mayor in terms of section 54(1)(c).

In terms of Section 53 (i)(c)(ii) of the MFMA, the SDBIP must be approved by the Mayor of a municipality within 28 days of the approval of the budget.

MFMA Circular 13 further addresses the minimum requirements of the SDBIP in detail.

### 1.2 *Overview*

This SDBIP is the second to be prepared for the IDP covering the five years (2022 – 2027). The Sol Plaatje Municipality has prepared its 2024/25 SDBIP in line with the above. The SDBIP will serve as a “contract” between the administration, council and the community to deliver on the services outlined in the SDBIP and to manage the finances of the Municipality in a transparent and accountable manner. Not only will the SDBIP serve as an appropriate monitoring tool in the execution of the Municipality’s budget to achieve key strategic priorities as set by the Integrated Development Plan (IDP), but will also serve as an essential part of the annual performance contracts for the Municipal Manager and Managers reporting directly to the Municipal Manager and provide a foundation for the overall annual and quarterly organisational performance for the 2024/25 financial year.

The SDBIP includes the following indicators:

- The revenue and expenditure projections per Vote per month.

- Revenue projections by source.
- Capital projects at a ward level and monthly capital cash flow.
- Consolidated service delivery targets and performance indicators per Municipal KPA and IDP Objective.

The SDBIP will therefore also empower the Executive Mayor, Council and other role-players to undertake their appropriate oversight and monitoring roles. The SDBIP will also afford the Executive Mayor (Mayoral Committee), Council Committees and the Municipal Manager the ability to measure in-year progress on the implementation of the IDP Objectives and the Budget.

### 1.3 Components of the SDBIP

The SDBIP is a layered plan and starts with a Multi-year Performance Plan as part of the IDP which is directly linked to the IDP Objectives. The 2024/25 SDBIP will be informed by the Multi-year Municipal Performance Plan which serves as the “top layer” of the SDBIP and contains the consolidated service delivery targets and in-year deadlines. This is illustrated by the diagramme below:

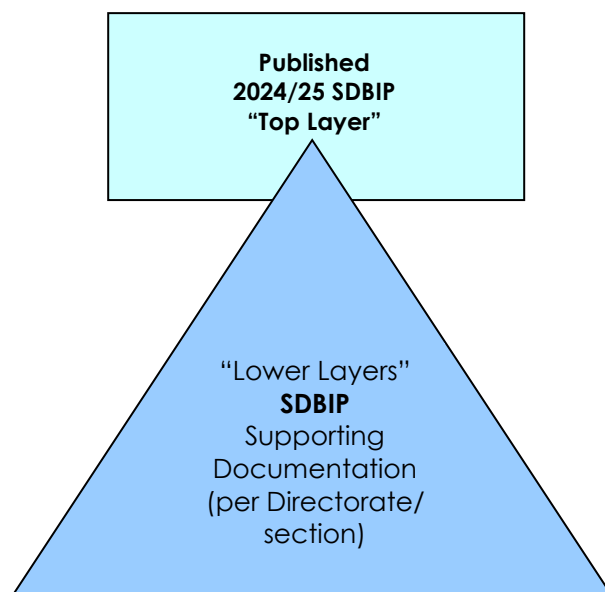

Figure 1: SDBIP Components

Once the “top layer” SDBIP is set, senior management will develop the “lower layers” of detail supporting the SDBIP. These are the actual activities linked to resources (financial, equipment and human) to actually achieve the consolidated service delivery targets within the approved budget amounts on time.

The detail of the departmental SDBIP's will be used by senior managers to hold middle level and lower level managers accountable to contribute to the municipal targets.

The following components forms part of the “top layer” SDBIP:

- o **Monthly Projections of Revenue to be collected by Source**

One of the most important and basic priorities for any municipality is to collect all its revenue as budgeted for – the failure to collect all such revenue will undermine the ability of the municipality to deliver on services.

While these projections would be most useful as cash flow projections, it is also critical to understand the relationship between revenue billed and the amount actually collected in the context of tariff, credit control and indigent policies and any other relevant policies. Comprehensive, coherent revenue policies that take into account appropriate service delivery levels, standards, ability to pay and collection efforts will ensure realistic revenue projections.

Projections for revenue by source should also include performance measures in relation to collection rates (amounts collected/amounts billed) to enable monitoring of the effectiveness of credit control policies and procedures.

- o **Monthly Projections of Expenditure and Revenue for each Vote**

These projections relate to cash paid and should reconcile to the cash flow statement adopted as part of the budget documentation.

The SDBIP show monthly projections of revenue by vote in addition to revenue by source. This is done to review the budget projections against actual revenue and expenditure by vote in order to gain a more complete picture than provided by reviewing expenditure only.

- o **Monthly Projections of Consolidated Service Delivery Targets and Performance Indicators for each Vote**

While the first two components indicate projections of budgeted amounts for revenue and expenditure, this component requires non-financial measurable key performance indicators and service delivery targets (including reduction of backlogs). The focus here is on outputs and outcomes, and not so much on inputs or internal management objectives.

- o **Detailed Capital Works Plan broken down by Ward over Three years**

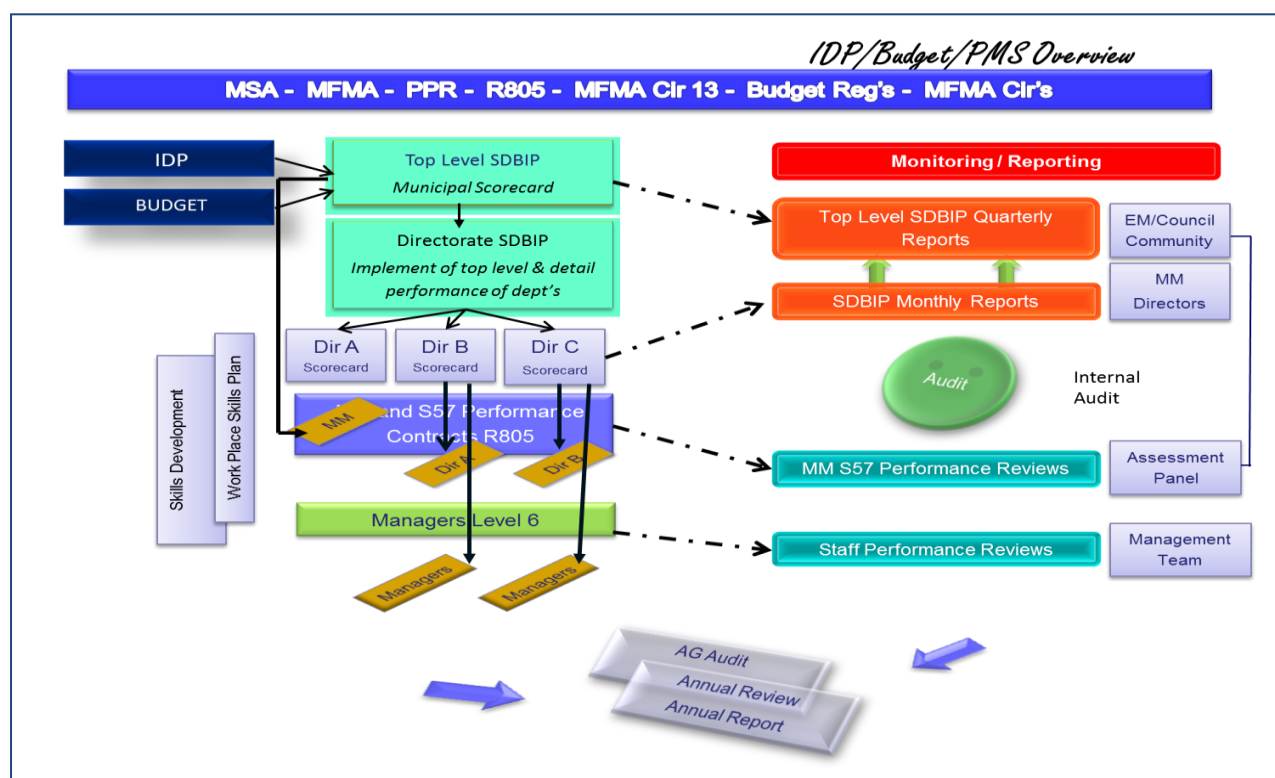

Information detailing infrastructure projects per ward containing project description and anticipated capital costs over the three-year period.

#### **1.4 SDBIP Link to Strategic Issues in the IDP**

The Municipality endeavours to have a seamless link between IDP, as the strategic plan, the SDBIP, which operationalises the IDP and the Budget and the performance agreements of top and middle management – as well as to all levels of staff. This is illustrated in the diagram below:

In reviewing the strategic objectives of the 5-year IDP in relation to both the present contextual issues relating to development in SPM and the latest national and provincial strategies and plans it was found that the current strategic focus of the IDP remains sound and correct and that focus for this MTREF should be on implementation.

Sol Plaatje Municipality must concentrate on an action-oriented development programme that will see the fruition of the present strategic objectives.

It should also be emphasised that the implementation of this development programme is also dependent on creating the correct preconditions for delivery; including institutional alignment, securing financial resources and creating optimal stakeholder configurations.

### “ TOWARDS A CLEANER GROWING CITY’

The Municipality has amended its vision for the 5<sup>th</sup> Generation IDP cycle 2022- 2027, the newly crafted vision was a joint effort of our political principles and Executive Management Team ( EMT). The new vision locates the challenges that the Municipality is facing but gives effect to the corrective measures that seeks to respond to service delivery and craft a development trajectory. The importance of the Service Delivery Budget Implementation

Plan (SDBIP) sacrosanct in monitoring the 5<sup>th</sup> Gen IDP throughout its life-cycle by linking performance management.

A critical reflection was done in assessing the impact of the 4<sup>th</sup> Generation IDP and it hinged mainly on provision of social infrastructure. Taking into consideration the current liquidity ratio of 0,5% this prompted the 5<sup>th</sup> Gen IDP to take a different approach of accelerating provision of economic infrastructure to leverage private sector investment. To achieve this anticipated growth it is important for SPM also to improve on the efficiency of its services, the sustainability of its finances and the effectiveness of its administration.

Sol Plaatje is a pilot for the “new deal” - the Integrated Urban Development Framework, this is a unique opportunity for the municipality and the residents of Sol Plaatje. In the course of making the “Back to Basics” programme of local government a reality, a new vision “Towards a cleaner growing city” is presented in this IDP.

The new vision of the 5<sup>th</sup> Generation seeks to place the Municipality on a development trajectory and strengthen governance within the Municipality.

- Cleaner city that sparkles
- Provision incentive mix to attract and leverage on private investment
- Cleaner provision uninterrupted sustainable infrastructure
- Institutionalise Safety Strategies to the IDP to respond to crime and crime.
- City where there is security- jobs, tenure and facilitates creation of jobs
- Strengthen collaborative integrative planning and resource mobilisation.
- City that invests in public participation, is connected with the people

To achieve this, the following strategic objectives will guide the city towards the future:

**Spatial Transformation:**

To transform the spatial structure of the City towards an equitable, inclusive, efficient and compact form consisting of a series of integrated and well connected economic corridors, nodes and attractive mixed-use/mixed-income sustainable human settlements of varying densities.

**Inclusive Growth:**

To establish a competitive economic position that attracts diverse investments, increases economic growth and creates targeted number of jobs.

**Service Provision:**

To plan for, install, maintain and operate infrastructure, and provide services more efficiently and on a sustainable basis that adequately supports:

- o transformed spatial structure
- o economic growth objectives
- o universal access to basic services,

- o differentiated service requirements of households and human settlements and economic activity

**Governance:**

To enhance the capacity of the state and its citizens to work together to achieve spatial and social integration.

To lead, direct and manage spatial growth of the City robustly, enhance revenue generation and improve operational efficiency.

**2. THE 5 YEAR IDP ACTION PLAN RESOURCED****2.1 Budgeting and IDP Process**

The IDP process plan seeks to ensure that co-ordination of activities are done within the timeframes as prescribed in the Municipal Finance Management Act as well as Municipal Systems Act. It aims at coordinating, integrate and align the strategic processes of the municipality which include the review of sector plans, review of policies, the IDP, Budget Spatial Development Framework (SDF) and the Performance Management System (PMS). The process plan incorporates all municipal planning, budgeting, performance management, public engagement processes and also include the following:

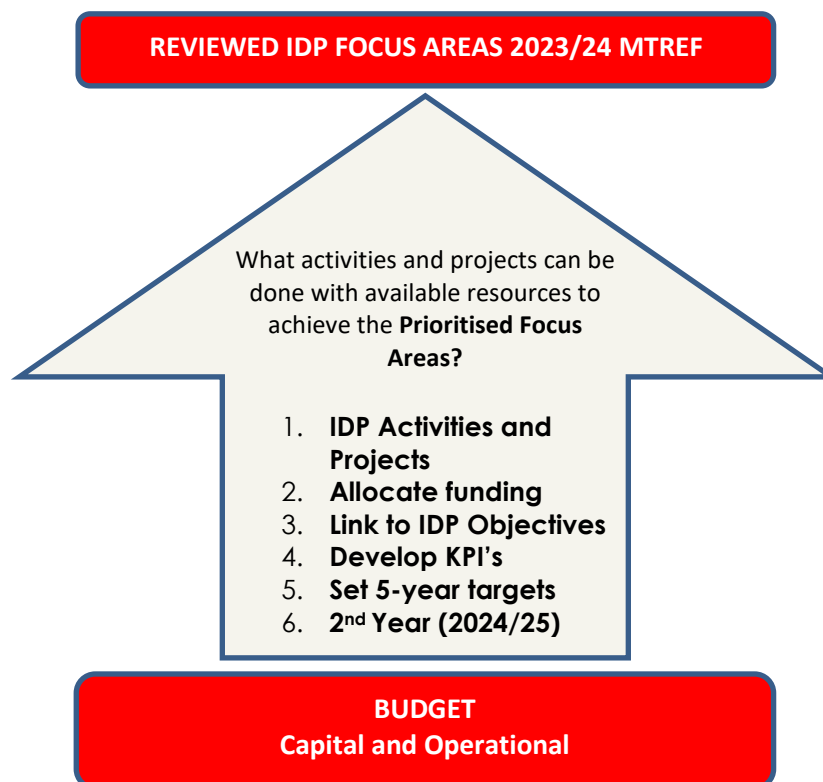

- programme specifying the time frames for the different planning activities
- Appropriate mechanisms, processes and procedures for consultation and participation local communities, organs of state, and any other stakeholder's in the IDP process
- An indication of the organizational arrangements for the IDP process
- Policy and legislative requirements in respect of Integrated Development Planning
- Mechanisms and procedures for vertical and horizontal alignment

To ensure certain minimum quality standards of the IDP process, and proper coordination between and within spheres of government, the preparation of the IDP Process Plan and the drafting of the annual budget of municipalities have been regulated in both the Municipal Systems Act (Act 32 of 2000) and the Municipal Finance Management Act (Act 56 of 2003).

The budgeting and IDP process plan was prepared in July 2023 for the review of the IDP 24/25 financial year.

An Internal Strategic Monitoring and Review Session was held on 1 December 2023. A ward public participation process was held from 29 January to 26 February 2024 for the sourcing of ward priorities. This was followed by a Mayoral Strategic Planning Session held on 22-23 March 2023.

Programs, projects and activities have been identified to address the key focus areas discussed above and have been resourced with the available financial resources from own confirmed funding and gazetted funding from National and Provincial Government. This process is diagrammatically indicated below:

## 2.2 The 2024/25 MTREF Funding Plan

The Chart below indicate the funding plan to fund the IDP Priorities for the 2024/25 MTREF.

### **2.2.1 Funding the Operational Budget**

The municipality continues to derive revenue from service charges from utility services and rates. There are minor revenue sources that are part of service delivery cost funding, and our aim is to continue to grow these revenue sources. For indulgence, a deficit budget or unfunded budget is when a municipality spends more than what it can generate, that is expenses exceed income. A deficit can either be funded from projected savings or defer expenditure that is included or through borrowing or public donations if the expenditure is necessary and critical. This is an undesired situation.

The next three years MTREF reflects surplus budgets of less than 1% of projected revenue. Surpluses from Operating Revenue are ought to be used to re-invest in service delivery related infrastructure, either fund growth or refurbishments of capital nature to ensure continuity of service and effectiveness of infrastructure.

As indicated as a priority in the Mayoral Strategic Planning session, revenue enhancement initiatives would also be provided for in order to address the issue of cash flow challenges and low collection rate. Over the three years, R128,887 million is project as total surpluses.

The Table below indicates the operational funding from the various sources and the expenditure by type for the 2024/25 MTREF.

**Table 1: Revenue by Source for the 2024/25 MTREF**

Description (R thousand)	Current Year 2023/24		2024/25 Medium Term Revenue & Expenditure Framework

## 2.2.2 Funding the Capital Budget

The Municipality's Capital Budget can only be funded from the following three sources, namely:

### o Own revenue (Capital Replacement Reserve)

In accordance with Sec 18 of the MFMA only revenue surpluses from the previous financial year that are cash backed and not committed for any spending in the following year, can contribute to the capital budget (CRR). After adjustments, it is projected that a total of R41 500 000 is available for the 2024/25 financial year and the total own funds that can be allocated to the CRR over the next 2 years amount to R63 000 000.

Vote Description	Ref	Current Year 2023/24			2024/25 Medium Term Revenue & Expenditure Framework

As indicated in the above table, the largest projects for 2024/25 would include:

- The project relating to the upgrading of the chlorine and dosing works at the old water treatment plant at Riverton (Phase 2) in the amount of R83 368 521 million funded through RBIG.
- The project relating to the installation of the 1 200 mm new steel bulk water pipe line from Mid Station to Newton Reservoir in the amount of R67 191 351 million.
- The project relating to the repairs of the detected leaks on the bulk pipeline at Ritchie in the amount of R48 295 542 million.

#### o Long term borrowings

It is not anticipated at this stage that the Municipality will take up any new long-term loans for this IDP Cycle.

Table 2 below depicts the funding sources for capital for the 2024/25 MTREF.

**Table 2: Capital Funding Sources for the 2024/25 MTREF**

### 2.2.3 The 5 Year Key Performance Indicators and Targets

A Multi-Year Municipal Performance Plan setting the necessary annual KPI's and targets for each IDP Objective aligned to the key focus areas for the 2024/25 MTREF has been prepared considering the available resources and possible financial risks as discussed above (sections 2.1.1 and 2.2.2).

This Multi-year Municipal Performance Plan (attached as Annexure 1) is aligned to the Municipal Development Strategy as well as the other spheres of government's priorities. In this manner Sol Plaatje ensures that when it actually implement projects and complete operational activities that it will contribute to the overall priorities set for the development of South Africa, and not only for its local area.

### 3. THE 2024/25 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

#### 3.1 The 2024/25 MTREF Budget

Table below indicates the alignment of the revenue budget with the Strategic Objectives of the IDP for the 2024/25 MTREF period.

**Table 3: Revenue Budget aligned to IDP Strategic Objectives**

The municipality's expenditure for the 2024/25 budget and MTREF is informed by the following:

Modelling of feasible and sustainable budgets over the medium term,  
Cognisance of international, national and local economic- and fiscal conditions,  
Expenditure limits set by realistic and realisable revenue levels,  
The asset repairs and maintenance goals,  
Relevant (budget and other) legislative imperatives, and  
Operational gains and efficiencies directed to fund areas of strategic priority and known commitments.

The Tables below indicate the Municipality's monthly financial targets for the 2024/25 financial year.

**Table 4: Monthly Revenue Targets per Source for the 2024/25 Financial Year**

### 3.2 Consolidated Service Delivery Targets And Performance Indicators

The Service Delivery Targets and Performance Indicators per National and Municipal Key Performance Areas (KPA's) are discussed below.

#### 3.2.1 Macro Structure

The Key Performance Indicators identified for the 2024/25 Financial Year are per Municipal Vote (Directorate). It assigns the responsibility of each Directorate for its specific KPI and target - see diagramme below and Annexure 1 (Service Delivery Targets and Performance Indicators for 2024/25). These KPI's and Targets again inform the Performance Contract for the Municipal Manager and Managers accountable to the Municipal Manager as well as middle managers up to job level 6 (See Diagramme below).

#### 3.2.2 Service Delivery Targets and Performance Indicators per Key Performance Area for 2024/25

Annexure 1 represents the key indicators at an organisational level for the remainder of this IDP Cycle. The indicators are also aligned with the national and provincial performance indicators and the overall strategic agenda of the municipality as well as LGTAS Focus Areas to ensure alignment with the IDP and Budget. It also informs the SDBIP for 2024/25.

# ANNEXURE 1

## SERVICE DELIVERY TARGETS AND PERFORMANCE INDICATORS PER KEY PERFORMANCE AREA 2024/2025

<p style="text-align: center;"><b><u>Strategic Objective 1</u></b></p> <p style="text-align: center;"><b>Economic growth through promoting Sol Plaatje Municipality as an economic hub</b></p> <p style="text-align: center;"><b>National KPA: Local Economic Development</b></p>													
SDBIP ref.	Directorate	Outcome	IDP ref.	Key performance indicator	Unit of Measurement	Source of Evidence	Ward	Baseline	Annual Target	Quarterly Targets			
									24/25	Q1	Q2	Q3	Q4
TBC	Office of Municipal Manager	A local economy that delivers on food security, job creation, education and skills development.	SO1.1	Create full-time equivalents through EPWP initiatives by 30 June 2025	Number of full-time equivalents created by 30 June	Register and reports of FTEs created through EPWP	SPM	814	553	100	160	120	173
TBC	Strategy, Economic Development, Planning	A local economy that delivers on food security, job creation, education and skills development.	SO1.3	To process 80% category 1 land-use applications received until 30 April through Municipal Planning Tribunal by 30 June 2025	% of category 1 land use applications processed	Register of processed Category 1 land use applications	SPM	89,80%	80%	0%	0%	0%	80%
TBC	Strategy, Economic Development, Planning	A local economy that delivers on food security, job creation, education and skills development.	SO1.4	Number of processed building plans received before 1 July 2024	Number of building plans processed	Register indicating the number of building plans processed which were received before 1 July 2024, number and dates when plans were addressed	SPM	200	200	50	50	50	50
TBC	Strategy, Economic Development, Planning	A local economy that delivers on food security, job creation, education and skills development.	SO1.5	Ensuring a response time of 11 weeks for building plans submissions received in the 2024/25 financial year for buildings / architectural buildings less than 500m2 (number of plans received / divided	Average response time in weeks to process building plans	Register indicating the steps for processing and dates when each step was signed off	SPM	8 weeks	11 weeks	11 weeks	11 weeks	11 weeks	11 weeks

## Strategic Objective 1

**Economic growth through promoting Sol Plaatje Municipality as an economic hub**
